7 Reasons to Believe in the Afterlife Jean Jacques Charbonier, 2015-03-07 An uplifting study of the scientific evidence for the afterlife from an experienced anesthesiologist/intensive care physician • Details meticulously recorded and hospital-verified cases of near-death experiences • Cites scientific research on NDEs to refute the standard objections of doubters and materialists point by point • Explores out-of-body experiences, sessions with mediums, electronic communication with the deceased, and other signs from the afterlife Over the course of his 25-year career as an anesthesiologist and intensive care physician, Jean Jacques Charbonier, M.D., gathered hundreds of accounts of patients who returned from clinical death. Across all of these accounts--from patients with vastly different backgrounds--Dr. Charbonier found striking similarities as well as indisputable proof that these experiences were more than hallucinations. He surveyed other physicians, nurses, and professional caregivers and discovered that their patients described the same experiences as well as exhibited the same positive life transformations afterward. Igniting a scientific quest to learn more, he collected more accounts of near-death experiences as well as out-of-body experiences, attended dozens of sessions with mediums, experimented successfully with electronic communication with the deceased (EVP), interviewed hundreds of people who have cared for the dying, and gathered countless inexplicable stories of “signs” from the afterlife. With each experience he studied, he found himself more firmly believing in the survival of consciousness beyond death. Dr. Charbonier distills his findings into 7 reasons to believe in the afterlife, beginning with the more than 60 million people worldwide who have reported a transcendent afterlife experience. He refutes the standard objections of doubters and materialists point by point, citing scientific research on NDEs and the work of pioneers in the field of consciousness studies such as Raymond Moody and Pim van Lommel. Drawing on meticulously recorded and hospital-verified cases, Dr. Charbonier explains that we should not fear death for ourselves or our loved ones. By releasing our fear of death, we can properly prepare for “the final journey.” As those who have returned from death reveal, death is simply a transition and its lessons enable us to live more fully, peacefully, and happily in the now.

Pourquoi la Science et la Foi vont de Pair Malcolm A. Jeeves, 2023-04-12 Lorsque nous essayons de nous comprendre et de comprendre le monde dans lequel nous vivons, nous nous tournons souvent d'abord vers la science - et ensuite, s'il reste

des lacunes dans notre comprehension, nous essayons de les combler en nous referant a Dieu et a notre foi. Cette approche, que nous appelons le dieu des lacunes, a une longue histoire et, malheureusement, elle est encore bien vivante aujourd'hui. Ce livre a ete ecrit pour offrir une approche alternative en posant cette question fondamentale : comment les chretiens ayant recu une education formelle peuvent-ils maintenir leur honnetete intellectuelle et en meme temps etre fideles a la fois a l'Ecriture et a la science ? Ce livre donne des exemples de quelques-uns des problemes les plus epineux qui se posent aujourd'hui dans le domaine de la science et de la foi, et propose des moyens de reflechir de maniere constructive a chacun d'entre eux. Malcolm A. Jeeves est professeur emerite de psychologie a l'universite de St Andrews, en Ecosse, ancien president de la Societe royale d'Edimbourg et de l'Academie nationale d'Ecosse, et membre de l'Academie des sciences medicales et de la Societe britannique de psychologie. Pionnier de la psychologie cognitive, de la neuropsychologie et de la psychologie evolutionniste, il est l'auteur de nombreux ouvrages sur la science et la foi.

What Is it Like to Be Dead? Jens Schlieter, 2018-08-06 Studies of near-death experiences show that such experiences not only provide a new certainty of post-mortem survival, but often function as a call for fundamental change in the present. Reported aftereffects encompass changes in attitudes, beliefs, and life orientation. It is said that experiencers have lost their fear of death, found their purpose in life, or become more spiritual. The experience - often declared to be indescribable, inexplicable, or ineffable - is held by many to be the most important of their lives and, moreover, the best proof available for matters transcendent. In *What Is It Like To Be Dead?*, Jens Schlieter argues that to understand recent testimonies of near-death experiences, we need to be aware of the history of innumerable reports of earlier near-death experiences that were communicated and handed down in scores of newspapers, journals, and books. Collections of such testimonies have been published for more than 150 years, accompanied by attempts to classify and interpret them. Schlieter analyzes the religious relevance of near-death experiences -for the experiencers themselves, but also for the growing audience attracted by these testimonies. Near-death experiences bear ontological, epistemic, intersubjective, and moral significance, ranging from reassurance that religious experience is still possible to claims that they initiate a new spiritual orientation in life, or offer evidence for the transcultural validity of afterlife beliefs. This study is the first to document and analyze four centuries of near-death testimonies before the codification of the genre in the 1970s, offering the first full account of the modern genealogy of near-death experiences.

