Ralston is the author of the groundbreaking trilogy on the existential foundations of the human condition—The Book of Not Knowing, Pursuing Consciousness, and The Genius of Being. Fighting the Good Fight Thomas D. Logie, 2011-02-01 Biblical history and the shorter prophets have lessons for twenty-first century Christians that are too often missed in regular study. Of Kings, Prophets, Families, and the King of Kings examines these often-neglected Scriptures, using various techniques to tell these truths in modern forms for modern times. The historical books and the shorter prophets contain critical teaching concerning human nature, politics, and the coming climax of human history when the conflict between God and Satan bursts out into spiritual and physical warfare without restraint as described in Revelation and elsewhere in the Bible. If knowledge is power, then the verses explored here may be

some of the most powerful in the world. This guide provides a springboard into vital portions of Scripture that are virtually unknown to most believers. It offers a helpful introduction to these overlooked passages, so that others might read and study them, gaining wisdom from the Scriptures and from the Holy Spirit who inspired them.

Creating Fulfilling Relationships Michael Mirdad, 2014-04-04 Far from a typical book on relationships, this book is about making all of our relationships (not just partnerships) healthy and fulfilling. This book is not about finding yet another date or becoming attached to yet another person whom we hope will complete us only to be let down once again. This book is about...Being centered in our True Self; Feeling responsible enough to set healthy boundaries; and Sharing fulfilling relationships with others. The more we nurture and experience deep, authentic, fulfilling relationships, the happier we will be.

Life Is...A Journey Worth Fighting For Sofia Villarreal, 2018-09-12 Life Is . . . A Journey Worth Fighting For Everyone has a story to tell. Whether we are young or old, our story began the moment we took our first breath. Every one of us chooses the life that we want to live and the story that we want to leave behind the moment we take our last breath. The story of our life is what we make it as we live and learn each day. Life is a journey of personal growth and learning experiences. It is about lessons learned and actions taken to improve the quality of life. This book will take you through a teenage girl's journey through life. Her struggles continued after she dropped out of school, got married at the age of fifteen going on sixteen, and becoming a young teenage mother who managed to finish high school and ultimately obtain a PhD. Both she and her husband were also struck with cancer, but no matter what obstacles came her way, she continued to trust in God and kept moving forward with many dreams for her future. Some facets of life such as life is an opportunity, beauty, a dream, a game, a promise, sorrow, a song, a struggle, a tragedy, an adventure, luck, too precious, life is life, fight for it are words that spoke to her as she came across a poem that inspired her to write this book. She immediately began reflecting on her life and making connections to the words and her interpretation of the message in the poem. A feeling overcame her as if the poem was telling her life story. She experienced the facets of life stated above at different stages in her life and in different situations. As a result, she came to the conclusion that life is a journey worth fighting for. Life is not perfect, and people should not pretend that it is. Some have to work harder than others in order to facilitate their journey through life. Challenges such as bullying, growing pains, dropping out of school, dealing with a failed relationship or marriage, loss of income or job, job reassignment, drug abuse, alcoholism, getting older, and disease are just a few of the struggles that we may experience at different points in life. At times, we may have to put up a good fight and not give up by overcoming obstacles that may interfere with the quality of life, the life God wants for us that will ultimately lead us to eternal life. No matter what age one may be or what obstacles come our way, we should never stop dreaming.

Psychotherapy for a Democratic Mind Israel W. Charny, 2018-01-19 Psychotherapy for a Democratic Mind proposes

that the optimal goal of psychotherapy lies in cultivating a free mind with integrity that will not seek to do major harm to one's life or to the lives of others. This book looks at a wide range of psychiatric disorders, including classic conditions of neurosis, personality disorders and psychoses, through a different lens. Rather than simply enumerating symptoms, namely, how a person is addressing the opportunity of his/her life and the lives of others and whether a person is doing harm to themselves and/or others. This book proceeds to grapple with several critical life experiences and styles: tragedy, violence and evil, all of which often have posed insurmountable problems in therapy.

Complaint Free Relationships Will Bowen, 2009-12-29 A revolutionary approach to improving every relationship in your life, *Complaint Free Relationships* picks up where the internationally successful *A Complaint Free World* left off, with all-new methods to help you overcome toxic habits and build strong, successful connections with others. The original Complaint-Free movement has exploded into an international phenomenon, with 5.5 million people in more than 80 countries taking the pledge to create a complaint-free life, as well as national media attention. As this movement expands, it is clear that the real focus of achieving true complaint-free living lies in our relationships. People complain to bond with others. It's easy to feel connected by common annoyances. But most complaining is about people, and this leads to negative and unhealthy foundations for our relationships with others--from family, lovers and friends to our more casual connections with people in our daily lives. *Complaint-Free Relationships* provides insight and helpful tools to see, understand, and engage in our relationships through the lens of complaint-free living. It incorporates new studies about complaining, inspiring and illuminating stories from Will Bowen's experience both as a minister and founder of the Complaint Free movement, and practical exercises at the end of each chapter. By providing the tools you need to escape the trap complaining creates--feeling unfulfilled and inadequate--*Complaint-Free Relationships* offers new clarity and encourages you to create happy, stimulating and mutually satisfying relationships.

Marine Protected Areas John Humphreys, Robert Clark, 2019-10-18 *Marine Protected Areas: Science, Policy and Management* addresses a full spectrum of issues relating to Marine Protected Areas (MPAs) not currently available in any other single volume. Chapters are contributed by a wide range of working specialists who examine conceptions and definitions of MPAs, progress on the implementation of worldwide MPAs, policy and legal variations across MPAs, the general importance of coastal communities in implementation, and the future of MPAs. The book constructively elucidates conflicts, issues, approaches and solutions in a way that creates a balanced consideration of the nature of effective policy and management. Those in theory, designation, implementation or management of MPAs, from individuals, marine sector organizations, and university and research center libraries will find it an important work.

