Mastership Master Lorne Davidson, 2018-02-22 In 1996 at the age of 48, Lorne Davidson declared bankruptcy and was forced to take a hard look at his life as a touring musician. With debts racking up and no answers in sight, he felt he had hit rock bottom. After a suggestion from his wife to try taekwondo to help him relax and release some stress, he agreed to a few lessons, and he was hooked. *Mastership: From Bankruptcy to a New Life* is an autobiography of a twenty-year journey to achieving the title of Master Instructor in Songahm Taekwondo, at the age of sixty-nine. After successfully testing for his sixth-degree black belt, achieving a goal he set for himself in 1997, Lorne Davidson reflects on the changes taekwondo has brought to his life. *From Bankruptcy to a New Life* is a story of dedication, hard work, and hope. It's a reminder that there truly are second chances in life, no matter what our age or situation.

**The White Savior Film** Matthew Hughey, 2014-04-14 The cinematic trope of the white savior film—think of Sandra Bullock in *The Blind Side*, Kevin Costner in *Dances with Wolves*, or Tom Cruise in *The Last Samurai*—features messianic characters in unfamiliar or hostile settings discovering something about themselves and their culture in the process of saving members of other races from terrible fates. In *The White Savior Film*, Matthew Hughey provides a cogent, multipronged analysis of this subgenre of films to investigate the underpinnings of the Hollywood-constructed images of idealized (and often idealistic) white Americans. Hughey considers the production, distribution, and consumption of white savior films to show how the dominant messages of sacrifice, suffering, and redemption are perceived by both critics and audiences. Examining the content of fifty films, nearly 3,000 reviews, and interviews with viewer focus groups, he accounts for the popularity of this subgenre and its portrayal of racial progress. *The White Savior Film* shows how we as a society create and understand these films and how they reflect the political and cultural contexts of their time.

Dear Freedom Writer The Freedom Writers, Erin Gruwell, 2022-03-29 The students of today tell their stories of adversity and growth in letters to the original Freedom Writers—authors of the #1 New York Times bestseller *The Freedom Writers Diary*—who write supportive and powerful letters in response. Over twenty years ago, the students in first-year teacher Erin Gruwell's high school class in Long Beach, California, were labeled “unteachable”—but she saw past that. Instead of treating them as scores on a test, she understood that each of them had a unique story to tell. Inspired by books like Anne Frank's diary, her students began writing their own diaries, eventually dubbing themselves the Freedom Writers. Together, they co-

authored *The Freedom Writers Diary*, which launched a movement that remains incredibly relevant and impactful today. Their stories speak to young people who feel as if those around them do not care about their lives, their feelings, and their struggles. They want to be heard; they want to be seen. In *Dear Freedom Writer*, the next generation of Freedom Writers shares its struggles with abuse, racism, discrimination, poverty, mental health, imposed borders, LGBTQIA+ identity, and police violence. Each story is answered with a letter of advice from an original Freedom Writer. With empathy and honesty, they address these young people not with the platitudes of a politician or a celebrity, but with the pragmatic advice of people who have dealt with these same issues and come out on the other side. Through its eye-opening and inspiring stories, *Dear Freedom Writer* paints an unflinchingly honest portrait of today's youth and offers a powerful message of perseverance, understanding, and hope.

*Holding Up The Sky Together* Ronald Bishop, 2017-11-30 Even as kindness toward individuals with intellectual disabilities has increased, encountering an individual and his or her family whose lives revolve around the daily challenges that come with them is atypical, or is experienced and narrated as such, particularly by the media. Even when there is progress, making such a leap provides rhetorical cover, or at least a distraction, while intolerance regroups. And for some, it becomes less about showing love and compassion than about being able to pat oneself on the back when an interaction with a person like our son Neil is over. But it's why they don't know, or are curious but reluctant to engage, or just flat out lack empathy, that compelled us to write this book. Contributing to their misimpressions and misanthropy are portrayals of individuals with intellectual disabilities in the mass media, scant though they are. We should always be skeptical of those in my line of work who argue that the onslaught of information we take in from a widened array of sources can magically change our behavior – the so-called “hypodermic needle” theory of media effects. But these messages do help us craft our realities and develop and share our own narratives about folks with intellectual disabilities. *Holding Up the Sky Together* is admittedly a hybrid: part memoir, part academic analysis—a professor with more than 30 published articles and four books, all of which revolve around media analysis, looks inward. But our fervent hope is to inject a bit more realism into the national dialogue about intellectual disabilities. We are grateful for increased awareness and tolerance, for Special Olympics, and for shows like *Born This Way*. But there is so much more to be done.

