**Suicide Postvention in the Department of Defense** Rajeev Ramchand, 2015-04-09 The scientific evidence on suicide postvention, guidance for other organizations, and the perspectives of military suicide loss survivors provide potential insights for U.S. Department of Defense policies and programs to respond to suicides.

**Surviving Suicide Loss** Rita A. Schulte, LPC, 2021-08-03 Nothing could hurt worse. But even in the darkness . . . there's hope. The pain of suicide loss is indescribable. It seems beyond survival. Yet with faith, perseverance, and the tools of brain science, there is a way through. It will take time. It will take struggle. But hope is real, for there are things you can do to make it to the other side. If you are struggling with suicide loss or you need to come alongside someone who is, Rita Schulte wants to help you move forward. As a suicide loss survivor herself, she understands the pain you're feeling because she has been there too. Rita, an experienced therapist and expert in traumatic loss, offers a science-based therapy model that also takes into account the role of human spirituality. Chapters in this book include: Making Sense of the Desire to Die The Mind-Body Connection Unfinished Business Making Peace with Ourselves Facing the Dark Side Children—Living Behind the Shadow The Time that Remains When it comes to suicide loss, you'll never have all the answers. But one thing is certain: there are real pathways to help you heal—body, mind, and spirit.

**Suicide** Hal Marcovitz, 2010-01-01 This title examines one of the world's critical issues, suicide. Readers will learn the historical background of the issue, leading up to its current and future impact on society. Discussed in detail are the causes of suicide, including mental disorders such as depression and bipolar disorder, and the effects of suicide on the victim's family, friends, and society as a whole. Also covered are suicide bombers, their mission, and their effect on society. Suicide-related legal acts, such as the Death with Dignity Act, are also covered. Engaging text, informative sidebars, and color photographs present information realistically, leaving readers with a thorough, honest interpretation of suicide. Features include a timeline, facts, additional resources, Web sites, a glossary, a bibliography, and an index. Essential Issues is a series in Essential Library, an imprint of ABDO Publishing Company.

**Religion, Death, and Dying** Lucy Bregman, 2009-11-25 A wide-ranging anthology for general readers covering many religious, ethical, and spiritual aspects of death, dying, and bereavement in American society. What do various spiritual and ethical belief systems have to say about modern medicine's approach to the end of life? Do all major religions characterize

the afterlife in similar ways? How do funeral rites and rituals vary across different faiths? Now there is one resource that gathers leading scholars to address these questions and more about the many religious, ethical, and spiritual aspects of death, dying, and bereavement in America. *Religion, Death, and Dying* compares and contrasts the ways different faiths and ethical schools contemplate the end of life. The work is organized into three thematic volumes: first, an examination of the contemporary medicalized death from the perspective of different religious traditions and the professions involved; second, an exploration of complex, often controversial issues, including the death of children, AIDS, capital punishment, and war; and finally, a survey of the funeral and bereavement rituals that have evolved under various religions.

*Sacred Sorrows* John E. Nelson, Andrea Nelson, 1996 Fatigue, boredom, loneliness, anxiety, despair, guilt, personal loss, meaninglessness, feelings of inadequacy, addictions, eating disorders, biological imbalances--all of these may cause or be caused by depression. From Prozac to LSD, from behaviorism to chaos theory, from body work to Buddhism, the authors in this collection present new ways of looking at and working with depression, a disease that touches every one of us at some time in our lives. This poignant and provocative anthology includes the stories of people who have personally struggled with and overcome depression, and of those who have learned to embrace depression as part of their psychological and spiritual growth. The authors describe the most effective therapies for treating depression, including alternative approaches in medicine, nutrition, and psychotherapy. What emerges is a new transpersonal perspective that integrates soulfulness, spirituality, and transcendence into our understanding and treatment of depression. This book provides essential reading for anyone suffering from depression, for students of psychology, and for therapists who must help others cope with this devastating condition.

