**The Politics of Safety** Shannon King, 2024-01-16 For much of the twentieth and twenty-first centuries, public officials in cities like New York, Chicago, and Baltimore have criminalized uprisings as portending Black “thugs” throwing rocks at police and plundering private property to undermine complaints of police violence. Liberal mayors like Fiorello H. La Guardia have often been the deftest practitioners of this strategy. As the Depression and wartime conditions spurred youth crime, white New Yorkers' anxieties—about crime, the movement of Black people into white neighborhoods, and headlines featuring Black “hoodlums” emblazoned all over the white media—drove their support for the expansion of police patrols in the city, especially in Harlem and Bedford-Stuyvesant. Though Blacks also called for police protection and for La Guardia to provide equitable municipal resources, they primarily received more punishment. This set the stage for the Harlem uprising of 1943. Shannon King uncovers how Black activism for safety was a struggle against police brutality and crime, highlighting how the police withholding protection operated as a form of police violence and an abridgement of their civil rights. By decentering familiar narratives of riots, King places Black activism against harm at the center of the Black freedom struggle, revealing how Black neighborhoods became occupied territories in La Guardia’s New York.

**The Young Crusaders** V. P. Franklin, 2021-02-23 An authoritative history of the overlooked youth activists that spearheaded the largest protests of the Civil Rights Movement and set the blueprint for future generations of activists to follow. Some of the most iconic images of the Civil Rights Movement are those of young people engaged in social activism, such as children and teenagers in 1963 being attacked by police in Birmingham with dogs and water hoses. But their contributions have not been well documented or prioritized. The Young Crusaders is the first book dedicated to telling the story of the hundreds of thousands of children and teenagers who engaged in sit-ins, school strikes, boycotts, marches, and demonstrations in which Dr. Martin Luther King Jr. and other national civil rights leaders played little or no part. It was these young activists who joined in the largest civil rights demonstration in US history: the system-wide school boycott in New York City on February 3, 1964, where over 360,000 elementary and secondary school students went on strike and thousands attended freedom schools. Later that month, tens of thousands of children and teenagers participated in the “Freedom Day” boycotts in Boston and Chicago, also demanding “quality integrated education.” Distinguished historian V. P. Franklin illustrates how their ingenuity made these and numerous other campaigns across the country successful in bringing about

the end to legalized racial discrimination. It was these unheralded young people who set the blueprint for today's youth activists and their campaigns to address poverty, joblessness, educational inequality, and racialized violence and discrimination. Understanding the role of children and teenagers transforms how we understand the Civil Rights Movement and the broader part young people have played in shepherding social and educational progress, and it serves as a model for the youth-led "reparatory justice" campaigns seen today mounted by Black Lives Matter, March for Our Lives, and the Sunrise Movement. Highlighting the voices of the young people themselves, Franklin offers a redefining narrative, complemented by arresting archival images. The Young Crusaders reveals a radical history that both challenges and expands our understanding of the Civil Rights Movement.

Race and Renaissance Joseph William Trotter Jr., Jared N. Day, 2010-06-27 African Americans from Pittsburgh have a long and distinctive history of contributions to the cultural, political, and social evolution of the United States. From jazz legend Earl Fatha Hines to playwright August Wilson, from labor protests in the 1950s to the Black Power movement of the late 1960s, Pittsburgh has been a force for change in American race and class relations. *Race and Renaissance* presents the first history of African American life in Pittsburgh after World War II. It examines the origins and significance of the second Great Migration, the persistence of Jim Crow into the postwar years, the second ghetto, the contemporary urban crisis, the civil rights and Black Power movements, and the Million Man and Million Woman marches, among other topics. In recreating this period, Trotter and Day draw not only from newspaper articles and other primary and secondary sources, but also from oral histories. These include interviews with African Americans who lived in Pittsburgh during the postwar era, which reveal firsthand accounts of what life was truly like during this transformative epoch. *Race and Renaissance* illuminates how Pittsburgh's African Americans arrived at their present moment in history. It also links movements for change to larger global issues: civil rights with the Vietnam War; affirmative action with the movement against South African apartheid. As such, the study draws on both sociology and urban studies to deepen our understanding of the lives of urban blacks.

Troubled Pasts Jill Edy, 2006-07-28 How the media shape collective memory and use that memory to shape our understanding of current events.