**Butterfly Nation** Santhosh D, 2022-04-22 *Butterfly Nation* is a conglomeration of poems, stories and other articles inked by twenty five fascinating minds despite of age from different parts of the world. The Title *Butterfly Nation* is justified by the budding writers who had exhibited their writings for the first time as how a caterpillar becomes a Butterfly. This collection of magnificent write-ups bewitchingly written for readers to be a part of this journey, which takes you through the various aspects of life and perspectives.

**The Freedom Writers Diary Teacher's Guide** Erin Gruwell, *The Freedom Writers*, 2008-09-16 A standards-based

teacher's guide from the educator behind the #1 New York Times bestseller *The Freedom Writers Diary*, with innovative teaching techniques that will engage, empower, and enlighten. Don't miss the public television documentary *Freedom Writers: Stories from the Heart* In response to thousands of letters and e-mails from teachers across the country who learned about Erin Gruwell and her amazing students in *The Freedom Writers Diary* and the hit movie *Freedom Writers*, Gruwell and a team of teacher experts have written *The Freedom Writers Diary Teacher's Guide*, a book that will encourage teachers and students to expand the walls of their classrooms and think outside the box. Here Gruwell goes in depth and shares her unconventional but highly successful educational strategies and techniques (all 150 of her students, who had been deemed "unteachable," graduated from Wilson High School in Long Beach, California): from her very successful "toast for change" (an exercise in which Gruwell exhorted her students to leave the past behind and start fresh) to writing exercises that focus on the importance of journal writing, vocabulary, and more. In an easy-to-use format with black-and-white illustrations, this teacher's guide will become the essential go-to manual for teachers who want to make a difference in their pupils' lives.

**Beyond Test Scores** Jack Schneider, 2017-08-14 When it comes to sizing up America's public schools, test scores are the go-to metric of state policy makers and anxious parents looking to place their children in the "best" schools. Yet ample research indicates that standardized tests are a poor way to measure a school's performance. It is time—indeed past time—to rethink this system, Jack Schneider says. *Beyond Test Scores* reframes current debates over school quality by offering new approaches to educational data that can push us past our unproductive fixation on test scores. Using the highly diverse urban school district of Somerville, Massachusetts, as a case study, Schneider and his research team developed a new framework to more fairly and comprehensively assess educational effectiveness. And by adopting a wide range of measures aligned with that framework, they were able to more accurately capture a broader array of school strengths and weaknesses. Their new data not only provided parents, educators, and administrators with a clearer picture of school performance, but also challenged misconceptions about what makes a good school. With better data, Schneider shows, stakeholders at the federal, state, and local levels can undo the damage of present accountability systems and build greater capacity in our schools. Policy makers, administrators, and school leaders can better identify where assistance is needed. Educators can engage in more evidence-based decision making. And parents can make better-informed choices for their children. Perhaps most importantly, better data can facilitate communication among all these groups, allowing them to take collective action toward shared, concrete goals.

**Urban Preparation** Chezare A. Warren, 2021-02-23 2018 Critics' Choice Book Award, American Educational Studies Association (AESA) 2018 Outstanding Book Award, Society of Professors of Education Chezare A. Warren chronicles the transition of a cohort of young Black males from Urban Prep Charter Academy for Young Men to their early experiences in higher education. A rich and closely observed account of a mission-driven school and its students, *Urban Preparation* makes

a significant contribution to our understanding of how young males of color can best be served in schools throughout the United States today. A founding teacher at Urban Prep, Warren offers a detailed exploration of what this single-sex public high school on the South Side of Chicago has managed to accomplish amid profoundly challenging circumstances. He provides a comprehensive portrait of the school—its leaders, teachers, and professional staff; its students; and the community that the school aims to serve—and highlights how preparation for higher education is central to its mission. Warren focuses on three main goals: to describe Urban Prep’s plans and efforts to prepare young Black males for college; to understand how race, community, poverty, and the school contributed, in complex and interrelated ways, to the academic goals of these students; and to offer a wide-ranging set of conclusions about the school environments and conditions that might help young Black males throughout the country succeed in high school and college.

*Millennial Teacher Identity Discourses* Janet Alsup, 2019-02-04 Over ten years after the original edition of *Teacher Identity Discourses*, Janet Alsup revisits her work with a new research study examining the characteristics of the millennial teachers now beginning to populate K-12 classrooms. Building off the first edition, this text is based on a qualitative, interview-based research study, and provides a contemporary look at how millennial teachers experience professional identity growth through language use. This innovative research investigates how formation of a professional identity is central in the process of becoming an effective teacher. Updated with new analyses of teacher identity discourses, the second edition covers themes that still resonate today and provides practical suggestions and sample assignments for teacher educators to use or adapt in methods courses.

