

La Estructura De La Magia

Richard Bandler

Estructura de la magia I (The Structure of Magic I) Richard Bandler,John Grinder,1996 Introducción al elemento más importante de la comunicación humana: el lenguaje. Consultado en escuelas de periodismo, comunicación y psicología, este libro es el resultado del análisis del lenguaje natural utilizado en situaciones terapéuticas. Basada en la Gramática Transformacional de Chomsky, esta obra marca el inicio de la Programación Neurolingüística en español.

Ya eres líder Nuria Sáez Lahoz,Julián Trullén Torres,2012-12 Todos y cada uno de nosotros poseemos un gran tesoro interior: nuestro liderazgo natural, que nos hace únicos como seres humanos. Aunque muchas veces no somos conscientes de ello o pensamos que dicha cualidad solo la tienen grandes personajes como Gandhi o Mandela. Con el fin de reconectarnos con ese don innato tan valioso para la persona y la sociedad, *Ya eres líder* aparece como un faro que nos muestra el camino hacia nuestro verdadero ser y nos invita a abrir la mente y el corazón a nuevas formas de observar la vida. Nuria Sáez y Julián Trullén nos guían por un viaje vital y nos dan las claves sobre cómo aplicar el coaching, la inteligencia emocional y la Programación Neurolinguística al liderazgo del día a día.

La filosofía de la forma literaria Kenneth Burke,2019-04-04 Esta colección, hecha por el autor, incluye una muestra de la riqueza y diversidad de sus intervenciones, así como uno de sus trabajos teóricos fundamentales, con una introducción del

profesor Javier García, excelente conocedor de Burke. Ampliamente anotada, servirá para que este personaje fascinante pase a formar parte de nuestro mundo cultural.

Magic: Symbols and Texts of Magic Luis Carlos Molina Acevedo, 2016-04-24 Here, the magic is studied in its linguistic and semiotic aspects and is defined as well: Magic is objectified language and symbols to operate with power over the world by a magician to the particular interest of an user into a community, whose interaction constitutes a system. The study demands specific and analytical tools as well: 1. The Linguistics and Semiotics to study the expression of magic. 2. The Information Theory and its science involved (Dianetics and Bioenergetics) to show how magical effectiveness is reached. 3. The Theory of Post-modernity to analyze the scenic characteristics of magical ritual. The theatre aesthetics of magic is important for producing emotional reactions toward healing by the magical action. 4. The Theory of Speech Act and Philosophy of Symbolic Forms to show how manages to operate the magic with power over the world and its creatures. 5. The Theory of Discourse to establish the structure of magical discourse. 6. The Theory of Symbols to establish the symbolic structure of magic.

La antropología social de E. E. Evans-Pritchard desde un prisma filosófico Carmen Baños Pino, 2014-10-27 Sir Edward Evan Evans-Pritchard (1902-1973) es un clásico de la antropología social, cuyos estudios etnográficos, al servicio del colonialismo británico, han influido en toda una generación de antropólogos que tomaron como modelo sus famosas monografías sobre los pueblos zande y nuer. Su importancia e interés no se ciñe, sin embargo, a ellas. Son muy numerosos los artículo y conferencias en los que dejó planteados los problemas sobre el alcance científico de la antropología social, y en este sentido sus "reflexiones" siguen siendo referencia inexcusable para la discusión metacientífica. La presente edición no pretende ser mera reconstrucción filológica de la temática antropológica tratada por E-P, sino "reflexión de segundo grado" capaz de organizar críticamente los diferentes niveles en los que mueve su obra. El prisma filosófico desde el que dicha tarea se aborda, es el de la Teoría del Cierre Categorial desarrollada por el filósofo español Gustavo Bueno. Su aplicación nos ha permitido articular el estudio global de la antropología social de Evans-Pritchard atendiendo al doble plano en el que está inmersa: el plano del "ejercicio" y el plano de la "representación".

Pensar sistemático José Antonio Garcíandía Imaz, 2011-12-07 Hay una forma de pensar diferente y complementaria a la ciencia; este libro trata de las bases conceptuales para ello. El autor se da a la tarea de ordenar las ideas y conceptos diversos sobre los que se sustenta la teoría sistemática, de manera tal que el lector encontrará una obra que congrega por primera vez los pilares para utilizar en su pensamiento las herramientas sistemáticas. Con ello tendrá acceso a la comprensión de los fenómenos desde un ángulo relacional, que entiende el universo como una colosal y sorprendente trama de conexiones y relaciones en la cual los seres humanos estamos sumergidos como los peces lo están en el agua. Para comprender desde esta perspectiva se necesita una manera distintiva de contemplar la realidad que nos envuelve, cuyos alcances sobrepasan los

límites de la ciencia.