Righteous Troublemakers Al Sharpton, 2022-01-11 Bestselling author Reverend Al Sharpton brings to light the stories of the unsung heroes of the Civil Rights movement, drawing on his unique perspective in the history of the fight for social justice in America "This is the time. We won't stop until we change the whole system of justice."—Rev. Al Sharpton While the world may know the major names of the Civil Rights movement, there are countless lesser-known heroes fighting the good fight to advance equal justice for all, heeding the call when no one else was listening, often risking their lives and livelihoods in the process. *Righteous Troublemakers* shines a light on everyday people called to do extraordinary things—like Pauli Murray, whose early work informed Thurgood Marshall's legal argument for *Brown v. Board of Education*, Claudette Colvin,

who refused to give up her seat on a segregated bus months before Rosa Parks did the same, and Gwen Carr, whose private pain in losing her son Eric Garner stoked her public activism against police brutality. Sharpton also illuminates the lives of more widely known individuals, revealing overlooked details, historical connections, and a perspective informed by years of working on the front line of the social justice movement, to provide a behind-the-scenes look at the wheels of justice and the individuals who have helped advance its cause.

Police Under Fire Aubrey A. Baker, 2016-08-05 This book is about the war on the police that is taking place in America today. It is about the unfair and false narratives being promulgated against the police by black activists, left-wing liberals, and the lamestream media. It is about racial politics and violence in the black community and how it spills over onto the police. It is about controversial uses of force by the police. It is about injustices being perpetrated against the police by neer do wells. It is also about how to improve the situation overall.

**Sandra Bland 2.0** Betty H. Smith, 2019-12-20 Sandra Bland Mattered. Why did Sandra get jail time instead of a traffic fine? Sandra Bland should be alive today working at Prairie View A&M University, her beloved alma mater, voicing her support of the Black Lives Matter movement and opinions as “Sandy Speaks.” Sandra Bland 2.0: Racist Policing in America brings readers face-to-face with the root of racist policing, a crisis in America. The unjust use of police force and trigger-happy killing of blacks are commonplace in a supposedly post-racial society. Police bias and racial disparities promulgated by subcultures and other unchecked vices run rampant. Implicit or explicit racism, they’re the same. Both result in racial bias and too often, the death of blacks. The Internet is a memorial gateway to hundreds of African-American victims of police violence and shootings. Some blacks don’t believe America will ever become post-racial. The alt-right will never disband, white supremacists are here to stay, and racist white police officers continue to terrorize the black community. Blacks aren’t disillusioned. And wishful thinking doesn’t make African Americans safe. But our voices will be heard. We demand equal protection of the law. Black Lives Matter. People didn’t like it when Sandra Bland and thousands of protestors shouted “Black Lives Matter.” Bland fell victim to the racism she fought to eliminate. Sandra Bland’s traffic stop debacle and subsequent death inside her jail cell captured the world’s attention. Sandra Bland 2.0: Racist Policing in America explores Sandra Bland’s convictions about racism, what happened to Bland, and America’s heartbreaking panorama of racist policing. How do we ensure justice for Sandra Bland and other victims, who died needlessly during or in the aftermath of a simple traffic stop? Sandra Bland 2.0: Racist Policing in America is a protest against the victimization of African Americans and commentary about racism.

*The Multiracial Promise* Gordon K. Mantler, 2023-02-07 In April 1983, a dynamic, multiracial political coalition did the unthinkable, electing Harold Washington as the first Black mayor of Chicago. Washington’s victory was unlikely not just because America’s second city was one of the nation’s most racially balkanized but also because it came at a time when

Ronald Reagan and other political conservatives seemed resurgent. Washington's initial win and reelection in 1987 established the charismatic politician as a folk hero. It also bolstered hope among Democrats that the party could win elections by pulling together multiracial urban voters around progressive causes. Yet what could be called the Washington era revealed clear limits to electoral politics and racial coalition building when decoupled from neighborhood-based movement organizing. Drawing on a rich array of archives and oral history interviews, Gordon K. Mantler offers a bold reexamination of the Harold Washington movement and moment. Taking readers into Chicago's street-level politics and the often tense relationships among communities and their organizers, Mantler shows how white supremacy, deindustrialization, dysfunction, and voters' own contradictory expectations stubbornly impeded many of Washington's proposed reforms. Ultimately, Washington's historic victory and the thwarted ambitions of his administration provide a cautionary tale about the peril of placing too much weight on electoral politics above other forms of civic action—a lesson today's activists would do well to heed.

**Driven by the Movement** JoNina Abron-Ervin, 2025-08-05 A collective portrait of the Black Power movement by radical journalist and former Black Panther JoNina Abron-Ervin *Driven by the Movement* collects the stories of twenty ordinary people who did extraordinary things for the Black liberation struggle during the pivotal decade of 1965–1975. These activists came from across the US and all walks of life—single working mothers, clergy, students, teachers, military veterans—to organize against police brutality, poverty, hunger, substandard schools, and colonialism in Africa. Drawing from her own experience at the heart of the movement, JoNina Abron-Ervin's on-the-ground reporting offers a rare look into the pragmatism, optimism, compromise, and contradiction and the everyday acts of dedication that animated the Black Power era. This new edition includes expanded material on the history of the Black Panther newspaper as a source of mass political education and on the Black Panther Party's legendary survival programs, such as its Free Breakfast for Children and healthcare programs. A foreword by writer and organizer William C. Anderson connects two torchbearers of the Black radical tradition across generations.

