What We Talk About When We Talk About Books Leah Price, 2019-08-20 Reports of the death of reading are greatly exaggerated Do you worry that you've lost patience for anything longer than a tweet? If so, you're not alone. Digital-age pundits warn that as our appetite for books dwindles, so too do the virtues in which printed, bound objects once trained us: the willpower to focus on a sustained argument, the curiosity to look beyond the day's news, the willingness to be alone. The shelves of the world's great libraries, though, tell a more complicated story. Examining the wear and tear on the books that they contain, English professor Leah Price finds scant evidence that a golden age of reading ever existed. From the dawn of mass literacy to the invention of the paperback, most readers already skimmed and multitasked. Print-era doctors even forbade the very same silent absorption now recommended as a cure for electronic addictions. The evidence that books are dying proves even scarcer. In encounters with librarians, booksellers and activists who are reinventing old ways of reading, Price offers fresh hope to bibliophiles and literature lovers alike. Winner of the Phi Beta Kappa Christian Gauss Award, 2020

Literature and Terrorism , 2012-01-01 The years following the attacks of September 11, 2001 have seen the publication of a wide range of scientific analyses of terrorism. Literary studies seem to lag curiously behind this general shift of academic interest. The present volume sets out to fill this gap. It does so in the conviction that the study of literature has much to offer to the transdisciplinary investigation of terror, not only with respect to the present post-9/11 situation but also with respect to earlier historical contexts. Literary texts are media of cultural self-reflection, and as such they have always played a crucial role in the discursive response to terror, both contributing to and resisting dominant conceptions of the causes, motivations, dynamics, and aftermath of terrorist violence. By bringing together experts from various fields and by combining case studies of works from diverse periods and national literatures, the volume *Literature and Terrorism* chooses a diachronic and comparative perspective. It is interested in the specific cultural work performed by narrative and dramatic literature in the face of terrorism, focusing on literature's ambivalent relationship to other, competing modes of discourse.

The Art of Libromancy Josh Cook, 2023-08-22 ONE OF LIT HUB'S MOST ANTICIPATED BOOKS OF 2023 • ESQUIRE's August 2023 Book Club Pick If books are important to you because you're a reader or a writer, then how books are sold should be important to you as well. If it matters to you that your vegetables are organic, your clothes made without child labor, your beer brewed without a culture of misogyny, then it should matter how books are made and sold to you. With

Amazon's growing power in both bookselling and publishing, considering where and how we get our books is more important now than ever. The simple act of putting a book in a reader's hands—what booksellers call handselling—becomes a catalyst for an exploration of the moral, financial, and political pressures all indie bookstores face. From the relationship between bookselling and white supremacy, to censorship and the spread of misinformation, to the consolidation of the publishing industry, veteran bookseller and writer Josh Cook turns a generous yet critical eye to an industry at the heart of American culture, sharing tips and techniques for becoming a better reader and, of course, recommending great books along the way.

**The Pearl of Great Price** Orest Stocco, 2015-03-05 Stories bear the truth of the human condition, and the human condition is the story of our becoming; but not until we solve the riddle of our becoming will literature resolve the issue of the human condition. This makes literature endlessly fascinating, because every writer speaks to their place in the enantiodromiac process of man's becoming, which Jung called individuation, and in their stories they stake out the geography of man's soul—whether it be the happy country of one's being, the unhappy country of one's non-being, or that miserable place of being stuck between two countries—the no-man's land of one's soul. **The Novel of Human Rights** James Dawes, 2018-09-12 James Dawes defines a new, dynamic American literary genre, which takes as its theme a range of atrocities at home and abroad. This vibrant and modern genre incorporates key debates within the human rights movement in the U.S. and in turn influences the ideas and rhetoric of that discourse.

