**The Palgrave Handbook of Multilingualism and Language Varieties on Screen** Irene Ranzato, Patrick Zabalbeascoa, 2024-09-26 This handbook brings together contributions from the main experts in the field of multilingualism and language varieties (including dialects, accents, sociolects, and idiolects of specific speech communities) as expressed in fictional dialogue on-screen in films, and television series. The chapters included in the volume cover both the representation of these varieties and multilingual situations on screen as well as their translation into a range of languages. The handbook will thus be an essential resource for scholars and students in diverse fields including translation studies, audiovisual translation, linguistics, dialectology, film and television studies.

**Uncommon Core** Michael W. Smith, Deborah Appleman, Jeffrey D. Wilhelm, 2014-04-01 Leave instruction to the experts! Uncommon Core puts us on high-alert about some outright dangerous misunderstandings looming around so-called “standards-aligned” instruction, then shows us how to steer past them—all in service of meeting the real intent of the Common Core. It counters with teaching suggestions that are true to the research and true to our students, including how: Reader-based approaches can complement text-based ones Prereading activities can help students meet the strategic and conceptual demands of texts Strategy instruction can result in a careful and critical analysis of text while providing transferable understandings Inquiry units around essential questions can generate meaningful conversation and higher-order thinking

**Unlocking Student Talent** Robin J. Fogarty, Gene M. Kerns, Brian M. Pete, 2018-01-12 How do we truly help students achieve their fullest potential? What are the roles of motivation, deliberate practice, and coaching in developing talent and abilities in students? This hands-on guide examines each of these elements in detail providing definitions, relevant research, discussions, examples, and practical steps to take with students in elementary, middle, and high school. The authors examine cutting-edge research on world-class performance and distill information specifically for educators. Offering guidelines to help teachers spot and encourage students’ exceptional aptitudes, passionate interests, and special strengths, they show concretely how to promote greater motivation for learning and success. This foundational book infuses new ideas into established teaching. User-friendly chapters include thought-provoking insights, vignettes of how notable talents were

developed, teaching and learning tips, grade-level examples, and discussion questions. “Offers revolutionary proposals for transforming education...and describes how to produce high-school graduates who are independent learners.” —From the Foreword by K. Anders Ericsson and Robert Pool “The authors of this book understand that educators who seek to unlock talent must first and foremost build the confidence, not just the achievement, of the possessor of that talent—the student. This volume is the guide book for all who wish to use assessment for learning and other strategies in partnership with talented learners in the service of their success.” —Rick Stiggins, founder, Assessment Training Institute

The Best Kind of College Susan McWilliams, John E. Seery, 2015-07-06 The fevered controversy over America's educational future isn't simply academic; those who have proposed sweeping reforms include government officials, politicians, foundation officers, think-tank researchers, journalists, media pundits, and university administrators. Drowned out in that noisy debate are the voices of those who actually teach the liberal arts exclusively to undergraduates in our nation's small liberal arts colleges, or SLACs. The Best Kind of College attempts to rectify that glaring oversight. As an insiders' guide to the liberal arts in its truest form the volume brings together thirty award-winning professors from across the country to convey in various ways some of the virtues, the electricity, and, overall, the importance of the small-seminar, face-to-face approach to education, as typically featured in SLACs. Before we in the United States abandon or compromise our commitment to the liberal arts—oddly enough, precisely at a time when our global competitors are discovering, emulating, and founding American-style SLACs and new liberal arts programs—we need a wake-up call, namely to the fact that the nation's SLACs provide a time-tested model of educational integrity and success.

**Digital Copyright and the Consumer Revolution** Matthew Rimmer, 2007-01-01 A very helpful and accessible collection of contemporary issues in digital copyright law. . . Rimmer's book is quite possibly the most enjoyable and easy to read guide to selected issues of digital copyright law on the market today. . . Its core strength is undoubtedly its accessibility it is a pleasure to read. Martin Arthur Kuppens, *Journal of Intellectual Property Law and Practice* Matthew Rimmer's book provides much needed insight into the current status of digital copyright and its relationship to the general purchasing public. . . This book, which has a structure that flows with concinnity and concision, makes it easy to navigate some of the most complicated and controversial issues. Lisa Wong, *Osgoode Hall Law Journal* This engaging account of US copyright law (and copyright wars) is thorough and informative. Following a comprehensive and compelling introduction, encompassing a literature review and outline of the methodology and arguments to be adopted. . . His deep understanding of the subject matter, as well as his profound empathy with consumers, are evident throughout the work; the book will, no doubt, foster a similar interest in another generation of copyright law scholars. Louise Buckingham, *Copyright Reporter* Digital Copyright and the Consumer Revolution is a very important and timely book. . . and is a crucial vade mecum on the ever evolving global maze of case law and copyright reform. Colin Steele, *Australian Library Journal* It will most definitely prove to be an

