

De Monos A Dioses Pdf

WJ Hussar

De dioses a demonios : la demonización de los dioses prehispánicos en el arte indígena cristiano José Luis Pérez Flores,2022-12-07 El libro que el lector sostiene en sus manos aborda cómo las deidades prehispánicas fueron transformadas en demonios, proceso analizado desde la pintura mural conventual. A diferencia de otros estudios, el problema de la demonización de los dioses prehispánicos está centrado en las imágenes pintadas en varios conventos de la Nueva España. Durante la evangelización, el Diablo fue una figura clave en la conversión de los indígenas, para inculcar el amor a Dios los frailes utilizaron el miedo al castigo diabólico en el infierno. En la pintura mural de los conventos abundan las imágenes de demonios, pero en algunos casos las figuras de los diablos incorporan elementos propios de la iconografía prehispánica: los evangelizadores decidieron que todos los dioses de los nativos eran demonios y los indígenas habían vivido engañados, de no aceptar la nueva religión sus almas arderían en el infierno, atormentadas por aquellos que habían tenido como divinidades, de allí la necesidad de presentar a los demonios con algunas de las características de los dioses indígenas. El tema del Diablo en la pintura mural no sólo tuvo importancia en territorio novohispano, en el sur del continente también fueron utilizados; por esta razón el último capítulo está dedicado a una somera comparativa de algunos de estas imágenes con las elaboradas en la Nueva España. Este trabajo está dirigido al sector académico, pero también al público en general interesado en el arte virreinal de los indígenas bajo dominio español.

Arte rupestre en las casas de los dioses Josuhé Lozada Toledo,2023 En este libro se expone el arte rupestre prehispánico e histórico presente en dos cuerpos lacustres del sureste de México, ubicados en la Selva Lacandona del estado de Chiapas que son Mensabak y Pethá, mismos que cuentan con una gran riqueza arqueológica. No obstante, la monumentalidad de la arqueología presente no radica en su arquitectura, sino en su paisaje relacional cuyo acercamiento requiere fundamentalmente de un giro ontológico.

Obras completas de Aubrey Beardsley ,

La belleza que trazó un triste destino Peralta Agudelo, Jaime Andrés,2023-12-30 El ciclo extractivo de las aves silvestres se dió en Colombia de 1870 a 1930, cuando cientos de miles de ejemplares vivos fueron cazados, y sus insumos derivados (cuerpos disecados, pieles, plumas, cabezas, garras, picos, etc.), procesados en todas las regiones del país para ser enviados a Europa y Estados Unidos como una valiosa materia prima de las industrias de la moda y de la decoración del momento.

Este fenómeno económico involucró también la gestación de nuevos imaginarios culturales de prestigio social, la pérdida de avifauna, la destrucción de sus ecosistemas asociados, la introducción de marcos jurídicos para la explotación comercial de aquellos animales y la creación de nuevas redes de intereses entre los sectores dominantes (como terratenientes e inversionistas nacionales y extranjeros) para excluir de la rentabilidad del negocio a otros actores (colonos, indígenas o afrodescendientes). No obstante, implicó además la aparición de movimientos conservacionistas que ayudaron a preservar la avifauna. El acercamiento multidimensional que se desarrolla en este libro implicó el uso simultáneo de diversas fuentes (anuarios de comercio, novelas, memorias de viajeros, informes científicos, revistas seriadas, etc.), que permiten comprender a cabalidad lo que significó el desconocido capítulo del Plume Boom o la “bonanza de las plumas” en la historia colombiana.

