Lucerito Ludmila Flores Salgado

Prontuario de introducción al estudio del derecho y nociones de derecho civil Clemente Soto Alvarez,1982

Ética Adela Cortina,Adela Cortina Orts,Emilio Martínez Navarro,1996-01-01 De una delimitación del ámbito de la Ética como filosofía moral para adentrarse progresivamente en las tres tareas que corresponden al saber ético: aclarar el fenómeno de la moralidad, fundamentarlo y aplicar los principios morales a los distintos ámbitos de lo humano. Se adopta un enfoque ético abierto, que atiende a las más relevantes aportaciones de la historia de la ética desde Grecia a las distintas corrientes contemporáneas (utilitarismo, comunitarismo, liberalismo, postmodernismo). Pero a la vez se adopta una cierta perspectiva, enraizada en la tradición kantiana, en la tradición ética hispánica de Ortega, Zubiri y Aranguren, en la justicia como imparcialidad de J. Rawls y en la ética discursiva de K.O. Apel y J. Habermas. Se intenta así suscitar en el lector las grandes preguntas: ¿En qué consiste lo moral? ¿Por qué ha de haber concepciones morales racionalmente preferibles frente a otras? ¿En virtud de qué criterios y argumentos? y suponiendo que haya alguna concepción moral válida, ¿cómo aplicar sus principios a los distintos ámbitos de la vida personal y profesional?

La definición del derecho Hermann Kantorowicz,2023-12-12 La finalidad fundamental de Kantorowicz fue la de poner en tela de juicio la mayoría de las ideas que se habían formulado acerca del Derecho durante el siglo XIX. En este sentido puede hablarse de un pensamiento auténticamente renovador que además de criticar con acierto algunos de los dogmas que había sustentado la concepción jurídica tradicional propone al mismo tiempo una nueva visión —radicalmente diferente— sobre la realidad jurídica. Introduccion Al Derecho ,

Nociones Básicas de Derecho ,

Introducción al estudio del derecho Lucerito Ludmila Flores Salgado,2017-02-15 El ser humano por naturaleza cree tener la razón siempre de sus actos, sin embargo en el ejercicio de sus derechos, o en su abuso, invade la esfera de derechos de otras personas, por lo tanto nos enfrentamos a la necesidad de tener que crear normas para poder cuadrar la conducta de los seres humanos y establecer un orden y no vivir en un mundo desordenado en donde domine la razón del más fuerte, la venganza particular o la dictadura. Por lo tanto y considerando en todo tiempo los derechos individuales, el Estado crea

normas jurídicas, que permitan regular las acciones de los individuos dentro del medio social donde se desenvuelven, manteniendo respeto por las autoridades y conociendo que el encuadramiento de una conducta fuera de la ley, trae consecuencias jurídicas, mismas que determinarán las autoridades, imponiendo sanciones y penas, y deberán hacerlo dentro del marco de los Derechos humanos y considerando en todo tiempo el principio de legalidad. Por lo tanto dicha obra va dirigida a todos aquellos estudiantes de primer semestre que cursan la carrera de Derecho, de Criminología, de Sociología, Relaciones Internacionales, Administración de Empresas, Derecho de los Negocios, así como aquellos que tengan afinidad a las Ciencias Sociales, asimismo también va dirigida a aquellas personas que deseen conocer las bases y principios doctrinales del Derecho. El desarrollo de este libro es un análisis de las nociones del derecho, su clasificación, fuentes, análisis del ámbito social, económico y social, que dan lugar al nacimiento de nuevas normas o la modificación de las ya existentes; la función del Derecho Positivo en la actividad del Estado, la Estructura del Estado para la creación y aplicación del Derecho Positivo; así también como, un panorama de los conceptos jurídicos fundamentales de carácter material, como lo son el concepto de persona jurídica y moral, el derecho de petición y derechos políticos, derecho de libertad, derecho de acción y de los conceptos jurídicos de carácter formal, como son el supuesto jurídico, el Hecho jurídico, el acto jurídico y deber jurídico, el acto violatorio, la sanción jurídica y la pena.

Lecciones de teoría del derecho Manuel Segura Ortega, 2008-09-01 La presente obra, cuya primera publicación data de 1990 hasta la presente edición de 2008, ha sido reelaborada en profundidad, ampliando aquellos contenidos que lo precisaban con el fin de ofrecer al estudiante una información más completa acerca de la Teoría del Derecho. Su autor persigue con esta nueva obra poner a disposición del estudiante un instrumento útil que facilite la comprensión de los temas a través de la claridad en la exposición y la necesaria comunicación profesor alumno. Sus contenidos actualizados y seleccionados responden a la estructura esencial del manual de filosofía del derecho: Problemas clásicos de la materia; conceptos jurídicos elementales y fundamentales para el conocimiento del Derecho en su conjunto; ofrecer un panorama general de las distintas corrientes de pensamiento y las disputas doctrinales, que invita al lector a un razonamiento crítico y la formación de su propia opinión.

