**Luke's Characters in their Jewish World** Jenny Read-Heimerdinger, 2024-08-22 Jenny Read-Heimerdinger explores the characters of Luke-Acts in order to situate them in the Jewish world to which they belong. Through a close reading of the Greek text, she argues that Luke emerges as a person thoroughly steeped in a Jewish view of Scripture, familiar with a range of associated oral traditions; and that taking account of the Jewish features allows new insights into the way that the author situates events and characters firmly within the history of Israel, before the Church was a separate institution or religion. Read-Heimerdinger proposes that such a view of his work implies an addressee capable of understanding what he received and that one eminently qualified candidate is Theophilus, the high priest in Jerusalem 37-41 and brother-in-law of Caiaphas. The Jewish perspective of Luke's two volumes is more visible in forms of the text not used for modern translations, notably that of Codex Bezae and the early versions, which are rejected by the editors of the Greek New Testament on which translations are based. Read-Heimerdinger draws on the analysis of the variants of the Greek text analysed in her previous *Luke in his Own Words* (2022), in a manner more accessible to readers unfamiliar with Greek. The variant readings make use of a sophisticated knowledge of Jewish exegetical techniques that would generally be discarded by later generations of Christians but which are increasingly being recognized by NT scholars, in line with Jewish historical studies of Second Temple and Rabbinic Judaism. Seeing the characters of Luke-Acts through Theophilus' eyes brings exciting insights and a fresh understanding of the author's message.

Anne de France and Her Family (1325-1522) Zita Eva Rohr, 2025-08-24 This book demonstrates that premodern elite and royal women were critical to the geopolitical success of late medieval territorial monarchies, the progenitors of early modern states. It aims to communicate the 'un-exceptionality' of female political influence in medieval and early modern Europe. Manifesting sophisticated and informed leadership in times of challenge and transformation, women such as Anne de France,

her matrilineal line, and the elite women and girls in her orbit were key to early modern government, politics and diplomacy. Through a *longue durée* case study, this book examines generations of a premodern matriline culminating in Anne, beginning with Elisabetta di Carinzia and her daughter, Elionor de Sicília, continuing with Elionor's daughters-in-law, moving into the territories of the insular and peninsular kingdoms of Naples, into France with Elionor's granddaughter, Yolande d'Aragon, and into England with Yolande's granddaughter, Marguerite d'Anjou, to influence and underwrite powerful and influential territorial monarchies. Together, these women, and the others discussed in this study, form an important part of Anne de France's matrilineal heritage, providing her with a historical template of lived political experience on which to construct her own gendered political theory and practice.

**Change and Resilience** Miguel Ángel Cau Ontiveros, Catalina Mas Florit, 2019-06-30 Change and Resilience offers a view of the main Mediterranean islands from West to East in Late Antiquity because Mediterranean islands can contribute in fundamental ways to our understanding not only of earlier colonizations but also later periods. The volume explores specifically the time frame from the fall of the Roman empire to the Medieval period. A first group of papers covers islands and island groups in the Central and Western Mediterranean, including the Balearic Islands, Corsica, Sardinia, Sicily, and the Adriatic islands. Together, these five papers highlight several common themes across the region: local or indigenous sites were often reoccupied in Late Antiquity, the rural countryside typically played a significant role in the contributions of islands to wider Mediterranean economic networks, and islands – big and small – often played significant roles in shifting political and religious power. The second group focuses on the Eastern Mediterranean. Three papers cover a range of islands, including Crete, the Cyclades, and Cyprus. Together they emphasize the impacts external shifts in political power and economic ties in the Eastern Mediterranean had on island landscapes, as well as the connected relationship between sacred space and territorial occupation across many of these islands. The final group of papers pivots on changing perceptions of island landscapes in Late Antiquity—or “island mindscapes.” Three papers focus on how communities adapted as they underwent Christianization in island contexts, emphasizing the diverse and varied ways that island landscapes became “Christianized,” as well as how other political and economic factors shaped the dynamics of change.

**Songs of Sacrifice** Rebecca Maloy, 2020 Rebecca Maloy's Songs of Sacrifice argues that liturgical music--both texts and melodies--played a central role in the cultural renewal of early Medieval Iberia, with a chant repertory that was carefully designed to help build a society unified in the Nicene faith.

Medieval Iberian Crusade Fiction and the Mediterranean World David A. Wacks, 2019-07-15 Reading crusader fiction against the backdrop of Mediterranean history, this book explains how Iberian authors reimaged the idea of crusade through the lens of Iberian geopolitics and social history. The crusades transformed Mediterranean history and inaugurated complex engagements between Western Europe, the Balkans, North Africa, and the Middle East in ways that endure to this

day. Narratives of crusades powerfully shaped European thinking about the East and continue to influence the representation of interactions between Christian and Muslim states in the region. The crusade, a French idea that gave rise to Iberian, North African, and Levantine campaigns, was very much a Mediterranean phenomenon. French and English authors wrote itineraries in the Holy Land, chronicles of the crusades, and fanciful accounts of Christian knights who championed the Latin Church in the East. This study aims to explore the ways in which Iberian authors imagined their role in the culture of crusade, both as participants and interpreters of narrative traditions of the crusading world from north of the Pyrenees.

