Hank Hung the Moon . . . and Warmed Our Cold, Cold Hearts Rheta Grimsley Johnson, 2012-03-01 Nationally syndicated columnist Rheta Grimsley Johnson's *Hank Hung the Moon* is more of a musical memoir than a biography: the author's evocative and personal stories of 1950s and '60s musical staples—elementary school rhythm bands, British Invasion rock concerts and tear-jerker movie musicals. It was a simpler time when Hank roamed the Earth; the book celebrates a world of 78 rpm records and 5-cent Cokes, with Hank providing the soundtrack and wisdom. A Cajun girl learns to understand English by listening to Hank on the radio. A Hank impersonator works by day at a prison but, by night, makes good use of his college degree in country music. Hank's lost daughter, Jett, devotes her life to embracing the father she never knew. Finally, stories you haven't heard a thousand times before about people who love Hank, some famous, most not. This lively little book uses Hank as metaphor for life. You'll tap your toe and demand an encore.

Making Telecoms Work Geoff Varrall, 2011-12-19 Bridging the industry divide between the technical expertise of engineers and the aims of market and business planners, *Making Telecoms Work* provides a basis for more effective interdisciplinary analysis of technology, engineering, market and business investment risk and opportunity. Since fixed and mobile broadband has become a dominant deliverable, multiple areas of transition and transformation have occurred; the book places these changes in the context of the political, social and economic dynamics of the global telecommunications industry. Drawing on 25 years of participative experience in the mobile phone and telecommunications industry, the author closely analyses the materials, components and devices that have had a transformative impact. By presenting detailed case studies of materials innovation, such as those shown at success story Apple, the book shows how the collaboration of technological imagination with business knowledge will shape the industry's future. Makes a link between the technical aspects and the business practice of the telecoms industry, highlighting the commercial and economic significance of new developments Gives a historical analysis of past successes and failures in order to identify future competitive advantage opportunities Supplies detailed case studies of supply chain disconnects and the impact these have on industry risk and profitability Brings together technological detail with analysis of what is and is not commercially important, from the implications of energy and environmental networks to the technical details of wireless network hardware.

Growing up Lansdowne Robert L. Bingham, 2015-10-21 *Growing Up Lansdowne* is a photo-illustrated account of the

authors childhood and adolescence in the mid to late 1950s and eventful 1960s in Lansdowne, Pennsylvania, a conservative Philadelphia suburb. The book is composed of 171 diverse essays depicting growing-up years in Lansdowne. Eight sections titled Random Remembrances record dozens of additional recollections. Assorted photographs are included to accent the narrative. The book is part memoir, part social landscape, part local/national history, and part love story. The recollections reflect candor and vulnerability, and at times they are surprisingly personal. Essays present balanced portraits of family and community life and the general era without resorting to enhancement or exaggeration. By its very design, Growing Up Lansdowne compels readers to make personal comparisons with their own hometowns and upbringing. The text touches upon memorable historical events and sensitive social issues of the times, and their impact on adolescent transition to adulthood.
