The Great Islamic Conquests AD 632-750 David Nicolle, 2014-06-06 Few centuries in world history have had such a profound and long-lasting impact as the first hundred years of Islamic history. In this book, David Nicolle examines the extensive Islamic conquests between AD 632 and 750. These years saw the religion and culture of Islam erupt from the Arabian Peninsula and spread across an area far larger than that of the Roman Empire. The effects of this rapid expansion were to shape European affairs for centuries to come. This book examines the social and military history of the period, describing how and why the Islamic expansion was so successful.

*Muslim Expansion and Byzantine Collapse in North Africa* Walter E. Kaegi, 2010-11-04 This book investigates the failure of the Byzantine Empire to develop successful resistance to the Muslim conquest of North Africa.

Conflict and Conquest in the Islamic World Alexander Mikaberidze, 2011-07-22 A reference work that thoroughly documents the extensive military history of the Islamic world between the 7th century and the present day. Military-political conflict—and the resulting factionalism, shifts in leadership, and divergent belief systems—has been a constant and crucial part of the Islamic world. In order to fully grasp the cultural, social, or political aspects of Islam in the modern world, it is necessary to comprehend the rich tapestry of Islamic history from pre-Islamic times to the present, much of which involved armed conflict. *Conflict and Conquest in the Islamic World: A Historical Encyclopedia* provides hundreds of entries on wars, revolutions, sieges, institutions, leaders, armies, weapons, and other aspects of wars and military life, enabling readers to understand the complex role conflict has played in Islamic life throughout history and see how Islamic warfare has evolved over the centuries. This reference work covers not only the traditional Middle Eastern regions and countries but also provides relevant historical information regarding Islam in North Africa, Central Asia, Southeastern Asia, and Oceania.

Narratives of the Islamic Conquest from Medieval Spain Geraldine Hazbun, 2016-04-08 Exploring medieval literary representations of the Islamic conquest of Spain in 711, Hazbun discusses chronicles, epic and clerical poetry, and early historical novels. While material on the conquest of Spain is substantial, it is understudied and this book works to fill that

gap.

**Byzantium and the Early Islamic Conquests** Walter E. Kaegi, 1995-03-30 This is a study of how and why the Byzantine Empire lost many of its most valuable provinces to Islamic (Arab) conquerors in the seventh century, provinces which included Syria, Palestine, Mesopotamia, and Armenia. It investigates conditions on the eve of those conquests, mistakes in Byzantine policy toward the Arabs, the course of the military campaigns, and the problem of local official and civilian collaboration with the Muslims. It also seeks to explain how, after terrible losses, the Byzantine government achieved some intellectual rationalisation of its disasters and began the complex process of transforming and adapting its fiscal and military institutions and political controls in order to prevent further disintegration.

**The Arabic Historical Tradition & the Early Islamic Conquests** Boaz Shoshan, 2015-09-07 The early Arab conquests pose a considerable challenge to modern-day historians. The earliest historical written tradition emerges only after the second half of the eighth century- over one hundred years removed from the events it contends to describe, and was undoubtedly influenced by the motives and interpretations of its authors. Indeed, when speaking or writing about the past, fact was not the only, nor even the prime, concern of Muslims of old. The Arabic Historic Tradition and the Early Islamic Conquests presents a thorough examination of Arabic narratives on the early Islamic conquests. It uncovers the influence of contemporary ideology, examining recurring fictive motifs and evaluating the reasons behind their use. Folklore and tribal traditions are evident throughout the narratives, which aimed to promote individual, tribal and regional fame through describing military prowess in the battles for the spread of Islam. Common tropes are encountered across the materials, which all serve a central theme; the moral superiority of the Muslims, which destined them to victory in God's plan. Offering a key to the state of mind and agenda of early Muslim writers, this critical reading of Arabic texts would be of great interest to students and scholars of early Arabic History and Literature, as well as a general resource for Middle Eastern History.

**The Early Islamic Conquests** Fred McGraw Donner, 2014-07-14 In this contribution to the ongoing debate on the nature and causes of the Islamic conquests in Syria and Iraq during the sixth and seventh centuries, Fred Donner argues for a necessary distinction between the causes of the conquests, the causes of their success, and the causes of the subsequent Arab migrations to the Fertile Crescent. Originally published in 1982. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

**A Guide to the Phantom Dark Age** Emmet Scott, 2014-03-01 Scott confronts conventional historians and looks at the

evidence, archaeological and textual, for the proposition that three centuries, roughly between 615 and 915, never existed and are phantom years. The author shows in detail how no archaeology exists for these three centuries, and that the material remains of the seventh century closely resemble those of the tenth, and lie directly beneath them. This is the first book on this topic in the English language, though Heribert Illig's books on the same topic, 'Das erfundene Mittelalter' and 'Wer hat an der Uhr Gedreht?' have been best sellers in German-speaking Europe.