Nous sommes parfaits avec nos imperfections Edwige Gaslard, 2025-03-03 Ce livre compile une série de réflexions traitant divers sujets de l'existence. Il est élaboré pour être accessible à la lecture, de sorte que l'ensemble de la communauté sourde puisse s'en emparer. Ces pensées concernant l'affirmation personnelle, la crainte des maladies et de l'avenir, le pardon et une multitude d'autres thématiques peuvent contribuer à votre avancée vers votre propre conception du monde. Je vous suggère d'aborder chaque thème séparément afin de développer une connaissance approfondie. J'espère que cette lecture vous sera bénéfique et que vous pourrez explorer votre authenticité. Je prévois qu'une partie de votre achat contribue à mon parcours académique en vue d'obtenir un diplôme universitaire en tant qu'expert patient pour la santé mentale et la douleur chronique, afin de pouvoir apporter de l'aide à ceux qui en ont besoin. Une autre part sera destinée à une organisation dédiée aux enfants atteints de surdité. Merci pour eux.

Lucid Dying Sam Parnia, 2024-08-06 From internationally renowned expert in resuscitation and New York Times bestselling author Sam Parnia, MD, PhD, comes a groundbreaking look at what happens to us when we die, based on the largest-ever research study run on recalled experiences of death. Today, for the first time in history, the scientific exploration of death and what happens when we die is real, active and ongoing. Contrary to popular perceptions, this subject is no longer the remit of philosophy, religion, or personal opinion. Truly remarkable scientific discoveries that will fundamentally affect everyone's lives now and in the future are taking place, yet very few people are aware of them. Most people—including scientists and doctors—maintain strong beliefs about death and its experience. Those beliefs are rooted in traditional, and often cultural, notions of death. But what if all that we have come to believe about death is fundamentally wrong? What if the paradigm we have been operating within no longer exists? What if death is not the end we thought? Lucid Dying is the first book to share that science. Presenting data derived from multiple groundbreaking studies, Dr. Parnia shows that the entity

we refer to as consciousness—our Self—does not seem to become annihilated when we die. In fact, during death, our consciousness vastly expands and leads to a vivid experience that follows a very specific narrative arc. These studies support that there really is a universal experience of death that is meaningful, transcendent, positive, and transformative—not hallucinatory, delusional, or illusory as previously imagined. In his latest book, Dr. Parnia weaves empirical research with gripping stories to show us the truth of how death is not the end we all thought and how anyone can harness the newfound wisdom to lead deeper, more intentional lives.

Coma and Disorders of Consciousness Caroline Schnakers, Steven Laureys, 2017-09-01 This revised and expanded second edition discusses the assessment and treatment of patients recovering from coma and disorders of consciousness. Besides diagnostic, prognostic and ethical issues, this book describes well-established techniques and procedures, and also techniques under development. New chapters include consciousness theories, issues relating to long-term care, and neuromodulation treatments. Coma and Disorders of Consciousness, Second Edition is a comprehensive review of the field for clinicians and researchers, regardless of whether they are already familiar with the difficult but exciting field of disorders of consciousness.

Hallucinations Jan Dirk Blom, Iris E.C. Sommer, 2011-12-21 The work aims to provide an overview of the field of contemporary hallucinations research. It will consist of 28 chapters, the writing of which will be put out to international experts specialized in the specific fields at hand. The work aims to be unique, in that it intends to cover many different types of hallucination, and to approach the subject matter from four different perspectives, i.e., conceptual, phenomenological, neuroscientific, and therapeutic.

Into the Magic Shop James R. Doty, MD, 2017-02-14 The award-winning New York Times bestseller about the extraordinary things that can happen when we harness the power of both the brain and the heart Growing up in the high desert of California, Jim Doty was poor, with an alcoholic father and a mother chronically depressed and paralyzed by a stroke. Today he is the director of the Center for Compassion and Altruism Research and Education (CCARE) at Stanford University, of which the Dalai Lama is a founding benefactor. But back then his life was at a dead end until at twelve he wandered into a magic shop looking for a plastic thumb. Instead he met Ruth, a woman who taught him a series of exercises to ease his own suffering and manifest his greatest desires. Her final mandate was that he keep his heart open and teach these techniques to others. She gave him his first glimpse of the unique relationship between the brain and the heart. Doty would go on to put Ruth's practices to work with extraordinary results—power and wealth that he could only imagine as a twelve-year-old, riding his orange Sting-Ray bike. But he neglects Ruth's most important lesson, to keep his heart open, with disastrous results—until he has the opportunity to make a spectacular charitable contribution that will virtually ruin him. Part memoir, part science, part inspiration, and part practical instruction, *Into the Magic Shop* shows us how we can fundamentally change our lives by first changing our brains and our hearts.