El problema de la verdad en la moral y el derecho Georges Kalinowski, 2023-12-12 Ciertos autores que concentran su atención en las normas morales y jurídicas (distinguidas en forma más o menos explícita de los juicios de valor), ven en ellas productos de la voluntad. Resulta evidente que, si las normas proviniesen de actos volitivos y no cognoscitivos, serían por su propia naturaleza ajenas a las categorías de verdad o falsedad. Es por eso mismo que incluso si según nuestro conocimiento muchos partidarios del voluntarismo moral y jurídico no adhieren explícitamente a la 'tesis negativa', su 'negativismo' no puede ponerse en duda. El 'negativismo' se deja inducir del voluntarismo. He aquí por qué éste exige ser examinado y discutido. Georges Kalinowski.

Jon Elster. Un teórico social analítico José A. Noguera,Jordi Tena,2014-12-05 Jon Elster es uno de los máximos exponentes de la sociología analítica, una manera de entender y de hacer ciencia social que combina el rigor científico y la honestidad intelectual. Este libro constata el esfuerzo de este sociólogo noruego para identificar las oportunidades que brindan las ciencias sociales de encontrar respuesta en las grandes preguntas sobre los fenómenos sociales.

Nueva introducción a la teoría del derecho Santiago Carretero Sánchez,2010-07-31 El presente manual pretende acercar la Teoría del Derecho a la realidad empresarial y jurídica con la que se va a encontrar el jurista cuando abandone sus estudios de licenciatura, pues el aprendizaje como jurista no se abandona nunca. Es cierto que esta disciplina se encuentra en una encrucijada entre su carácter valorativo y crítico y la práctica que se precisa a los juristas de forma global por el mundo del trabajo. No puede renunciar a ninguna de las dos, por ello, también toca los temas de la realidad judicial de nuestros días, la incidencia de las leyes y su aplicación. Todo ello informando de un aparato conceptual que, en toda ciencia, debe existir más o menos denso, pero al que no se puede renunciar.

Conceptos jurídicos para el área económico administrativa José Francisco Báez Corona,2025-05-13 El derecho es parte de la vida cotidiana: se encuentra presente implícita o explícitamente en múltiples actividades que se realizan a diario. Particularmente en el ejercicio de profesiones vinculadas al área económico-administrativa: acciones como constituir una empresa, ejercer la libertad de comercio o acordar un servicio por medio de correo electrónico no podrían concebirse sin el aspecto legal. En este contexto, Conceptos jurídicos para el área económico administrativa, que fue concebida con un enfoque pedagógico, ofrece una inducción al mundo jurídico con ejemplos específicos para el ejercicio de carreras como administración, publicidad, contaduría, relaciones industriales, economía y negocios internacionales, entre otras, con la intención de facilitar la comprensión de elementos fundamentales de filosofía y teoría del derecho, derecho civil, derecho constitucional y derecho administrativo.

La educación moral: un camino de humanización Martínez Rodríguez, Jorge,2014-08-27 Los discursos sobre la ética y sus diferentes especializaciones profesionales se han reducido a discusiones teóricas que no logran impactar en las sensibilidades morales de las personas y los grupos, y se evidencia en la sociedad la falta de comportamientos morales que humanicen y respeten los principios de la dignidad humana y la convivencia. Esta obra, resultado de diferentes investigaciones, ofrece algunos aportes e intuiciones desde las corrientes actuales sobre educación moral.

Los valores de acceso a la práctica docente Lidio Néstor Ribeiro Riani, 1996-01-01 ¿Qué son los Valores de Acceso? Son aquellos valores que nos permitan alcanzar ciertos fines que los trasciendan, que están más allá de ellos, que los superan en todos los aspectos. Se trata de Valores por sí mismos y aisladamente, no llegan más que a ciertos niveles optimizados que no permiten al sujeto alcanzar un nivel axiológico revolvente y pleno de actitudes humanas a través de su ejercicio, solamente conforma conductas y expresiones parciales o aisladas. Aportaciones conceptuales que dan pie para, quienes estén interesados en el análisis y estudio de los Valores, profundicen en el concepto que pone a su consideración en esta obra el maestro Lidio Ribeiro. Obra que explica el descubrimiento casual de los Valores de Acceso, explica su significado, su relación con los Valores Finales, los fundamentales de esta categoría axiológica, su clasificación como categoría social, su relación con la legislación educativa en México y con los procesos de enseñanza aprendizaje. Trabajo digno de tomarse en cuenta para su discusión, principalmente por la introducción del nuevo concepto, centro del análisis de este documento. Discusiones y análisis que, ciertamente, serán las que den madurez a esta nueva subcategoría llamada Valores de Acceso.
