**Displacement, Environments, and Photo-Politics in the Mediterranean** Parvati Nair, 2024-10-31 Focusing on the Mediterranean region from 2015 onwards, this volume explores photography's engagement with displacement, a process that denotes the environmental and social breakdown of places and the forced mobility of people. The ongoing proliferation of photography of the displaced plays a crucial role in shaping opinions, by sensitising the public to the despair of displacement and hardening them to the trope through repeated exposure. Through a range of images by both established and amateur photographers, as well as ethnographic notes that draw from interviews with actors who are either displaced or working with the displaced, Parvati Nair questions the extent to which photography opens a space of possibility for the displaced in the face of globally dominant ideological drives that lead to the Anthropocene. Chapters focus on key aspects of this mass phenomenon, such as the question of crises no longer as exception but as historical process, the lived experiences of protracted relegation to borders and exposure to possible death, the prevalence of domicile and the spread of encampments, and the question of hope for the future. The book will be of interest to scholars in photography theory, migration and refugee studies, art history, Mediterranean studies, and political science.

Experiences of Menstruation from the Global South and North Kay Standing, Sara Parker, Stefanie Lotter, 2024-02-22

Experiences of Menstruation from the Global South and North presents academic and creative work on menstruation from menarche to menopause across a range of disciplines. **Managing Natural and Cultural Heritage for a Durable Tourism** Anna Trono,Valentina Castronuovo,Petros Kosmas,2024-04-28 This contributed volume offers a wealth of cases that explore the factors and conditions required for heritage tourism to be economically and socially beneficial to local communities without impairing the natural environment, cultural heritage preservation, or sustainability for future generations. The studies presented here comprise an examination of measures which have been and can be implemented to ensure sustainable use of natural and cultural systems, leading to a new concept of tourism that incorporates science and community practices together to create a favorable environment where tourists and locals can experience meaningful interactions and experiences. The book focuses on the role of stakeholders in the development of a new policy regarding the sustainable management of cultural tourism and the possibility of their involvement in the processes governing policy-making. Emphasis is placed on the role and commitment of local and international authorities, including UNESCO, in preserving the world's endangered cultural and natural heritage, as well as the responsibilities of Member States and public and private actors with respect to future conservation challenges.

**False profits of ethical capital** Claire Parfitt,2024-07-09 False profits of ethical capital is a thought-provoking approach to understanding stakeholder capitalism. Rather than focusing on the inadequacies of corporate responsibility, sustainable investment and consumer politics, this book grapples with the technical and rhetorical functions of ethical capital for profit and accumulation. It provides a unique and eclectic analysis of the political dynamics between finance, capital and labour, offering a refreshing perspective on struggles interlocking social, ecological and economic crises, and suggesting new ways of thinking about sustainability politics.

*Child Migrant Voices in Modern Britain* Eithne Nightingale,2024-01-11 Almost half the people displaced worldwide are

under 18, yet their voices are rarely heard. This book records the experiences of children arriving in Britain from Hitler's Europe in the 1930s to those escaping war in Ukraine in 2022. It follows the journeys of war-traumatised children from Mogadishu to Mile End and from Syria to a Scottish isle. Some followed their parents to the 'motherland' from the former British Empire. Others came independently to escape forced marriage or military conscription. These powerful testimonies shed light on children's motivations, trials and achievements, including in adult life, providing critical insight into how the British – both individually and collectively – have welcomed or shunned child migrants. Importantly, Eithne Nightingale links these stories with contemporary issues such as the Windrush Scandal and Britain's Illegal Migration Act 2023. Situated in its historical and political context, *Child Migrant Voices in Modern Britain* makes vital reading for those studying modern British history, migration and human rights as well as those working with child migrants. It will also appeal to a general audience interested in inspirational life stories. For more information on the book, related events and to watch award-winning films on child migration see [childmigrantstories.com](http://childmigrantstories.com).

**Sorry for the Inconvenience But This Is an Emergency** Lynne Jones, 2024-03-07 As floods and fires rage across the planet, ever more people are embracing nonviolent action to achieve political change. Can it work? Doctor and aid worker Lynne Jones offers a compelling, ground-level account of the last five years of UK protests, exploring how and why ordinary citizens have adopted extraordinary methods to confront the climate and nature crises. Sharing her 1980s experiences opposing nuclear weapons at Greenham Common, and her journey in movements like Extinction Rebellion today, Jones reflects on public history and her personal story to unpack nonviolent protest in a world on the brink. Can we learn from past movements? How to communicate with those who disagree? What kind of disruption is most effective in Western democracies? Is property damage nonviolent? Is the law just? How important are direct interventions, boycotts and non-cooperation? What can indigenous campaigners of the Global South teach us? A lifetime of activism has taught Jones that we all have more power than we realise. It's time to use that power—before it's too late.