indispensable tool for researchers concerned with recent legal developments in the copyright field, both in America and Australia. Rimmer's *Hands Off My iPod* is a comprehensive and detailed analysis of current problems facing copyright holders as the struggle (and often fumble) to find a balance between profiting off their property and keeping the newly-powerful, increasingly agile user happy. Adam Sulewski, *Journal of High Technology Law* Rimmer brings the tension between law and technology to life in this important and accessible work. *Digital Copyright and the Consumer Revolution* helps make sense of the global maze of caselaw and copyright reform that extend from San Francisco to Sydney. The book provides a terrific guide to the world's thorniest digital legal issues as Rimmer demonstrates how the consumer interest is frequently lost in the crossfire. Michael A. Geist, the Canada Research Chair of Internet and E-Commerce Law, the University of Ottawa, Canada This book documents and evaluates the growing consumer revolution against digital copyright law, and makes a unique theoretical contribution to the debate surrounding this issue. With a focus on recent US copyright law, the book charts the consumer rebellion against the Sonny Bono Copyright Term Extension Act 1998 (US) and the Digital Millennium Copyright Act 1998 (US). The author explores the significance of key judicial rulings and considers legal controversies over new technologies, such as the iPod, TiVo, Sony Playstation II, Google Book Search, and peer-to-peer networks. The book also highlights cultural developments, such as the emergence of digital sampling and mash-ups, the construction of the BBC Creative Archive, and the evolution of the Creative Commons. *Digital Copyright and the Consumer Revolution* will be of prime interest to academics, law students and lawyers interested in the ramifications of copyright law, as well as policymakers given its focus upon recent legislative developments and reform proposals. The book will also appeal to librarians, information managers, creative artists, consumers, technology developers, and other users of copyright material.

**GCSE Literature Boost: A Christmas Carol** Haili Hughes, 2024-06-25 *GCSE Literature Boost: A Christmas Carol* uses academic criticism and theory to relight your literary passion for this classic text and put a newfound excitement in your pedagogy. Beginning with a whistlestop tour of literary theory and criticism from 400BC to the late 20th century, Hughes explains how you can introduce your GCSE English students to themes most often reserved for undergraduate courses, improving their understanding of the text and broadening their knowledge of the subject as a whole. Written in easily digestible chunks, each chapter considers a main theme or section of Charles Dickens' *A Christmas Carol* through different critical lenses summarising the relevant academic theories, and shows how you can transfer this knowledge to the classroom through practical teaching ideas. Features include: Case studies showing how English teachers have used academic theory in practical ways. Ideas for teaching linked to GCSE assessment objectives at the end of each chapter. Six key points at the end of each chapter that highlight the key takeaways from that chapter. Real examples of student work which can be used as models and exemplars. This is essential reading for all secondary English teachers looking to create a climate of high expectations and improve their students' knowledge and understanding of the big ideas in literature.

Sexual Orientation and Teacher Identity Patrick M. Jenlink, 2019-11-26 Sexual Orientation and Teacher Identity: Professionalism and GLBT Politics in Teacher Preparation and Practice examines the nature of LGBTQ issues and teacher identity as social, cultural, and political constructs. In particular, the contributing authors to this collection of chapters present a collection of chapters (contemporary discourses) that will illuminate and critique the practices, structures, and politics in both teacher preparation programs and public school settings that affect LGBTQ teachers and their identity in relation to the struggles of teachers as professionals face in obtaining recognition. The contributing authors of the book focus on teachers are entering educational settings where difference connotes not equal, and discourses of LGBTQ politics, identity, and difference are interwoven with a realization of discrimination and marginalization. The authors, drawing on their personal and professional experiences, give much needed voice to recognition and the formation of identity from a LGBTQ viewpoint as they relate to teachers, teacher educators, and other cultural workers responsible for shaping professional identities of teachers and for teaching students in schools and classrooms across the nation.

**The High-Trust Classroom** Lonnie Moore, 2016-08-25 Create a classroom environment where students trust their teacher—and one another! In the second edition of this bestseller, co-published by Routledge and Franklin Covey, you'll learn how to establish the 25 qualities of the high-trust classroom. All change begins with self-awareness, and this book will help you identify the things that you can do personally and professionally to build trust and engage the learner. You'll learn how to: Manage your emotions to promote a calm, safe, and welcoming classroom environment; Plan effective lessons by setting measurable goals for your students and helping them achieve to their fullest potential; Communicate clearly with your students to build trust and convey expectations with a positive attitude; Become an inspirational and motivating figure in your students' lives; And much, much more! This updated edition includes a new section on scoreboarding – visually tracking daily or weekly progress to help drive personal and professional growth – as well as a section on getting students to take ownership of their learning. Whether you are a new or veteran teacher, this book will help you develop a personal growth plan to create a classroom in which all students feel valued, motivated, and inspired.

