Solved: RGB Color Picker? - Adobe Product Community - 8834116 Feb 2, 2017 · Is there a way to activate the RGB color picker that was previously in Flash? Similar to the one that's in Photoshop? The current one is just unusable to me. Re: Problem with RGB/HSB slider and color picker Nov 22, 2023 · When rendering I rely on the the color picker and the HSB sliders. Recently the HSB-sliders don't work properly: when I pick a color from my canvas the sliders don't move to the colors new value but stay at it's old position. As a result, moving the silders to shift brightness and saturation of the picked color results in jumping to random hues. **Re: Color Picker Bug? My InDesign seems to be confusing HSB ...** Jun 26, 2024 · That makes sense. So if you open up the color picker on something with an RGB swatch, do you automatically hit the HSB view right away before adjusting anything? I usually just pop into the text box for either saturation or brightness and use shift+arrow keys to go up or down by 10 to get a quick ... *color space view from rgb to cmyk - Adobe Support Community* Color Space View in Color Picker Tool is either RGB or Lab based (which in a way does make sense since I suppose you don't have a CMYK screen, do you? ^^ But on the other hand, I understand that a CMYK color space could be handy, although not 100% accurate, even with a calibrated screen *) **Color Picker won't change the color properly?** Nov 7, 2012 · The Document Color mode in both screenshots indicates CMYK. The color you see is expected. Change the color mode properly to RGB and it will solve your problem. *Solved: InDesign Color Picker Shows "RGB Color Space" and* Jan 22, 2020 · This is driving me crazy. For years, when I work in InDesign and I use the color picker, it shows up in CMYK color space. I did something, I don't know what, and now, the color picker shows RGB color space. Does anyone know how to change this back???? I don't use Bridge and I'm not planning to star... How do I get the hex code to show up in the Color Panel? Dec 4, 2024 · Yes, it's annoying that the only place Photoshop will show, and allow pasting of, the RGB hex color values as a single number is in the Color Picker dialog box. And I don't think there's a way to highlight a color in the Swatches panel that matches the currently sampled color. (I like that idea, though.) **How to change the color picker/color space view?** Sep 11, 2012 · InDesign doesn't have a document color space like Illustrator and Photoshop—a document can have a mix of either CMYK, RGB, or Lab objects, and the 3 color pickers (the Color Picker, Color, and Swatches panels) are limited to those spaces. There's no Grayscale or HSB, and it's the missing HSB's H view that's intuitive for picking color and would be nice to ... **Photoshop color picker suddenly isn't working** Jun 18, 2016 · Inside the color picker, try clicking on the radio buttons

H, S, B, R, G, B and you'll see how the colour picker changes. To get back to the default Photoshop color picker, simply click on H (which stands for Hue) you'll find yourself with the old familiar picker. **How do I change the color picker in InDesign (2019)** Jan 26, 2020 · How do I change the color picker/color space view to what it looks like in the other Adobe programs? I have problems with the look and function of this color view.