**Miscel·lània en honor de Josep M. Marquès**, 2010-11-18 L'obra del teòleg, historiador i arxiver Josep M. Marquès i Planagumà (Cruïlles, 1939-Girona, 2007), prematurament desaparegut, es desplega en múltiples àmbits de la recerca i de l'activitat cultural, en tots els quals va fer aportacions de relleu. La seva tasca ha suscitat interès des de molts punts de vista. Aquesta miscel·lània dedicada a honorar la seva memòria i la seva obra, n'és un testimoni. S'hi apleguen contribucions de 63 investigadors sobre aspectes diversos de les ciències religioses i els estudis litúrgics, de les ciències documentals, de la història de l'Església, de la història social, de l'estudi del patrimoni cultural, de les institucions i comunitats, etc. vinculades tant a les terres de Girona i a Catalunya com també més enllà. El volum inclou també una biografia i una bibliografia de l'homenatjat, que dona fe de la seva producció científica i humana al servei de l'Església i de la societat catalana.

*The Gospel of Matthew and the Sayings Source Q* Frans Neirynck, Joseph Verheyden, R. Corstjens, 1998 The present Bibliography covers the research on the Gospel of Matthew and on the Gospel Source Q from 1950 to 1995. The new volume has adopted the model of the previously published *The Gospel of Mark. A Cumulative Bibliography 1950-1990*. It contains about 15.000 entries and is arranged alphabetically by name of author; the author's works are given in chronological order. Each entry includes the complete bibliographical references, information about reprints, new editions and translations, and summary indications of the content (Gospel passage, subject). The companion volume furnishes detailed Indexes of Gospel Passages and Subject matters related to Mt and to Q. All indexes are prepared by J. Verheyden. The Bibliography completes the series of Leuven repertories on the Gospels published in BETL 82 (John, 1988), 88 (Luke, 1989). and 102 (Mark, 1992).

*Theologies of Retrieval* Darren Sarisky, 2017-11-30 One of the most significant trends in academic theology today, which emerges within Protestant, Roman Catholic, and Orthodox points of view, is the growing interest in theologies of retrieval. This mode of thinking puts a special stress upon subjecting classic theological texts to a close reading, with a view toward using the resources that they provide to understand and address contemporary theological issues. This volume offers an understanding of what theologies of retrieval are, what their rationale is, and what their strengths and weaknesses are. The contributions provided by a distinguished team of theologians answer the important questions that existing work has raised, expand on suggestions that have not yet been fully developed, summarize ideas to highlight themes that are relevant to the

topics of this volume, and air new critiques that will spur further debate.

**A Kingdom of Stargazers** Michael A. Ryan, 2012-03-27 Astrology in the Middle Ages was considered a branch of the magical arts, one informed by Jewish and Muslim scientific knowledge in Muslim Spain. As such it was deeply troubling to some Church authorities. Using the stars and planets to divine the future ran counter to the orthodox Christian notion that human beings have free will, and some clerical authorities argued that it almost certainly entailed the summoning of spiritual forces considered diabolical. We know that occult beliefs and practices became widespread in the later Middle Ages, but there is much about the phenomenon that we do not understand. For instance, how deeply did occult beliefs penetrate courtly culture and what exactly did those in positions of power hope to gain by interacting with the occult? In *A Kingdom of Stargazers*, Michael A. Ryan examines the interest in astrology in the Iberian kingdom of Aragon, where ideas about magic and the occult were deeply intertwined with notions of power, authority, and providence. Ryan focuses on the reigns of Pere III (1336-1387) and his sons Joan I (1387-1395) and Martí I (1395-1410). Pere and Joan spent lavish amounts of money on astrological writings, and astrologers held great sway within their courts. When Martí I took the throne, however, he was determined to purge Joan's courtiers and return to religious orthodoxy. As Ryan shows, the appeal of astrology to those in power was clear: predicting the future through divination was a valuable tool for addressing the extraordinary problems—political, religious, demographic—plaguing Europe in the fourteenth century. Meanwhile, the kings' contemporaries within the noble, ecclesiastical, and mercantile elite had their own reasons for wanting to know what the future held, but their engagement with the occult was directly related to the amount of power and authority the monarch exhibited and applied. *A Kingdom of Stargazers* joins a growing body of scholarship that explores the mixing of religious and magical ideas in the late Middle Ages.
