*Investigaciones itinerantes en ciencias sociales y humanidades* ,2025-04-06 Investigaciones itinerantes en ciencias sociales y humanidades es un claro ejemplo de que el trabajo colaborativo es una estrategia exitosa, ya que en este libro

convergen estudios sobre la calidad de vida de adultos de grupos vulnerables y de trabajadores, sobre liderazgo y desempeño laboral, sobre capacidades de innovación empresarial, sobre evaluación de usabilidad de sistemas digitales, sobre el nivel de conocimiento en seguridad social en estudiantes universitarios y sobre ciclos de la economía mexicana. Bajo esta perspectiva, la obra posee un carácter ecléctico en el que precisamente radica su riqueza. Esperamos que, además de contestar varias interrogantes específicas de las ciencias sociales y humanidades, motive al lector a reformular sus cuestionamientos, despertando e incrementando el interés y motivación por nuevas investigaciones en el amplio campo de las ciencias sociales y humanidades. **Sistema de Clasificación Industrial de América del Norte. México, 2002** INEGI,2002-01-01 El presente documento amplía la estructura de clasificación básica que comparten Canadá, Estados Unidos y México con el detalle de las peculiaridades de la actividad económica del país. Al tener bases comunes con los clasificadores de Canadá y Estados Unidos, también permite la comparación de las estadísticas económicas de los tres países de Norteamérica. El objetivo del SCIAN MÉXICO es proporcionar un marco único, consistente y actualizado para la recopilación, análisis y presentación de estadísticas de tipo económico, que refleje la estructura de la economía mexicana. El SCIAN MÉXICO es la base para la generación, presentación y difusión de todas las estadísticas económicas del INEGI. Su adopción por parte de otras instituciones que también elaboran estadísticas permitirá homologar la información económica que se produce en el país, y con ello contribuir a la de la región de América del Norte. Consultar la versión actualizada: SCIAN 2013.

Sistema de Clasificación Industrial de América del Norte, México. SCIAN 2007 INEGI,2008-01-01 El presente documento muestra la estructura de clasificación que comparten Canadá, Estados Unidos y México y el detalle de las actividades económicas de nuestro país. Al compartir bases comunes, el SCIAN permite la comparación de las estadísticas económicas de los tres países de Norteamérica. Cabe señalar que en el SCIAN se tiene comparabilidad conceptual en el sentido de que se usa, en la medida de lo posible, el mismo marco conceptual para su construcción, el de proceso de producción o función de producción, y que las limitaciones debidas a consideraciones prácticas han sido acordadas o aceptadas explícitamente de manera trilateral. En el contexto del SCIAN se entiende como comparable el que los países socios en la construcción del clasificador estén de acuerdo en el mismo contenido de las categorías trilaterales una categoría trilateral es aquella en la que los tres países manifiestan estar de acuerdo en su contenido y ese compromiso conlleva a que no se rebasen los límites cuando esas categorías se desagregan en categorías nacionales. El objetivo del SCIAN MÉXICO es proporcionar un marco único, consistente y actualizado para la recopilación, análisis y presentación de estadísticas de tipo económico, que refleje la estructura de la economía mexicana. El SCIAN MÉXICO es la base para la generación, presentación y difusión de todas las estadísticas económicas del INEGI. Su adopción por parte de otras instituciones que también elaboran estadísticas permitirá homologar la información económica que se produce en el país, y con ello contribuir a la de la región de América del Norte.

**Diseño urbano** Gustavo Munizaga,2014 Esta obra, un clásico en la disciplina del diseño urbano y completamente actualizada en esta edición, presenta una investigación profunda y documentada del desarrollo del urbanismo, desde fines del siglo XIX hasta el surgimiento del diseño urbano en 1960, incluyendo por lo tanto, una amplia perspectiva epistemológica e histórica sobre la ciudad moderna. El contenido está orientado a programas de docencia universitaria y, sobre todo, a presentar por disciplinas y por temas, las principales cuestiones que se refieren a la ciudad contemporánea. Se incluye en anexo una cronología para consulta de 120 años de hitos del urbanismo en el mundo y una cronología especializada sobre Chile, que comprende estrategias de desarrollo, organización de instituciones de planificación, programas de investigación y congresos asociados a esta disciplina. Sin duda esta es una obra de incalculable valor para comprender y aplicar de mejor manera las herramientas del buen diseño urbano, tan necesario en las ciudades de hoy. La presente edición no sólo cobra vigencia para la comprensión del diseño y fuerzas que dan forma a nuestras ciudades, sino que se presenta como una fuente de alto valor para introducir a los nuevos diseñadores urbanos, arquitectos, estudiantes de arquitectura y otras disciplinas, a la historia, pensamiento y métodos asociados al urbanismo.

**Industrias, empresarios y jerarquías administrativas** Luis Aurelio Ordóñez Burbano,2024-07-04 El presente libro versa sobre el desarrollo de siete empresas caletas y resalta el papel de los empresarios y las jerarquías administrativas durante el período comprendido entre la segunda mitad del siglo XX y las primeras décadas del siglo XXI. En buena parte es la continuación del estudio realizado sobre la gestión de un grupo de empresarios pioneros en Cali durante el período 1915-1945, quienes aprovecharon las oportunidades surgidas por la conformación de las redes mercantiles, la gestión del mercado interno y las políticas proteccionistas del Estado para crear industrias manufactureras, dando muestras de una nueva mentalidad de ruptura con los atavismos de corte premoderno prevalecientes en Cali, la región y el país. Después de exponer algunas consideraciones de orden teórico y conceptual, que orientan el trabajo histórico, se toma como referencia, a partir de la segunda posguerra (1945), la iniciación de una segunda fase de industrialización caracterizada por la llegada de la inversión extranjera a la industria manufacturera, prioritariamente al eje metropolitano Cali-Yumbo; la creación de nuevas empresas por parte del Estado, como es el caso de Ecopetrol, y la producción de bienes intermedios. En este contexto continúa el desenvolvimiento de algunas de las empresas fundadas en Cali a principios del siglo XX, en proceso de modernización e internacionalización, y se crean algunas nuevas, como Fanalca, Tecnoquímicas y Coomeva. En general, se describe el desenvolvimiento de las empresas que continúan a lo largo del tiempo, en el marco de las políticas económicas del Estado, en particular del proteccionismo, vigente hasta comienzo de la década de 1990, y del proceso de terciarización y desindustrialización en las décadas de 1970 y 1980, que se prolonga hasta las primeras décadas del siglo XXI.
