The Intersection of Animation, Video Games, and Music Lisa Scoggin, Dana Plank, 2023-04-26 In both video games and animated films, worlds are constructed through a combination of animation, which defines what players see on the screen, and music and sound, which provide essential cues to action, emotion, and narrative. This book offers a rich exploration of the intersections between animation, video games, and music and sound, bringing together a range of multidisciplinary lenses. In 14 chapters, the contributors consider similarities and differences in how music and sound structure video games and animation, as well as the animation within video games, and explore core topics of nostalgia, adaptation, gender, and sexuality. Offering fresh insights into the aesthetic interplay of animation, video games, and sound, this volume provides a gateway into new areas of study that will be of interest to scholars and students across musicology, animation studies, game studies, and media studies more broadly.

Understanding Video Game Music Tim Summers, 2016-09-08 Understanding Video Game Music develops a musicology of video game music by providing methods and concepts for understanding music in this medium. From the practicalities of investigating the video game as a musical source to the critical perspectives on game music - using examples including Final Fantasy VII, Monkey Island 2, SSX Tricky and Silent Hill - these explorations not only illuminate aspects of game music, but also provide conceptual ideas valuable for future analysis. Music is not a redundant echo of other textual levels of the game, but central to the experience of interacting with video games. As the author likes to describe it, this book is about music for racing a rally car, music for evading zombies, music for dancing, music for solving puzzles, music for saving the Earth from aliens, music for managing a city, music for being a hero; in short, it is about music for playing.

Early Broadway Sheet Music Donald J. Stubblebine, 2010-08-25 This work, a companion to the author's Broadway Sheet Music: A Comprehensive Listing of Published Music from Broadway and Other Stage Shows, 1918 through 1993 (McFarland 1996), provides information about all sheet music published (1843-1918) from all Broadway productions--plus music from local shows, minstrel shows, night club acts, vaudeville acts, touring companies, and shows on the road that never made it to Broadway--and all the major musicals from Chicago.

The Invisible Art of Film Music Laurence E. MacDonald,2013-05-02 Beginning with the era of synchronized sound in the 1920s, music has been an integral part of motion pictures. Whether used to heighten the tension of a scene or evoke a subtle emotional response, scores have played a significant—if often unrealized—role in the viewer’s enjoyment. In *The Invisible Art of Film Music*, Laurence MacDonald provides a comprehensive introduction for the general student, film historian, and aspiring cinematographer. Arranged chronologically from the silent era to the present day, this volume provides insight into the evolution of music in cinema and analyzes the vital contributions of scores to hundreds of films. MacDonald reviews key developments in film music and discusses many of the most important and influential scores of the last nine decades, including those from *Modern Times*, *Gone with the Wind*, *Citizen Kane*, *Laura*, *A Streetcar Named Desire*, *Ben-Hur*, *Lawrence of Arabia*, *The Godfather*, *Jaws*, *Ragtime*, *The Mission*, *Titanic*, *Gladiator*, *The Lord of the Rings*, *Brokeback Mountain*, and *Slumdog Millionaire*. MacDonald also provides biographical sketches of such great composers as Max Steiner, Alfred Newman, Franz Waxman, Bernard Herrmann, Elmer Bernstein, Henry Mancini, Maurice Jarre, John Barry, John Williams, Jerry Goldsmith, Dave Grusin, Ennio Morricone, Randy Newman, Hans Zimmer, and Danny Elfman.

Updated and expanded to include scores produced well into the twenty-first century, this new edition of *The Invisible Art of Film Music* will appeal not only to scholars of cinema and musicologists but also any fan of film scores.
