**Time Matters: 10th edition** Alexandre Kassiantchouk, 2024-06-08 Einstein's mistakes in mass and energy corrected. There is no curved spacetime - only time dilation. Major problems in cosmology and UFO physics solved.

**Time Matters** Alexandre Kassiantchouk, Two and a half years ago, I started this book with an explanation of why the ancient Universe is red (or infrared), and how spiral galaxies counter centrifugal force from breaking them. Now I finish it with an explanation of how galaxies appeared from nothing but space and time, where antimatter is, and what Black Holes really are. In the preface you will find a list of long-standing problems solved in this book. Chapter 1 introduces you to time dilation and its optical effects, redshift and refraction, which mislead scientists for about 100 years to wrong mechanical conclusions. After reading it, feel free to jump to almost any chapter, for example: · Physicists, please sample chapter 77 to get the gist of time pressure. · Engineers, please check absolute clock design in chapter 67. · And if you are curious about UFOs, then chapter 78 might be a good introduction to the topic. I hope you enjoy reading my book, as I enjoyed writing it.

Classical Physics Beyond Einstein's Alexandre Kassiantchouk, 2nd edition of this book provides a revolutionary Big G-less and massless view on gravity. Mass is not fundamental — time dilation (aka locality of time speed) is. Besides gravity, time dilation provides a shell for matter (aka “strong force”). Speed of light is constant, when measured locally in any area. But the speed of time varies between areas. These two facts combined together mean that local speed of light and local speed of time are proportional, and their ratio is known as the speed-of-light constant  $c$ . But when light crosses areas of various time speeds, then the light wave, watched from somewhere outside, does not look like crossing these areas at the same speed at all. From an outside perspective, light runs at speed  $c/D$ , where  $D$  is a time slowness factor called time dilation. Apparent variations in  $D$  values between areas make “apparent speed of light”  $c/D$  variable. That explains many observations (previously attributed to magical/dark mechanics) as mere optical effects. Besides optical effects, there are real/tangible ones:  $c/D$  defines time pressure and time energy potential  $0.5c^2/D^2$ . Time potential was the pivotal result of this book’s first edition. It replaced overcomplicated and extremely speculative General Relativity: time energy potential provides better results and in a very clear classical manner. This edition takes you further, using an observation that time dilation  $D(r)$  at distance  $r$  from an attractor remains constant if powered by that distance:  $D(r)^r = \text{Const}$ . Now, just having a single measurement  $D = D(R)$  of time dilation at any distance  $R$  from an attractor, we know time dilation  $D(r)$  at any other distance

r from the attractor:  $D(r) = D^R \square^r$ , because of constant  $D(r)^r = D(R)^R$  and  $D = D(R)$  measurement. That leads to revision of some fundamentals in physics. Newton's inverse square law for gravitational acceleration  $g(r) \approx GM/r^2$  (with enigmatic constant G of unknown nature and attracting mass M, with nature of mass still unclear to critically thinking physicists) can be expressed now using a measurement D of time dilation at any distance R from an attractor as  $g(r) \approx c^2 \ln(D) R / r^2$  without magical components. These inverse-square formulas, with and without enigmatic ingredients, match measurements in the Solar system. As for the precise gravitational formula, we provide it as well:  $g(r) = c^2 \ln(D) R / r^2 / D^{2R} \square^r$ . It explains elliptical orbits precession in clear terms when  $D^{2R} \square^r$  cannot be ignored — when it is distinguishable from 1. And there is more, as you can see in and navigate from the TABLE OF CONTENTS 1. METERING TIME 2. OPTICAL EFFECTS OF TIME VARIABILITY 2.1. Color Change (Redshift, Blueshift) 2.2. Refraction 2.3. Reflection 2.4. Multiple Images 2.5. Visibility Angle 2.6. Concave Lensing 3. TIME POTENTIAL 3.1. Potential =  $0.5 \times c^2 / D^2$  3.2. Gravity  $g = - (0.5c^2 / D^2)' \approx c^2 \times D' \sim \nabla D$  3.3. Gravitational Time Dilation  $D = \exp[G \times M / (R \times c^2)]$  3.4. Escape velocity =  $c \times \sqrt{[1 - \exp(-2G \times M / (R \times c^2))]} \leq c$  3.5. Action =  $- D^2 \times$  Reaction 3.6. Relativistic Time Dilation  $D = 1 / \sqrt{1 - v^2 / c^2}$  4. REVISED MASS AND ENERGY FORMULAS 4.1. Mass  $m = m_0 \times D^2$  4.2.  $E = m \times c^2 / 2$  4.3.  $E = h \times f / 2$  and Millikan's Test 5.  $\square$  NO SPACE CURVATURE On the Example of Venus' Orbit 6. New chapters are  $\square$ -marked.

