Early Human Kinship Nicholas J. Allen,Hilary Callan,Robin Dunbar,Wendy James,2011-01-04 *Early Human Kinship* brings together original studies from leading figures in the biological sciences, social anthropology, archaeology, and linguistics to provide a major breakthrough in the debate over human evolution and the nature of society. A major new collaboration between specialists across the range of the human sciences including evolutionary biology and psychology; social/cultural anthropology; archaeology and linguistics Provides a ground-breaking set of original studies offering a new perspective on early human history Debates fundamental questions about early human society: Was there a connection between the beginnings of language and the beginnings of organized 'kinship and marriage'? How far did evolutionary selection favor gender and generation as principles for regulating social relations? Sponsored by the Royal Anthropological Institute of Great Britain and Ireland in conjunction with the British Academy

John Lehmann A. Trevor Tolley,1987 One of the outstanding editors of this century, John Lehmann founded *New Writing* and *London Magazine* as well as other literary journals. He also wrote poems, two novels and a distinguished literary autobiography. All aspects of Lehmann's work are discussed in this book of recollections and essays of friends, critics and other writers.

Rosamond Lehmann Judy Simons,2011 This book locates Lehmann's fictional achievement in the context of her times and in particular describes its positioning within the turbulent period between two world wars and the changing aesthetic of modernity.

The Making of the Modern Greek Family Paul Sant Cassia,Constantina Bada,1992 This 1991 study deals with a specific set of institutions in nineteenth-century Athens. Relying on matrimonial contracts, travellers' accounts, memoirs and popular literature, the authors show how distinctive forms of marriage, kinship and property transmission evolved in Athens in the nineteenth century. These forms then became a feature of wider Greek society which continued into the twentieth century. Greece was the first post-colonial modern nation state in Europe whose national identity was created largely by peasants who had migrated to the city. As Athenian society became less agrarian, a new mercantile group superseded and incorporated previous elites and went on to dominate and control the new resources of the nation state. Such groups developed their own, more mobile, systems of property transmission, mostly in response to external pressures of a political

and economic character. This is a persuasive piece of detective work which has advanced our knowledge of modern Greece. It is a model for scholarship on the development of family and other 'intimate' ideologies where nation states encroach upon local consciousness.

Jews and the Mediterranean Matthias B. Lehmann, Jessica M. Marglin, 2020-06-02 A selection of essays examining the significance of what Jewish history and Mediterranean studies contribute to our knowledge of the other. Jews and the Mediterranean considers the historical potency and uniqueness of what happens when Sephardi, Mizrahi, and Ashkenazi Jews meet in the Mediterranean region. By focusing on the specificity of the Jewish experience, the essays gathered in this volume emphasize human agency and culture over the length of Mediterranean history. This collection draws attention to what made Jewish people distinctive and warns against facile notions of Mediterranean connectivity, diversity, fluidity, and hybridity, presenting a new assessment of the Jewish experience in the Mediterranean.

Irrepressible Emily Bingham, 2015-06-16 Raised like a princess in one of the most powerful families in the American South, Henrietta Bingham was offered the helm of a publishing empire. Instead, she ripped through the Jazz Age like an F. Scott Fitzgerald character: intoxicating and intoxicated, selfish and shameless, seductive and brilliant, endearing and often terribly troubled. In New York, Louisville, and London, she drove both men and women wild with desire, and her youth blazed with sex. But her love affairs with women made her the subject of derision and caused a doctor to try to cure her queerness. After the speed and pleasure of her early days, the toxicity of judgment from others coupled with her own anxieties resulted in years of addiction and breakdowns. And perhaps most painfully, she became a source of embarrassment for her family—she was labeled a three-dollar bill. But forebears can become fairy-tale figures, especially when they defy tradition and are spoken of only in whispers. For the biographer and historian Emily Bingham, the secret of who her great-aunt was, and just why her story was concealed for so long, led to *Irrepressible: The Jazz Age Life of Henrietta Bingham*. Henrietta rode the cultural cusp as a muse to the Bloomsbury Group, the daughter of the ambassador to the United Kingdom during the rise of Nazism, the seductress of royalty and athletic champions, and a pre-Stonewall figure who never buckled to convention. Henrietta's audacious physicality made her unforgettable in her own time, and her ecstatic and harrowing life serves as an astonishing reminder of the stories lying buried in our own families.

Modern Ladino Culture Olga Borovaya, 2011-12-05 Olga Borovaya explores the emergence and expansion of print culture in Ladino (Judeo-Spanish), the mother tongue of the Sephardic Jews of the Ottoman Empire, in the second half of the 19th and early 20th centuries. She provides the first comprehensive study of the three major forms of Ladino literary production—the press, belles lettres, and theater—as a single cultural phenomenon. The product of meticulous research and innovative methodology, *Modern Ladino Culture* offers a new perspective on the history of the Ladino press, a novel approach to the study of belles lettres in Ladino and their relationship to their European sources, and a fine-grained critique

of Sephardic plays as venues for moral education and politicization.