**Nollywood Central** Jade L. Miller, 2019-07-25 Nollywood is often portrayed by the popular press as an unruly industry, with mysteriously fast and cheap production and shadowy distribution networks. In the first overview of Nigeria's burgeoning video film industry, Jade L. Miller reveals that this portrayal is over-simplistic and often untrue. Investigating Nollywood's complete global production and distribution chain, Nollywood Central presents a full portrait of the Nollywood industry as both highly organised and strategically structured. In doing so, it interrogates the position and rise of new cultural industry hubs, demonstrating how a creative industry can emerge, be sustainable and circulate globally even though it exists outside of formal global networks and government-supported infrastructure. Deepening understanding of this prolific industry while at the same time contributing to debates surrounding global flows of culture, this is a critical resource for students and

scholars of Media and Communication Studies, Film Studies, Television Studies and African Studies.

**Revolution in Higher Education** Richard A. Demillo, 2017-03-03 A report from the front lines of higher education and technology that chronicles efforts to transform teaching, learning, and opportunity. Colleges and universities have become increasingly costly, and, except for a handful of highly selective, elite institutions, unresponsive to twenty-first-century needs. But for the past few years, technology-fueled innovation has begun to transform higher education, introducing new ways to disseminate knowledge and better ways to learn—all at lower cost. In this impassioned account, Richard DeMillo tells the behind-the-scenes story of these pioneering efforts and offers a roadmap for transforming higher education. Building on his earlier book, *Abelard to Apple*, DeMillo argues that the current system of higher education is clearly unsustainable. Colleges and universities are in financial crisis. Tuition rises inexorably. Graduates of reputable schools often fail to learn basic skills, and many cannot find suitable jobs. Meanwhile, student-loan default rates have soared while the elite Ivy and near-Ivy schools seem remote and irrelevant. Where are the revolutionaries who can save higher education? DeMillo's heroes are a small band of innovators who are bringing the revolution in technology to colleges and universities. DeMillo chronicles, among other things, the invention of MOOCs (Massive Open Online Courses) by professors at Stanford and MIT; Salman Khan's Khan Academy; the use of technology by struggling historically black colleges and universities to make learning more accessible; and the latest research on learning and the brain. He describes the revolution's goals and the entrenched hierarchical system it aims to overthrow; and he reframes the nature of the contract between society and its universities. The new institutions of a transformed higher education promise to demonstrate not only that education has value but also that it has values—virtues for the common good.

**Using Equity Audits in the Classroom to Reach and Teach All Students** Kathryn Bell McKenzie, Linda Skrla, 2011-07-14 Raise your equity awareness quotient In this time of changing demographics and increased diversity, many teachers find that existing strategies to promote equity are only successful with some of the students in their classes. This book provides teachers with new strategies and tools that will work for all children, including those with diverse needs. The authors offer a wide range of methods to help teachers: Assess their competency in teaching all students Embrace self-reflection and be open to change Evaluate and assess student achievement Develop high-quality teaching skills and an equity consciousness that leads to success with all students

*Leading with Vision* Bonnie Hagemann, Simon Vetter, John Maketa, 2017-05-16 What does it mean to lead with vision? From LinkedIn Learning Expert, Bonnie Hagemann comes the first book devoted entirely to vision as a key leadership principle. Hagemann and her co-authors delve deeply into the notion that a compelling vision that motivates and inspires is a differentiator for organizations that want to hire and retain talent, be more competitive, and thrive in uncertain times. But a compelling vision on its own is not enough, which is why the authors, sought-after leadership development experts globally,

provide readers with detailed analysis of the essential things leaders must do to effectively engage the workforce around that vision: embody courage, forge clarity, build connectedness, and shape culture. *Leading with Vision* draws on quantitative data from the authors' research of over 400 companies supplemented with real-world examples from thoughtful leaders who exemplify the core principles of leading with vision in established companies, including: Olukai, Bumble Bee, Coresystems, Jimbo's, Bunge, and more. The book also includes an actionable blueprint developed by the authors that leaders and their organizations can implement on day one of their journey.

