Mike Jess

Labour Law in Mexico Patricia Kurczyn-Villalobos, Alfredo Sánchez-Castañeda, 2024-05-17 Derived from the renowned multi-volume International Encyclopaedia of Laws, this monograph on Mexico not only describes and analyses the legal aspects of labour relations, but also examines labour relations practices and developing trends. It provides a survey of the subject that is both usefully brief and sufficiently detailed to answer most questions likely to arise in any pertinent legal setting. Both individual and collective labour relations are covered in ample detail, with attention to such underlying and pervasive factors as employment contracts, suspension of the contracts, dismissal laws and covenant of non-competition, as well as international private law. The author describes all important details of the law governing hours and wages, benefits, intellectual property implications, trade union activity, employers' associations, workers' participation, collective bargaining, industrial disputes, and much more. Building on a clear overview of labour law and labour relations, the book offers practical guidance on which sound preliminary decisions may be based. It will find a ready readership among lawyers representing parties with interests in Mexico, and academics and researchers will appreciate its value in the study of comparative trends in laws affecting labour and labour relations.

Derecho del trabajo. Su actualización Guillermo Ferriol Molina, 2024-11-30 El texto proyecta los fundamentos teóricos y prácticos del derecho del trabajo y el derecho de seguridad social, considerando algunos de sus postulados doctrinales más importantes, su desarrollo y evolución en ciertos contextos de hoy, su estructuración en parte de la legislación cubana, con el objetivo de que no solo los lectores reciban, en unión de aquellos postulados más tradicionales, algunas de sus formulaciones más actuales, sino para que se propicie un mayor intercambio sobre cada uno de los temas tratados, lo que sería una vía para adecuar la doctrina jurídico-laboral cubana a los nuevos tiempos y un modo para afirmar o perfeccionar el cumplimiento de los principios generales de estas dos ramas del saber y del hacer en el país. Esta segunda edición fortalece el contenido con actualidad y genera para el operador y el profesor un manual inigualable para el ejercicio de esta materia. A su vez, el estudiante de la carrera de Derecho recibe la herramienta que propicia el entendimiento de la asignatura Derecho al Trabajo.
