The Columbia Guide to the Latin American Novel Since 1945 Raymond L. Williams, 2007-09-21 In this expertly crafted, richly detailed guide, Raymond Leslie Williams explores the cultural, political, and historical events that have shaped the Latin American and Caribbean novel since the end of World War II. In addition to works originally composed in English, Williams covers novels written in Spanish, Portuguese, French, Dutch, and Haitian Creole, and traces the profound influence of modernization, revolution, and democratization on the writing of this era. Beginning in 1945, Williams introduces major trends by region, including the Caribbean and U.S. Latino novel, the Mexican and Central American novel, the Andean novel, the Southern Cone novel, and the novel of Brazil. He discusses the rise of the modernist novel in the 1940s, led by Jorge Luis Borges's reaffirmation of the right of invention, and covers the advent of the postmodern generation of the 1990s in Brazil, the Generation of the Crack in Mexico, and the McOndo generation in other parts of Latin America. An alphabetical guide offers biographies of authors, coverage of major topics, and brief introductions to individual novels. It also addresses such areas as women's writing, Afro-Latin American writing, and magic realism. The guide's final section includes an annotated bibliography of introductory studies on the Latin American and Caribbean novel, national literary traditions, and the work of individual authors. From early attempts to synthesize postcolonial concerns with modernist aesthetics to the current focus on urban violence and globalization, *The Columbia Guide to the Latin American Novel Since 1945* presents a comprehensive, accessible portrait of a thoroughly diverse and complex branch of world literature.

A Barrister for the Earth Monica Feria-Tinta, 2025-04-22 'From her chambers in London, one of Britain's most dazzling legal minds is taking on the challenge of a lifetime.' VOGUE 'Law could be our planet's greatest hope. I was punching the air

as I read this powerful, inspiring book.' ISABELLA TREE 'Fascinating and compelling . . . A vital book for our times.' JULIAN HOFFMAN * Can a planet have legal rights? Could it be defended in a court of law? How do we redefine a 'right to life'? A revolution is taking place. Around the world, ordinary people are turning to courts, seeking justice for environmental wrongs. At the forefront of this movement, pioneering barrister Monica Feria-Tinta advocates not only for people, but also for those who have no voice: for rivers, forests and endangered species. In *A Barrister for the Earth*, Feria-Tinta takes us behind the scenes of ten real cases as she argues against the destruction of cloud forests and for sovereign states to account for inaction. Each of these are landmarks signalling that we are at an important juncture, in which the law can be a powerful tool for the lasting change.

Rock Aesthetics in Colombian Literature and Culture David Martinez Houghton, 2024-10-15 *Rock Aesthetics in Colombian Literature and Culture: Writing the Noise* explores the presence of a rock aesthetic in the Colombian literary field and how its pivotal role in creating alternative creative expressions that challenge the dominance of tropicality as the prevailing artistic reference. More than a musical genre or a cultural industry, rock is also an aesthetic: a significant social practice that allows one to understand what people consider beautiful or authentic. Since its birth in the mid-1950s, rock as an aesthetic has expanded worldwide, transforming and establishing dialogues with artistic practices such as literature. Through an analysis of a series of novels, poems, and manifestos written from the 1950s to the early years of the twenty-first century, David Martínez Houghton embarks on a literary, musical, and historical journey. On the way, he explores complex phenomena such as urban violence, the formation of youth identities, the penetration of pop culture, national identity discourses, and even the social and physical transformation of Colombian cities.

Liveforever Andrés Caicedo, 2014-05-01 Andrés Caicedo's novel *Liveforever* is a wild celebration of youth, hedonism and the transforming power of music. María del Carmen Huerta lives a respectable middle-class life in Colombia. One day she misses class, and discovers she cannot return to her ordinary existence but must pursue her passion for dancing across the city. We follow her from rumbas in car parks to concerts in shantytowns as she gives in to every desire - however dark. Published in 1977, *Liveforever* was its young author's masterpiece - and final work. Andrés Caicedo took his life the day it was published, but it has been recognized as a landmark in Colombian literature ever since. Andrés Caicedo was born in Cali, Colombia on September 29, 1951. In his short life, he wrote dozens of articles on film, several plays, screenplays, novellas, and countless short stories, with a prominent focus on social discord. He committed suicide at the age of 25.

The Oxford Handbook of Jonathan Edwards Douglas A. Sweeney, Jan Stievernann, 2021-02-02 *The Oxford Handbook of Jonathan Edwards* offers a state-of-the-art summary of scholarship on Edwards by a diverse, international, and interdisciplinary group of Edwards scholars, many of whom serve as global leaders in the burgeoning world of research and

writing on 'America's theologian'. As an early modern clerical polymath, Edwards is of interest to historians, theologians, and literary scholars. He is also an interlocutor for contemporary clergy and philosophical theologians. All such readers--and many more--will find here an authoritative overview of Edwards' life, ministry, and writings, as well as a representative sampling of cutting-edge scholarship on Edwards from across several disciplines. The volume falls into four sections, which reflect the diversity of Edwards studies today. The first section turns to the historical Edwards and grounds him in his period and the relevant contexts that shaped his life and work. The second section balances the historical reconstruction of Edwards as a theological and philosophical thinker with explorations of his usefulness for constructive theology and the church today. In part three, the focus shifts to the different ways and contexts in which Edwards attempted to realize his ideas and ideals in his personal life, scholarship, and ministry, but also to the ways in which these historical realities stood in tension with, limited, or resisted his aspirations. The final section looks at Edwards' widening renown and influence as well as diverse appropriations. This Handbook serves as an authoritative guide for readers overwhelmed by the enormity of the multi-lingual world of Edwards studies. It will bring readers up to speed on the most important work being done and then serve them as a benchmark in the field of Edwards scholarship for decades to come.

