NAMED ONE OF THE BEST BOOKS OF THE YEAR BY School Library Journal • Booklist • The Horn Book • New York Public Library Welcome to the Golden Palace! Maizy has never been to Last Chance, Minnesota . . . until now. Her mom's plan is just to stay for a couple weeks, until her grandfather gets better. But plans change, and as Maizy spends more time in Last Chance and at the Golden Palace—the restaurant that's been in her family for generations—she makes some discoveries. For instance: You can tell a LOT about someone by the way they order food. People can surprise you. Sometimes in good ways, sometimes in disappointing ways. And the Golden Palace has secrets... But the more Maizy discovers, the more questions she has. Like, why are her mom and her grandmother always fighting? Who are the people in the photographs on the office wall? And when she discovers that a beloved family treasure has gone missing—and someone has left a racist note—Maizy decides it's time to find the answers.

**Detective Fiction for Young Readers** Chris McGee, 2024-09-18 *Detective Fiction for Young Readers* is an examination of contemporary mystery stories for children and young adults. This volume explores how the conventions, rules, and expectations of adult mystery fiction have filtered down, so to speak, especially in the past several decades, to writing for younger readers. The book is organized into three sections that explore the whodunit, the hardboiled, and the metaphysical styles of mystery fiction. Furthermore, this text analyzes how each style has been adapted for a younger audience, acknowledging and exploring representative novels most in keeping with that style. This volume is ideal for students, academics, and readers interested in children's mystery fiction that adheres to formulas made popular after the golden age of classic detective fiction.

**Liminal Spaces in Children's and Young Adult Literature** Mark I. West, 2024-03-12 Scholars in the field of children's literature studies began taking an interest in the concept of "liminal spaces" around the turn of the 21st century. For the first time, *Liminal Spaces in Children's and Young Adult Literature: Stories from the In Between* brings together in one volume a collection of original essays on this topic by leading children's literature scholars. The contributors in this collection take a wide variety of approaches to their explorations of liminal spaces in children's and young adult literature. Some discuss how children's books portray the liminal nature of physical spaces, such as the children's room in a library. Others deal with more abstract portrayals, such as the imaginary space where Max goes to escape the reality of his bedroom in Maurice Sendak's

Where the Wild Things Are. All of the contributors, however, provide keen insights into how liminal spaces figure in children's and young adult literature.

The lesson plans in this book incorporate the research-based best practices of grammar instruction and apply those practices to the teaching and learning of grammar instruction. They present grammatical concepts in the context of effective writing by using mentor texts. These mentor text examples, which students read from a writer's perspective, deepen students' metacognition of the importance of grammatical concepts and help them see the elements of grammar as tools for strong writing that authors use strategically to make their work as strong as possible. The book provides elementary school teachers with user-friendly lesson plans that they can easily use to put mentor text-based grammar instruction into action in their classrooms. These lesson plans feature published examples of grammatical concepts from contemporary children's and middle-grade books, activities that help students connect their reading and writing experiences, and reflective activities that facilitate students' metacognition of the importance of grammatical concepts. The thorough plans in this book will help teachers put the best practices of grammar instruction into action in concrete, practitioner-oriented ways.

*The Probability of Everything* Sarah Everett, 2023-06-27 "One of the best books I have read this year (maybe ever)."

—Colby Sharp, Nerdy Book Club NPR Books We Love 2023 | Publishers Weekly Best of 2023 | Winner of the Governor General's Literary Awards for Young People's Literature A heart-wrenching middle grade debut about Kemi, an aspiring scientist who loves statistics and facts, as she navigates grief and loss at a moment when life as she knows it changes forever. Eleven-year-old Kemi Carter loves scientific facts, specifically probability. It's how she understands the world and her place in it. Kemi knows her odds of being born were 1 in 5.5 trillion and that the odds of her having the best family ever were even lower. Yet somehow, Kemi lucked out. But everything Kemi thought she knew changes when she sees an asteroid hover in the sky, casting a purple haze over her world. Amplus-68 has an 84.7% chance of colliding with earth in four days, and with that collision, Kemi's life as she knows it will end. But over the course of the four days, even facts don't feel true to Kemi anymore. The new town she moved to that was supposed to be "better for her family" isn't very welcoming. And Amplus-68 is taking over her life, but others are still going to school and eating at their favorite diner like nothing has changed. Is Kemi the only one who feels like the world is ending? With the days numbered, Kemi decides to put together a time capsule that will capture her family's truth: how creative her mother is, how inquisitive her little sister can be, and how much Kemi's whole world revolves around her father. But no time capsule can change the truth behind all of it, that Kemi must face the most inevitable and hardest part of life: saying goodbye. My heart hurt as I raced through the last chapters of this unique book that shines a light on family, friends, grief, and love. —Lisa Yee, author of *Maizy Chen's Last Chance*
