Common and Uncommon Quotes: A Theory and History of Epigraphs Jared A. Griffin, 2023-03-07 'Common and Uncommon Quotes: A Theory and History of Epigraphs' is a prolegomenon to the study of epigraphic paratextuality. Building on the work of Gerard Genette's paratextual studies, this volume contextualizes and traces the practice of epigraphy in Anglophone literary history, from the fifteenth to the early twentieth century. This study explores how epigraphs are used by author-functions as a hermeneutic for their text and to establish ethos with their audience, and how that paratextual relationship changed as publishing opportunities and literacy rates grew over four centuries. The first broad-reaching study of this kind, 'Common and Uncommon Quotes' seeks to understand how epigraphs work: through their privilege on the page, their appeal to conjured ideas of the past, and their calls to citizenship.

History and Morality Donald Bloxham, 2020 Should historians make value judgements about the past? Many historians think not, but Donald Bloxham contends that it is legitimate, often unavoidable, and frequently important. History and Morality illuminates how far tacit moral judgements infuse works of history, and how strange those histories would look if the

judgements were removed.

The Oxford Handbook of Ralph Waldo Emerson Christopher Hanlon, 2024-07-12 The Oxford Handbook of Ralph Waldo Emerson is the most expansive collection of critical essays on Emerson to date, a survey that approaches Emerson from the vantages of climate change, racial justice, print culture, the digital humanities, the new religious studies, hemispheric American Studies, health humanities, and affect theory among other critical perspectives. Curated between a forward by editor Christopher Hanlon--who makes the case for a capacious and contemporary Emerson--and Cornel West--the activist-scholar whose influential work on Emerson merges with a career of advocacy for economic and racial justice--this collection assesses the history and state of Emerson scholarship while charting pathways for new work on this most essential American writer. Comprised of new works by leading figures in nineteenth-century Americanist literary studies, the volume suggests directions into underexamined facets of Emerson's writing, life, and reputation. From Emerson's engagements with energy infrastructure and the processes of extraction that undergirded the locomotives he rode and the energy economies he sometimes extolled; to the vicissitudes of age he experienced alongside the romantic tropes of youthful vigour he both re-circulated and re-tooled; to Emerson's poetry, both in its philosophical formulations and in its reflections of the material circumstances of nineteenth-century print culture; to Emerson's resonance beyond the United States, elsewhere in the western hemisphere; to the Black press and its refractions of Emersonian transcendentalism in the midst of ante- and post-bellum justice struggles; to the legacies of Emerson to be found in the writings of W.E.B. Du Bois, James Baldwin, Rachel Carson, and in the versions of "Emerson" to be found in children's literature; to his often-fraught and often-fruitful engagements with reform movements of various sorts; to the prospects for digital processes of re-reading Emerson and his contemporaries' styles of textual production and engagement, The Oxford Handbook of Ralph Waldo Emerson is a necessary resource for students, scholars, and general readers committed to the study of Emerson, transcendentalism, and current critical approaches to United States literature.

Xuedou's 100 Odes to Old Cases Xuedou,2024 Xuedou's 100 Odes to Old Cases is recognized as the seminal discourse in Chan Buddhism, one that has exerted significant influence on the way stories of former teachers (guze) have been appreciated and appropriated for the past thousand years. In this volume, Steven Heine offers a much-needed translation of this pivotal work along with extensive background and commentary. Heine brings important perspective to a 1000-year old text that became the basis for the Blue Cliff Record, which continues to have a profound impact on the overall legacy of East Asian Buddhist intellectual history and religious literature. Xuedou's verses reflect the author's unique capacity for taming through elegance the undisciplined and deluded minds of followers struggling with self-imposed obstacles to discern reality and thereby discover inner peace. Xuedou cites multiple Chan sources, uses irregular meter to disrupt the reader's expectations, and evokes unusual allusions to Chinese lore while often interjecting personal comments or lyrical imagery that goes beyond a reliance on doctrine. Xuedou's work is timeless, informative, and extremely influential. Heine offers us a glimpse into his mind and work, as we are taken back in time to the birth of the most essential aesthetic qualities of Chan and Zen Buddhist discourse.

The Sacred Depths of Nature Ursula Goodenough, 2023 This eloquent volume reconciles our contemporary scientific understanding of reality with our timeless spiritual yearnings. Addressing ideas like evolution, emotions, sexuality, and death, *The Sacred Depths of Nature* allows even non-scientists to appreciate that the origins of life and the universe are no less meaningful in light of our scientific understanding of them. This new edition offers a deepened consideration of emergent properties and emergent dynamics, as well as an exploration of their role as the generators of life's complexity. Goodenough also expands upon the ethic of ecomorality in a new chapter, and incorporates new quotes, figures, and poems in her analysis.

Emerson in Iran Roger Sedarat, 2019-05-31 *Emerson in Iran* is the first full-length study of Persian influence in the work of the seminal American poet, philosopher, and translator, Ralph Waldo Emerson. Extending the current trend in transnational studies back to the figural origins of both the United States and Iran, Roger Sedarat's insightful comparative readings of Platonism and Sufi mysticism reveal how Emerson managed to reconcile through verse two countries so seemingly different in religion and philosophy. By tracking various rhetorical strategies through a close interrogation of Emerson's own writings on language and literary appropriation, Sedarat exposes the development of a latent but considerable translation theory in the American literary tradition. He further shows how generative Persian poetry becomes during Emerson's nineteenth century, and how such formative effects continue to influence contemporary American poetry and verse translation.

The Pastor in a Changing Society Zawadi Job Kinyamagoha, 2014-10-07 This book examines how social change affects the role of the pastor in an African context. Through field study in African churches, author Zawadi Job Kinyamagoha explores how pastors work amid the tensions of rapid social change and suggests how pastors can constructively respond to social change by using it as an opportunity in their pastoral ministry. Contemporary society is characterized by three cultural

spheres: the economic sphere, the public sphere, and the democratic or self-governance rule, the realities of which many pastors seem to overlook. Church authorities seem to adhere rigidly to strict principles and rules without accommodating the realities of society. Conversely, a changing society demands that pastors work with the reality at hand, leaving pastors caught between two conflicting tensions: the pressure from church authorities and from a changing social reality. The Pastor in a Changing Society seeks to help Tanzanian and African pastors rethink existing doctrines and practices in order to better respond to the reality of a changing society.
