*Teutonic Mythology: The Gods and Goddesses of the Northland (Vol. 1-3)* Viktor Rydberg,2023-11-12 Viktor Rydberg's *Teutonic Mythology: The Gods and Goddesses of the Northland* is a monumental exploration of ancient Norse beliefs, woven together in a literary tapestry that blends scholarly rigor with poetic finesse. The three volumes delve into the pantheon of deities, mythological narratives, and cultural practices of the Teutonic peoples, highlighting the interconnections between mythology and the broader historical context of Northern Europe. Rydberg employs a comparative approach, drawing parallels between Norse myths and those from other cultures, paving the way for a nuanced understanding of the enduring legacy of these stories throughout time. Rydberg, a prominent Swedish writer and philosopher of the 19th century, drew on his profound interest in history and folklore, fueled by the Romantic movement's emphasis on national identity and cultural heritage. His extensive research reflects a desire to resurrect and validate the narratives of his ancestors, positioning them within the larger tapestry of European mythology. This work not only showcases his intellect but also symbolizes a broader cultural renaissance in Sweden, as intellectuals sought to reclaim and preserve their mythic past. For readers fascinated by mythology, history, or the cultural identity of the Norse peoples, Rydberg's *Teutonic Mythology* is an indispensable resource.

Its rich analysis and compelling narrative will not only enlighten but also inspire a deeper appreciation for the mythic traditions that shaped Europe's cultural landscape. This landmark work remains a crucial text for both scholars and enthusiasts seeking to understand the roots of Norse mythology and its lasting impact on contemporary literature and culture.

**The Loom of God** Clifford A. Pickover, 2010-08-17 From the mysterious cult of Pythagoras to the awesome mechanics of Stonehenge to the “gargoyles” and fractals on today’s computers, mathematics has always been a powerful, even divine force in the world. In a lively, intelligent synthesis of math, mysticism, and science fiction, Clifford Pickover explains the eternal magic of numbers. Taking a uniquely humorous approach, he appoints readers “Chief Historian” of an intergalactic museum and sends them, along with a quirky cast of characters, hurtling through the ages to explore how individuals used numbers for such purposes as predicting the end of the world, finding love, and winning wars.

*Umbilicans of Babylon* Richard Leviton, 2024-03-13 Do you ever think about solid ground? The author of this book does, a lot. Providing solid ground for consciousness is the umbilican function, he says. On January 1, 2020, the long-awaited Golden Age began. So did intense opposition to it from the shadows. It was like a thousand iron heels trying to stamp out spring blossoms. The dark forces exerted their manipulations in the outer world. The angelic contingent counterpointed in the subtle realm. The Earth wobbled. This is an insider’s report from three men who worked alongside the “good guys” to adjust the planet’s Light grid to better support the flowering of human consciousness that had been intended for this date and to resist, even undermine, the infernal opposition. These “good guy” benefactors included angels, archangels, the Great White Brotherhood, even some of the friendly Dead. Ronald, our narrator, with Joe and Mike, his dependable pals, call themselves geomantic engineers. They work on the Light grid, the subtle energy infrastructure of the Earth that supports the material world. They’re like electric utility pole linemen, up there in their extendable buckets, but their main tools are clairvoyance and knowledge of the mechanics of the planet’s many Light temples and systems. Ronald provides a vivid field account of an astonishing array of geomantic interventions and “adjustments” made in the last several years to shore up that potentially fabulous Golden Age, despite the dark forces’ protracted attempts to derail and smash it. The struggle reveals an Earth like you’ve never seen before. Our planet was designed to keep consciousness aligned with the spiritual world, galaxy, and beyond. People were supposed to feel firmly anchored in their bodies and planet. The Earth was meant to be the “gate of the gods,” the original pure meaning of Babylon. In recent centuries, that smooth reciprocal relationship has been upset. Light forces are trying to uplift awareness, dark forces to suppress it. Jump into Ronald’s riveting account to see how it all plays out.