**The Student Newspaper Survival Guide** Rachele Kanigel, 2011-09-06 The Student Newspaper Survival Guide has been extensively updated to cover recent developments in online publishing, social media, mobile journalism, and multimedia storytelling; at the same time, it continues to serve as an essential reference on all aspects of producing a student publication. European Psychiatric/Mental Health Nursing in the 21st Century José Carlos Santos, John R. Cutcliffe, 2018-02-01 This

groundbreaking first volume of the Series has a number of features that set it apart from other books on this subject: Firstly, it focuses on interpersonal, humanistic and ecological views and approaches to P/MH nursing. Secondly, it highlights patient/client-centered approaches and mental-health-service user involvement. Lastly, it is a genuinely European P/MH nursing textbook – the first of its kind – largely written by mental health scholars from Europe, although it also includes contributions from North America and Australia/New Zealand. Focusing on clinical/practical issues, theory and empirical findings, it adopts an evidence-based or evidence-informed approach. Each contribution presents the state-of-the-art of P/MH nursing in Europe so that it can be transferred to and implemented by P/MH nurses and the broader mental health care community around the globe. As such, it will be the first genuinely 21st century European Psychiatric Mental Health Nursing book.

**The Deacon** Thomas Fargnoli, 2024-04-26 We often end up living an “unexpected” life. Yet through it, glimmers of hope, faith, love, and peace find their way through. After being married for forty years and serving the Catholic Church as a deacon for the last five years, leaving the diaconate was the last thing on my mind. Life was good – wife, home, children, grandchildren, health, retirement, and an amazing ministry. Never did I expect to be a suicide survivor. Grieving the loss of my wife was difficult enough, but with suicide, the grieving process was much more intense. Being a deacon in the Catholic Church intensified that process even more. The Catholic Church made it clear. I could not stay a deacon and pursue another loving relationship that could lead to marriage. I was aware of the rule, but after two years of discernment, I couldn’t seem to make a decision. This battle put me into the hospital for open-heart surgery. Finally, with God’s help, I made my decision. Rick, a local reporter, wanted to interview me with regard to my diaconate experience and how I came to that decision. Rick turned out to be more than a reporter. This is my story. Through it, I hope glimmers of hope, faith, love and peace find their way through your clouds as well. Proceeds go to Suicide Awareness

*Clinical Fictions* Jeffrey Berman, 2025-07-14 *Clinical Fictions: Psychoanalytic Novelists and Short Story Writers* is the first book to explore works of fiction written by prominent psychoanalysts. Broken down into thematic sections, the book traces the literary output of pioneering psychoanalysts such as Julia Kristeva, Bruce Fink, Thomas Odgen, and Gregorio Kohon, among others. Berman looks at works of historical fiction, detective fiction, and the short story, and shows how recurring themes typical of these genres can be understood both psychoanalytically and through a literary lens. The works included investigate experiences of childhood adversity, life in dystopian societies, experiences of psychosis, bodily autonomy, personal loss and, above all, trauma. Unpacking these themes, and their depiction through fiction, Berman gives the reader the tools to apply psychoanalytic literary theory to further works. Interweaving his personal correspondence with authors, including a heartwarming exchange with Cliff Wilkerson, Berman offers unparalleled access to the inner workings of the writers’ minds. This book will be of interest to students and researchers using psychoanalytic literary theory, as well as

mental health practitioners who are interested in the intersections between literature and psychoanalysis and discovering new ways of probing the unspoken and unconscious.

The Military and Militarism in Israeli Society Edna Lomsky-Feder, Eyal Ben-Ari, 2012-02-01 The Military and Militarism in Israeli Society systematically examines the cultural and social construction of 'things military' within Israel. Contributors from comparative literature, film studies, sociology, anthropology, geography, history, and cultural studies explore the arenas in which the centrality of military matters are produced and reproduced by the state and by other public bodies. Analysis is presented using three perspectives: the production and reproduction of collective representations; the dynamics of gender, voice, and resistance; and the construction of individual life-worlds.

