Language in Public Spaces in Japan Nanette Gottlieb, 2014-06-11 This book throws light on ideologies, practices and sociocultural developments currently shaping language use in Japan by departing from the more common investigation of language in private contexts and examining aspects of the language found in a range of significant public spaces, from the material (an international airport, the streets of Tokyo, the JSL classroom in Japan and courtrooms) to the electronic (television dramas, local government web pages and cyberspace). Through its study of the language encountered in such settings, the volume provides a deeper understanding of multifaceted aspects of linguistic diversity, both in terms of the use of languages other than Japanese and of issues relating to the Japanese language itself. The variety of theoretical approaches brought to bear by contributing authors ensures a substantial intellectual contribution to the literature on language in contemporary Japan. This book was published as a special issue of Japanese Studies.

Disciplinary and Trans-Disciplinary Knowledge and Skills for an Uncertain Future: Are Educational Media up to It? Guilherme Gabriel Ballande Romanelli, Jesús Rodríguez Rodríguez, 2024-01-01 This volume collects some of the papers presented at the 16th IARTEM Conference held in Florence in April 2022. It was a 'difficult conference', held at a time when the pandemic was still present, and therefore an important opportunity to resume a dialogue that seemed to have been interrupted. The richness of the content, which is the result of the reflections of authors from all over the world, allows us to provide a precise scenario of the research state of art in the field of textbooks and digital resources for teaching.

Technology-Supported Learning In and Out of the Japanese Language Classroom Erica Zimmerman, Abigail McMeekin, 2019-05-10 This book addresses several pressing concerns of teachers and researchers who are looking for ways to integrate technology use in and out of their classrooms and assess its usefulness in the learning process. It provides an up-to-date examination of technology-supported pedagogy and language acquisition in a variety of Japanese as a foreign or second language contexts. It equips readers with practical pedagogical information, including methods of implementation

and learning assessment, and ideas for how technology can be applied to achieve a wide range of learning objectives. The topics examined include cultural learning, identity construction, speaking, reading, writing, pronunciation, collaborative online learning, digital and 3D virtual reality games, online text analysis, and participation in online communities. In addition, different e-learning configurations such as flipped, online, and distance learning classrooms are explored. Studies examine various current technologies (e.g. blogs, synchronous/asynchronous telecollaboration, corpus analysis software, modern pronunciation tools) and will have both direct and indirect consequences for teaching and learning a second/foreign language with technology across all languages.

Processing Instruction and Discourse Alessandro G. Benati, James F. Lee, 2011-11-03 Processing Instruction is an approach to grammar instruction for second language learning, contrasting with traditional grammar instruction in its focus on structured input rather than learners' output. This book compares student assessment after traditional grammar instruction and after Processing Instruction to assess the positive benefits of this method of second language teaching. Rather than examining sentence-level tasks, the study looks at the relative effectiveness of Processing Instruction on discourse-level linguistic ability. Case studies using empirical data from second language learners of Japanese, Italian and English are used to highlight the benefits to the learner of this method of enhanced input. This monograph will be of interest to postgraduates and academics researching second language acquisition and applied linguistics.

Language and Culture David Nunan, Julie Choi, 2010-05-07 This state-of-the-art exploration of language, culture, and identity is orchestrated through prominent scholars' and teachers' narratives, each weaving together three elements: a personal account based on one or more memorable or critical incidents that occurred in the course of learning or using a second or foreign language; an interpretation of the incidents highlighting their impact in terms of culture, identity, and language; the connections between the experiences and observations of the author and existing literature on language, culture and identity. What makes this book stand out is the way in which authors meld traditional 'academic' approaches to inquiry with their own personalized voices. This opens a window on different ways of viewing and doing research in Applied Linguistics and TESOL. What gives the book its power is the compelling nature of the narratives themselves. Telling stories is a fundamental way of representing and making sense of the human condition. These stories unpack, in an accessible but rigorous fashion, complex socio-cultural constructs of culture, identity, the self and other, and reflexivity, and offer a way into these constructs for teachers, teachers in preparation and neophyte researchers. Contributors from around the world give the book broad and international appeal.

International Student Mobility in Japan Sachihiko Kondo, Yu Sengoku, Ryoko Nakano, Akito Okada, 2024-10-24 In light of the COVID-19 crisis, this edited volume explores the changing landscape of International Student Education in Japanese universities and the impact on global student mobility. Through analysing a wide range of data, the book engages historical,

cultural, linguistic and pedagogical contexts relating to higher education in Japan. With a particular focus on Japanese tertiary education, the chapters provide comprehensive analysis from surveys and interviews conducted since 2020 amongst Japanese and non-Japanese Higher Education institutions (HEIs) on leadership styles, decision-making behaviours and perspectives on higher education practices in Japan. The authors also examine the challenges and impact on student mobility and international student education, and present future directions for the internationalisation of higher education in post-pandemic Japan. This book will appeal to researchers, educators and anyone with an interest in higher education development, international student mobility and language learning. Chapters 5 and 9 of this book are freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons [Attribution-Non Commercial-No Derivatives (CC BY-NC-ND)] 4.0 license. The publication of these chapters as an open-access work was generously supported by the Japan Society for the Promotion of Science (JSPS) through the Grants-in-Aid for Scientific Research (KAKENHI) [Grant Number JP20KK0052].