Visionary Art of the Americas Juan David Cadena Botero, 2023-11-28 Unlike their European predecessors, many Latin American and North American authors turned to hallucinatory substances as elements of their own hemispheric heritage. The twentieth-century narratives analyzed in *Visionary Art of the Americas: Hemispheric Transculturations, Hallucinogens, Politics, Aesthetics, and Mass Consumer Culture in the United States, Mexico, and Colombia* acquire their true depth only within a much wider realm of visionary traditions spanning Asia, Africa, and the Americas. Socially and culturally marginalized alongside users, hallucinogens—simultaneously a colonial anathema and a sacred pre-Columbian ritual—have

gained increased mainstream acceptance. The various films and texts analyzed in this book attest to the true heterogeneity of hallucinogenic experience in the Americas at a time when scholarly attention to hallucination and visions as a survival adaptation of organic intelligence is crucial to understand its differences from A.I.

Decolonising the University Boaventura de Sousa Santos, 2018-04-18 At each particular historical moment, the university appears as a heavy and rigid structure resisting changes, whereas, throughout time, it has actually undergone profound transformation. Often such changes have been drastic and almost always provoked by factors external to the university, be they of a religious, political or economic nature. This book explores the nature and dynamics of the transformation that the university is undergoing today. It argues that some of the projects of reform currently under way are so radical that the question of the future of the university may well turn into the question of whether the university has a future. A specific feature of this inquiry is the realisation that questioning the future of the university involves questioning its past as well.

Colombian Gothic in Cinema and Literature Gabriel Eljaiek-Rodríguez, 2021-11-16 The Colombian Gothic in Cinema and Literature traces the aesthetic and political development of the Gothic genre in Colombia. Gabriel Eljaiek-Rodríguez shows how, in the hands of Colombian writers and filmmakers, Gothic tropes are taken to their extremes to reflect particularly Colombian issues, like the ongoing armed conflict in the country since the 1950s as various left wing guerillas, government factions and paramilitary groups escalated violence. In this context, collectives such as the “Cali group” challenge both the centrality of US and European Gothics as well as the centrality of Bogota-centered perspectives of Colombian politics and conflict. The book demonstrates how writers and filmmakers transform the European and American Gothic to show genealogical links between colonization, imperialism and domestic elites’ maintenance of social inequalities.

The Struggle for Power in Post-Independence Colombia and Venezuela M. Brown, 2012-06-04 A collective biography of the veterans of the battle of El Santuario (1829), this book uses the untold stories of ordinary lives to examine the history of the imperial conflicts that shaped politics and society in Colombia and Venezuela after independence from colonial rule.

The Aesthetics of Rule and Resistance Lisa Bogerts, 2022-03-11 Effective visual communication has become an essential strategy for grassroots political activists, who use images to publicly express resistance and make their claims visible in the struggle for political power. However, this “aesthetics of resistance” is also employed by political and economic elites for their own purposes, making it increasingly difficult to distinguish from the “aesthetics of rule.” Through illuminating case studies of street art in Buenos Aires, Bogotá, Caracas, and Mexico City, *The Aesthetics of Rule and Resistance* explores the visual strategies of persuasion and meaning-making employed by both rulers and resisters to foster self-legitimization, identification, and mobilization.

The Aesthetic Border Brantley Nicholson, 2022-05-22 This groundbreaking study examines how modern Colombian

literature—from Gabriel García Márquez to Juan Gabriel Vásquez—reflects one of the world’s most tumultuous entrances into globalization. While these literary icons, one canonical, the other emergent, bookend Colombia’s fall and rise on the world stage, the period between the two was inordinately violent, spanning the Colombian urban novel’s evolution into narco-literature. Marking Colombia’s cultural and literary manifestations as threefold, this book explores García Márquez’s retreat to a rural romanticism that paradoxically made him a global literary icon; the country’s violent end to the twentieth century when its largest economic export was narcotics; and the contemporary period in which a new major author has emerged to create a “literature of national reconstitution.” Harkening back to the Regeneration movement and extending through the early twenty-first century, this book analyzes the cultural implications of Colombia’s relationship to the wider world.

Early Modern Architecture and Whiteness Dijana Omeragić Apostolski, Aaron White, 2025-02-28 Framing whiteness as a sensorial quality connate with ethical, aesthetic, epistemological, and ontological hierarchies, this edited volume examines how the category of whiteness shaped architectural theories and practices across the early modern period. What was architecture’s role in race-making, constructions of whiteness, and processes of othering more generally? How was whiteness architecturally questioned, reinforced, conceptualized, practiced, and materialized? And how did whiteness intersect with categories such as class, nation, gender, beauty, hygiene, and health? In examining these questions, this volume explores the ways in which premodern critical race studies allow us to reimagine the boundaries and possibilities of architectural research, design, and practice. The book will be of interest to scholars working in architectural history, art history, early modern studies, and the history of race.