**Freudians and Schadenfreudians** Jeffrey Berman, 2024-08-22 Sigmund Freud can be a polarizing figure, beloved by many and despised by some. Focusing on eight key writers and scholars who either passionately loved or gleefully loathed Freud, this book represents Freud's wide legacy, the reach of his ideas, their controversies, and their ability still to provoke, inspire, confound, outrage, and compel. The book begins by focusing on four highly prolific authors whose admiration for Freud is boundless: Lionel Trilling, Harold Bloom, Kurt R. Eissler, and Peter Gay. Berman then explores four more writers whose aim was not simply to debunk Freud and destroy his monstrous creation but to cast both into hell: D. H. Lawrence, Vladimir Nabokov, Thomas Szasz, and Frederick Crews. Each chapter discusses the author's involvement with Freud, exploring the continuities and discontinuities of his or her writings, as well as offering snapshots of the writers, suggesting how their personal and professional lives were inextricably related. Berman draws out some surprising commonalities between the Freudolaters and Schadenfreudians, going on to discuss the current state of psychoanalysis and the "psychoanalytic credos" by which contemporary analysts live.

**Problems Unique to the Holocaust** Harry James Cargas, 2013-07-24 Victims of the Holocaust were faced with moral dilemmas for which no one could prepare. Yet many of the life-and-death situations forced upon them required immediate actions and nearly impossible choices. In Problems Unique to the Holocaust, today's leading Holocaust scholars examine the difficult questions surrounding this terrible chapter in world history. Is it ever legitimate to betray others to save yourself? If a group of Jews is hiding behind a wall and a baby begins to cry, should an adult smother the child to protect the safety of the others? How guilty are the bystanders who saw what was happening but did nothing to aid the victims of persecution? In addition to these questions, one contributor considers whether commentators can be objective in analyzing the Holocaust or if this is a topic to be left only to Jews. In the final essay, another scholar assesses the challenge of ethics in a post-Holocaust world. This singular collection of essays, which closes with a meditation on Daniel Goldhagen's controversial book Hitler's Willing Executioners, asks bold questions and encourages readers to look at the tragedy of the Holocaust in a new light.

Attachment and Loss in the Works of James Joyce Linda Horsnell, 2021-11-04 Using John Bowlby's Attachment Theory as

a frame of reference, Attachment and Loss in the Works of James Joyce critically analyzes James Joyce's representation of grief. Based on cognitive, emotional and behavioral elements, Attachment Theory allows for new and innovative readings to emerge which differ from those offered by Freudian, Lacanian, and Jungian paradigms. Acknowledging the importance of the Theory of Mind and Reader Response, this book uses the concept of internal working models to elucidate how the childhood experiences with which Joyce has endowed his protagonists ultimately leads to how they respond to loss. The texts of Dubliners, Portrait of the Artist and Ulysses, show how central separation and loss were to Joyce's work. It provides examples of such experiences in different age groups, under differing circumstances and at different stages in the grief process. Attachment Theory highlights the complexity of human relationships throughout the life cycle, not only how they can affect the grief process but how grief affects them.

**Promised End** Seth C. Hawkins, 2019-08-05 Perhaps the most important, difficult, and unresolved issue in Shakespeare studies is the question of Lear's last lines; the whole meaning of Shakespeare's greatest and most controversial tragedy depends upon it. In the 1608 Quarto, it is "O,o,o,o"—that zero to which the Fool compares Lear himself. In the 1623 Folio, the King's last words are "Look on her! Look, her lips! Look there, look there!" No one but Lear sees what he points us to envision. Is it epiphany or delusion? Is Lear's tragedy nihilistic or redemptive? In search of an answer, Hawkins deploys a wide spectrum of critical approaches: close scrutiny of the rival texts and comparison with the play's sources, the unique double structure of Lear, its symbols and imagery, its visual and verbal scriptural allusions, even its numerology. The book enlists its readers in a quest for final meaning, not unlike the movement of the play itself towards Dover and the extreme verge of its imagined cliff, that high place where life borders upon death and earth meets sky and sea.

