**Las Cruces Sobre El Agua** Joaquin Gallegos Lara,2017-04-25 Ariel Clasicos Ecuatorianos rinde homenaje a la Cultura Nacional con el mayor esfuerzo editorial ecuatoriano de todos lo tiempos. Las Cruces sobre el Agua es parte de esta gran colección. Escrita en 1946 por Joaquin Gallegos Lara. La trama gira en torno a la masacre obrera del 15 de Noviembre de 1922, pero no solo este hecho espantoso es lo que mueve el relato, sino una profunda mirada a la situación de las clases menos favorecidas del Ecuador. La violencia, la frustración, la amistad y el trabajo son temas que se traslucen en esta novela para pintar un cuadro que muchos han catalogado como perteneciente al realismo social. Sin embargo, varias son las interpretaciones para un texto que nos brinda la panorámica de un tiempo y un espacio, donde el ecuatoriano sufre, pero dentro de su miseria, también sabe sonreír.

**Magic Realism** Maria-Elena Angulo,2018-10-24 Since the 1930s, Latin American writers have used magic realism to transcend the limits of the fantastic and illuminate social problems within the culture. The author considers five modern Latin American novels. Starting with two canonical texts of magic realism, Alejo Carpentier's *El reino de este mundo* (1949) and García Marquez's *Cien años de soledad* (1967), the author argues that *Los Sangurimas* (1934), by the Ecuadorian Jos de la Cuadra, is a seminal work due to de la Cuadra's new approach to reality and his use of marvelous and hyperbolic elements. The author shows the continuation of this example in Ecuador in Demetrio Aguilera-Malta's *Siete lunas y siete serpientes* (1970) and Alicia Yáñez Cossío's *Bruna, soroche y los tíos* (1972), which elucidate social problems of race, class, and gender through use of magic realism. In selecting for her study well-known writers such as Carpentier, García Marquez, and others, less well-known such as de la Cuadra, Aguilera-Malta and Yáñez Cossío, the author demonstrates that both canonical and noncanonical writers for many years have been working on this new way of writing to interpret in fiction the highly complex Latin American reality.

**Boom and Bust: Ecuador's Financial Rollercoaster** Pablo R. Izurieta Andrade,2017-01-03 Throughout the history of Ecuador, the ambivalent evolution of major political and social events such as the stability of serving presidents, coups and even war, has coincided with changes in the financial environment. The product of careful historical study, *Boom & Bust: Ecuador's Financial Rollercoaster* combines evidence from prior studies with original research, including data from the Central Bank of Ecuador, unpublished diplomatic papers and documents from the personal archives of relevant historical figures. A central finding is that the export performance of Ecuador's three primary commodities - cacao, bananas and oil - has significantly shaped 20th-century Ecuadorian history. Synthesis of old and new insights reveals how the state of the nation's economy has frequently determined the outcome of critical events. All the while, the strength, immediacy and direction of the relationships examined has varied. The book would appeal to anyone with an interest in Ecuador's recent history as well as specialists and scholars of Latin American economic and political history.

*Handbook of Latin American Literature (Routledge Revivals)* David Foster,2015-06-11 First published in 1987 (this second edition in 1992), the Handbook of Latin American Literature offers readers the opportunity to explore this literary history in the English Language and constitutes an ideological approach to Latin American Literature. It provides both concise information concerning particular authors, works, and literary traditions of Latin America as well as comprehensive

material about the various national literatures of the area. This book will therefore be of interest to Hispanic scholars, as well as more general readers and non-Hispanists.

**America, América** Greg Grandin, 2025-04-22 A New York Times bestseller “An extraordinarily ambitious book . . . America, América reads at times as the historical equivalent of the great epic novels of Gabriel García Márquez.” —Irish Times From the Pulitzer Prize-winning historian, the first comprehensive history of the Western Hemisphere, a sweeping five-century narrative of North and South America that redefines our understanding of both. The story of how the United States’ identity was formed is almost invariably told by looking east to Europe. But as Greg Grandin vividly demonstrates, the nation’s unique sense of itself was in fact forged facing south toward Latin America. In turn, Latin America developed its own identity in struggle with the looming colossus to the north. In this stunningly original reinterpretation of the New World, Grandin reveals how North and South emerged from a constant, turbulent engagement with each other. America, América traverses half a millennium, from the Spanish Conquest—the greatest mortality event in human history—through the eighteenth-century wars for independence, the Monroe Doctrine, the coups and revolutions of the twentieth century, and beyond. Grandin shows, among other things, how in response to U.S. interventions, Latin Americans remade the rules, leading directly to the founding of the United Nations; and how the Good Neighbor Policy allowed FDR to assume the moral authority to lead the fight against world fascism. Grandin’s book sheds new light on well-known historical figures like Bartolomé de las Casas, Simón Bolívar, and Woodrow Wilson, as well as lesser-known actors such as the Venezuelan Francisco de Miranda, who almost lost his head in the French Revolution and conspired with Alexander Hamilton to free America from Spain; the Colombian Jorge Gaitán, whose unsolved murder inaugurated the rise of Cold War political terror, death squads, and disappearances; and the radical journalist Ernest Gruening, who, in championing non-interventionism in Latin America, helped broker the most spectacularly successful policy reversal in United States history. This is a monumental work of scholarship that will fundamentally change the way we think of Spanish and English colonialism, slavery and racism, and the rise of universal humanism. At once comprehensive and accessible, America, América shows that centuries of bloodshed and diplomacy not only helped shape the political identities of the United States and Latin America but also the laws, institutions, and ideals that govern the modern world. In so doing, Grandin argues that Latin America’s deeply held culture of social democracy can be an effective counterweight to today’s spreading rightwing authoritarianism. A culmination of a decades-long engagement with hemispheric history, drawing on a vast array of sources, and told with authority and flair, this is a genuinely new history of the New World.

*The Politics of Sentiment* O. Hugo Benavides, 2010-01-01 Between 1890 and 1930, the port city of Guayaquil, Ecuador, experienced a liberal revolution and a worker's movement—key elements in shaping the Ecuadorian national identity. In this book, O. Hugo Benavides examines these and other pivotal features in shaping Guayaquilean identity and immigrant identity

formation in general in transnational communities such as those found in New York City. Turn-of-the-century Ecuador witnessed an intriguing combination of transformations: the formation of a national citizenship; extension of the popular vote to members of a traditional underclass of Indians and those of African descent; provisions for union organizing while entering into world market capitalist relations; and a separation of church and state that led to the legalization of secular divorces. Assessing how these phenomena created a unique cultural history for Guayaquileans, Benavides reveals not only a specific cultural history but also a process of developing ethnic attachment in general. He also incorporates a study of works by Medardo Angel Silva, the Afro-Ecuadorian poet whose singular literature embodies the effects of Modernism's arrival in a locale steeped in contradictions of race, class, and sexuality. Also comprising one of the first case studies of Raymond Williams's hypothesis on the relationship between structures of feeling and hegemony, this is an illuminating illustration of the powerful relationships between historically informed memories and contemporary national life.