**Pronatalism** Sarah Benesch, 2025-06-06 This book addresses a topic that until recently had been underexplored: women who voluntarily forgo having and raising children. Grounded in a discourse approach, it examines reproductive decision-making in the context of pronatalist discourses, such as 'maternal instinct', 'biological clock' and 'having it all', that

encourage procreation in some while discouraging it in others. To contextualize pronatalism sociohistorically, the book also examines the relationship between pro- and anti-natalist discourses that emerged during the 20th-century eugenics movement in the United States, especially its promotion of white middle-class women's procreation while discouraging, or preventing, poor immigrant women and women of color from reproducing. Other topics include online communities devoted to childfreedom, 20th- and 21st-century women authors who wrote about their decision not to procreate, responses of academic women in the field of applied linguistics to questions about their childlessness, and a personal narrative of the author's childlessness. The author calls for solidarity between mothers and 'nothers' (her term for childless women) to defy the policing of women's bodies worldwide.

**The Publishers Weekly**, 2008

Critical Issues in Democratic Schooling Kenneth Teitelbaum, 2020-04-28 Focusing on a wide range of critical issues, this book provides a comprehensive analysis of the linkage of different educational ideas, policies, and practices to a commitment for democratic schooling. Informed by significant, interdisciplinary research, as well as by his own extensive professional experiences as a teacher, professor, department chair, and dean, Teitelbaum examines contemporary concerns related to three broad areas: 1) teaching and teacher education; 2) curriculum studies; and 3) multiculturalism and social justice. His approach is to integrate the current and the historical, the practical and the theoretical, the technical and the socio-political, and the personal and the structural. With this volume, Teitelbaum considers how schools should be organized and funded, what they should teach and to whom, the role that teachers, students, and parents should play in school life, and the need and prospects for schools and teacher education programs that foster meaningful learning, critical reflection, and social justice.

**Embodied Imaginations** Chidambaram Ramesh, 2023-06-05 The science behind the writers' experience of characters developing their own will and taking objective forms. Many writers have the experience that their characters have evolved their own personalities. They start to tell their own stories, and sometimes they could even rebel against the author's ideas for them and change the course of the whole plot. That is not all, though. Sometimes, literary characters assume objective appearances which are visible not just to the creators, but also to others and manifesting in the real world. These experiences raise several interesting philosophical and scientific questions. Have the writers unwittingly created quasi-conscious entities by the power of their minds? Can thoughts manifest as something tangible that can be seen, heard, or even touched? How genuine are the contents of the mind? Embodied Imaginations explores these questions, highlighting the results of an investigation on this fascinating topic, stemming from personal anecdotes of many writers. Providing scientific evidence for the existences of these mental constructs, the goal is to collect robust and reliable building blocks that may help to deconstruct perceptions and provide answers to this phenomenon. The book attempts to give modern science a place

where spiritual, philosophical and mystical threads can be interwoven. Efforts have been made to corroborate theoretical claims with experimental evidence, contributing to research in cognitive psychology to determine the role of imagination in creating external reality. This book will introduce you to the mysterious and profound part of creative writing that you never knew existed before.

*The Writer's Quotebook* Jim Fisher, 2006 If you have ever stared a page that remains stubbornly blank; if you have ever wondered why writers write, or whether good writers are born or made; if you are a novelist, playwright, poet, or journalist, or simply delight in the written word, *The Writer's Quotebook* is for you. Whether you keep it in your office, on your coffee table, next to your keyboard or your bed, this rich compendium of over one thousand quotations will inspire, invigorate, and illuminate the often challenging, sometimes humorous, but always fascinating task of those who bring words to life. From William Faulkner and Ernest Hemingway to Doris Lessing and Joyce Carol Oates, more than five hundred published writers put pen to paper on what the literary life is all about. Selections come from seasoned professionals as well as those just establishing their voice, and they represent a variety of nationalities and genres. The book is divided into three sections. The first part is devoted to the creative process, including thoughts on where writers get their ideas, the role of inspiration, what kind of people write, and where talent comes from. In part two, the subject shifts to writing as a craft. Here, authors ponder the creation of protagonists and points of view, the writing of dialogue, setting and description, creating plots, and the anatomy of style. The final third of the book deals with the challenges and rewards that come with the writing life. Subjects in this section include the economic realities of writing, classes, conferences, and workshops, dealing with rejection and bad reviews, writing habits and rituals, despair, alcohol, suicide, and fame. Articulated with elegant metaphor, in straightforward prose, or with wry wit, the carefully selected and thoughtfully organized quotations come together to form a narrative that entertains, informs, and in the case of aspiring writers, shows the way to better writing.