Programación Consciente Ruder Rueda,2023-12-17 Lo hagamos conscientemente o no, somos los principales programadores de la mente de nuestros hijos y alumnos; cada palabra, gesto, mirada, reacción o comportamiento, son estímulos e información que captan los niños y van dando forma o moldeando su personalidad. Por esta razón, es tan importante entender cómo se va programando la mente, de qué manera se construyen y almacenan esos programas, y cuáles son las consecuencias de una programación inconsciente. La obra lleva al lector hacia la toma de conciencia, el autoconocimiento y el desarrollo de las competencias necesarias para expandir su conciencia. Contiene, además, una serie de herramientas poderosas para brindarle a sus hijos o alumnos una crianza y formación con propósito, que les permita desarrollarse plenamente, fortalecer su autoestima, tomar decisiones, accionar para lograr sus metas y hacer realidad sus sueños.

Escribe, habla, seduce Mónica Pérez de las Heras,2013-04 ¿Sabes cuántas personas han muerto en el mundo por hablar en público? Si crees que la respuesta es «ninguna», te equivocas. William Henry Harrison, noveno presidente de Estados Unidos (1773-1841), falleció después de dar su discurso de investidura. Los hechos sucedieron así: cuentan que pronunció su alocución del 4 de marzo sin estar lo suficientemente abrigado, por lo que murió un mes después... de neumonía. Hoy en día para casi el 90% de las profesiones se necesita hablar en público. Si eres emprendedor, es imprescindible que sepas hacer una efectiva y breve presentación para explicar cómo es tu empresa y venderte a posibles clientes (es lo que se viene llamando conversación del ascensor o elevator pitch). Si eres un profesional que pronuncia conferencias, conocer cómo se hace un Pecha Kucha es básico para aprender a sintetizar y controlar los tiempos. Si eres periodista tu oportunidad está en saber escribir discursos con Programación Neurolingüística (PNL), un trabajo de presente y futuro. Si diseñas presentaciones visuales para ti o para otros tienes que estar a la última en cuanto a tendencias de comunicación. Y, si no empleas la oratoria en tu vida profesional, en la personal también encontrarás oportunidades para utilizarla: en un brindis en una boda, al defender tu punto de vista ante la comunidad de vecinos o hacer una pregunta en un debate.

Líder por Diseño Francisco Senn,2025-08-21 ¿Y si el liderazgo no fuera una cualidad reservada para unos pocos, sino una habilidad que puedes diseñar paso a paso? Líder por Diseño te invita a descubrir las 7 claves fundamentales que comparten las personas verdaderamente exitosas, según las investigaciones de Grinder y Bandler, creadores de la Programación Neurolingüística (PNL). Estas cualidades no son privilegios de nacimiento, sino herramientas que puedes aprender, practicar y convertir en hábitos. A lo largo del libro, Francisco Senn —coach, formador y experto en inteligencia emocional— te guía en un viaje interior donde redescubres tu pasión, fortaleces tu fe, clarificas tus valores y desarrollas una comunicación poderosa. No es un libro de frases bonitas: es un mapa claro para desbloquear tu energía, diseñar estrategias reales y

conectar con otros desde lo auténtico. Con ejemplos inspiradores, ejercicios prácticos y reflexiones incisivas, este libro se convierte en una brújula para cualquier persona que quiera dejar de reaccionar y comenzar a liderar su vida con propósito. Aprenderás a: * Identificar y activar tu verdadera pasión * Construir una fe inquebrantable en ti mismo * Crear estrategias eficaces y sostenibles * Vivir alineado con tus valores esenciales * Gestionar tu energía para mantener el impulso * Conectar con otros desde la autenticidad * Comunicarte con claridad, impacto y empatía Este no es un libro para leer y olvidar. Es una herramienta de transformación personal. Porque el liderazgo no se hereda: se diseña.

The Subversive Tradition in Spanish Renaissance Writing Antonio Pérez-Romero, 2005 The seven texts in this cross-section of fiction and nonfiction reveal a nation at the brink of modernity, embracing revolutionary ideas and reeling in their explosive impact. The opening chapters establish the theoretical framework for Perez-Romero's analysis, describing the intellectual and social environments of medieval Spain and tracing the developments in Spanish historical and literary scholarship that point to the existence of a new path of investigation.--Jacket.

Manejo de Temores con Dibujos Cristina Flores Vela, 2007

The Unconscious in Neuroscience and Psychoanalysis Marco Máximo Balzarini, 2024-04-22 The Unconscious in Neuroscience and Psychoanalysis presents a unique and provocative approach to the assimilation of these two disciplines while offering a thorough assessment of the unconscious from a neuropsychoanalytic and Lacanian perspective. Marco Máximo Balzarini offers a comprehensive overview of Freud's theory of the unconscious and its importance within psychoanalysis, before looking to how it has been integrated into contemporary neuropsychoanalytic work. Paying close attention to the field-defining work of neuropsychoanalysts such as Mark Solms, Francois Ansermet, and Pierre Magistretti, Balzarini considers the dichotomy between neuroscience and psychoanalysis, and the omnipresent debate on if and how they should be integrated when working with the unconscious. Throughout, he provides a fascinating Lacanian interpretation, showing how the work of Lacan can offer a new way of developing the dialogue and understanding around this vital topic. Part of the Routledge Neuropsychoanalysis Series, this book will be of interest to any psychoanalyst seeking to explore the foundations of the relationship between neuropsychoanalytic and Lacanian ideas in their clinical and theoretical work.
