The Thorny Road to Success Karl Maramorosch,2015-12-03 Karl Maramorosch may be best known for his accomplishments as a top scientist, but the story of how he became such a success has never been told until now. Born in Vienna in 1915, his family moved to Poland, and he fled with his wife, Irene, to Romania in September 1939. They spent four years in Polish refugee camps and were in Soviet-occupied Romania until October 1946, before coming to the United States in January 1947 on an immigration visa. But they did not arrive unscathed: Maramorosch's father died in the gas chamber in Belzec in 1942, and his mother also died at the camp. His brother died in the Kolomyia jail on Yom Kippur in 1942. His wife's closest relatives died in Treblinka in 1942. The inseparable couple refused to let any of that stop them from forging ahead: He began a scientific career that spanned more than sixty years, and she became a librarian at the New York Public Library, where she worked thirty years. Maramorosch recalls the painful losses of the past and the brutalities of war, but he also celebrates his love for his wife and life in The Thorny Road to Success.

The Ladder of Success Mahesh Jethmalani, 2020-06-24 Few people know that the Ladder of success is crowded at the

bottom, but it is not so at the top. Why? The reasons, thereof, and nine rules to check whether the ladder you are climbing is leaning against the right wall or not have been discussed in the book. This is necessary to check before climbing because there have been people who climbed the ladder and on reaching the destination, they found that the ladder was leaning against the wrong wall. They had to start from scratch. Procrastination is the natural assassin of an opportunity. It is the slow death because it starves action to death, rather than dealing it one fatal blow. This book also discusses how to beat the procrastination and do things now. In nature, the homing pigeon is a remarkable bird. It has an uncanny instinct that enables it to fly back to its home roost, no matter how far away it starts or in what direction it must go. Our body also has such system which helps us achieving success once we write our goals and start working for our goals. The book discusses specifically that success system of our body. Most people do what they don't love because many of them don't know what they love to do. This is known as one's Passion. If you do what you love, then chances of your mega success increase and those of failure decrease. This book has detailed coverage on how to find one's passion, which will be very useful for all the readers. The book also discusses in details the prioritization of the activities to save time so that more work can be done in less time. Besides, the book highlights many other essential topics like how we are conditioned since our childhood which damages our belief system severely, attitude and its development, visualization of success even before you realize it, how to avoid failures in your life and take failures as opportunities, delayed gratification and many more.
