Decomposing Figures Cynthia Chase, 2019-12-01 Originally published in 1986. The ghastly fate of a drowned man brought to a lake's surface in Wordsworth's *Prelude* typifies a fundamental pattern in Romantic writing, argues Cynthia Chase. Disfiguration involves not only a departure from representation but a disruption of the logic of figure or form, a decomposition of the figures composing the text. Ultimately it manifests the conflict between a work's meaning and its mode of performance. By means of an intense engagement with texts in the romantic tradition, *Decomposing Figures* rearticulates and recasts crucial concepts in recent literary theory, including the notion of the self-referential or self-reflexive nature of the literary work. Chase's readings show that, far from implying a privileged status, the work's self-reflexive structure entails its opacity, its inability to read itself, and the necessity of its decomposition.

Julia Kristeva (RLE Feminist Theory) John Lechte, 2012-11-12 A leading literary critic and psychoanalyst, Julia Kristeva is one of the most significant French thinkers writing today. In this up-to-date survey of her work, John Lechte outlines fully and systematically her intellectual development. He traces it from her work on Bakhtin and the logic of poetic language in the 1960s, through her influential theories of the 'symbolic' and the 'semiotic' in the 1970s, to her analyses of horror, love, melancholy and cosmopolitanism in the 1980s. He provides an insight into the intellectual and historical context which gave rise to Kristeva's thought, showing how thinkers such as Roland Barthes, Emile Benviste and Georges Bataille have been important in stimulating her own reflections. He concludes with an overall assessment of Kristeva's work, looking in particular at her importance for feminism and postmodern thought in general. Essential reading for all those who wish to extend their understanding of this important thinker, this first full-length study of Kristeva's work will be of interest to students of literature, sociology, critical theory, feminist theory, French studies and psychoanalysis.

Shakespeare's Verbal Art William Bellamy, 2016-01-14 Shakespeare's Verbal Art is a profoundly important study of the newly rediscovered anagrams that lie hidden below the surface of all Shakespearean texts. It explains the essential role played by these concealed figures in Classical and Renaissance poetry, demonstrating the revelatory function of anagram by reference to the close analysis of a wide range of examples. Special attention is given to Shakespeare's use of these sub-textual devices to clarify meaning and intention. The focus is first on Shakespeare's Sonnets of 1609, and secondly on Hamlet, Othello and Twelfth Night, all of which are found to be composed around the concealed anagrams that render these works self-interpreting. A new kind of language use is revealed, in terms of which pre-Enlightenment text is envisaged as existing in two distinct dimensions - the overt and the covert - both of which must be read if any particular poem or play is to be fully understood. In effect, a wholly new set of Shakespearean texts is made available to the reader, who will find Shakespeare's Verbal Art an essential guide to the new discoveries. The book will also be indispensable in the fields of Classical and Renaissance literature, linguistics, poetics, rhetoric, and literary history, and in relation to the pre-Enlightenment text in general, and will interest both the specialist and the general reader.

Sounds Senses yasser elhariry, 2021-11-10 Sounds Senses is about what happens to the francophone postcolonial condition when sound is taken as a point of departure for engaging cultural production. Offering a synthetic overview of sound studies, it dismantles the retinal paradigms and oculocentrism of francophone postcolonial studies. By shifting the sensory hermeneutics of perception from the visual, the textual, and the graphemic to the sonic, the auditory, and the phonemic, the book places cultural production that privileges or otherwise exaggerates aestheticized sensorial experiences at the forefront of francophone postcolonialism. In the process, it introduces two primary theoretical thrusts—the unheard and

the unintegrated—to the project of analyzing, extending, and rejuvenating francophone postcolonial studies. The book reevaluates francophone culture in relation to sound and the experience of sound, situating it along the fluid axes of paralingual utterance, audio-vision, voice, and narrative speakers. Through a range of case studies focusing on parafrancophonics, poetry, world music, cinema, the graphic novel, popular speech phenomenæ, and the poetics and politics of transcolonial identification, *Sounds Senses* demonstrates how francophone postcolonial culture is satiated with a glut of unexplored sonic significance.

The Rhetoric of Topics and Forms Gianna Zocco, 2021-01-18 The fourth volume of the collected papers of the ICLA congress “The Many Languages of Comparative Literature” includes articles that study thematic and formal elements of literary texts. Although the question of prioritizing either the level of content or that of form has often provoked controversies, most contributions here treat them as internally connected. While theoretical considerations inform many of the readings, the main interest of most articles can be described as rhetorical (in the widest sense) – given that the ancient discipline of rhetoric did not only include the study of rhetorical figures and tropes such as metaphor, irony, or satire, but also that of *topoi*, which were originally viewed as the ‘places’ where certain arguments could be found, but later came to represent the arguments or intellectual themes themselves. Another feature shared by most of the articles is the tendency of ‘undeclared thematology’, which not only reflects the persistence of the charge of positivism, but also shows that most scholars prefer to locate themselves within more specific, often interdisciplinary fields of literary study. In this sense, this volume does not only prove the ongoing relevance of traditional fields such as rhetoric and thematology, but provides contributions to currently flourishing research areas, among them literary multilingualism, literature and emotions, and ecocriticism.