Time Matters: 6th edition Alexandre Kassiantchouk, This book solves many long-standing problems in physics and cosmology, and provides you with a new, more realistic, perspective on our world: · Spacetime is regular Space filled with Time, and not 4-dimensional surrogate · Time is Quantum Fluctuations, like Temperature is Brownian Motion · Gravity is Time Pressure · Milky Way and Bob Lazar's craft use the same propulsion · There was no Big Bang · Galaxies were materialized by burning time, with shooting-star-like fireworks of matter, with such events randomly scattered in space and in time (check chapter 51 on how). · Matter/antimatter imbalance is local to a galaxy, but balanced in the Universe.

**Time Matters, 7th edition** Alexandre Kassiantchouk, Two years ago, I started this book by explaining why the ancient Universe is red (or infrared), and how spiral galaxies counter centrifugal force from breaking them. Now I finish it with an explanation of how galaxies appeared from nothing but space and time, and where antimatter is. In the preface below you will find a list of long-standing problems solved in this book. Physicists, please read chapter 61 first: there I explain physics of observations for electrons, atoms, and "Black Holes". I hope you enjoy reading my book, as I enjoyed writing it.

Hidden Agenda Mike Bara, 2016-08-28 Space expert Bara delves into the secret space program, examining the possibility that there are secret bases on the Moon, and exploring the many other rumors surrounding the military's secret projects in

space. Starting with the mysterious airship flap of 1897, tracing its possible origin to a 19th century Prussian secret society, Bara posits that man has had anti-gravity technology for quite a long time. What else doesn't the public know? Bara brings to light a lot of evidence showing that there is plenty. • On June 8, 1959, a group at the Army Ballistic Missile Agency produced for the U.S. Army a report entitled Project Horizon, a "Study for the Establishment of a Lunar Military Outpost." The permanent outpost was predicted to cost \$6 billion and was to become operational in December 1966 with twelve soldiers stationed at the Moon base. Did this happen? • The Brookings Report drawn up at the inception of NASA said we could expect to find alien artifacts in our exploration of space. Did NASA and the Pentagon find evidence of alien bases on the Moon? Did the Apollo 12 astronauts deliberately damage the mission's TV cameras in order to hide their explorations of one of these bases? • Does hacker Gary Mackinnon's discovery of defense department documents identifying "non-terrestrial officers" serving in space mean that the U.S. has clandestine space platforms designed to fight a war with an alien race? And, have civilian observers here on Earth photographed these secret military space platforms? Bara explores the evidence surrounding these questions and more in this explosive book. He maintains that aside from the actual secret space program, even the public space program—NASA—has at its core a secret agenda. Bara also examines the many allegations that the government has long been clandestinely working with aliens in various covert programs.

**Future Esoteric** Brad Olsen, 2016-04-01 Examining the flaws of mainstream society, this collection of conspiracy theory, esoteric knowledge, and fringe subjects seeks to present solutions to current social, economic, and environmental world issues. This book encourages the exploration and integration of modern science with ancient wisdom, which will lead modern society towards advancement and enlightenment. Topics discussed include religious mythos, government manipulation, technological advances, and utopia.

