**Nice White Anglophones** Eric Louis Russell,2025-09-23 Nice White Anglophones: Privilege, Power and Monolingualism is an innovative work exploring race, power and ideology via an extended fictional case study centring on a monolingual white American family—"The Smiths". The reader is invited to follow this seemingly "normal" white English-speaking family through their everyday life and think critically about their linguistic and cultural reality, what they do and, especially, what they do not do. What role does monolingual whiteness play in socioeconomics and politics? How do participants in language and culture reinforce dynamics that afford privilege and power to some and exclude others? And how does white monolingualism contribute to the ensmalling our cultural horizons? These themes are introduced through stories and

explored in-depth through critical discussion questions, providing comprehensive coverage of monolingualism, race and power in a new and engrossing way. This intersectional work—part textbook, part case study, part dialogue and critical inquiry, is a new and original way to engage students and scholars of language and culture, power and race, as well as anyone interested in monolinguality and languaculture.

**Second-language Discourse in the Digital World** Ilona Vandergriff, 2016-08-17 Second-language Discourse in the Digital World illustrates a new, practice-driven approach to technology in second-language (L2) learning that begins with what L2 users do when they connect with others online. With its rich set of examples from a number of different languages and a variety of digital platforms, in and beyond the classroom, this book provides a structured account of L2 computer-mediated discourse. The book is divided into four sections. Section I considers how new media have changed language learning. Section II is about L2 participation in digital forms and practices in online communities. Section III centers around L2 linguistic and other semiotic practices, including the use of multimodal and multilingual resources while section IV analyzes social practices to explore how networked L2 users build, maintain and challenge relationships. Written in accessible style, the volume will be an important read to anyone interested in L2 use and learning in Web 2.0. Finalist for the AAAL 2019 book award.