*8 to Great* MK Mueller, 2018-01-15 “I’m often asked what’s going to rock the world, psychologically . . . after The Secret . . . I do know that 8 to Great will be a part of it.” —Mike Dooley, author of *Infinite Possibilities* This groundbreaking and practical book offers a simple—yet powerful—8-step process for taking charge of your life and achieving your dreams, using author MK Mueller’s unique formula for “positive attitude.” In *8 to Great* you will learn how Mueller’s eight “High-Ways” lead to greater happiness, health, and success . . . High-Way 1: Get the Picture High-Way 2: Risk High-Way 3: Full Responsibility High-Way 4: Feel All Your Feelings High-Way 5: Honest Communication High-Way 6: Forgiveness of the Past High-Way 7: Gratitude for the Present High-Way 8: Hope for the Future The fact that Mueller has also created a widely used curriculum for high schools based on her concepts is testimony to the fact that her methods are simple without being sugar coated, and powerful without being pompous. Whether for yourself or someone you love, *8 to Great* is an investment that is sure to bless and bliss your world. “A life-changing recipe for success that is full of easy to understand ingredients.” —Bill Byrne, author of *Habits of Wealth* “*8 to Great* is the most practical handbook in print on the seemingly impractical topic of joy.” —Barbara Wolf Shousha, M.Ed

*Racist America* Joe R. Feagin, Kimberley Ducey, 2025-07-04 The fifth edition of *Racist America* is thoroughly revised and

updated, focusing on systemic racism and antiracism issues, especially those arising since the fourth edition (2019). Expanding the discussion on racialized intersectionality, as well as on the white racial frame, elite-white-male dominance system, and antiracist action, this book details how these racism realities continue to impact black, Latino, Asian, Indigenous, and white Americans. The book explains how and why the Black Lives Matter movement and other antiracist protests have erupted; how and why Latino, Asian, and Indigenous Americans have responded to expanding racist discrimination; and how and why a diverse array of Americans has demanded major societal responses to dismantle entrenched white racism.

**Using Young Adult Literature to Work through Wobble Moments in Teacher Education** Dawan Coombs, Jon Ostenson, 2022-07-25 This volume offers a novel approach to exploring how literary response groups can be used as part of teacher education programs to help preservice teachers navigate wobble moments. Focusing uniquely on the potential of young adult literature (YAL), the text draws on the first-hand experiences of teacher candidates and uses a range of well-known books to demonstrate how narrative-based inquiry and analysis of fictional depictions of teaching and learning can support reflection on a range of common challenges. The volume presents how YAL literary response groups are shown to enhance participants' ability to reflect on practice, build resilience, and develop deeper understanding of pedagogical principles by offering a shared dialogical space. These insights ultimately contribute to teacher education program improvement by enhancing teacher candidates' understanding of pedagogy. This text will benefit researchers, doctoral students, and academics in the fields of teaching, teacher mentoring, and teacher education more specifically. Those interested in literature studies and young adult literature (YAL) more broadly will also benefit from this volume.

**Digital Tools in Urban Schools** Jabari Mahiri, 2011-07-26 Digital media in the classroom for both teachers and students

**Transformative Practice in Critical Media Literacy** Steve Gennaro, Nolan Higdon, Michael Hoechsmann, 2024-04-16 Transformative Practice in Critical Media Literacy brings together a diverse selection of essays to examine the knowledge production crisis in higher education and the role that news media and technology play in this process. This text highlights the importance of radical pedagogy and critical media literacy to fight back and reclaim higher education as the battleground for democracy and the embodiment of citizenship. Using a global and social justice lens, it explores the transformative potential of critical media literacy in higher education. It also provides real examples of current critical media literacy practices around the globe and of successful experiences inside classrooms. In an era of fake news, this text fulfils the yearning for critical media literacy to permeate higher education by drawing together practitioners and scholars speaking to journalism students, teacher candidates, and to students, scholars, and activists across a variety of spaces in higher education. This book will be a key resource for scholars, students, policymakers, community members and activists interested in education, politics, youth studies, critical theory, intersectionality, social justice and peace studies, activism, critical media literacy, communication, or media studies.

**Exploring Teachers in Fiction and Film** Melanie Shoffner, 2016-03-31 This book about teachers as characters in popular media examines what can be learned from fictional teachers for the purposes of educating real teachers. Its aim is twofold: to examine the constructed figure of the teacher in film, television and text and to apply that examination in the context of teacher education. By exploring the teacher construct, readers are able to consider how popular fiction and film have influenced society's understandings and views of classroom teachers. Organized around four main themes—Identifying with the Teacher Image; Constructing the Teacher with Content; Imaging the Teacher as Savior; The Teacher Construct as Commentary—the chapters examine the complicated mixture of fact, stereotype and misrepresentation that create the image of the teacher in the public eye today. This examination, in turn, allows teacher educators to use popular culture as curriculum. Using the fictional teacher as a text, preservice—and practicing—teachers can examine positive and negative (and often misleading) representations of teachers in order to develop as teachers themselves.