CJEU - Recent Developments in Value Added Tax 2022 Georg Kofler, Michael Lang, Pasquale Pistone, Alexander Rust, Josef Schuch, Karoline Spies, Claus Staringer, Rita Szudoczky, Ilze Kuniga, 2024-01-17 The most important and recent judgments of the CJEU Considering the ever-increasing importance of indirect taxation as a source of revenue for governments, the

intensifying complexity of the legal framework, and the proliferating number of countries adopting indirect taxation, it is essential to scrutinize how the law is applied in practice. The primary driving force in this area is, undoubtedly, the Court of Justice of the European Union. This book analyses selected topics (e.g., fighting VAT fraud, obligations imposed on digital platforms, taxable person, taxable transactions, place of supply, taxable base and rates, exemptions, and deductions) by examining the most prominent and recent judgments of the Court of Justice of the European Union. Experts from all over the world, not just from academia but also government and judiciary representatives, as well as tax practitioners, have provided their input and helped us compile what is an informative and worthy read for anyone dealing with indirect taxation on a professional basis.

**Just Earth** Tony Juniper, 2025-03-13 In this extraordinary and hopeful book, leading environmentalist Tony Juniper CBE identifies the real problem at the heart of the climate and nature crises. From soil loss to wildfires, degraded rivers, mass migration and conflict, the environmental crisis is already here - and it's set to get much worse. While billionaires build remote bunkers and make plans for colonies on Mars, climate collapse impacts the most vulnerable among us first and hardest. But what this radical and ground-breaking book proves is that inequality isn't just about who suffers the consequences, it is the main obstacle blocking action -- and it has been for decades. How can people lead good lives without ultimately hastening global collapse? The answer lies in fairness. We can't fight the climate and nature crises without addressing the ever-widening gaps between the rich and poor, the powerful and the weak. Drawing upon more than 40 years of experience in research, practical work, campaigning and advocacy, combined with interviews with globally renowned experts, in *Just Earth* Tony Juniper reveals the system shifts needed to achieve real, lasting change.

Routledge Handbook of Chinese and Eurasian International Relations Mher Sahakyan, 2024-07-26 The Routledge Handbook of Chinese and Eurasian International Relations explores China's relations with the Eurasian continent's regions and countries in a multipolar era, providing an equal and balanced platform for scholars and practitioners from East, West, North, and South. This diversity enriches the contribution, giving it a dynamic ability to examine sources in different languages and cover a vast geography. Divided into ten parts, this handbook analyses the major powers in a Multipolar World Order; China's political and economic interests in post-Soviet Eurasia, Middle East, Europe, Asia-Pacific, and Arctic; and China's relations with the US, Russia, Eurasian Economic Union, NATO and other players. International technology and environmental experts consider the impact of the Belt and Road Initiative, along with other international economic and transport corridors, and examine China's multilateral relations and Digital Silk Road and e-governance roles. The Routledge Handbook of Chinese and Eurasian International Relations also contains official documents detailing the establishment of diplomatic relations between China and several European and Asian states, making it an authoritative source on diplomatic affairs. This groundbreaking book will be of interest to policymakers, businessmen, scholars, and students of international

relations, area studies, cybersecurity and digitalization, economics and the politics of international trade, security studies, foreign policy, global governance, international organizations, and environmental studies.

*Cyber-Physical Systems* Alla G. Kravets, Alexander A. Bolshakov, 2024-12-02 This book presents a comprehensive overview of the latest advancements in the field of cyber-physical systems, focusing on the transition from Industry 4.0 to Industry 5.0. This transition emphasizes the increased role of humans in the manufacturing process, the introduction of new technologies, and improvements in management and security. The book covers various topics, including neural network and synergetic approaches to solving problems, decentralized identifiers methods classification, identification of technological opportunities for enterprises, and cybernetic technologies to counter passive and active cyberattacks. This book is an essential resource for researchers, engineers, and students interested in the field of cyber-physical systems, as well as for professionals working in industries that are undergoing the transition from Industry 4.0 to Industry 5.0.

A Teacher's Guide to Conversational AI David A. Joyner, 2024-05-27 A Teacher's Guide to Conversational AI explores the practical role that language-based artificial intelligence tools play in classroom teaching, learning experiences, and student assessment. Today's educators are well aware that conversational and generative AI—chatbots, intelligent tutoring systems, large language models, and more—represent a complex new factor in teaching and learning. This introductory primer offers comprehensive, novice-friendly guidance into the challenges and opportunities of incorporating AI into K-12 schools and college classes in ways that are appropriate, nourishing to students, and outcomes-driven. Opening with an informative overview of the foundational properties, key terminology, and ethical considerations of these tools, the book offers a coherent and realistic vision of classrooms that are enhanced, rather than stymied, by AI systems. This includes strategies for: · designing assessments that are conducive to students' beneficial use of AI while mitigating overreliance or dishonesty; · using AI to generate lesson examples for student critique or custom content that reinforces course principles; · leveraging chatbots as a co-instructor or a tutor, a guide during student-driven learning, a virtual debate or brainstorming partner, and a design project; and · creating course content, lesson plans and activities, expanded language and accessibility options, and beyond. Through the depth of understanding and applied approach provided in these chapters, teachers and leaders in training and in service, alongside private tutors, college instructors, and other educators, will be better prepared to future-proof their efforts to serve new generations of learners.