The Japanese Sentence-Final Particles in Talk-in-Interaction Hideki Saigo, 2011-03-23 The Japanese sentence-final particles, *ne*, *yo* and *yone* have proved notoriously difficult to explain and are especially challenging for second language users. This book investigates the role of the particles in talk-in-interaction with the aim of providing a comprehensive understanding that accounts for their pragmatic properties and sequential functions and that provides a sound basis for second language pedagogy. This study starts by setting up an original particle function hypothesis based on the figure/ground gestalt, and then tests its validity empirically with unmarked, marked and native/non-native talk-in-interaction data. The analysis illustrates not only expectable but also unexpected or strategic use of particles, as well as the problems posed for native speakers by non-native speakers whose use of particles is idiosyncratic. The study demonstrates that the proposed hypothesis is capable of accounting for all the uses of particles in the extensive and varied data set examined. This book will be of interest to students and scholars in pragmatics and CA and to teachers of Japanese as a foreign language.

Proceedings of the International Conference on Sustainable Innovation on Humanities, Education, and Social Sciences (ICOSI-HESS 2022) Dyah Mutiarin, Achmad Nurmandi, Arie Kusuma Paksi, Zain Rafique, 2023-02-10 This is an open access book. This proceeding consists of research presented in ICOSI UMY, on 20-21 July 2022 at Universitas Muhammadiyah Yogyakarta. The conference covers the topic of governance, international relations, law, education, humanities, and social sciences. The COVID-19 pandemic first time that occurred in 2019, has brought many changes that constrain all countries to adapt quickly. The crisis has shown vulnerabilities and gaps in several primary systems, including healthcare, social protection, education, value chains, production networks, financial markets, and the ecosystem. One of the efforts that each country can take to rise from the COVID-19 pandemic is through strengthening multilateralism, international solidarity, and global partnerships. Hence, this conference raises the central theme “Strengthening Global Partnership for Resilience.” This

theme covers sub-themes that allow prospective scholars to submit their papers for 'Virtual Conferences' presentation under the following scopes: Social Sciences, Humanities, Educations, and Religious Studies. Presented papers will also get a chance to be published in our remarkable partner publishers. Through the International Symposium on Social, Humanities, Education, and Religious Studies (ISSHERS) and Asian Conference on Comparative Laws (Asian-COL), we hope that participants will express their innovative and creative ideas to provide benefits and contribute knowledge to strengthen global partnerships among countries. Finally, all 75 papers published in this proceedings are expected not only as research output but can be developed further into prototypes or evidence for policy making.

A Cultural History of Spanish Speakers in Japan Araceli Tinajero, 2021-02-09 Beginning in 1990, thousands of Spanish speakers emigrated to Japan. A Cultural History of Spanish Speakers in Japan focuses on the intellectuals, literature, translations, festivals, cultural associations, music (bolero, tropical music, and pop, including reggaeton), dance (flamenco, tango and salsa), radio, newspapers, magazines, libraries, and blogs produced in Spanish, in Japan, by Latin Americans and Spaniards who have lived in that country over the last three decades. Based on in-depth research in archives throughout the country as well as field work including several interviews, Japanese-speaking Mexican scholar Araceli Tinajero uncovers a transnational, contemporary cultural history that is not only important for today but for future generations.

Bridging Transcultural Divides Xianlin Song, Kate Cadman, 2012 The impressive and stimulating essays in Bridging Transcultural Divides deal with the cultural and educational issues in the Australian context. (...) The book's central message is that education for Asian students in Australia, and more broadly in the West, can no longer be seen as a one-way transfer of knowledge, but must be understood as a process of reciprocal learning in which both teachers and students are changed by the experience. - Prof. Tim Wright, University of Sheffield.

Language Support for Immigrants in Japan Keiko Hattori, Kurie Otachi, Makiko Shinya, 2023-07-10 Examining language support practices in both formal and nonformal education, ranging from public night school to community-based language classes, this volume encourages the development of systems in Japan that foster equitable and inclusive language policies.

Pragmatic Competence Naoko Taguchi, 2009-09-04 In the disciplines of applied linguistics and second language acquisition (SLA), the study of pragmatic competence has been driven by several fundamental questions: What does it mean to become pragmatically competent in a second language (L2)? How can we examine pragmatic competence to make inference of its development among L2 learners? In what ways do research findings inform teaching and assessment of pragmatic competence? This book explores these key issues in Japanese as a second/foreign language. The book has three sections. The first section offers a general overview and historical sketch of the study of Japanese pragmatics and its influence on Japanese pedagogy and curriculum. The overview chapter is followed by eight empirical findings, each dealing with phenomena that are significant in Japanese pragmatics. They target selected features of Japanese pragmatics and investigate the learners' use of them as an indicator of their pragmatic competence. The target pragmatic features are wide-ranging, among them honorifics, speech style, sentence final particles, speech acts of various types, and indirect expressions. Each study explicitly prompts the connection between pragmalinguistics (linguistic forms available to perform language functions) and sociopragmatics (norms that determine appropriate use of the forms) in Japanese. By documenting the understanding and use of them among learners of Japanese spanning multiple levels and time durations, this book offers insight about the nature and development of pragmatic competence, as well as implications for the learning and teaching of Japanese pragmatics. The last section presents a critical reflection on the eight empirical papers and prompts a discussion of the practice of Japanese pragmatics research.

Teaching and Learning (Im)Politeness Barbara Pizziconi, Miriam A. Locher, 2015-11-13 This collection combines research from the field of (im)politeness studies with research on language pedagogy and language learning. It aims to engender a useful dialogue between (im)politeness theorists, language teachers, and SLA researchers, and also to broaden the enquiry to naturalistic contexts other than L2 acquisition classrooms, by formulating 'teaching' and 'learning' as processes of socialization, cultural transmission, and adaptation.
