Many Splendored Things Susanna Paasonen, 2018-11-27 Exploring sex—bodily capacities, appetites, orientations, and connections—in terms of play and playfulness. We all know that sex involves a quest for pleasure, that sexual palates vary across people's lifespans, and that playful experimentations play a key role in how people discover their diverse sexual turns and turn-offs. Yet little attention has been paid to thinking through the interconnections of sex and play, sexuality and playfulness. In *Many Splendored Things* from Goldsmiths Press, Susanna Paasonen considers these interconnections. Paasonen examines the notions of playfulness and play as they shed light on the urgency of sexual pleasures, the engrossing appeal of sex, and the elasticity of sexual desires, and considers their connection to categories of identity. Drawing on a broad range of scholarship on sexuality, play, and the media, Paasonen moves from the conceptual to the concrete, examining advice literature on sexual play, the vernacular aesthetics of the Fifty Shades series, girls' experiences of online

sexual role-playing, popular media coverage of age-play, and Jan Soldat's documentary films on BDSM culture. Paasonen argues that play in the realm of sexuality involves experimentation with what bodies can feel and do and what people may imagine themselves as doing, liking, and preferring. Play involves the exploration of different bodily capacities, appetites, orientations, and connections. Occasionally strained, dark, and even hurtful in the forms that it takes and the sensory intensities that it engenders, sex presses against previously perceived and imagined horizons of embodied potentiality. Play pushes sexual identifications into motion.

My Child, the Algorithm Hannah Silva,2024-08-27 Hannah Silva's *My Child, the Algorithm*, is one of the best books I read this year. Merging the cozy familiarity of child-rearing with the mysterious tension of AI {...}, she has created a new genre of personal narrative, and a story whose grief, hope and curiosity takes on poetic, spiritual dimensions, even when exploring the most common chambers of the human heart. —Michelle Tea, author, *Knocking Myself Up* *My Child, the Algorithm* tells a story of finding joy after betrayal. Like a male seahorse, Hannah Silva carried a baby made from her partner's egg. But when she gave birth, her partner left, and Hannah found herself navigating life alone with her child. Hannah started playing with a precursor to ChatGPT—wondering what AI could tell us about love. To her surprise, she was moved by the results. The algorithm prompted Hannah to share her explorations of dating, sex, friendship, and life as a queer parent in London. With the help and disruption of two unreliable narrators, a toddler and an algorithm, Hannah deconstructs her story, unraveling everything she has been taught to want, and finds alternative ways of thinking, loving, and parenting today.

Modern Fantasies on Love versus Classical Romances Ljuba Tarvi, 2023-07-14 Viewed through the lens of physics, love conquers nothing is the conclusion reached when love patterns in romances are viewed through laws of quantum physics. In this book, based on the metaphor "Love/Text is Energy," love in fiction is interpreted in the same way as subatomic particles are studied in quantum mechanics — by investigating traces of their clashes in giant colliders, i.e., as Marx's 'converted forms' of the protagonists' conscious and unconscious decisions and actions. The book introduces the Token Valence Method, which assumes that a word, like an elementary particle, is neither a particle nor a wave but rather a quantum state. The TVM has revealed three models of love patterns in fiction: adaptation (21st century), alienation (20th century), and imagination (1991-2021).

Mike's World Asa McKercher, Galen Roger Perras, 2017-10-06 Although fifty years have passed since Lester Pearson stepped down as prime minister, he still influences debates about Canada's role in the world. Known as "Mike" to his friends, he has been credited with charting a "Pearsonian" course in which Canada took on a global role as a helpful fixer seeking to mediate disputes and promote international cooperation. *Mike's World* explores the myths surrounding Pearsonianism to explain why he remains such a touchstone for understanding Canadian foreign policy. Leading and emerging scholars dig deeply into Pearson's diplomatic and political career, especially during the 1960s and his time as prime minister. Topics range from peacekeeping and Arctic sovereignty to environmental diplomacy and human rights policy. They show that competing forces of idealism and pragmatism were key drivers of Pearsonian foreign policy and how global events often influenced politics and society within Canada itself. Situating Pearson within his times and as a lens through which to analyze Canadians' views of global affairs, this nuanced collection wrestles with the contradictions of Pearson and Pearsonianism and, ultimately, with the resulting myths surrounding Canada's role in the world.

Toxic Geek Masculinity in Media Anastasia Salter, Bridget Blodgett, 2017-11-08 This book examines changing representations of masculinity in geek media, during a time of transition in which "geek" has not only gone mainstream but also become a more contested space than ever, with continual clashes such as Gamergate, the Rabid and Sad Puppies' attacks on the Hugo Awards, and battles at conventions over "fake geek girls." Anastasia Salter and Bridget Blodgett critique

both gendered depictions of geeks, including shows like Chuck and The Big Bang Theory, and aspirational geek heroes, ranging from the Winchester brothers of Supernatural to BBC's Sherlock and the varied superheroes of the Marvel Cinematic Universe. Through this analysis, the authors argue that toxic masculinity is deeply embedded in geek culture, and that the identity of geek as victimized other must be redefined before geek culture and media can ever become an inclusive space.

