Iberian Visions of the Pacific Ocean, 1507-1899 R. Buschmann, 2014-10-28 In this work, Buschmann incorporates neglected Spanish visions into the European perceptions of the emerging Pacific world. The book argues that Spanish diplomats and intellectuals attempted to create an intellectual link between the Americas and the Pacific Ocean.

El reparto de África: de la Conferencia de Berlín a los conflictos Roberto Ceamanos, 2024-04-08 Las fronteras africanas establecidas a finales del siglo XIX destacan no solo por ser “artificiales”, sino sobre todo porque su creación es anterior a la de los estados que delimitan. Las potencias coloniales europeas invadieron el continente y acordaron repartírselo en la Conferencia de Berlín (1884-1885), pero lo que no deja de sorprender es que aquellas fronteras que nada tenían que ver con las etnias africanas anteriores se mantuvieran tras la descolonización. La explotación de los recursos naturales (diamantes, oro, petróleo, coltán...) y los conflictos que alimenta también se han mantenido; son conocidas sus consecuencias en países como Angola, Liberia, Sierra Leona, Sudán del Sur, Nigeria o la República Democrática del Congo. Ante el pesado lastre de la herencia colonial, junto con otros factores, cobra relevancia la idea que Mbuyi Kabunda recuerda en el prólogo: “África debe abandonar la lógica de economías rentistas o extractivas que ayer justificaron la colonización y hoy el acaparamiento de sus tierras para empezar a producir para África y para los africanos”.

From Romanticism to Modernismo in Latin America David William Foster, Daniel Altamiranda, 1997 This volume traces the modern critical and performance history of this play, one of Shakespeare's most-loved and most-performed comedies. Procesos de verdad, justicia y reparación a las víctimas de desaparición forzada en el Sahara Occidental María

López Belloso,2019-02-28 La tesis de la investigadora, defendida en 2017 en la Universidad de Deusto y dirigida por los profesores Felipe Gómez Isa y Carlos Martín Beristain, analiza el que califica de “conflicto olvidado” del Sahara Occidental desde la perspectiva de los derechos humanos abordando, en particular, el delito de desaparición forzada. Para ello, la autora, que formó parte del equipo de trabajo de la investigación que desembocó en “El Oasis de la Memoria”, analiza en detalle 95 casos de desaparición forzada, 86 de ellos recogidos en dicha publicación y los nueve restantes, en “Meheris: la esperanza posible”. La investigadora indica que es necesaria “una voluntad política real por transformar la realidad y romper con el pasado de violaciones de derechos humanos” y denuncia que “no se haya respetado el derecho de las víctimas a la verdad”. Los resultados del trabajo, según apunta López, se espera que sirvan para que las personas afectadas puedan defender sus derechos ante las instancias internacionales y la Audiencia Nacional española.

Interpreting the New Milenio M. Carmen Gómez Galisteo,José Antonio Gurpegui,2009-05-05 Interpreting the New Milenio is a collection of essays analyzing the past, present and future directions of Chicano Literature. Beginning with the presence of Spanish conquistadors in the U.S. and ending with contemporary authors such as Sandra Cisneros, Interpreting the New Milenio covers well-known Chicano authors as well as lesser known 19th-century Hispanic writers. The essays in the collection examine Chicano literature as well as its precedents as a whole, so as to find the keys for the interpretation of the challenges posed by the new millennium.

A History of International Law in Italy Giulio Bartolini,2020 In the past few decades the understanding of the relationship between nations has undergone a radical transformation. The role of the traditional nation-state is diminishing, along with many of the traditional vocabularies which were once used to describe what has been called, ever since Jeremy Bentham coined the phrase in 1780, 'international law'. The older boundaries between states are growing ever more fluid, new conceptions and new languages have emerged which are slowly coming to replace the image of a world of sovereign independent nation states which has dominated the study of international relations since the early nineteenth century. This redefinition of the international arena demands a new understanding of classical and contemporary questions in international and legal theory. It is the editors' conviction that the best way to achieve this is by bridging the traditional divide between international legal theory, intellectual history, and legal and political history. The aim of the series, therefore, is to provide a forum for historical studies, from classical antiquity to the twenty-first century, that are theoretically-informed and for philosophical work that is historically conscious, in the hope that a new vision of the rapidly evolving international world, its past and its possible future, may emerge. Book jacket.

La colonización Marc Ferro,2000-03-18 Esta obra aborda las prácticas coloniales tanto de los europeos como de los árabes, turcos y japoneses, para establecer puntos en común y diferencias. Presentando el punto de vista de los ex colonizados, y no sólo la visión eurocéntrica de los vencedores, muestra la manera en que chocaron de frente los efectos de

los movimientos de independencia debido a la mundialización de la economía y, más recientemente, al fenómeno que el autor denomina imperialismo multinacional.

Strangers in Their Own Land Francis X. Hezel, 2003-09-30 Hezel has written an authoritative and engaging narrative of [a] succession of colonial regimes, drawing upon a broad range of published and archival sources as well as his own considerable knowledge of the region. This is a 'conventional' history, and a very good one, focused mostly on political and economic developments. Hezel demonstrates a fine understanding of the complicated relations between administrators, missionaries, traders, chiefs and commoners, in a wide range of social and historical settings. —Pacific Affairs The tale [of Strangers in Their Own Land] is one of interplay between four sequential colonial regimes (Spain Germany, Japan, and the

United States) and the diverse island cultures they governed. It is also a tale of relationships among islands whose inhabitants did not always see eye-to-eye and among individuals who fought private and public battles in those islands. Hezel conveys both the unity of purpose exerted by a colonial government and the subversion of that purpose by administrators, teachers, islands, and visitors.... [The] history is thoroughly supported by archival materials, first-person testimonies, and secondary sources. Hezel acknowledges the power of the visual when he ends his book by describing the distinctive flags that now replace Spanish, German, Japanese, and American symbols of rule. the scene epitomizes a theme of the book: global political and economic forces, whether colonial or post-colonial, cannot erode the distinctiveness each island claims.—American Historical Review

Ends of British Imperialism William Roger Louis, 2006 Pax Britannica to Pax Americana is the story of the British Empire from its late-nineteenth century flowering to its present extinction. Louis traces the British Empire from the scramble for Africa, the turbulent imperial history of the Second World War in Asia, and the mid-20th century rush to independence to the Suez crisis, the icon of empire's end. It forms the ideal platform from which to examine the aims and outcome of empire. This authoritative and highly engaging history appears at a time when interest in the history of the British Empire has, ironically, never been stronger, making Ends of British Imperialism a must-read item for both scholar and general reader.

Eje cronológico de la evolución del procesamiento de la información (una cápsula del tiempo) Francisco José Serón Arbeloa, 2023-10-20 Esta cápsula del tiempo, intenta mostrar la evolución ramificada que ha seguido el ser humano en relación con el procesamiento de la información, intentado contextualizar cada hito en el entorno político de su época. El objetivo fundamental que se pretende conseguir es ofrecer información que permita cubrir el habitual déficit en el conocimiento de la mayor parte de las personas que viven para y del procesamiento de la información. Para muchos de ellos, ese mundo es así y punto. Por ello, se intenta despertar el interés por la dimensión histórica del procesamiento de la información, recordando un principio general que afirma que el presente no puede entenderse sin una perspectiva del pasado.