The Lyric Theory Reader Virginia Walker Jackson, Yopie Prins, 2014-02 Reading lyric poetry over the past century. The *Lyric Theory Reader* collects major essays on the modern idea of lyric, made available here for the first time in one place. Representing a wide range of perspectives in Anglo-American literary criticism from the twentieth and twenty-first centuries, the collection as a whole documents the diversity and energy of ongoing critical conversations about lyric poetry. Virginia Jackson and Yopie Prins frame these conversations with a general introduction, bibliographies for further reading, and introductions to each of the anthology’s ten sections: genre theory, historical models of lyric, New Criticism, structuralist and post-structuralist reading, Frankfurt School approaches, phenomenologies of lyric reading, avant-garde anti-lyricism, lyric and sexual difference, and comparative lyric. Designed for students, teachers, scholars, poets, and readers with a general interest in poetics, this book presents an intellectual history of the theory of lyric reading that has circulated both within and

beyond the classroom, wherever poetry is taught, read, discussed, and debated today.

Mallarmé and the Art of Being Difficult Malcolm Bowie, 1978-06-22 Mallarmé is widely regarded as one of the most original and distinctively modern writers of the late nineteenth century. At the same time, his fame is accompanied by a certain notoriety, and his works are often thought of as unnecessarily complicated. In this study Malcolm Bowie shows that difficulty is of the essence in a number of Mallarmé's major works, notably 'Prose pour des Esseintes' and *Un Coup de dés jamais n'abolira le hasard*. He argues that the poems are difficult because they are concerned with complex metaphysical questions and with speculative states of mind. Their closely interwoven multiple meanings, their intricate word-play and sound-patterning invite us to read inventively on many levels at once. Professor Bowie discusses difficulty as a general critical problem, analyses several major poems in detail, and calls attention to a number of techniques for the analysis of verse. He directs the reader away from the question 'What does this poem mean?' and towards the question 'How can this poem be read fully and with enjoyment?'. The book contains the complete text of the main poems discussed.

Routledge Library Editions: Philosophy of Language Various Authors, 2021-07-14 Philosophical themes as diverse as language, value, mind and God are among the topics discussed in this set of 11 books, originally published between 1963 and 1991. Specific volumes cover the following: The relation between persuasion and truth criticism of linguistic philosophy, questions about the nature of thought and ontological questions in general.

The Birth of Intertextuality Scarlett Baron, 2019-11-01 Why was the term 'intertextuality' coined? Why did its first theorists feel the need to replace or complement those terms – of quotation, allusion, echo, reference, influence, imitation, parody, pastiche, among others – which had previously seemed adequate and sufficient to the description of literary relations? Why, especially in view of the fact that it is still met with resistance, did the new concept achieve such popularity so fast? Why has it retained its currency in spite of its inherent paradoxes? Since 1966, when Kristeva defined every text as a 'mosaic of quotations', 'intertextuality' has become an all-pervasive catchword in literature and other humanities departments; yet the notion, as commonly used, remains nebulous to the point of meaninglessness. This book seeks to shed light on this thought-provoking but treacherously polyvalent concept by tracing the theory's core ideas and emblematic images to paradigm shifts in the fields of science, philosophy, psychoanalysis, and linguistics, focusing on the shaping roles of Darwin, Nietzsche, Freud, Saussure, and Bakhtin. In so doing, it elucidates the meaning of one of the most frequently used

terms in contemporary criticism, thereby providing a much-needed foundation for clearer discussions of literary relations across the discipline and beyond.

The Art Criticism of Francis Ponge Shirley Ann Jordan, 1994 This study of Francis Ponge's essays on contemporary artists (L'Atelier contemporain) attempts to broaden the popular view of the author as a poet of objects. It explores Ponge's perception of art criticism as an inherently problematic genre and exposes the inhibitions surrounding the production of the essays. The study demonstrates how Ponge's essays on artists parallel developments in his other works. They are seen as instrumental in his movement towards open texts and a stress on the creative process itself, as well as opportunities to reaffirm his philosophical and aesthetic stance.

Philosophy Through The Looking-Glass Jean-Jacques Lecercle, 2016-08-05 It is generally accepted that language is primarily a means of communication. But do we always mean what we say - must we mean something when we talk? This book explores the other side of language, where words are incoherent and meaning fails us. It argues that this shadedy side of language is more important in our everyday speech than linguists and philosophers recognize. Historically this other side of language known as has attracted more attention in France than elsewhere. It is particularly interesting because it brings together texts from a wide range of fields, including fiction, poetry and linguistics. The author also discusses the kind of linguistics that must be developed to deal with such texts, a linguistics which makes use of psychoanalytic knowledge. This tradition of writing has produced a major philosopher, Gilles Deleuze. This book provides an introduction to his work, an account of his original theory of meaning and an analysis of the celebrated *Anti-Oedipus*, which takes *délire* as one of its main themes.

The Memory of Tiresias M. B. I[A]mpol'skiĭ, 1998-10-26 Iampolski deals with concepts and ideas that are highly complex and frequently very abstract, yet his discussion—and the progression of his analyses—is always precise and easy to follow. . . . Each of his points is grounded in a careful examination of a specific text, and most of the texts are well-known to American audiences.—Vladimir Padunov, University of Pittsburgh