The White Racial Frame Joe R. Feagin, 2020-05-21 In this book sociologist Joe Feagin extends the systemic racism framework in previous Routledge books by developing an innovative concept, the white racial frame. Now more than four centuries old, this white racial frame encompasses not only the stereotyping, bigotry, and racist ideology emphasized in other theories of “race,” but also the visual images, array of emotions, sounds of accented language, interlinking interpretations and narratives, and inclinations to discriminate that are central to the frame's everyday operations. Deeply imbedded in American minds and institutions, this white racial frame has for centuries functioned as a broad worldview, one essential to the routine legitimation, scripting, and maintenance of systemic racism in the United States. Here Feagin examines how and why this white racial frame emerged in North America, how and why it has evolved socially over time, which racial groups are framed within it, how it has operated in the past and present for both white Americans and Americans of color, and how the latter have long responded with strategies of resistance that include enduring counter-frames. In this third edition, Feagin has included much new data from many recent research studies on framing issues related to white, black, Native, Latino/a, and Asian Americans, and on society generally. The book also includes a more extensive discussion of the impact of the white frame on popular culture, including on video games, movies, and television programs, as well as a discussion of the white racial frame's significant impacts on public policymaking on immigration, the environment, health care, and crime and imprisonment issues.

Making Teachers Better, Not Bitter Tony Frontier, Paul Mielke, 2016-08-23 In too many districts, evaluation of teachers ensures competence but does little or nothing to encourage and support expertise. In this thought-provoking and groundbreaking book, Tony Frontier and Paul Mielke address this issue head-on, combining the conceptual and the practical by offering a compelling vision of teacher growth, along with nearly three dozen step-by-step protocols for working with teachers. They present a powerful rationale for reconceptualizing teacher evaluation by creating a balanced system of three

equally important components: Reliable and valid evaluation. Empowering and focused supervision. Meaningful and purposeful reflection. Each component is discussed in terms of its purpose, premise, processes, practices, and payoffs. Revealing examples based on the authors' experiences in classrooms across the country show what evaluation, supervision, and reflection look like when they're not done well--and what they could look like if done more effectively. Providing insight and inspiration, *Making Teachers Better, Not Bitter* paves a clear path to better teaching and helps you acknowledge and support the hard work that teachers do every day to make learning come alive for their students.

**Girl Culture** Claudia Mitchell, Jacqueline Reid-Walsh, 2007-12-30 Never before has so much popular culture been produced about what it means to be a girl in today's society. From the first appearance of Nancy Drew in 1930, to *Seventeen* magazine in 1944 to the emergence of Bratz dolls in 2001, girl culture has been increasingly linked to popular culture and an escalating of commodities directed towards girls of all ages. Editors Claudia A. Mitchell and Jacqueline Reid-Walsh investigate the increasingly complex relationships, struggles, obsessions, and idols of American tween and teen girls who are growing up faster today than ever before. From pre-school to high school and beyond, *Girl Culture* tackles numerous hot-button issues, including the recent barrage of advertising geared toward very young girls emphasizing sexuality and extreme thinness. Nothing is off-limits: body image, peer pressure, cliques, gangs, and plastic surgery are among the over 250 in-depth entries highlighted. Comprehensive in its coverage of the twenty and twenty-first century trendsetters, fashion, literature, film, in-group rituals and hot-button issues that shape—and are shaped by—girl culture, this two-volume resource offers a wealth of information to help students, educators, and interested readers better understand the ongoing interplay between girls and mainstream culture.

*Through a Distorted Lens* Laura M. Nicosia, Rebecca A. Goldstein, 2017-07-20 This volume examines what and how the media teach, to and by whom, and for what purpose, in a rapidly shifting milieu of media content, platforms, and relations. While intimately concerned with education, authors move the discussion beyond the setting of formal schooling to uncover the ways in which the media contribute to individual and collective understandings of self and other, and their relations to society and communities in which they move. In doing so, the text encourages readers to transcend exclusionary discussions of citizenship to consider participation in local and global geographies against a neoliberal backdrop that marginalizes those unable to, unwilling to, and excluded from competing in the free market. Contributors extend their deliberations back to formal school settings to reaffirm pedagogies that rediscover the reading of texts—broadly defined—in the world through multimodalities. In this sense, the text strives to be transdisciplinary, and is appropriate for use in multiple disciplines and fields of study.
