

Ancient Assyrian Church Of The East

William Chauncey Emhardt, George Mamishisho Lamsa

The Church of the East Christoph Baumer, 2016-09-05 The so-called 'Nestorian' Church (officially known as the Apostolic Assyrian Church of the East, with its See in Baghdad) was one of the most significant Christian communities to develop east of the Roman Empire. In its heyday the Church had 8 million adherents and stretched from the Mediterranean to China. Christoph Baumer is one of the very few Westerners to have visited many of the most important Assyrian sites and has written the only comprehensive history of the Church, which now fights for survival in its country of origin, Iraq, and is almost forgotten in the West. He narrates its rich and colorful trajectory, from its apostolic beginnings to the present day, and discusses the Church's theology, christology, and uniquely vigorous spirituality. He analyzes the Church's turbulent relationship with other Christian churches and its dialogue with neighboring world religions such as Zoroastrianism, Manichaeism, Islam, Buddhism, and Taoism. Richly illustrated with maps and over 150 full-color photographs, the book will be essential reading for those interested in a fascinating, but neglected Christian community which has profoundly shaped the history of civilization in both East and West.

An Introduction to the History of the Assyrian Church W.A. Wigram D.D., Aeterna Press, 2015-07-31 This essay is an attempt at the filling of what appeared to the writer to be a distinct void in English ecclesiastical histories; and to give some account of a branch of the Church unknown to all except a very few students, during the most critical and important period of its history. Aeterna Press

The Assyrian Church of the East Christine Chaillot, 2021 The cradle of the Church of the East was in Mesopotamia (between the Tigris and the Euphrates), where it developed its first centre at Seleucia-Ctesiphon, then the capital of the great Persian Empire and today an archaeological site to the south of Baghdad. From the very beginnings of Christianity until the fourteenth century, this Church experienced a remarkable expansion in Asia, its missionaries carrying the Gospel from Persia to India, via the Persian Gulf, and even as far as China. The Church of the East reached China as early as the seventh century via Central Asia and the celebrated Silk Road that linked China to the Mediterranean world. Much later, in the late fourteenth century, the invasions of the Mongol conqueror, Timur Lang (Tamerlane), across Asia brought about a great decline of the Church of the East. Eventually, after the genocide suffered by Christians in the Ottoman Empire in 1915, and the massacres that followed in Persia, the Church of the East and its people were on the verge of extinction. In 1940 the

patriarchal seat was moved to Chicago (in the United States) and then in September 2015 to Erbil (in northern Iraq). Many of the faithful have left the Middle East and have formed diaspora communities throughout the world. The history of Christianity in the Middle East and well beyond, in Central and Eastern Asia, is very little known. In this book, the reader is invited to travel in time and space and undertake the fascinating discovery of a very ancient apostolic Church, the Church of the East, whose two-thousand year history constitutes an indispensable chapter in the history of the universal Church--

The Church of the East and the Church of England J. F. Coakley, 1992 In the years before the First World War the Church of England maintained a mission of help to the Assyrian Church of the East (popularly known as the Nestorian Church) in its then homeland, a corner of eastern Turkey and north-western Persia. The mission's ideal was to restore this body to its ancient vitality and its place as an independent branch of the true church. The mission faced many problems. At home there was the difficulty of justifying the support of a 'heretical' church. In the field, the confidence of the Assyrians proved difficult to gain, especially in competition with other missions: French Catholic and American Presbyterian. Still, it had notable accomplishments. Some of the missionaries were scholars, like A. J. Maclean, who edited and printed the ancient Syriac liturgies of the Church for the first time. Others were diplomats, like W. A. Wigram, who laboured to establish a basis for intercommunion between the two churches. Archbishop Benson, the founder, strictly ruled out any proselytizing to the Anglican church, and in this respect his Assyrian mission stands scrutiny in modern eyes.

Assyrian History Culture and Traditions Venesia Yacoub, 2021-12-22 This book is the first of its kind and takes an in-depth look at one of the oldest nations in the world, while documenting various traditions and rituals tracing Assyrian lineage from cuneiform, the beginning of time and writing, until now. Their rich history has engaged various archaeological groups throughout the world to visit their homelands and conduct various excavations, which has led to incredible ancient discoveries that have been housed in universities and museums for centuries. Their heartland is called the Cradle of Civilization, and their legacy has earned the prestigious name of History of the World. They were one of the first people to convert to Christianity and have been mentioned in the Bible and various books throughout time. This book highlights

information on their artifacts, including one of the seven wonders of the ancient world, the Hanging Gardens. We also take an insider look at some topics that have been extensively chronicled and studied, such as religion, the legendary Winged Bulls, the famous Tree of Life, and angels.