*Gravitational Manipulation of Domed Craft* Paul E. Potter, 2011-03-10 This book introduces a brand new field of scientific research based upon analysis of artifacts retrieved from crashed and damaged UFOs that have come down in Russia and America. For the first time, it reveals the scientific principles behind UFO propulsion dynamics, and shows that these principles are known and recognized by today's physicists. Potter's analyses of these UFO mechanisms are substantiated with references to a broad array of over 300 research papers published in scientific journals! Potter correlates many of the phenomena observed firsthand by close encounter witnesses and abductees and pinpoints the common themes reported, categorizing them according to known physical principles. He produces a comprehensive orchestration of energy dynamics used inside and around UFOs. His precise and lavish illustrations allow the reader to enter directly into the realm of the advanced technological engineer and to understand, quite straightforwardly, the aliens' methods of energy manipulation: their methods of electrical power generation; how they purposely designed their craft to employ the kinds of energy dynamics that are exclusive to space (discoverable in our astrophysics) in order that their craft may generate both attractive

and repulsive gravitational forces; their control over the mass-density matrix surrounding their craft enabling them to alter their physical dimensions and even manufacture their own frame of reference in respect to time.

*Beyond Esoteric* Brad Olsen,2024-11-14 The word occult means nothing more than to study the realm of the hidden. So much of real knowledge and wisdom is disguised because the people who run the planet feel that true information as to how the world works is something the sheeple should not be informed about. But truth always resonates! *Beyond Esoteric* takes off the kid gloves and exposes the nefarious control grid extending its tentacles across the planet.

**UFOs, Chemtrails, and Aliens** Donald R. Prothero,Timothy D. Callahan,2017-08-02 A wide-ranging survey offers “entertainment as well as wisdom for everyone who’s ever wondered what’s behind so many conspiracy theories and paranormal phenomena” (Publishers Weekly). UFOs. Aliens. Strange crop circles. Giant figures scratched in the desert surface along the coast of Peru. The amazing alignment of the pyramids. Strange lines of clouds in the sky. The paranormal is alive and well in the American cultural landscape. In *UFOs, Chemtrails, and Aliens*, Donald R. Prothero and Tim Callahan explore why such demonstrably false beliefs thrive despite decades of education and scientific debunking. Employing the ground rules of science and the standards of scientific evidence, Prothero and Callahan discuss a wide range of topics including the reliability of eyewitness testimony, psychological research into why people want to believe in aliens and UFOs, and the role conspiratorial thinking plays in UFO culture. They examine a variety of UFO sightings and describe the standards of evidence used to determine whether UFOs are actual alien spacecraft. Finally, they consider our views of aliens

and the strong cultural signals that provide the shapes and behaviors of these beings. While their approach is firmly based in science, Prothero and Callahan also share their personal experiences of Area 51, Roswell, and other legendary sites, creating a narrative that is sure to engross both skeptics and believers.

**Area 51** Nick Redfern, 2019-01-01 A revealing look at the secrets behind the most controversial U.S. Air Force base It's no secret that, roughly 100 miles north northwest of Las Vegas, in the middle of a remote desert, sits an extension of the Edwards Air Force facility commonly known as Area 51, but its clandestine purpose and operations remain shrouded in secrecy. It's a highly classified, restricted area, but, cloaked in conspiracy theories, its history and true function remain a mystery. Is it only devoted to flight testing experimental aircraft and building black ops weapons systems as some contend? Or is it home to a dead alien, crashed UFOs, and extraterrestrial technology...? Or all of the above? Taking a thorough review of the historical record, eyewitness accounts, whistleblower testimony, and deathbed confessions, Area 51: The Revealing Truth of UFOs, Secret Aircraft, Cover-Ups and Conspiracies peers behind the classified secrets to understand the nature, history, and scope of the most controversial base in the United States. Redfern investigates the Cold War years, U-2 spy plane, SR-71 Blackbird, and chemical and nuclear weapon research as well as the base's link to an extraterrestrial presence on Earth, reports of alien autopsies, recovery of non-terrestrial spacecraft, and attempts to duplicate the fantastic, alien technology. From UFOs to secret aircraft and the CIA, shadowy government programs and unexplained events surrounding Area 51 are illuminated, including ... The government's Nevada land-grab at Paradise Ranch The U-2, the Blackbird, and the A-12 tests, refinements, and flights The Robert Scott Lazar revelations Roswell Incident and Project Mogul The development of "black helicopters" The "Autopsies - Bodies Unknown Origin 47" file Intelligence gathering through ESP, parapsychological, and mind control Secret research on teleportation Vast, hollowed-out chambers, tunnels, and hidden underground facilities And much, much more!!!