Navigating Terrains of War Henrik E. Vigh, 2006-05-01 Through the concept of social navigation, this book sheds light on the mobilization of urban youth in West Africa. Social navigation offers a perspective on praxis in situations of conflict and

turmoil. It provides insights into the interplay between objective structures and subjective agency, thus enabling us to make sense of the opportunistic, sometimes fatalistic and tactical ways in which young people struggle to expand the horizons of possibility in a world of conflict, turmoil and diminishing resources.

Policing Terrorism, Crime Control, and Police-Community Relations Badi Hasisi, 2014-08-14 This timely and important work takes a critical look at the shifting role of police, who are becoming increasingly responsible for handling terrorism threats on top of their regular responsibilities. With an unprecedented empirical study, the authors of this book examine whether this increased focus on security-related threats may come at the expense of addressing “classic” police responsibilities, such as fighting crime and dealing with local, day-to-day community problems. They also examine whether this shift has had a detrimental effect on police-community relationships and perceptions of police legitimacy, as their role changes from “service” to “suspicion.” Through a four-year, multi-method study specifically focused on the Israel National Police, the authors of this work have examined the effects of this shifting role on a number of key areas of policing concern, namely: police effectiveness at fighting crime and police legitimacy, drawing conclusions applicable to any democratic police force. The results of the study provide a number of concrete recommendations for maintaining effectiveness and community relationships of the police, with increasing responsibilities, challenges, and limited resources. This work will be of interest for researchers in criminology and criminal justice, particularly with a focus on police studies and counter-terrorism; police administrators; and researchers in related disciplines, such as sociology and public administration.

The Warrior Prophet: Muhammad ﷺ and War Joel Hayward, 2023-01-02 Given the Prophet Muhammad’s immense impact on history, surprisingly few books specifically analyze his understanding and employment of warfare as an economically, politically and socially transformational process, even though he was continuously at war for a decade and initiated around

eighty armed missions, twenty-seven of which he led himself. Most Islamic biographies deal with this issue by using an understandable but insufficient logic: that because Muhammad, as the Messenger of Allah, was the ideal and paradigmatic human, he must have been an ideal and paradigmatic military commander. His successes flowed from his prophetic status and his moral perfection. Following this logic and wanting Muhammad's behavior to conform to very modern ethical concepts and widespread (but not necessarily accurate) beliefs about the nature and conduct of war, the writers have inadvertently created a narrative which, in significant ways, departs from the account clearly and consistently revealed in the earliest extant Arabic sources. The writers' narrative also removes the Prophet from his historical and cultural context and the realities of the harsh and competitive tribal society in which he lived. Professor Joel Hayward sees this as an unhelpful explanatory tendency and believes that the modern depiction of the Prophet's relationship with warfare -- which presents him as being rather antipathetic to war, indeed as virtually a pacifist who only fought reluctantly in self-defense -- cannot actually be sustained by an even-handed analysis of the early Islamic sources. A committed Muslim himself, Hayward agrees that Muhammad was a moral and decent man who saw peace as a highly desirable state in which humans should live and as a goal worth pursuing. Yet Hayward has approached the Prophet's understanding and employment of warfare from a different vantage point. He has painstakingly scrutinized the earliest Arabic sources impartially according to the strict standards of historical inquiry in order to ascertain whether Muhammad's actions, habits and methods can -- when understood within their original seventh-century stateless Arabian context -- provide any substantial and meaningful insights into the way that he understood and undertook warfare. Hayward concludes that Muhammad was an astute, situationally aware and self-reflective man who created and communicated a believable strategic vision of a necessary and desirable future. That vision persuaded increasing numbers of people to follow him and risk everything willingly in the struggle to create the optimal conditions for their survival, security, and prosperity. In a competitive and conflictual environment with ubiquitous threats, warfare was necessary to make real the bold new world that he foresaw. Through original, meticulously researched and rigorous analysis, Hayward covers all the raids and campaigns and demonstrates that Muhammad correctly understood the necessity and utility of force and duly developed into an intuitive, effective and victorious military practitioner who developed and enforced a strict moral code so as to attain his goals whilst safeguarding the innocent. This engaging, accessible yet deeply scholarly book makes a major contribution to strategic and military analysis and to the Prophet's biography.

Start To Grow Philip Bain, 2018-02-05 If starting and growing your own business was easy, everyone would be doing it. And guess what? Not everyone is. Start-ups have notoriously high mortality rates. Most don't make it within the first couple of years. If your business is still around after two years, and you are too, then you have the equally difficult challenge of

growing it. In light of this reality, how do you make sure you are making the right career move by becoming an entrepreneur? How do you significantly increase your chances of surviving the start-up phase? How do you then stay relevant and succeed in growing your business in a highly competitive environment? SIMPLE, READ THIS BOOK.

Representations of Children and Success in Asia Shih-Wen Sue Chen, Sin Wen Lau, 2022-09-28 This edited volume explores how success is conceptualized and represented in texts for young people in Asia. The essays in this collection examine how success for children relates to education, family, gender, race, class, community, and the nation. It answers the following questions: How is success for children represented in literature, cinema, and popular media? In what ways are these images grounded in the historical, political, and cultural contexts in which they are produced and consumed? How does childhood agency influence ideas about success in Asia? Highlighting the similarities and differences in how success is defined for children and young adults in Japan, South Korea, People's Republic of China, Singapore, Taiwan, Indonesia, Vietnam, and India, this volume argues that success is an important keyword in the literary and cultural study of childhood in Asia.
