A Celebration of David Attenborough: The Activity Book Nathan Joyce, 2018-06-29 A highly diverting celebration of television's favourite naturalist, packed with games, trivia and Attenborough-inspired activities. Attenborough. Just saying the name makes everyone feel better. Words like 'dependable', 'inspiring' and 'soothing' cascade like the rains returning to the sun-parched savanna. And according to a recent poll, he's the most trustworthy person alive, above Michelle Obama and The Queen. As the saga of Boaty, McBoatface showed (the research ship was finally called RRS Sir David Attenborough), British people love silliness. And this book is a celebration of our two favourite things: Attenborough and silliness. You'll find games like Guess the animal from David's description, the David Attenborough drinking game, Create your own Attenborough coat of arms, Spot the fake species, Attenbingo, come up with a new animal print design for David's patented blue shirt in Patternborough, and if you find yourself in times of trouble, seek solace with the What would Attenborough do? self-help guide. Everything you've ever wanted to know about the great man - from fun facts and remarkable quotes, plus ludicrous games - lies within the sustainably forested habitat of these pages. It's the perfect present for, well, anyone, really.

The Cognition of Basic Musical Structures David Temperley, 2004-08-20 In this book, David Temperley addresses a fundamental question about music cognition: how do we extract basic kinds of musical information, such as meter, phrase structure, counterpoint, pitch spelling, harmony, and key from music as we hear it? Taking a computational approach, Temperley develops models for generating these aspects of musical structure. The models he proposes are based on preference rules, which are criteria for evaluating a possible structural analysis of a piece of music. A preference rule system evaluates many possible interpretations and chooses the one that best satisfies the rules. After an introductory chapter, Temperley presents preference rule systems for generating six basic kinds of musical structure: meter, phrase structure, contrapuntal structure, harmony, and key, as well as pitch spelling (the labeling of pitch events with spellings such as A flat or G sharp). He suggests that preference rule systems not only show how musical structures are inferred, but also shed light on other aspects of music. He substantiates this claim with discussions of musical ambiguity, retrospective revision, expectation, and music outside the Western canon (rock and traditional African music). He proposes a framework for the description of musical styles based on preference rule systems and explores the relevance of preference rule systems to higher-level aspects of music, such as musical schemata, narrative and drama, and musical tension.

Great Songwriting Techniques Jack Perricone, 2018 In *Great Songwriting Techniques*, veteran composer and teacher Jack Perricone shares years of experience in the art, science, and pedagogy of songwriting to teach readers the craft. Whether they write for a small group of friends or in the hopes of creating a smash hit, aspiring songwriters can learn how to focus on topics essential to their success in this competitive field; every songwriter must be aware of audience, thick-skinned enough to handle rejection and competition, and most importantly have the confidence to master the craft of composing and producing. Perricone teaches readers to accomplish this through a targeted series of lessons on key elements of songwriting

from building blocks like melody, harmony, and rhythm to more advanced topics like lyric placement and tone texture. THE TUAREG LADIES Marlene F. Cheng, 2013-04-12 Tess has Multiple-Personality Disorder. Struggling to meet the demands of her professional life while desperately trying to keep her personal life private, she becomes introverted and friendless. She feels her alters “switching” and the unraveling of her mental being, viscerally. Her tenuous hope for recovery is as fragile as her emotions. “Shattering” is her constant fear. Marlene writes with great facility. Her writing is intelligent; her prose is poetic. In my practice, I’ve treated patients with Multiple-Personality Disorder. It would be unprofessional of me to give a definitive diagnosis without interviewing Tess and the “alters.” However, there is no doubt that Tess has dissociative episodes. To survive the horrific traumas of childhood, she would have had to develop an escape mechanism, and dissociating was; probably, the only way. Dr. David Yeung MBBS, FRCPC.

The Poetry of Pop Adam Bradley, 2017-01-01 From Tin Pan Alley to the Beatles to Beyoncé, Mr. Bradley skillfully breaks down a century of standards and pop songs into their elements to reveal the interaction of craft and art in composition and performance. (The Wall Street Journal) Encompassing a century of recorded music, this pathbreaking book reveals the poetic artistry of popular songs. Pop songs are music first. They also comprise the most widely disseminated poetic expression of our time. Adam Bradley traces the song lyric across musical genres from early twentieth-century Delta blues to mid-century rock 'n' roll to today's hits. George and Ira Gershwin's Fascinating Rhythm. The Rolling Stones' (I Can't Get No) Satisfaction. Rihanna's Diamonds. These songs are united in their exacting attention to the craft of language and sound. Bradley shows that pop music is a poetry that must be heard more than read, uncovering the rhythms, rhymes, and metaphors expressed in the singing voice. At once a work of musical interpretation, cultural analysis, literary criticism, and personal storytelling, this

book illustrates how words and music come together to produce compelling poetry, often where we least expect it.