**Inequality and Violence in the United States** Barbara H. Chasin, 1998 An examination of class, racial and gender violence in the contemporary United States, which discusses the obvious violence of individual murder and assault and also the less publicized violence caused by the routine workings of our society, and especially, of its stratification.

*Uncommodified Blackness* Mandisi Majavu, 2017-03-14 This book is a study of the lived experience of African men in Australia and New Zealand. The author employs a relational account of racism which foregrounds how the colonial shaped the contemporary, with the settler states of contemporary Australia and New Zealand having been moulded by their colonial histories. *Uncommodified Blackness* examines the changing racial conditions in Australia and New Zealand, inspired by the view that as racial conditions change globally, prevailing racial modalities in these two countries must be reexamined and

theory must be developed or revised as appropriate. Students and scholars across a range of social science disciplines will find this book of interest, particularly those with an interest in refugees, immigration, race and masculinity.

**Death Blow to Jim Crow** Erik S. Gellman, 2012 Death Blow to Jim Crow

*Hip Hop Headphones* James Braxton Peterson, 2016-08-25 Hip Hop Headphones is a crash course in Hip Hop culture. Featuring definitions, lectures, academic essays, and other scholarly discussions and resources, Hip Hop Headphones documents the scholarship of Dr. James B. Peterson, founder of Hip Hop Scholars-an organization devoted to developing the educational potential of Hip Hop. Flak-Catchers Lindsey Lupo, 2010-12-02 Flak-Catchers explores the ways in which riot commissions-the institutional bodies appointed by an executive in the aftermath of a race riot to determine a riot timeline, investigate causes, and offer prescriptions for change-have dealt with racial violence in the United States over the last century. In studying five riots and their commissions, Chicago 1919, Harlem 1935, Los Angeles 1965, USA 1967, and Los Angeles 1992, this book shows that riot commissions only serve to give the appearance of strong and responsive government action during uncertain times. They primarily benefit the instituting body by focusing on a restoration of law and order while undermining any larger civil rights message. However, this book also challenges the prevalent idea that riot commissions are all the same, by revealing how riot commissions have changed over the last century, shifting in their prominence, content, and focus. After the 1968 Kerner Commission, which studied the 1967 summer riots, it has become increasingly common for the riot commission to fail to answer fundamental questions posed by the crisis.

**Qualitative Research & Evaluation Methods** Michael Quinn Patton, 2014-10-29 Drawing on more than 40 years of experience conducting applied social science research and program evaluation, author Michael Quinn Patton has crafted the most comprehensive and systematic book on qualitative research and evaluation methods, inquiry frameworks, and analysis options available today. Now offering more balance between applied research and evaluation, this Fourth Edition of Qualitative Research & Evaluation Methods illuminates all aspects of qualitative inquiry through new examples, stories, and cartoons; more than a hundred new summarizing and synthesizing exhibits; and a wide range of new highlight sections/sidebars that elaborate on important and emergent issues. For the first time, full case studies are included to illustrate extended research and evaluation examples. In addition, each chapter features an extended rumination, written in a voice and style more emphatic and engaging than traditional textbook style, about a core issue of persistent debate and controversy.

**Right to Revolt** Patricia Michelle Boyett, 2015-11-23 Winner of the 2016 Eudora Welty Prize On January 10, 1966,

Klansmen murdered civil rights leader Vernon Dahmer in Forrest County, Mississippi. Despite the FBI's growing conflict against the Klan, recent civil rights legislation, and progressive court rulings, the Imperial Wizard promised his men: "no jury in Mississippi would convict a white man for killing a nigger." Yet this murder inspired change. Since the onset of the civil rights movement, local authorities had mitigated federal intervention by using subtle but insidious methods to suppress activism in public arenas. They perpetuated a myth of Forrest County as a bastion of moderation in a state notorious for extremism. To sustain that fiction, officials emphasized that Dahmer's killers hailed from neighboring Jones County and pursued convictions vigorously. Although the Dahmer case became a watershed in the long struggle for racial justice, it also obscured Forrest County's brutal racial history. Patricia Michelle Boyett debunks the myth of moderation by exploring the mob lynchings, police brutality, malicious prosecutions, and Klan terrorism that linked Forrest and Jones Counties since their founding. She traces how racial atrocities during World War II and the Cold War inspired local blacks to transform their counties into revolutionary battlefields of the movement. Their electrifying campaigns captured global attention, forced federal intervention, produced landmark trials, and chartered a significant post-civil rights crusade. By examining the interactions of black and white locals, state and federal actors, and visiting activists from settlement to contemporary times, Boyett presents a comprehensive portrait of one of the South's most tortured and transformative landscapes.