**Teutonic Mythology (The Complete Three-Volume Edition)** Viktor Rydberg, 2022-12-10 Viktor Rydberg's Teutonic Mythology is a monumental three-volume exploration of Northern European myths, encapsulating the vast tapestry of

Teutonic traditions, folklore, and spiritual beliefs. Rydberg employs a critical and comparative literary style, deftly intertwining etymological analysis with narrative retellings that resonate with both historical scholarship and poetic expression. The work stands as a seminal contribution to the study of mythology, offering a comprehensive examination of gods, giants, and heroes that shaped the cultural identity of the Germanic peoples while situating these figures within a broader Indo-European mythological context. Rydberg, a Swedish poet, philosopher, and scholar, was deeply influenced by the Romantic movement and its celebration of national heritage and folklore. His dedication to reviving and cataloging the myths of his ancestors led him to write this exhaustive study, in which he sought to reclaim and illuminate the spiritual legacy of the Teutonic past. His academic rigor and passionate advocacy for cultural understanding reflect a broader yearning in the 19th century to reconnect with pre-Christian roots in contemporary society. Teutonic Mythology is an essential read for anyone interested in the foundations of Western mythology and its echoes in modern literature. Scholars, students, and enthusiasts alike will find Rydberg's rich narrative and analytical insights invaluable as they embark on a journey through the enchanting and often complex world of Teutonic myths.

**God's Sacred Plan for Life** Ronald Wyenn, 2017-05-23 IN THE BEGINNING, THE KNOWLEDGE OF 'GOOD AND EVIL' THAT MANKIND WAS FORBIDDEN TO KNOW DESTROYED US TIME AND AGAIN. KNOWING WHAT WAS FORBIDDEN --- "GOD'S SACRED PLAN FOR LIFE" WILL STOP US FROM DESTROYING THE WORLD IN THE END! Revealing Heaven's greatest secrets, solving life's epic mysteries --- "God's Sacred Plan For Life" tells an ancient story that no one, past or present, ever heard before! The greatest love story ever told about how good triumphs over evil contains one thing that mankind was forbidden to know by the gods of antiquity who created us --- "The Knowledge of Good (God) and Evil (Man)!" In the beginning, the gods who came from the heavens to earth stopped the natural course of man's evolution. Giving them their alien DNA, the first man and woman were genetically engineered to be a slave-species for their creators who needed an army of primitive workers to do what was impossible to do by themselves. Mine a precious metal used to repair their planet's atmosphere from a nuclear holocaust of their own making. Possessed by the DNA in their blood, the first earthlings were made to follow not lead, serve not disobey. The god's lust for conquest, wealth, power, privilege, and status evolved to dominate human nature. Trained to sacrifice themselves and kill their own kind in the name of the egocentric gods they served, man's soulless patterns of pain, suffering, war, and death were all learned from their inhuman patriarchal masters. Created in their image after their likeness, man destroyed countless civilizations, past and present, to become "The King of The World" just as the gods did on their planet. To change the self-destructive course of man's fate, knowing good from evil will reveal the knowledge of 'God's Dual -Nature' that clergy insist is unknowable; the knowledge of 'Man's Dual-Nature' that psychoanalysts contend is mystifyingly contentious and 'DNA's Dual-Nature' --- The cosmic-connection linking the spirit of God to the body of man, that from the beginning created the conflict between the forces of good and evil. Knowing what was

unknown before will change people's egocentric SELFimage. Changing man's inhuman, alien nature mental illness, physical sickness, and spiritual disease will become relics of the past --- Stopping us from destroying all we love and cherish most ourselves, mates, children, families, world, and future. Making the impossible possible God's plan for a better life will prove to be the mother of all SELFhelp, SELFhealing, and SELFtransformational technologies for one unprecedented reason --- "What was forbidden in the beginning that destroyed us is present in the end to save us!"

Genesis of the Shakespearean Works Peter D Matthews,2017-06-11 This book is the result of fourteen years research scrutinizing thousands of historical documents. Dr Matthews reveals never before seen facts regarding the earliest quartos and the first folio - even new research into the leather cover of the Bodleian first folio and how that particular copy came into the possession of the Turbutt family. Dr Matthews has forensically dated the majority of the Shakespearean plays twenty years before earlier scholars, such as Rowe, Malone and Chambers - some plays dated as early as 1561, 1559 and 1558 - up to six years before William Shakespeare was born. Dr Matthews' exemplary philosophical dissertation of the Shakespearean works and its critics, reveals much about the identity of the real authors. A unique reference work essential to Shakespearean scholars and students alike - this crucial work redates the Shakespearean works, scrutinizes each candidate, and definitively answers the authorship debate.