Managing the Depression Puzzle Ashley L. Peterson, Managing the Depression Puzzle provides a comprehensive look at how to manage depression. The goal is to provide a wide range of pieces that might fit in your own unique depression puzzle, so you can pick and choose what does fit for you. No one strategy (or set of strategies) is going to work for every individual, but having information about what the options are will put you in a better position to make choices about your mental health. The book begins with an overview of depressive illnesses and subtypes. Strategies for dealing with depression are broken down into illness treatments and wellness promotion strategies. Illness treatment strategies like medication, ECT, and therapy, lift you from sick to less sick. Wellness promotion strategies, including mindfulness and self-care, help boost you up from less sick to well. Finally, the book looks at common issues faced by anyone living with a chronic mental illness. Managing the Depression Puzzle draws on the author's education and experience as a former mental health nurse and pharmacist, as well as personal experience living with treatment-resistant major depressive disorder. The approach is pragmatic, candid, and realistic, with the recognition that depression doesn't happen just one way; it is as unique as you are.

**Masada Myth** Nachman Ben-Yehuda, 1996-01-01 In 73 A.D., legend has it, 960 Jewish rebels under siege in the ancient

desert fortress of Masada committed suicide rather than surrender to a Roman legion. Recorded in only one historical source, the story of Masada was obscure for centuries. In *The Masada Myth*, Israeli sociologist Nachman Ben-Yehuda tracks the process by which Masada became an ideological symbol for the State of Israel, the dramatic subject of movies and miniseries, a shrine venerated by generations of Zionists and Israeli soldiers, and the most profitable tourist attraction in modern Israel. Ben-Yehuda describes how, after nearly 1800 years, the long, complex, and unsubstantiated narrative of Josephus Flavius was edited and augmented in the twentieth century to form a simple and powerful myth of heroism. He looks at the ways this new mythical narrative of Masada was created, promoted, and maintained by pre-state Jewish underground organizations, the Israeli army, archaeological teams, mass media, youth movements, textbooks, the tourist industry, and the arts. He discusses the various organizations and movements that created “the Masada experience” (usually a ritual trek through the Judean desert followed by a climb to the fortress and a dramatic reading of the Masada story), and how it changed over decades from a Zionist pilgrimage to a tourist destination. Placing the story in a larger historical, sociological, and psychological context, Ben-Yehuda draws upon theories of collective memory and mythmaking to analyze Masada’s crucial role in the nation-building process of modern Israel and the formation of a new Jewish identity. An expert on deviance and social control, Ben-Yehuda looks in particular at how and why a military failure and an enigmatic, troubling case of mass suicide (in conflict with Judaism’s teachings) were reconstructed and fabricated as a heroic tale.

**Personal Care in an Impersonal World** John Morgan,2020-11-25 The purpose of this volume is to ask and propose a positive answer to the question: Can we attend to the personhood of individuals within systems and cultures which are mass oriented? One of the most interesting changes in contemporary thinking has been the emphasis on the unique person. While the distinction between a person (a unique rational being) and individual (one of several similar things) has long existed, it is in the twentieth century that we seem to have become fully conscious of this distinction. There is good reason for such as emphasis today. Repeatedly in this century the case of the person was deemed less important than some policy. Innocent persons slaughtered in the name of some ism, political bombings and kidnappings, and mass unemployment to name but a few. The cause of our dehumanization seems to be the reduction of the individual person to a part of the political, economic or religious system.

**End of Life and People with Intellectual and Developmental Disability** Roger J. Stancliffe,Michele Y. Wiese,Philip McCallion,Mary McCarron,2022-06-11 This book on end of life examines how to include people with intellectual and developmental disability in the inevitability of dying and death. Comprising 17 chapters, it addresses challenging and under-researched topics including suicide, do-not-resuscitate, advance care planning, death doulas and accessible funerals. Topics reflect everyday community, palliative care, hospice and disability services. The book proposes that the rights of people with

disabilities should be supported up to and after their death. Going beyond problem identification, the chapters offer positive, evidence-supported responses that translate research to practice, together with practice examples and resources grounded in lived experience. The book is applicable to readers from the disability field, and mainstream health professionals who assist people with disability in emergency care, palliative care or end-of-life planning
