Moshé Machover

1948 Benny Morris, 2008-10-01 This history of the foundational war in the Arab-Israeli conflict is groundbreaking, objective, and deeply revisionist. Besides the military account, it also focuses on the war's political dimensions. Historian Morris probes the motives and aims of the protagonists on the basis of newly opened Israeli and Western documentation. The Arab side--where the archives are still closed--is illuminated with the help of intelligence and diplomatic materials. Morris stresses the jihadi character of the two-stage Arab assault on the Jewish community in Palestine. He examines the dialectic between the war's military and political developments and highlights the military impetus in the creation of the Palestinian refugee problem. He looks both at high politics and general staff decision-making and at the nitty-gritty of combat in the battles that resulted in the emergence of the State of Israel and the humiliation of the Arab world--a humiliation that underlies the continued Arab antagonism toward Israel.--Résumé de l'éditeur.

The Arab-Israeli Conflict Efraim Karsh, 2008-07-15 Describes the events preceding and during the Arab-Israeli conflict in 1948, detailing the battles, political negotiations, and consequences of the war.

Palestine 1948, 2nd Edition Yoav Gelber, 2006-01-26 Since the 1970s, the Latin Based on new or newly interpreted Israeli, British and Arab documents, this book attempts to integrate present controversies concerning the development of the Jewish-Palestinian war from December 1947 to mid-May 1948 and the consecutive Israeli-Arab war. It follows the organization of both sides at the beginning of the war and the shaping of their respective war policies. Further, it describes the creation of the invading coalition and its disintegration in the wake of the Arab armies' military failure. The book stresses mainly the processes that led Palestinian society to its collapse and mass flight and the Israeli reactions and policies that turned this temporary escape into a long-lasting refugee problem. Emphasizing the different historical and cultural perspectives of the adversaries and the context of the war's development, it criticises the approach of the Israeli 'New Historians' who tend to isolate the refugee problem from the broader issues of the war and treat it separately. Includes a glossary of Arab/Israeli wartime operations.

The Arab-Israeli Conflict Efraim Karsh, 2002 An examination of the Palestine War of 1948 and its progression through two distinct stages: the guerrilla warfare between the Arab and Jewish communities of Mandatory Palestine, and the conventional inter-state war between the State of Israel and the invading Arab armies.

War in Palestine, 1948 David Tal, 2004-06-24 Arab involvement in the Jewish-Palestine conflict had started during the late 1930s, but it was only in the wake of the UN Partition Resolution of 29 November 1947 that active military intervention was considered. The Arab League tried to form a unified army that would prevent the implementation of the Partition Resolution, but failed. In Egypt, the government and the army opposed the idea of dispatching an expeditionary force to Palestine, but the pressure of public opinion and King Farouq's insistence carried the day. The order was given and in May 1948, Egyptian forces crossed the international border with Palestine. The author analyses the reasons for the decisive victory enjoyed by Israel over a larger opponent; and the successes and failures that were sealed in the Egyptian-Israeli General Armistice Agreement signed in Rhodes in March 1948.

Israelis and Palestinians Moshé Machover, 2012-05-01 These essays, written between 1966 and 2010 by lifelong Israeli activist and theorist Moshé Machover, cover diverse aspects of Israeli society and the Israeli-Palestinian conflict. Elaborating on the ideas of the Socialist Organization in Israel (Matzpen), two interrelated themes appear throughout the collection: the necessity of understanding the Israeli-Palestinian conflict in a regional context and the connection between Palestinian liberation and the struggle for socialism throughout the Middle East.

Reconceptualizing Deterrence Elli Lieberman, 2013 This book offers a reconceptualisation of conventional deterrence theory, and applies it to enduring rivalries in the Middle East. The work argues that many of the problems encountered in the development of deterrence theory lay in the fact that it was developed during the Cold War, when the immediate problem it had to address was how to prevent catastrophic nuclear wars. The logic of nuclear deterrence compelled a preoccupation with the problem of stability over credibility; however, because the logic of conventional deterrence is different, the solution of the tension between credibility and stability is achieved by deference to credibility, due to the requirements of reputation and costly signaling. This book aims to narrow the gap between theory and evidence. It explores how a reconceptualization of the theory as a process that culminates in the internalization of deterrence within enduring rivalries is better suited to account for its final success: a finding that has eluded deterrence theorists for long. This interdisciplinary book will be of much interest to students of deterrence theory, strategic studies, international security, Middle Eastern studies and IR in general.

Education among Indigenous Palestinians in Israel Majid Al-Haj, 2024-07-01 Unparalleled in its scope, this book provides a detailed longitudinal analysis of indigenous Palestinian education in Israel since the establishment of the state. Taking a comparative approach, Majid Al-Haj juxtaposes the Arab and Hebrew education systems in Israel, from early childhood through higher education, looking at their administration, resources, curriculum content, and outcomes. Significantly, the book represents the first systematic examination of an authentic model for social change and educational empowerment initiated by Palestinian Arabs in Israel through a civil society organization. Blending quantitative and qualitative methods, Al-Haj addresses widely debated theoretical questions about the role of education among indigenous minorities and disadvantaged groups in the context of cultural hegemony and inequalities, on the one hand, and self-empowerment and social change, on the other. Lastly, Al-Haj offers a review of the pre-state period and considers the impact of the ongoing Israel-Palestinian conflict on the goals, substance, and narratives of Arab and Hebrew education.

Routledge Handbook on Palestine Michael Dumper, Amneh Badran, 2024-12-30 This Handbook provides a broad overview of Palestinian history, society, politics, and culture across different contexts and periods, revealing the rich and varied dimensions of Palestine. To capture the diversity of Palestinian scholarship and to introduce readers to a mix of approaches and perspectives, both internationally established and emerging Palestinian scholars have contributed. The Handbook attempts to avoid narrowly framing Palestine around the Israeli-Palestinian conflict, incorporating postcolonial approaches attentive to a broader range of (hitherto overlooked) actors. While a significant proportion of the Handbook examines the contemporary period, it is divided up into four sections that together provide a detailed overview of the main developments in the region: A historical section that contextualizes the complex historical formation of contemporary Palestine – perhaps best regarded as a country but not yet a state A section exploring the society, geography, economy, and identity of Palestine A section on the political significance of Palestine, covering the dynamics between Jewish nationalism (Zionism) and Palestinian nationalism A final section on culture, touching on architecture, literature, music, cuisine, education, and contemporary art Providing a deep analysis of the Palestinian perspective, the Handbook will prove valuable reading for anyone interested in the history, politics and society of Palestine and the Middle East.