Lennon and McCartney Thomas MacFarlane,2022-09-30 Lennon and McCartney: Painting with Sound explores the work of two of the most influential composers of the twentieth century. Five decades after the breakup of the Beatles, the music of John Lennon and Paul McCartney continues to fascinate and inspire. Evidence suggests that their uniquely eclectic approach can be traced back to the Liverpool College of Art. Following on that idea, this book explores the creative dialogue between John Lennon and Paul McCartney, both with the Beatles and on their own, that grew out of that early influence. The book is presented in three sections: I. Stretching the Canvas considers the Liverpool College of Art as the backdrop for John and Paul's early collaborations with painter and musician Stuart Sutcliffe. This is followed by discussions of select works created by the Beatles between 1962-69. II. Extending the Space focuses on the long-distance creative dialogue between Lennon and McCartney as demonstrated in their respective solo recordings of the 1970s. III. New Colours considers the final works of the Lennon and McCartney creative dialogue as well as various McCartney solo projects released in the years that followed Lennon's death in 1980. Here, the focus is on Paul's development as a painter, its effect on his creativity, and his subsequent efforts to establish the Liverpool Institute for Performing Arts as a world-class arts conservatory.

The Beatles and the Beatlesque: A Crossdisciplinary Analysis of Sound Production and Stylistic Impact Dario Martinelli,Paolo Bucciarelli,2023-07-30 The Beatles and the Beatlesque address a paradox emanating from The Beatles'

music through a cross-disciplinary hybrid of reflections, drawing from both, musical practice itself and academic research. Indeed, despite their extreme stylistic variety, The Beatles' songs seem to always bear a distinctive identity that emerges even more in similar works by other artists, whether they are merely inspired, derivative or explicitly paying homage. The authors, a musicologist and music producer, emphasize the importance of record production in The Beatles' music in a way that does justice not only to the final artifacts (the released songs) but also to the creative process itself (i.e., the songs in the making). Through an investigation into the work of George Martin and his team, as well as The Beatles themselves, this text sheds light on the role of the studio in shaping the group's eclectic but unique sound. The chapters address what makes a song "Beatlesque", to what extent production choices are responsible for developing a style, production being understood not as a mere set of technicalities, but also in a more conceptual way, as well as the aesthetics, semiotics and philosophy that animated studio activity. The outcome is a book that will appeal to both students and researchers, as well as, of course, musicophiles of all kinds.

Do You Hear What I Hear? Anthony Monzo, 2023-03-07 God speaks to us in many different ways. The Bible, of course, is His primary source; but if you focus on what you are seeing and hearing in the world around you, you can find spiritual messages in so many different sources, as God uses us as vessels to convey His message of salvation to the world. This includes through the visions of creation, the fragrances of nature, the sounds of the singing birds, the thunder of the clouds, the roars of the oceans, the amazing sunsets, the glorious sunrises, and even in the quiet and dark star-filled nights. As Paul wrote in Romans 1:20 (NIV), For since the creation of the world God's invisible qualities--his eternal power and divine nature--have been clearly seen, being understood from what has been made, so that people are without excuse. He also speaks to us through music and film, in ways that we don't realize unless we are really paying attention. This book presents a taste of how popular music and movies, and even art as displayed on the cover, can convey a message of hope and love to all those who have ears to hear and eyes to see what God is trying to tell them. Some of the interpretations are based on what I perceive these songs or movies to be about, which may not necessarily be what the writer intended. Yet if you open up your heart, you can find a message of love and hope in so many songs and movies, and this message is what the gospel is all about. Jesus gave a new commandment when he said in John 13:34 (NLT), Love each other. Just as I have loved you, you should love each other. And the hope that we have is the confident anticipation of spending eternity with the Lord in His eternal kingdom, and not just wishful thinking which is nothing but a worldly hope.

Entwined with Vietnam Theodore M. Hammett, 2022-07-26 In 1968, Theodore Hammett entered a war he believed was wrong, pressured by his father's threat to disown him if he withdrew from a Marine Corps officer candidate program. He hated the Vietnam War and soon grew to hate Vietnam and its people. As a supply officer at a field hospital uncomfortably near the DMZ, he employed thievery, bargaining and lies to secure supplies for his unit and retained his sanity with the help

of alcohol, music and the promise of going home. In 2008, he returned to Vietnam for a five-year second tour to assist in improving HIV/AIDS policies and prevention programs in Hanoi. His memoir recounts his service at the height of the war, and how the country he detested became his second home.