*White Tears/Brown Scars* Ruby Hamad, 2020-10-06 Called "powerful and provocative by Dr. Ibram X. Kendi, author of the New York Times bestselling *How to be an Antiracist*, this explosive book of history and cultural criticism reveals how white feminism has been used as a weapon of white supremacy and patriarchy deployed against Black and Indigenous women, and women of color. Taking us from the slave era, when white women fought in court to keep "ownership" of their slaves, through the centuries of colonialism, when they offered a soft face for brutal tactics, to the modern workplace, *White Tears/Brown Scars* tells a charged story of white women's active participation in campaigns of oppression. It offers a long overdue validation of the experiences of women of color. Discussing subjects as varied as *The Hunger Games*, Alexandria Ocasio-Cortez, the viral BBQ Becky video, and 19th century lynchings of Mexicans in the American Southwest, Ruby Hamad undertakes a new investigation of gender and race. She shows how the division between innocent white women and racialized, sexualized women of color was created, and why this division is crucial to confront. Along the way, there are revelatory responses to questions like: Why are white men not troubled by sexual assault on women? (See Christine Blasey Ford.) With rigor and precision, Hamad builds a powerful argument about the legacy of white superiority that we are socialized within, a reality that we must apprehend in order to fight. A stunning and thorough look at White womanhood that should be required reading for anyone who claims to be an intersectional feminist. Hamad's controlled urgency makes the book an illuminating and poignant read. Hamad is a purveyor of such bold thinking, the only question is, are we ready to listen? —Rosa Boshier, *The Washington Post*

*The Afterlife of al-Andalus* Christina Civantos, 2017-11-21 The first study to undertake a wide-ranging comparison of invocations of al-Andalus across the Arab and Hispanic worlds. Around the globe, concerns about interfaith relations have led to efforts to find earlier models in Muslim Iberia (al-Andalus). This book examines how Muslim Iberia operates as an icon or symbol of identity in twentieth and twenty-first century narrative, drama, television, and film from the Arab world, Spain, and Argentina. Christina Civantos demonstrates how cultural agents in the present ascribe importance to the past and how dominant accounts of this importance are contested. Civantos's analysis reveals that, alongside established narratives that use al-Andalus to create exclusionary, imperial identities, there are alternate discourses about the legacy of al-Andalus that rewrite the traditional narratives. In the process, these discourses critique their imperial and gendered dimensions and pursue intercultural translation.

*The Languages of the Jews* Bernard Spolsky,2014-03-27 Historical sociolinguistics is a comparatively new area of research, investigating difficult questions about language varieties and choices in speech and writing. Jewish historical sociolinguistics is rich in unanswered questions: when does a language become 'Jewish'? What was the origin of Yiddish? How much Hebrew did the average Jew know over the centuries? How was Hebrew re-established as a vernacular and a dominant language? This book explores these and other questions, and shows the extent of scholarly disagreement over the answers. It shows the value of adding a sociolinguistic perspective to issues commonly ignored in standard histories. A vivid commentary on Jewish survival and Jewish speech communities that will be enjoyed by the general reader, and is essential reading for students and researchers interested in the study of Middle Eastern languages, Jewish studies, and sociolinguistics.

*The Dead Sea* Nir Arielli,2025-01-28 A human history of one of the planet's most iconic lakes, and the civilizations that surrounded its shores The Dead Sea is a place of many contradictions. Hot springs around the lake are famed for their healing properties, though its own waters are deadly to most lifeforms—even so, civilizations have built ancient cities and hilltop fortresses around its shores for centuries. The protagonists in its story are not only Jews and Arabs, but also Greeks, Nabataeans, Romans, Crusaders and Mamluks. Today it has become a tourist hotspot, but its drying basin is increasingly under threat. In this panoramic account, Nir Arielli explores the history of the Dead Sea from the first Neolithic settlements to the present day. Moving through the ages, Arielli reveals the religious, economic, military, and scientific importance of the lake, which has been both a source of great wealth and a site of war. The Dead Sea weaves together a tapestry of the lake's human stories—and amidst environmental degradation and renewed conflict, makes a powerful case for why it should be saved.

*The Routledge Handbook of Archaeology and Globalization* Tamar Hodos, 2016-11-18 This unique collection applies globalization concepts to the discipline of archaeology, using a wide range of global case studies from a group of international specialists. The volume spans from as early as 10,000 cal. BP to the modern era, analysing the relationship between material culture, complex connectivities between communities and groups, and cultural change. Each contributor considers globalization ideas explicitly to explore the socio-cultural connectivities of the past. In considering social practices shared between different historic groups, and also the expression of their respective identities, the papers in this volume illustrate the potential of globalization thinking to bridge the local and global in material culture analysis. The Routledge Handbook of Archaeology and Globalization is the first such volume to take a world archaeology approach, on a multi-period basis, in order to bring together the scope of evidence for the significance of material culture in the processes of globalization. This work thus also provides a means to understand how material culture can be used to assess the impact of global engagement in our contemporary world. As such, it will appeal to archaeologists and historians as well as social science researchers interested in the origins of globalization.