Mapping the Perimeter of Death and Dying Carol McAllum, Madeline Gorman, 2019-01-04 This volume was first published by Inter-Disciplinary Press in 2014. Inasmuch that death is both universal as well as subject to varied registers of meaning, death as a field of research occupies a necessarily inter-disciplinary position. This volume gathers multiple perspectives on

death and dying composed by a selection of papers that were presented at the 9th Global Conference on Making Sense of: Dying and Death, held in Salzburg, Austria in November, 2012. Countering notions of death as mere negation, these chapters map out regions of sense-making along the perimeters of life. It approaches death and dying from an array of scholarly, theoretical, and practical disciplines, including philosophy, psychology, theology, political science, media studies, education, art studies, anthropology, sociology, and health care.

The Intimacy of Consciousness Exploration and Transpersonal Psychotherapy Regina U. Hess, Ingo B. Jahrsetz, Judith Miller, 2018-04-18 This volume brings together a group of transpersonal psychotherapists and spiritual teachers to tell of their own very personal and intimate explorations of consciousness. What has the experience of “coming home” meant to them? Has it meant connecting with God, the Divine Feminine, the Cosmos, the Sacred? Has it meant arriving at home in themselves, in their very center, in their essence? Where is home? Is it inside, is it outside, or is it both? All world cultures have stories about this particular place. In addition to describing their own unique quests, the contributors also share how radically such a journey challenged them to face their own vulnerabilities and shadow parts. Various, very different and often startling personal stories are told. Through reading of the very human trials and psycho-spiritual challenges that these nine international teachers have endured on their journeys home, readers will gain insights and greater understanding regarding their own explorations of consciousness. They will realize that the spiritual journey can have many faces and take many paths. The one thing, however, that all authors have in common, is the longing to be fully and wholly oneself.

Au-delà de la fin. Hypothèses scientifiques sur l'immortalité. De l'âme à la conscience quantique. Bruno Del Medico, 2024-09-22 À travers les âges, l'humanité s'est interrogée sur la nature du phénomène communément appelé mort et sur la possibilité d'une existence au-delà de la vie terrestre. Ce livre nous invite à explorer les profondeurs de ces questions anciennes à travers le prisme de la métaphysique appliquée à la science moderne, pour comprendre l'essence et la nature de l'esprit humain. Avant l'avènement de la physique quantique, le monde des phénomènes invisibles, situés au-delà de l'entendement humain, était traditionnellement réservé à la métaphysique, discipline philosophique qui traite des questions ontologiques et transcendantales. L'ancienne distinction entre ce qui est matériel et ce qui est spirituel était nette. La physique se concentrait sur l'étude des phénomènes physiques et mesurables, tandis que la métaphysique traitait des questions métaphysiques, telles que l'essence de l'âme, la nature de la conscience et la vie après le passage. Cependant, la révolution de la physique quantique au début du 20e siècle a ébranlé les fondements mêmes de la réalité. Des expériences au niveau subatomique ont révélé un comportement de la matière complètement différent de ce que prévoyaient les lois de la physique classique. Des concepts tels que la superposition quantique, l'intrication et la dualité onde-particule ont été introduits. Ces phénomènes sont insaisissables, ne peuvent être observés directement et remettent en question notre conception traditionnelle d'une réalité objective et déterministe. Dans ce contexte, ce qui relevait autrefois de la