The Geomantic Year Richard Leviton,2006-11-16 The spiritual world blesses the Earth at least 58 times a year-here's how you can join the party. Do you think folklore customs about solstices and equinoxes and other regular celebration days are quaint holdovers from the past? Not so. Do you sometimes wish there were a way to include the entire planet in a meditation practice? There is, and it's called the geomantic year. At least 58 times a year the spiritual world-angels, archangels, Ascended Masters, Star-Angels, even the Supreme Being-tunes in to the Earth, blesses, and even heals it in real-time day-long events. Our planet is constantly receiving input from the cosmos and heavenly realms. It's all part of a rhythmic

maintenance calendar in which the Earth is enlivened, and all of humanity is invited to participate. This book shows you how. What kinds of events? On Epiphany, January 6, the Christ focuses on the planet to birth his Light. On Bifrost Paints the Planet, April 10, the Great Bear constellation envelopes the Earth in 14 rays of light. On Michaelmas, September 29, the Archangel Michael cleanses the Earth's sacred sites and all their plumbing. Other events in the geomantic year involve stars, Nature Spirits, holy mountains, River-gods, Pleiadians, Hollow Earth dwellers, Grail Kings, volcano spirits, the Great Mother, and much more. The Geomantic Year documents 58 festival dates that focus on the Earth through its sacred sites, and it provides 58 simple meditations to help you participate. And it offers 12 informative essays linking Earth energies with hot topics such as the Illuminati and world control, parallel universes, the world's gold supply, the Ghost Dance, the Fall of Man, Earth and climate changes, and the apocalyptic year 2012. Why not get out your appointment book and pencil in a few dates: the Earth's expecting you!

*All the Names of the Lord* Valentina Izmirlieva, 2008-09-15 Christians face a conundrum when it comes to naming God, for if God is unnamable, as theologians maintain, he can also be called by every name. His proper name is thus an open-ended, all-encompassing list, a mystery the Church embraces in its rhetoric, but which many Christians have found difficult to accept. To explore this conflict, Valentina Izmirlieva examines two lists of God's names: one from *The Divine Names*, the classic treatise by Pseudo-Dionysius, and the other from *The 72 Names of the Lord*, an amulet whose history binds together Kabbalah and Christianity, Jews and Slavs, Palestine, Provence, and the Balkans. This unexpected juxtaposition of a theological treatise and a magical amulet allows Izmirlieva to reveal lists' rhetorical potential to create order and to function

as both tools of knowledge and of power. Despite the two different visions of order represented by each list, Izmirlieva finds that their uses in Christian practice point to a complementary relationship between the existential need for God's protection and the metaphysical desire to submit to his infinite majesty—a compelling claim sure to provoke discussion among scholars in many fields.

*Symbols of the Kabbalah* Sanford L. Drob, 1999-11-01 Symbols of the Kabbalah: Philosophical and Psychological Perspectives provides a philosophical and psychological interpretation of the major symbols of the theosophical Kabbalah. It shows that the Kabbalah, particularly as it is expressed in the school of Isaac Luria, provides a coherent and comprehensive account of the cosmos, and humanity's role within it, that is intellectually, morally, and spiritually significant for contemporary life.

*Orogenies of Light* Richard Leviton, 2019-10-29 ONE DAY IN 2084 EARTH'S ORIGINAL MOUNTAINS SUDDENLY REAPPEARED ON THE PLANET—AS 85,000 DOMED CANOPIES OF LIGHT FROM THE STARS. The story of this return is told by Blaise, a well-informed but mysterious figure who claims to be an engineer 134 years old and part of an ancient team that first designed the planet. It's a chronicle of his last field assignment, a unique career retrospective, and a firsthand account of the momentous return of the domes. These are giant half-spheres of Light that originally helped create the biosphere and were the Earth's first mountains. They generated the Earth's sacred sites and the mythic homes of the gods and linked them all in a global pattern of Light. The domes arrived all at once and started to reorganize the global landscape. It was their fourth visit, and it would be several perilous years as the planet adjusts to it. Blaise and his team of geomancers travel across the Earth and time to deal with the unprecedented perturbations set in motion by this celestial rescue of the planet. Problems are rife—the revolt of Pan and the Nature Spirits, the continuing dark interference by humanity's ghostly forebears, the resurgence of Babylon and its imperious agenda, and the planet's dangerous drift towards becoming flattened like a hockey-puck. But the opportunities are fabulous too as the planet enters an era of unceasing Light and beatific conditions. The return of the domes lays bare the true history of the Earth, how it diminished from perfection, the benign superintendents of this bold experiment, and who its earliest inhabitants were and the massive problems they created which still affect us today. It is a genuinely apocalyptic moment, as the Earth reveals its original bright pattern of energy and consciousness and starts at last to fulfill its destiny.
