Cruelty to Animals and Interpersonal Violence Geoffrey Ribbans,1997 Contains 46 articles by various authors concerned with cruelty to animals and how that relates to violent human relations.

Animals' Defender and Zoophilist ,1926

A Plea for the Animals Matthieu Ricard,2016-10-04 A powerful and wide-ranging indictment of the treatment of animals by humans--and an eloquent plea for animal rights. Every cow just wants to be happy. Every chicken just wants to be free. Every bear, dog, or mouse experiences sorrow and feels pain as intensely as any of us humans do. In a compelling appeal to reason and human kindness, Matthieu Ricard here takes the arguments from his best-sellers *Altruism* and *Happiness* to their logical conclusion: that compassion toward all beings, including our fellow animals, is a moral obligation and the direction toward which any enlightened society must aspire. He chronicles the appalling sufferings of the animals we eat, wear, and use for adornment or "entertainment," and submits every traditional justification for their exploitation to scientific evidence and moral scrutiny. What arises is an unambiguous and powerful ethical imperative for treating all of the animals with whom we share this planet with respect and compassion.

The Duty of Mercy and the Sin of Cruelty to Brute Animals, demonstrated from reason and revelation. ... To which are added a few notes ... by a Clergyman of the Church of England A. Broome Humphrey PRIMATT,1834

Marital Cruelty in Antebellum America Robin C. Sager,2016-07-06 In *Marital Cruelty in Antebellum America*, Robin C. Sager probes the struggles of aggrieved spouses shedding light on the nature of marriage and violence in the United States in the decades prior to the Civil War. Analyzing over 1,500 divorce records that reveal intimate details of marriages in conflict in Virginia, Texas, and Wisconsin from 1840--1860, Sager offers a rare glimpse into the private lives of ordinary Americans shaken by accusations of cruelty. At a time when the standard for an ideal marriage held that both partners adequately perform their respective duties, hostility often arose from ongoing domestic struggles for power. Despite a rise in the then novel expectation of marriage as a companionate relationship, and even in the face of liberalized divorce grounds, marital conflicts often focused on violations of duty, not lack of love. Sager describes how, in this environment, cruelty was understood as a failure to fulfill expectations and as a weapon to brutally enforce more traditional interpretations of marital

duty. Sager's findings also challenge historical literature's assumptions about the regional influences on violence, showing that married southerners were no more or less violent than their midwestern counterparts. Her work reveals how definitions and perceptions of cruelty varied according to the gender of victim and perpetrator. Correcting historical mischaracterizations of women's violence as trivial, rare, or defensive, Sager finds antebellum wives both capable and willing to commit a wide variety of cruelties within their marriages. Her research provides details about the reality of nineteenth-century conjugal unions, including the deep unhappiness buried within them.

Embodied Differences Henrietta Mondry, 2021-03-02 This book analyzes the ways in which literary works and cultural discourses employ the construct of the Jew's body in relation to the material world in order either to establish and reinforce, or to subvert and challenge, dominant cultural norms and stereotypes. It examines the use of physical characteristics, embodied practices, tacit knowledge and senses to define the body taxonomically as normative, different, abject or mimetically desired. Starting from the works of Gogol and Dostoevsky through to contemporary Russian-Jewish women's writing, broadening the scope to examining the role of objects, museum displays and the politics of heritage food, the book argues that materiality can embody fictional constructions that should be approached on a culture-specific basis.

Our Dumb Animals, 1926

The Rights of Animals, and Man's Obligation to Treat Them with Humanity William Hamilton Drummond, 1838

Encyclopedia of Religion and Nature Bron Taylor, 2008-06-10 The Encyclopedia of Religion and Nature, originally published in 2005, is a landmark work in the burgeoning field of religion and nature. It covers a vast and interdisciplinary range of material, from thinkers to religious traditions and beyond, with clarity and style. Review of Reviews for Australasia William Henry Fitchett, Henry Stead, William H. Judkins, 1903

Colonial Kangaroo Hunt Ken Gelder, Rachael Weaver, 2020-03-03 From the arrival of Captain James Cook in 1770 to classic children's tale Dot and the Kangaroo, Ken Gelder and Rachael Weaver examine hunting narratives in novels, visual art and memoirs to discover how the kangaroo became a favourite quarry, a relished food source, an object of scientific fascination, and a source of violent conflict between settlers and Aboriginal people. The kangaroo hunt worked as a rite of passage and an expression of settler domination over native species and land. But it also enabled settlers to begin to comprehend the complexity of bush ecology, raising early concerns about species extinction and the need for conservation and the preservation of habitat.

Animals, Gods and Humans Ingvild Saelid Gilhus, 2006-09-27 Consulting a wide range of key texts and source material,

Animals, Gods and Humans covers 800 years and provides a detailed analysis of early Christian attitudes to, and the position of, animals in Greek and Roman life and thought. Both the pagan and Christian conceptions of animals are rich and multilayered, and Ingvild Sælid Gilhus expertly examines the dominant themes and developments in the conception of animals. Including study of: biographies of figures such as Apollonius of Tyana; natural history; the New Testament via Gnostic texts; the church fathers; and from pagan and Christian criticism of animal sacrifice, to the acts of martyrs, the source material and detailed analysis included in this volume make it a veritable feast of information for all classicists.

A History of Attitudes and Behaviours Toward Animals in Eighteenth- and Nineteenth-century Britain Rob Boddice, 2008
This book argues that the movement to protect animals from cruelty never lost its essentially anthropocentric outlook. The author also comprehensively documents the changing place of animals in human life.

The Showman ,1901

The Animal's Defender and Zoophilist ,1904

Animal Abuse Catherine Tiplady, 2013 Animal abuse is an increasingly recognized issue throughout the world and makes headlines every year. The plight of animals is well documented, but the hidden cost to those who help is not fully understood. This practical handbook covers definitions, types and explanations of forms of animal abuse, and then examines the impacts of animal abuse on professionals and provides coping strategies. The book concludes with a guide to dealing with animal abuse, including providing first aid for common emergencies and dealing with the human abusers.

The Spectator ,1928

The A-V. ,1923

Cruelty Maggie Schein, 2023-12-02 Cruelty is such a ubiquitous and at the same time disturbing phenomenon that we take for granted that we understand what it is, and how it impacts the ways in which we think about our humanity as a moral condition—how we understand our moral significance. *Cruelty: A Book About Us* offers an accessible interrogation of cruelty and humanity, and, most critically, it provides a groundwork for us to raise questions collectively; it is an invitation for us all to join in the dialogue. Through academic studies, literary works, and' personal stories and observations, this book provokes deeper insights into why cruel acts trouble our usual ways of articulating and addressing wrongness. Mining interdisciplinary sources, it excavates what we may not know we don't know and guides us in conversations about this profoundly evocative and often uneasy subject.
