Vivien Lougheed

La Paz Bolivia & Beyond Vivien Lougheed, 2009 This guide is based on our much larger (530-page) guide to Bolivia. Here we zero in on La Paz, The capital, and all of the nearby attractions. La Paz is not a big city on the world scale, but it is certainly one of the more interesting ones. Built in a bowl created by the Choqueyapu River, The upper parts of the city stand 1,645 ft/500 m above the lower sections. Unlike any other city in the world, The richer neighborhoods are located at the lower levels. This is partly due To The fact that it is warmer and easier to breathe at the lower altitudes. Also, The pinnacles and spires of conglomerate rock and clay that have been sculptured by wind and water make a dramatic backdrop for those living below them. The higher up the bowl one goes, The more unstable the land becomes And The more likely a landslide will occur. The plazas, squares and Prado are well kept in La Paz and even in the depth of winter plants are tended to help make the city attractive. Street cleaners are out every day and local merchants regularly wash the area in front of their shops. On a clear day, Mount Illimani, a snow-covered monolith, can be seen as a sentry towering over the city. Valley of the Moon is six miles/10 km from the center of La Paz and can be reached by joining a tour or by taking micro bus #11 or minibus #231 or 273 to Mallasilla. The hillside features a maze of clay canyons and pinnacles that have been sculpted by wind and rain. Narrow trails through the landscape take about an hour to walk. There is also a cactus park just before the entrance. The park overlooks a gorge and has paths leading around numerous types of cacti. As you continue up the road you will come to Parque National Mallasa with its bird observatory and, across the road, The zoo area. The road passes under natural stone bridges and past Chulpani's Red Hill. There is no mistaking which hill this is. From Mallasa one can see across the river To The highest golf course in the world. Devil's Tooth or Muela del Diablo is a huge volcanic plug sticking out of the landscape to a height of 13,000 ft/3,950 m. Several trails go To The right; follow the one that obviously leads To The village. From there, go To The left for .3 miles (about half a kilometer), To the foot of the rock. Climbers are occasionally found on the east face. Canyon de Palca, or Valle de Animas, Is a deep canyon that was carved by the Rio Palca centuries ago. To get there, take a bus going to Huni from Plaza Belzu on Avenida Mexico in San Pedro. There are huge pinnacles and wind-carved conglomerates. The trail continues along the bottom of the canyon to a natural obelisk. Just past the obelisk is a rock that has the appearance of a human hiding in a cave. The rock is called the hermit of the canyon. Continue along the canyon to its end and climb to your left up To The village of Palca. This is a long day-hike. All of the detailed information you need is here about

the hotels, restaurants, shopping, sightseeing. But we also lead you to new discoveries, turning corners you haven't turned before, helping you to interact with the world in new ways. That's what makes our Adventure Guides unique. An excellent addition To The Adventure Guide series, packed with detail, from where to stay and eat, To where to shop for local crafts and how to enjoy historic sites. This guide surveys the wildlife and outdoor opportunities of the country, which range from tropical jungle to high plains deserts. Hiking and viewing opportunities blend with cultural insights. Highly recommended. - The Midwest Book Review.

Culture and Customs of Bolivia Javier A. Galván, 2011-04-06 In this book, contemporary representations of Bolivian art, music, religion, literature, festivals, theater, and cinema document how history and geography have shaped Bolivia's modern culture. Bolivia has long been neglected by North American historians and anthropologists. Now, author Javier A. Galván fills this gap with a book that analyzes the complex cultures of this South American nation within the context of its rich history and contemporary traditions. The first half of this text is dedicated to how and where people live—detailed geography, social traditions, religious practices, political institutions, and Bolivian cuisine and culture. The varied religious and linguistic traditions of the indigenous groups that comprise the majority of the national population are also described, giving readers a deeper appreciation for the diversity of Bolivia's character. The second half of the book explores the creative talent of Bolivians who are advancing the literary movements, painting styles, architectural design, theater productions, fashion design, and emerging film industry of the country. Culture and Customs of Bolivia also includes a detailed analysis of contemporary print and broadcasting media.

Travel Diary - Bolivia Michael Hilburn, 2004 Travel Diary: Bolivia is a travel guidebook with a slant. It uses personal travelogues from people's trips to Bolivia. By reading these travelogues, one can gain a greater perspective on the culture and customs of a country and they can also see the places that the author enjoyed (or didn't enjoy) visiting. The book is best used in conjunction with a 'regular' travel guide, which provides the basic information for travelers, like hotel and restaurant information. But Travel Diary: Bolivia will give you information on actual visits to some restaurants and hotels and can steer you towards good places to dine and sleep and it can help you avoid the bad places. Many people enjoy reading travelogues before visiting foreign countries, but it is very difficult to print and carry this information with you. Travel Diary: Bolivia allows you to have access to the information found only in those travelogues by printing the travelogues in a paperback format, which is easy to carry and convenient for the traveler.

Culture Shock! Bolivia Mark Cramer, 1998 In 1915, Kazimir Malevich (1878-1935) changed the future of modern art when his experiments in painting led the Russian avant-garde into pure abstraction. He called his innovation Suprematism - an art

of pure geometric form meant to be universally comprehensible regardless of cultural or ethnic origin.

Copper Mines, Company Towns Dr. Larry R. Stucki,2009-10-06 Just as few natural species have withstood the test of ever-changing earth environments through time, relatively few human-created systems (e.g., companies, governments, religions, etc.) long survive their creation. What then is the secret of those that continue to defy these odds and what factors have led to the failure of others? This manuscript attempts to answer this question using the Phelps Dodge Corporation, its unions, its Native American and Mexican workforce, the Ajo Inter-tribal Community Council, the Mormon Church, The March of Dimes, and others as examples. -Dr. Larry R. Agrarian Reform in Theory and Practice Jane Benton,2018-12-13 Published in 1999. Despite the attempts of a number of Latin American republics to redistribute land resources and carry out agrarian reform programmes, 'the land question' remains a vital political issue throughout the region. This book focuses on Bolivia, where government proposals to replace a radical agrarian reform law of 1953 with a neo-liberal Ley INRA provoked heated public debate and violent campesino clashes with the police (witnessed by the author) in September/October 1996. The first five chapters are largely concerned with theoretical aspects and a review of Bolivia's agrarian reform legislation: the remaining six chapters are devoted to an analysis, from the viewpoints of participant campesinos and the researcher, of agricultural change in Aymara communities beside Lake Titicaca, where the author has conducted research over nearly 30 years. Currently lakeside farming is under severe threat as a result of land degradation, limited cash resources, rural-urban migration, tourism and commuterisation.