An introduction to the history of the Assyrian Church William Ainger Wigram,1910

The Modern Assyrians of the Middle East John Joseph,2016-05-18 This is a revised edition of the author's *The Nestorians and Their Muslim Neighbors* (Princeton University Press, 1961). Early in the nineteenth century, the Aramaic-speaking Nestorian Christians received special attention when American Protestant missions decided to educate and reform them to help meet the challenge that Islam presented to the growing missionary movements. When archaeologist Layard further publicized the historic minority as Assyrians, the name acquired a new connotation when other forces at work in the region - religious, nationalistic, imperialistic - entangled these modern Assyrians in vagaries and manipulations in which they were outnumbered and outclassed. The study examines Western Christendom's current position on Islam, with emphasis on the Roman Catholic Church and the World Council of Churches. The revision draws on a wide variety of sources not used in the original.

An Introduction to the History of the Assyrian Church William Ainger Wigram,1910

The Chaldeans Yasmeen Hanoosh,2019-05-30 Modern Chaldeans are an Aramaic speaking Catholic Syriac community from northern Iraq, not to be confused with the ancient Mesopotamian civilization of the same name. First identified as 'Chaldean' by the Catholic Church in the sixteenth century, this misnomer persisted, developing into a distinctive and unique identity. In modern times, the demands of assimilation in the US, together with increased hostility and sectarian violence in Iraq, gave rise to a complex and transnational identity. Faced with Islamophobia in the US, Chaldeans were at pains to

emphasize a Christian identity, and appropriated the ancient, pre-Islamic history of their namesake as a means of distinction between them and other immigrants from Arab lands. In this, the first ethnographic history of the modern Chaldeans, Yasmeeen Hanoosh explores these ancient-modern inflections in contemporary Chaldean identity discourses, the use of history as a collective commodity for developing and sustaining a positive community image in the present, and the use of language revival and monumental symbolism to reclaim association with Christian and pre-Christian traditions.

Reforging a Forgotten History: Iraq and the Assyrians in the Twentieth Century Sargon Donabed, 2015-02-01 Who are the Assyrians and what role did they play in shaping modern Iraq? Were they simply bystanders, victims of collateral damage who played a passive role in the history of Iraq? And how have they negotiated their position throughout various periods of Iraq's state-building processes? This book details the narrative and history of Iraq in the 20th century and reinserts the Assyrian experience as an integral part of Iraq's broader contemporary historiography. It is the first comprehensive account to contextualize this native people's experience alongside the developmental processes of the modern Iraqi state. Using primary and secondary data, this book offers a nuanced exploration of the dynamics that have affected and determined the trajectory of the Assyrians' experience in 20th century Iraq.

Eastern Christianity and Politics in the Twenty-First Century Lucian N. Leustean, 2014-05-30 This book provides an up-to-date, comprehensive overview of Eastern Christian churches in Europe, the Middle East, America, Africa, Asia and Australia. Written by leading international scholars in the field, it examines both Orthodox and Oriental churches from the end of the Cold War up to the present day. The book offers a unique insight into the myriad church-state relations in Eastern Christianity and tackles contemporary concerns, opportunities and challenges, such as religious revival after the fall of communism; churches and democracy; relations between Orthodox, Catholic and Greek Catholic churches; religious education and monastic life; the size and structure of congregations; and the impact of migration, secularisation and globalisation on Eastern Christianity in the twenty-first century.

Fire from Heaven Sebastian Brock, 2024-12-11 This fourth collection by Sebastian Brock focuses on three areas: the christology of the Church of the East, the distinctive phraseology of the invocations to the Holy Spirit in the Syriac liturgical tradition, and two important early Commentaries on the Liturgy. The inclusion of the Church of the East into ecumenical dialogue in recent years has stimulated a renewed study of its christology, which has often been badly misunderstood. A close study of the formative texts of the fifth to seventh centuries indicates that the traditional characterisation of this Church as 'Nestorian' is not only unsatisfactory, but also thoroughly misleading. There follows a series of studies of the wording of the many invocations to the Holy Spirit to be found in Syriac liturgical texts. These bring to light a number of intriguing features, some of which can be traced back to the Jewish roots of one strand of early Syriac Christianity. Syriac also preserves one of the earliest Commentaries on the Liturgy; dating from the fifth century, it proved influential in all three Syriac liturgical traditions, and was even translated into Sogdian. This short text, and another longer work by Gabriel of Qatar (fl. c. 600), are introduced and translated in full.
