The Collected Works of J. Krishnamurti Jiddu Krishnamurti,1991 Within the process of daily relations with people, with nature, and with society, our own causes of sorrow are revealed. 'In relationship the important thing to bear in mind is not the other but oneself, ' states Krishnamurti, 'It is within oneself that harmony in relationship can be found, not in another, nor in environment.' (p. 160) This is not cause for isolation but the beginning of a process of self-revelation which creates the foundation for true relationship.

Diccionario de la Democracia Patricio Marcos,2012-10 El Diccionario de la Democracia contiene la teoría y la ideología de los regímenes democráticos: sus antecedentes; orígenes; principios; modalidades de deliberación y leyes; sus instituciones clave y variedades, acorde con la clase social que los dirija y el arreglo institucional correlativo. Asimismo compara sus principios, leyes e instituciones con otros regímenes, particularmente con sus opuestos, las oligarquías o gobiernos de pocos, pero también con la república, la tiranía y la realeza; las razones de Estado que permiten su conquista, conservación y estabilidad; las fuentes internas y externas que los amenazan; las maneras de corromperse y las revoluciones que los afectan. Trata también de los usos, costumbres y caracteres democráticos; inventaría los rasgos éticos de la vida democrática, por sí mismos y comprobados con los de los ricos, las clases medias y los tiranos, hasta detallar las relaciones que sostienen entre sí dirigentes y dirigidos, hombres y mujeres, viejos, jóvenes, maestros y alumnos, ciudadanos y animales..., por el impacto que la libertad e igualdad popular tienen en la vida pública y privada de sus pueblos. Parte medular del mismo es la exposición de las doctrinas, dogmas, leyes e instituciones del modelo liberal moderno de la democracia; un credo que se analiza en calidad de justificación del nouveau régime por parte de sus ideólogos modernos más destacados y lúcidos, quienes desvían el significado de las palabras] democracia] y] liberal] atribuidas sin más a los Estados modernos.

Huellas de San Agustín en Kant Javier Narváez Arango,2023-03-22 El libro se desarrolla en tres partes. En la primera encontramos el tiempo, el espacio, el fenómeno, el número, las categorías, los juicios sintéticos a priori, el mundo, el alma y Dios, expuestos por Kant en la Crítica de la razón pura. En la segunda parte encontramos los mismos temas desde san Agustín, haciendo un paralelo, para mostrar las semejanzas entre estos autores, encontrando, entre otras cosas, que san Agustín, al igual que Kant, menciona el fenómeno como lo que se me aparece, así como la semejanza conceptual de las categorías en Kant y las nociones puras del entendimiento en san Agustín. También mostramos cómo en ambos autores las ideas de mundo, alma y Dios son tomadas para integrar todo el conocimiento, con la diferencia de que en Kant son supuestos necesarios que no se pueden experimentar, pero que se deben suponer, mientras que en san Agustín estos son etapas del conocimiento para alcanzar el único conocimiento verdadero. Concluye la obra hablando de Platón como el eslabón que une a estos dos pensadores.
