Tōjisha Manga Yoshiko Okuyama,2022-08-30 This book defines tōjisha manga as Japan’s autobiographical comics in which the author recounts the experience of a mental or neurological condition in a unique medium of text and image. Yoshiko Okuyama argues that tōjisha manga illuminate otherwise “faceless” individuals and humanize their invisible tribulations because the first-person narrative makes their lived experience more authentic and relatable to the reader. Part I introduces the evolution of the term tōjisha, the tōjisha movements, and other relevant social phenomena and concepts. Part II analyzes five representative titles to demonstrate the humanizing power of tōjisha manga, drawing on interviews with the authors of these manga and examining how psychological or brain-related symptoms are artistically depicted in approximately 40 drawings. This book is highly recommended to not only scholars of disability studies and comic studies but also global fans of manga who are interested in the graphic memoirs of serious social issues.

Eyeliner Zahra Hankir,2023-11-14 A New York Times Book Review Editors' Choice Pick “Cosmetic, tool of rebellion, status signifier: Eyeliner has been all these and more. Moving through millennia and across civilizations, Hankir gives the makeup its eye-opening due.” —The New York Times Book Review “An impressive, rigorously researched, winding path through centuries and over continents.” —NPR.org “I loved Eyeliner. Hankir approaches her subject with dedicated curiosity, humility, and humor, blending anthropology, travel writing, memoir and history. A treat.” —Kassia St. Clair, author of *The Secret Lives of Color* From the acclaimed editor of *Our Women on the Ground* comes a dazzling exploration of the intersections of beauty and power around the globe, told through the lens of an iconic cosmetic From the distant past to the present, with fingers and felt-tipped pens, metallic powders and gel pots, humans have been drawn to lining their eyes. The aesthetic trademark of figures ranging from Nefertiti to Amy Winehouse, eyeliner is one of our most enduring cosmetic tools;

ancient royals and Gen Z beauty influencers alike would attest to its uniquely transformative power. It is undeniably fun—yet it is also far from frivolous. Seen through Zahra Hankir’s (kohl-lined) eyes, this ubiquitous but seldom-examined product becomes a portal to history, proof both of the stunning variety among cultures across time and space and of our shared humanity. Through intimate reporting and conversations—with nomads in Chad, geishas in Japan, dancers in India, drag queens in New York, and more—Eyeliner embraces the rich history and significance of its namesake, especially among communities of color. What emerges is an unexpectedly moving portrait of a tool that, in various corners of the globe, can signal religious devotion, attract potential partners, ward off evil forces, shield eyes from the sun, transform faces into fantasies, and communicate volumes without saying a word. Delightful, surprising, and utterly absorbing, Eyeliner is a fascinating tour through streets, stages, and bedrooms around the world, and a thought-provoking reclamation of a key piece of our collective history.

Disruptive Technologies in International Business Alka Maurya, J. Mark Munoz, Loveleen Gaur, Gurinder Singh, 2023-07-24 New technologies such as artificial intelligence, blockchain, the Internet of Things (IoT), etc. are redefining business processes around the world at a rapid rate and resulting in both great opportunities and challenges for businesses. Though these technologies are extensively being used in developed countries, emerging economies are also not far behind. *Disruptive Technologies in International Business* advances the understanding of technological applications in business within an international paradigm. With its in-depth discussions of diverse topics such as the global value chain (GVC), environmental risk management, IoT, Surface Mobility, and anime, the book argues that technologies offer many advantages but there are accompanying risks, challenges, and disadvantages as well. The need of the hour is to address the impact of these technologies on the environment, society, and economy of the world. This book offers a collage of insights on how these technologies can potentially change the playing field in businesses and countries and contribute to the betterment of society. This book will provide business practitioners, international organizations, government officials, and policy makers with inspiration and new leads toward more efficient systems, policies, and operational frameworks in our increasingly technology-driven society.