Selling Sex on Screen Karen A. Ritzenhoff, Catriona McAvoy, 2015-07-16 Whether in mainstream or independent films, depictions of female prostitution and promiscuity are complicated by their intersection with male fantasies. In such films, issues of exploitation, fidelity, and profitability are often introduced into the narrative, where sex and power become commodities traded between men and women. In *Selling Sex on Screen: From Weimar Cinema to Zombie Porn*, Karen A. Ritzenhoff and Catriona McAvoy have assembled essays that explore the representation of women and sexual transactions in film and television. Included in these discussions are the films *Breakfast at Tiffany's*, *Eyes Wide Shut*, *L.A. Confidential*, *Pandora's Box*, and *Shame* and such programs as *Buffy the Vampire Slayer* and *Gigolos*. By exploring the themes of class differences and female economic independence, the chapters go beyond textual analysis and consider politics, censorship, social trends, laws, race, and technology, as well as sexual and gender stereotypes. By exploring this complex subject, *Selling Sex on Screen* offers a spectrum of representations of desire and sexuality through the moving image. This volume will be of interest not only to students and scholars of film but also researchers in gender studies, women's studies, criminology, sociology, film studies, adaptation studies, and popular culture.

Still Reading Romance Josefine Smith, Kathleen W. Taylor Kollman, 2025-04-01 In a world that commodifies feminism, is adapting romance novels for small and big screen projects, and the Romance Writers Association is evolving to a more inclusive representative group, it is imperative for researchers to reevaluate the cultural assumptions and gender norming work happening in the romance genre. It is time to question the cultural capital of traditional archetypes, explore the experience of romance readers, and question how romance and cultural studies researchers create quantitative, qualitative, and mixed methods research. This work centers around a data set collected with a revised version of Janice Radway's *Reading the Romance* survey that will be shared with all the authors of this anthology. By having access to this pool, authors will have the opportunity to explore different elements of reader experience and cultural norms in romance fiction, and

potentially reflect on changes since Janice Radway's seminal work. The norms and negotiations readers experience while consuming romance is especially interesting as romancelandia becomes a more mainstream part of popular culture with the popularity of *Bridgerton* and romance series like *Ice Planet Barbarians* exploding on BookTok. No other book in romance or popular culture studies identifies a data set as the connecting element, and to do so creates an exciting opportunity to create a more inclusive study of popular romance, offer truly interdisciplinary research on the question of how readers read romance, and generate diverse areas of future scholarship. This edited volume explores multiple issues in romance fiction, based on survey data from real romance readers. An updated version of Janice Radway's influential survey looking at romance readers in the early 1980s, this time scholars explore romance readers' habits and attitudes in the twenty-first century. Each contributor in this volume uses the same survey data to make unique statements about gender, intersectionality, popular fiction, and popular culture. By using a common data set but approaching it from different perspectives, this unique volume is able to apply multiple methodologies to the same subject.

Reading Contemporary Serial Television Universes Paola Brembilla, Ilaria A. De Pascalis, 2018-05-25 *Reading Contemporary Serial Television Universes* provides a new framework—the metaphor of the narrative ecosystem—for the analysis of serial television narratives. Contributors use this metaphor to address the ever-expanding and evolving structure of narratives far beyond their usual spatial and temporal borders, in general and in reference to specific series. Other scholarly approaches consider each narrative as composed of modular elements, which combine to create a bigger picture. The narrative ecosystem approach, on the other hand, argues that each portion of the narrative world contains all of the main elements that characterize the world as a whole, such as narrative tensions, production structures, creative dynamics and functions. The volume details the implications of the narrative ecosystem for narrative theory and the study of seriality, audiences and fandoms, production, and the analysis of the products themselves.

Reading Books and Prints as Cultural Objects Evanghelia Stead, 2017-12-20 This book contributes significantly to book, image and media studies from an interdisciplinary, comparative point of view. Its broad perspective spans medieval manuscripts to e-readers. Inventive methodology offers numerous insights into visual, manuscript and print culture: material objects relate to meaning and reading processes; images and texts are examined in varied associations; the symbolic, representational and cultural agency of books and prints is brought forward. An introduction substantiates methods and approaches, ten chapters follow along media lines: from manuscripts to prints, printed books, and e-readers. Eleven contributors from six countries challenge the idea of a unified field, revealing the role of books and prints in transformation and circulation between varying cultural trends, 'high' and 'low'. Mostly Europe-based, the collection offers book and print professionals, academics and graduates, models for future research, imaginatively combining material culture with archival data, cultural and reading theories with historical patterns.

Swoon: Great Seducers and Why Women Love Them Betsy Prioleau, 2013-02-04 Lose yourself: Swoon has wicked fun answering that age-old query: What do women want?—Chicago Tribune Contrary to popular myth and dogma, the men who consistently beguile women belie the familiar stereotypes: satanic rake, alpha stud, slick player, Mr. Nice, or big-money mogul. As Betsy Prioleau, author of *Seductress*, points out in this surprising, insightful study, legendary ladies' men are a different, complex species altogether, often without looks or money. They fit no known template and possess a cache of powerful erotic secrets. With wit and erudition, Prioleau cuts through the cultural lore and reveals who these master lovers really are and the arts they practice to enswoon women. What she discovers is revolutionary. Using evidence from science, popular culture, fiction, anthropology, and history, and from interviews with colorful real-world ladykillers, Prioleau finds that great seducers share a constellation of unusual traits. While these men run the gamut, they radiate joie de vivre, intensity, and sex appeal; above all, they adore women. They listen, praise, amuse, and delight, and they know their way around the bedroom. And they've finessed the hardest part: locking in and revving desire. Women never tire of these fascinators and often, like Casanova's conquests, remain besotted for life. Finally, Prioleau takes stock of the contemporary culture and asks: where are the Casanovas of today? After a critique of the twenty-first-century sexual malaise—the gulf between the sexes and women's record discontent—she compellingly argues that society needs ladies' men more than ever. Groundbreaking and provocative, *Swoon* is underpinned with sharp analysis, brilliant research, and served up with seductive verve.

His primary focus is on collections as this is the area with the greatest opportunity for change and is the driver of most library cost. Lewis provides an accessible framework for thinking about how library practice needs to adjust in the digital environment.