Mujeres sin marido Hilia Moreira,2011

Bajo la colina (Venus y Tannhauser) de Aubrey Beardsley ,

Sapiens. De animales a dioses Yuval Noah Harari,2014-09-04 El libro de no ficción de la década. Bestseller internacional con más de 23 millones de ejemplares vendidos. Traducido a 65 idiomas. Número 1 en la lista de The New York Times. Recomendado por Barack Obama, Bill Gates y Mark Zuckerberg. De la mano de uno de los historiadores más interesantes de la actualidad, he aquí la fascinante interpretación de Yuval Noah Harari sobre la historia de la humanidad. Bestseller nacional e internacional, este libro explora las formas en que la biología y la historia nos han definido y han mejorado nuestra comprensión de lo que significa ser «humano». Hace 70.000 años al menos seis especies de humanos habitaban la Tierra. Hoy solo queda una, la nuestra: Homo Sapiens. ¿Cómo logró imponerse en la lucha por la existencia? ¿Por qué nuestros ancestros recolectores se unieron para crear ciudades y reinos? ¿Cómo llegamos a creer en dioses, en naciones o en los derechos humanos; a confiar en el dinero, en los libros o en las leyes? ¿Cómo acabamos sometidos a la burocracia, a los horarios y al consumismo? ¿Y cómo será el mundo en los milenarios venideros? En Sapiens , Yuval Noah Harari traza una breve historia de la humanidad, desde los primeros humanos que caminaron sobre la Tierra hasta los radicales y a veces devastadores avances de las tres grandes revoluciones que nuestra especie ha protagonizado: la cognitiva, la agrícola y la científica. A partir de hallazgos de disciplinas tan diversas como la biología, la antropología o la economía, Harari explora cómo las grandes corrientes de la historia han modelado nuestra sociedad, los animales y las plantas que nos rodean e incluso nuestras personalidades. ¿Hemos ganado en felicidad a medida que ha avanzado la historia? ¿Seremos capaces de liberar alguna vez nuestra conducta de la herencia del pasado? ¿Podemos hacer algo para influir en los siglos futuros? Audaz, ambicioso y provocador, este libro cuestiona todo lo que creímos saber sobre el ser humano: nuestros orígenes, nuestras ideas, nuestras acciones, nuestro poder... y nuestro futuro. Reseñas: «El libro definitivo para entender quiénes somos. Provocador, lúcido, aporta un original enfoque sobre la esencia del ser humano». Julia Navarro «Interesante y provocador. Este libro nos da cierta perspectiva del poco tiempo que llevamos en la Tierra, de la corta vida de la ciencia y

la agricultura, y de por qué no debemos dar nada por sentado». Barack Obama «Recomendaría este libro a cualquier persona interesada en una historia de la humanidad a la vez entretenida y desafiante [...] No se puede dejar de leer». Bill Gates «Aborda las cuestiones más importantes de la historia y del mundo moderno y, además, está escrito con un estilo vívido e inolvidable». Jared Diamond, premio Pulitzer y autor de Armas, gérmenes y acero «Un libro que invita a la reflexión». Mark Zuckerberg «Un repaso absorbente de la peripecia humana, escrito con rigor e irreverencia ilustrada». Antonio Muñoz Molina, El País «Un libro fascinante, como nuestra especie. Nos ayudará a saber de dónde venimos para decidir hacia dónde vamos. Recomiendo Sapiens casi antes que saludar. ¡Disfrútenlo!» Leonor Watling «Monumental, brillante, provocadora». Pablo Jáuregui, El Mundo «Cuenta la historia del ser humano desde su origen hasta que se convirtió en el rey de la creación». Iñaki Gabilondo

Los dioses de la Tierra Gibrán Khalil Gibrán, 2017 Los egipcios adoraban dioses con cabeza de animal o con figura humana.

Las aventuras de los jóvenes dioses Eduardo Galeano, 2003-06-30 Este relato es una recreación libre de Eduardo Galeano apoyado en imágenes de Nivio López Vigil de algunos capítulos del Popol Vuh, el libro sagrado de los indios mayas quichés de Guatemala.

Defendamones de los dioses! Salvador Freixedo, 1998

Los Creadores de Dioses Frank Herbert, 1992