**From Adam to Omega** A.R. Roberts, 2020-09-24 Due to government secrecy, the public never learned of the numerous UFO incursions at strategic nuclear weapons installations where they disabled ICBM missiles and even activated their launch codes. They never heard about UFO encounters reported by police officers, civilian and military pilots and astronauts, and

they were never told the real facts of the Roswell event. The volume of evidence suggesting we are not alone, and probably never have been, is overwhelming. It suggests an alien agenda to accelerate the evolution of the human race. To understand what is happening requires knowledge of what is going on today as well as the past, particularly during the biblical era. Much has been learned through the Freedom of Information Act, from whistleblowers, and government and military officials. This book connects the dots suggesting what aliens have been doing for the past several thousand years.

**One Opinion in 8 Billion** Thom Gordon, 2025-08-18 One Voice. One Vision. One Opinion in 8 Billion. In a world of noise, division, and endless opinion, One Opinion in 8 Billion: An Individual Perspective cuts through with clarity, curiosity, and courage. This is not just another non-fiction book — it is a bold, unapologetic exploration of life's most pressing, provocative, and perplexing questions. Across sixteen chapters, author Thomas Gordon tackles 335 controversial questions spanning politics, religion, media, science, identity, war, and beyond. Each is presented without filters or agenda — challenging you to think, reflect, and decide for yourself. But that's just the beginning. The book also delves into 34 of the most talked-about conspiracy theories — not to preach belief, but to investigate, analyse, and weigh the evidence. From ancient mysteries like the Pyramids and the Anunnaki, to modern controversies surrounding global events, you'll find balanced examinations paired with the author's personal conclusions. For readers drawn to the frontiers of science, Gordon presents five original physics hypotheses — thought experiments designed to question the limits of our current understanding and bridge the gap between general relativity and quantum mechanics. These sections challenge the status quo of scientific thinking while remaining grounded in logical reasoning. The book closes with something rare: a call to action. You'll find a published open letter to every world leader and a five-year Global Unity Business Plan — a vision for practical steps towards international cooperation, environmental sustainability, and peace. Whether you agree, disagree, or find yourself somewhere in between, One Opinion in 8 Billion refuses to leave you indifferent. It's for the reader who: Wants to explore complex issues from multiple angles. Values independent thinking over echo chambers. Believes curiosity is more powerful than certainty. Welcomes the discomfort of having their assumptions challenged. Inside you'll explore: Provocative questions on society, morality, and the future of humanity. The facts, theories, and debates behind enduring conspiracies. Ground-breaking ideas in physics and cosmology. A vision for a united, cooperative, and compassionate world. This is not a book that tells you what to think. It is a book that dares you to think for yourself. Whether you read it cover-to-cover or dip in at the topics that matter most to you, One Opinion in 8 Billion is a challenge, an invitation, and a conversation all in one. A minimum of 10% of all profits will be donated to charitable causes referenced in the book, meaning your purchase also supports real-world change. Immortality of the Gods Nick Redfern, 2016-12-26 The author of Bloodline of the Gods explores the theory that ancient

aliens shared the secrets of immortality with Old Testament figures. While scientists debate the theoretical possibility of immortality, it may have already been achieved in the distant past. History is filled with accounts of fantastic beings, powerful gods, and half-human/half-alien entities that had extraordinarily long lifespans. Today, these stories are dismissed as mere folklore and mythology. But what if the accounts are all too real? In *Immortality of the Gods*, Nick Redfern considers the possibility that ancient aliens uncovered the secret to stopping the aging process. Examining the legends of the Anunnaki, Redfern investigates how these ancient deities may have achieved everlasting life, and why they might have shared their secrets with Noah, Methuselah, and other biblical figures. Redfern goes on to explore the saga of Gilgamesh, a long-lived part-human, part-extraterrestrial Sumerian ruler obsessed with immortality. Also in this volume, Redfern studies the claim that an undisclosed motivation for the 2003 invasion of Iraq was to uncover the millennia-old secrets of white powder gold, a manna-like substance that supposedly rejuvenates cells and tissue.