*Generating Tact and Flow for Effective Teaching and Learning* Susanna M. Steeg Thornhill, Ken Badley, 2020-11-26 This book draws from and analyzes teachers' and students' stories of great classes in order to promote teachers' development of pedagogical tact and to encourage flow states for students. Taken together, these theoretical lenses—pedagogical tact and flow—provide a valuable framework for understanding and motivating classroom engagement. As the authors suggest, tactful teachers are more likely to see their students in flow than teachers who struggle with basic classroom routines and practices. Grounded in narrative research, and written for pre-service teachers, the book offers strategies for replicating these first-hand accounts of peak classroom teaching and learning.

**The Films of Robin Williams** Johnson Cheu, 2019-05-28 From his first appearance as Mork from Ork on the 1970s sitcom *Happy Days*, Robin Williams was heralded as a singular talent. In the pre-cable television era, he was one of the few performers to successfully transition from TV to film. An Oscar-winning actor and preternaturally quick-witted comedian, Williams became a cultural icon, leaving behind a large and varied body of work when he unexpectedly took his own life in 2014. This collection of new essays brings together a range of perspectives on Williams and his oeuvre, including beloved hits like *Mrs. Doubtfire*, *Good Morning, Vietnam*, *Good Will Hunting*, *The Fisher King*, *Dead Poets Society* and *Aladdin*. Contributors explore his earlier work (*Mork and Mindy*, *The World According to Garp*) and his political and satirical films (*Moscow on the Hudson*, *Toys*). Williams's darker, less well-known fare, such as *Being Human*, *One Hour Photo*, *Final Cut* and *Boulevard*, is also covered. Williams's artistry has become woven into the fabric of our global media culture.

**Short Film Screenwriting** Austin Bunn, 2024-10-03 Written by a Sundance alum and short filmmaker, this book combines the practical advice of a craft guide with a curated, diverse anthology, including revealing interviews with the writers and directors. *Short Film Screenwriting* demystifies the process of writing effective, emotionally involving short films and, for the first time, publishes the screenplays of some award-winning shorts, providing unfiltered access to the voice, vision, and approach of the filmmakers. A ground-breaking new addition to both film and creative writing instruction, this book treats short film screenwriting as a literary mode worthy of close examination and exploration to inspire screenwriters. The book is built around accessible craft concepts and story forms: narrative design, visualizing character, uncommon relationship, the 10-minute journey, perception shift, formal experiments and hybrid forms, and revision. Contemporary,

award-winning film scripts from the Oscars, Sundance, SXSW, and beyond accompany chapters as case studies, along with interviews with the writers/filmmakers about the drafting and revision process, production, and release. Each of the films is accessible for screening online, with additional screenplays included in an online resource.

*Loss, A Love Story* Sophie Ratcliffe, 2024-04-15 A journey with the novels that shape our emotions, our romances, and ourselves Part memoir, part imagined history, this unique personal essay depicts the intimate experience of childhood bereavement, lost love affairs, and the complicated realities of motherhood and marriage. Framed by an extended train journey, author Sophie Ratcliffe turns to the novels, novelists, and heroines who have shaped her emotional and romantic landscapes. She transports us with her to survey the messiness of everyday life, all while reflecting on steam propulsion and pop songs, handbags and honeymoons, Anna Karenina and Anthony Trollope, former lovers and forgotten muses. Frank, funny, tender, and transporting, *Loss, A Love Story* asks why we fall in, and out, of love—and how we might understand doing so amid the ongoing upheavals and unwritten futures of the twenty-first century.

**Designing Learning with Embodied Teaching** Fei Victor Lim, 2020-08-27 Teaching and learning involve more than just language. The teachers' use of gestures, the classroom spaces they occupy and the movements they make, as well as the tools they use, work together with language as a multimodal ensemble of meanings. Embodied teaching is about applying the understandings from multimodal communication to the classroom. It is about helping teachers recognise that the moves they make and the tools they use in the classroom are part of their pedagogy and contribute to the design of the students' learning experience. In response to the changing profile and needs of learners in this digital age, pedagogic shifts are required. A shift is the evolving role of teachers from authority of knowledge to designers of learning. This book discusses how, using examples drawn from case studies, teachers can use corporeal resources and (digital) tools to design learning experiences for their students. It advances the argument that the study of the teachers' use of language, gestures, positioning, and movement in the classroom, from a multimodal perspective, can be productive. This book is intended for educational researchers and teacher practitioners, as well as curriculum specialists and policy makers. The central proposition is that as teachers develop a semiotic awareness of how their use of various meaning-making resources express their unique pedagogy they can use these multimodal resources aptly and fluently to design meaningful learning experiences. This book also presents a case for further research in educational semiotics to understand the embodied ways of meaning-making in the pedagogic context.
