La división del trabajo social Émile Durkheim,1928

The Division of Labor in Society Emile Durkheim,2014-02-25 In 1893, a young doctoral student was to publish an entirely original work on the nature of labor and production as they were being shaped by the industrial revolution. Emile Durkheim's *The Division of Labor in Society* studies the nature of social solidarity and explores the ties that bind one person to the next in order to hold society together. This revised and updated second edition fluently conveys original arguments for contemporary readers. Leading Durkheim scholar Steve Lukes's new introduction builds upon Lewis Coser's original -- which places the work in its intellectual and historical context and pinpoints its central ideas and arguments -- by focusing on the text's significance for how we ought to think sociologically about some central problems that face us today.--Back cover.

Manual de la Sociología del Trabajo y de las Relaciones Laborales. 2 Ed. ,2007

La división del trabajo social Émile Durkheim,1928-01-01 El sociólogo francés Émile Durkheim y su obra son de una importancia fundamental para la disciplina del conocimiento a la que el autor consagró su vida, pues junto con Karl Marx y Max Weber fue fundador de ésta. En el caso específico de esta obra, su tesis para el doctorado que fue publicada en 1893, el autor trata de establecer, fundamentalmente, una ciencia de la moral. La importancia de esta obra también radica en que contiene los postulados fundamentales que su autor desarrollaría luego, más extensamente, en sus trabajos posteriores. Durkheim concibe la división laboral como un fruto inevitable del proceso de complejización de la sociedad contemporánea y un proceso no restringido al campo de lo laboral, sino también presente en otras áreas de la actividad humana, como el sistema gubernamental, la literatura, la ciencia y el arte, entre otros, constituyendo en definitiva la división laboral una fuente de solidaridad establecida sobre la base de la recíproca dependencia y el consenso generalizado en torno a un sistema de reglas morales.

The Division of Labour in Society Émile Durkheim,1984 What ties bind men to one another? What relationship exists between the individual personality and social solidarity? Trabajo Social en algunos países: aportes para su comprensión Nelia E. Tello Peón,2025-04-24 ¿Porqué insistir en hablar de nosotros mismos?, ¿por qué buscar y remover los orígenes de nuestra profesión? ¿por qué si estoy convencida de la necesidad de transitar urgentemente otros derroteros que nos permitan desarrollar la profesión y superar las interrogantes que sobre nuestro existir nos inmovilizan? ¿por qué si estoy convencida que nos apremia el recuperar como profesionistas nuestro hacer, es decir, nuestro objeto de trabajo y como académicos recuperar nuestro hacer como objeto de estudio? ¿por qué presentar una aportación más sobre los orígenes históricos, aunque cabe aclarar, no del Trabajo . Social sino de la profesionalización del Trabajo Social? Antes que responder a estas preguntas de una sola vez, en un renglón o en un párrafo, quisiera invitarlos a que las respuestas las construyamos juntos en el recorrido que hagamos por las siguientes páginas: la lectura que propongo no es una más, no se trata de una lectura lineal (causa, consecuencia), no es una lectura sobre fechas y acontecimientos, el código que propongo es precisamente el hilo que se deriva de las preguntas que formulo. Estoy convencida que Trabajo Social es la carrera que con urgencia reclama la sociedad, no una en particular, todas en lo general, pues es la profesión que tiene respuestas o que tiene la capacidad de ofrecer alternativas a las diversas y difíciles situaciones que desde lo social enfrentamos, generalmente, sin capacitación profesional.

Tópicos del Trabajo Social y las políticas públicas Carlos Arteaga Basurto, 2025-04-22 En Tópicos del trabajo social y las políticas públicas, se condensan diversos ensayos de actualidad académica y profesional en el campo de estudio del trabajo social. Se trata de un esfuerzo de actualidad innegable en cuanto a lo que se refiere al estudio de elementos metodológicos relativos a las problemáticas y políticas públicas que permiten al trabajador social incidir en la hechura, instrumentación y evaluación de las políticas sociales, el problema de la pobreza y la asistencia social. Política social y pobreza en México: consideraciones básicas, destaca la preocupación de Arteaga por la crisis del Estado benefactor en términos de un Estado que ha dejado de proveer de servicios y programas, y fundamentalmente, ha dejado de tener genuina presencia social. El autor enfatiza cómo los programas de compensación diseñados como un esfuerzo del Estado por reducir el impacto de la crisis y el costo social del proceso de ajuste (destinado a darle viabilidad), han fracasado. Estos programas de compensación social, de un carácter emergente de rápida maduración, pretenden que la población más vulnerable y empobrecida tenga acceso a los satisfactores básicos afectados por el proceso de ajuste; dando lugar a un nuevo tipo de gestión social y de autoridad, pues son programas que procuran, supuestamente, una adecuación entre las necesidades reales de la población beneficiaria, el diseño del programa y la capacidad de ejecución.

The Latin American challenge Bernardo Sorj, Danilo Martuccelli, 2008-01-01 Based on the work of twenty renowned experts from the region, this ground-breaking book traces the new face of Latin America using clear, straightforward

language that is accessible to a general audience. The current panorama in the region creates new opportunities and dangers for social cohesion in democracy and a revitalized critical approach is needed to arrive at a global interpretation of the social dynamics in Latin America.

La salvación del trabajo Lisa Herzog, 2025-09-23 La democratización del mundo laboral es la única opción de configurar una sociedad futura mejor. ¿Cómo trabajaremos en el futuro? A diario observamos que cada vez más tareas son asumidas por aplicaciones informáticas y por robots. Esto nos provoca inseguridades y miedos ante un mundo laboral ya de por sí incierto e inestable. En este libro, la filósofa Lisa Herzog nos insta a no caer en catastrofismos resignados, ya que el trabajo desempeña un papel demasiado importante en nuestra sociedad como para abandonarlo a su suerte. La salvación del trabajo requiere una decisión política que consiste en organizar su futuro —concretamente las reglas de juego jurídicas y sociales que lo rigen, las implicaciones de la transformación digital...— para que se ajuste a nuestra idea de dignidad y prosperidad. Este libro da nuevas respuestas a una de las grandes cuestiones de nuestra época y propone vías para una política mejor.

Development Theory P W Preston, 1999-01-01 Obra sobre las teorías del desarrollo en el tercer mundo, centrada en las estrategias para analizar el cambio en esta región. El resultado es un libro organizado en cuatro partes: una introducción a la naturaleza del análisis científico social; un examen de la obra de las principales figuras de las ciencias sociales de los siglos XVIII y XIX y de sus efectos en el siglo XX; un examen de las teorías del desarrollo del tercer mundo posteriores a 1945, y un estudio de los debates actuales sobre las estructuras globales y las reacciones de los agentes.

Introducción a Las Ciencias Sociales un Enfoque Costructivista Macario Schettino, 2006 This text combines the theoretical and practical elements that will help the student interpret and understand the problems of their social environment, which in turn will allow them to value their place in society to develop their identity and social responsibility. It is prepared with a base rooted in constructive focus and is an invaluable asset that will serve as a platform for the building of knowledge. It includes a classroom planning guide.