PATRIMONIAL POWER in the MODERN WORLD Julia Adams,Mounira M. Charrad,2011-07 During the 2011 uprisings in the Arab world, protesters demanded the ouster of authoritarian forms of rule and an end to the influence of ruling families on politics, society, and the economy. These upheavals revealed that patrimonial power in its diverse forms is still a dynamic force in global politics, able to shape world events. This volume brings the study of patrimonialism back to center stage and presents the concept as a useful tool to analyze how nations, global developments, and international relations are influenced and transformed. Leading scholars show that patrimonial practices, present throughout history, are important features of global capitalist modernity. The authors analyze patrimonial politics in regions throughout the world, including in the United States, Tunisia, Chile, France, Iraq, Lebanon, Morocco, Poland, and Russia. This volume will appeal to students of politics and policy and to a multidisciplinary scholarly audience in political sociology, historical social science, history, and social theory.

Ottoman Jewry Yaron Ayalon,2024-12-16 This book is a history of Ottoman Jews that challenges prevailing assumptions about Jews' arrival in the empire, their relations with Muslims, and the role of religious and lay leaders. The book argues that rabbis played a less prominent role as communal and spiritual leaders than we have thought; and that the religious community was one of several frameworks within which Ottoman Jews operated. A focus on charitable and educational communal practices shows that with time Jews preferred to avoid the scrutiny of rabbis and the community, leading to private initiatives that undermined rabbinical and lay authority.

Actors Carved and Cast Ethan Matt Kavalier,2024-05-23 Painting has long dominated discussions of Netherlandish art. Yet in the sixteenth century sculpture was held in considerably higher regard than painting, especially in foreign lands. This beautifully illustrated book is the first comprehensive study of sixteenth-century Netherlandish sculpture, and it opens an important window onto the works and milieu of these artists. Netherlanders dominated the sculptural world of northern Europe. They made the most prestigious tombs and altarpieces, alabaster reliefs, and boxwood collectibles for patrons throughout Iberia, France, and Central Europe. Even in Italy they were a formidable presence; the most famous sculptor in Europe in the second half of the sixteenth century was Giambologna, a Fleming who spent the greater part of his career in Florence. A great many of these artists immigrated to foreign courts—so many that the history of Netherlandish sculpture in the second half of the sixteenth century plays out largely abroad. Netherlandish carvers and casters relocated to what are today Austria, Denmark, England, France, Germany, Italy, Poland, Portugal, Spain, Sweden, and Ukraine. Sculpture, more so than painting, was an essential tool in discourses of power. Offering an essential new perspective on a fascinating period in art history, *Actors Carved and Cast* will appeal to scholars of sculpture and all those interested in Northern Renaissance art.

Economic Development E. Wayne Nafziger,2012-03-26 Nafziger explains the reasons for the recent fast growth of India, Poland, Brazil, China, and other Pacific Rim countries, and the slow, yet essential, growth for a turnaround of sub-Saharan Africa. The book is suitable for those with a background in economics principles. The fifth edition of the text, written by a scholar of developing countries, is replete with real-world examples and up-to-date information. Nafziger discusses poverty, income inequality, hunger, unemployment, the environment and carbon-dioxide emissions, and the widening gap between rich (including middle-income) and poor countries. Other new components include the rise and fall of models based on Russia, Japan, China/Taiwan/Korea and North America; randomized experiments to assess aid; an exploration of whether information technology and mobile phones can provide poor countries with a shortcut to prosperity; and a discussion of how worldwide financial crises, debt, and trade and capital markets affect developing countries.

Religion, State and the United Nations Anne Stensvold,2016-07-22 This volume approaches the UN as a laboratory of religio-political value politics. Over the last two decades religion has acquired increasing influence in international politics, and religious violence and terrorism has attracted much scholarly attention. But there is another parallel development which has gone largely unnoticed, namely the increasing political impact of peaceful religious actors. With several religious actors

in one place and interacting under the same conditions, the UN is as a multi-religious society writ small. The contributors to this book analyse the most influential religious actors at the UN (including The Roman Catholic Church; The Organisation of Islamic Countries; the Russian Orthodox Church). Mapping the peaceful political engagements of religious actors; who they are and how they collaborate with each other - whether on an ad hoc basis or by forming more permanent networks - throwing light at the modus operandi of religious actors at the UN; their strategies and motivations. The chapters are closely interrelated through the shared focus on the UN and common theoretical perspectives, and pursue two intertwined aspects of religious value politics, namely the whys and hows of cross-religious cooperation on the one hand, and the interaction between religious actors and states on the other. Drawing together a broad range of experts on religious actors, this work will be of great interest to students and scholars of Religion and Politics, International Relations and the UN.