métaphysique, comme la nature de la conscience humaine ou l'immortalité de l'âme, devient progressivement un objet d'étude pour la physique théorique. Un certain nombre de chercheurs pionniers tentent de développer des modèles physiques capables d'expliquer des phénomènes apparemment non physiques qui sont étroitement liés à notre expérience humaine. Par exemple, la conscience est de plus en plus considérée comme un phénomène émergent lié à la complexité du cerveau et à ses interactions au niveau quantique. De même, certaines théories postulent l'existence de dimensions dans l'espace-temps qui pourraient permettre l'existence de réalités non matérielles, ouvrant la voie à des hypothèses sur l'immortalité de l'âme ou la possibilité d'existences au-delà du passage physique. En fin de compte, la fusion de la physique quantique et des anciennes questions existentielles, telles que la conscience, l'âme et la vie après la mort, représente une frontière fascinante et controversée dans la recherche scientifique contemporaine. Cette approche interdisciplinaire redéfinit les frontières entre la science et la spiritualité, remet en question nos conceptions traditionnelles de la réalité et ouvre de nouvelles perspectives sur la nature de l'univers et de l'être humain. Ce livre ne pose pas la question de la survie de l'âme (ou de la conscience) après la transition, mais prend pour acquis une transformation qui maintient l'identité psychologique inchangée. La question à laquelle le livre tente de répondre en s'appuyant sur les connaissances scientifiques actuelles et les avis des physiciens théoriques les plus renommés vise à comprendre sous quelle forme cette transformation a lieu. De toute évidence, l'âme, ou la conscience quantique, survit en tant qu'information après le passage. Des spéculations théoriques très avancées se demandent si, à l'avenir, des instruments scientifiques capables de décoder cette information, voire de converser avec elle, pourraient être disponibles. En fin de compte, la fusion de la physique quantique et d'anciennes questions existentielles telles que la conscience, l'âme et la vie après le passage représente une frontière fascinante et controversée dans la recherche scientifique contemporaine.

Expériences de consciences élargies Marie-Odile Riffard, 2023-08-23 Nous sommes bien plus que notre corps physique. C'est ce que démontre une quantité de témoignages qui font part de la survivance de l'âme après la vie. Dans ce livre basé sur des connaissances scientifiques, l'auteure a réuni neuf témoignages bouleversants d'expériences de conscience dites extraordinaires, de vécus d'états proches de la mort ou de contacts avec l'au-delà. Ces expériences révèlent toutes un même phénomène : notre conscience transcende le corps physique, elle n'est pas le produit de notre cerveau, ni limitée à notre enveloppe charnelle. Cette enquête aux frontières de l'esprit humain et la force de ces témoignages directs nous ouvrent d'autres horizons. Ils sont révélateurs de la puissance insoupçonnée de la conscience personnelle, capable de s'élargir suffisamment pour entrer en contact avec d'autres champs de conscience. C'est une invitation à changer de perception, à ouvrir les portes de l'infini multi dimensionnel qui nous compose.

Neurological Disorders in Famous Artists - Part 3 J. Bogousslavsky, M.G. Hennerici, H. Bänzner, C. Bassetti, 2010-04-01 The third part of *Neurological Disorders in Famous Artists* presents painters, musicians, and writers who had to fight against an

acute or chronic neurological disease. Sometimes this fight was without success (e.g. Shostakovich, Schumann, Wolf, Pascal), but often a dynamic and paradoxical creativity of the clinical disorder was integrated into their artistic production (e.g. Klee, Ramuz). Occasionally, some even wrote the first report of a medical condition they observed in themselves, like Stendhal who made a detailed report of aphasic transient ischemic attacks before dying of stroke shortly thereafter. In rarer instances, a neurological disease was inaccurately attributed to an artist in order to explain certain features of his work (de Chirico, Schiele). Some chapters in this publication focus on neurological conditions reported in artistic work, including descriptions by Shakespeare and Dumas. Bringing new light to both artists and neurological conditions, this book serves as a valuable and entertaining read for neurologists, psychiatrists, physicians, and anybody interested in arts, literature and music.

La Question Essentielle Sylvestre Kabeya, 2024-09-06 Vous êtes-vous déjà posé la question essentielle suivante : Qui suis-je ? Si oui, quelle réponse avez-vous reçue ? Votre réponse vous a-t-elle satisfaite ? Cependant, si cette question n'a jamais effleuré votre esprit, alors le moment serait venu de vous la poser sérieusement, en toute conscience. Ou alors, si malgré tous vos efforts, vous n'êtes toujours pas parvenus à une réponse convaincante, inutile de poursuivre votre quête. Ce livre vous fournira les outils nécessaires pour y répondre. Depuis notre plus tendre enfance, nous nous sommes égarés et englués dans une multitude d'identifications illusoire, les unes aussi pernicieuses que les autres. Il est maintenant temps d'accéder à une prise de conscience identitaire nouvelle.
