Therefore, it's wise to encourage honesty rather than discourage dishonesty.)

Gig John Bowe,Marisa Bowe,Sabin Streeter,2009-02-04 “An engaging, humorous, revealing, and refreshingly human look

at the bizarre, life-threatening, and delightfully humdrum exploits of everyone from sports heroes to sex workers.” -- Douglas Rushkoff, author of *Coercion*, *Ecstasy Club*, and *Media Virus* This wide-ranging survey of the American economy at the turn of the millennium is stunning, surprising, and always entertaining. It gives us an unflinching view of the fabric of this country from the point of view of the people who keep it all moving. The more than 120 roughly textured monologues that make up *Gig* beautifully capture the voices of our fast-paced and diverse economy. The selections demonstrate how much our world has changed--and stayed the same--in the three decades prior to the turn of the millennium. If you think things have speeded up, become more complicated and more technological, you're right. But people's attitudes about their jobs, their hopes and goals and disappointments, endure. *Gig*'s soul isn't sociological--it's emotional. The wholehearted diligence that people bring to their work is deeply, inexplicably moving. People speak in these pages of the constant and complex stresses nearly all of them confront on the job, but, nearly universally, they throw themselves without reservation into coping with them. Instead of resisting work, we seem to adapt to it. Some of us love our jobs, some of us don't, but almost all of us are not quite sure what we would do without one. With all the hallmarks of another classic on this subject, *Gig* is a fabulous read, filled with indelible voices from coast to coast. After hearing them, you'll never again feel quite the same about how we work.

The Fly Trap Fredrik Sjöberg, 2014-05-29 Fredrik Sjöberg's Swedish bestseller about summer, islands, freedom and boundaries. 'The light, the warmth, the smells, the mist, the birdsong - the moths. Who can sleep? Who wants to?' Fredrik Sjöberg finds happiness in the little things. Millions of them, in fact. This beguiling bestseller is his unique meditation on collecting hoverflies. It is also about living on a remote Swedish island, blissful long summer nights, lost loves, unexpected treasures, art, nature, slowness, and how freedom can come from the things we least expect. 'Full of charm, a book about how to find meaning in life' Melissa Harrison, *The Times*, Books of the Year 'I often return to *The Fly Trap*, it remains close to my heart. The minute observations from nature that reveal sudden insights into one's life. Sometimes I almost think that he wrote it for me' Tomas Tranströmer, winner of the Nobel Prize in Literature 'Charming, witty and original' Patrick Barkham, *Guardian* 'Nature writing that can laugh at itself, a real tonic' Gregory Day, *Sydney Morning Herald* 'Delightful, at once informative and often humorously digressive . . . a humane man of wide-ranging curiosity, Sjöberg writes with infectious passion' Paul Binding *Independent* Fredrik Sjöberg collects hoverflies on the island Runmarö, in the archipelago east of Stockholm. He is also a literary critic, translator, cultural columnist and the author of several books including *The Art of Flight* and *The Raisin King*, which form a trilogy with *The Fly Trap*.

How to Facilitate Meaningful Classroom Conversations across Disciplines, Grade Levels, and Digital Platforms Michael B. Sherry, 2020-12-02 How can teachers facilitate meaningful classroom conversations in which students engage in shared inquiry, building on what others have written or said (even to disagree)? Such discussions can have many benefits: students can learn from each other, can bring their out-of-school ways of talking into classroom dialog, can make evidence-based,

collaborative arguments, and can begin to communicate like historians, scientists, or other members of disciplinary communities. Yet classroom discussions often fail, teaching students implicitly that they have little to learn from school or each other, that their home-language practices are not welcome, that the loudest voice wins the argument, and that academic discourse is as mystifying and alien as the views of anyone who disagrees with them. Outside the classroom, dialog has never been more important. From climate-change summits or peace talks among neighboring nations, to clashes between rival ethnic groups or political-party mudslinging, to workplace conversations or a traffic stop on a dark street, we must learn to bring our own and others' words into relationship with integrity or suffer the consequences. This book offers concepts, concrete classroom examples, and activities for teachers and students to transform classroom conversations into successful discussions across disciplines, grade levels, and digital platforms.

Mapping Manhattan Becky Cooper, 2013-04-02 Armed with hundreds of blank maps she had painstakingly printed by hand, Becky Cooper walked Manhattan from end to end. Along her journey she met police officers, homeless people, fashion models, and senior citizens who had lived in Manhattan all their lives. She asked the strangers to "map their Manhattan" and to mail the personalized maps back to her. Soon, her P.O. box was filled with a cartography of intimate narratives: past loves, lost homes, childhood memories, comical moments, and surprising confessions. A beautifully illustrated, PostSecret-style tribute to New York, Mapping Manhattan includes 75 maps from both anonymous mapmakers and notable New Yorkers, including Man on Wire aerialist Philippe Petit, New York Times wine critic Eric Asimov, Tony award-winning actor Harvey Fierstein, and many more. Praise for Mapping Manhattan: "What an intriguing project."—The New York Times "A tender cartographic love letter to this timeless city of multiple dimensions, parallel realities, and perpendicular views." —Brain Pickings "Cooper's beautiful project linking the lives of New Yorkers is one that will continue to grow." —Publishers Weekly online

The Hand of the Past in Contemporary Southern Politics James M. Glaser, 2008-10-01 div A central story of contemporary southern politics is the emergence of Republican majorities in the region's congressional delegation. Acknowledging the significance and scope of the political change, James M. Glaser argues that, nevertheless, strands of continuity affect the practice of campaign politics in important ways. Strong southern tradition underlies the strategies

pursued by the candidates, their presentational styles, and the psychology of their campaigns. The author offers eyewitness accounts of recent congressional campaigns in Texas, Mississippi, Virginia, North Carolina, and South Carolina. In the tradition of his award-winning book *Race, Campaign Politics, and the Realignment in the South*, Glaser captures the “stuff” of politics—the characters, the images, the rhetoric, and the scenery. Painting a full and fascinating picture of what it is like on the campaign trail, Glaser provides wide-ranging insights into the ways that the “hand of the past” reaches into the southern present. /DIV

Just Vibrations William Cheng, 2016-08-11 Modern academic criticism bursts with what Eve Kosofsky Sedgwick once termed paranoid readings—interpretative feats that aim to prove a point, persuade an audience, and subtly denigrate anyone who disagrees. Driven by strategies of negation and suspicion, such rhetoric tends to drown out softer-spoken reparative efforts, which forego forceful argument in favor of ruminations on pleasure, love, sentiment, reform, care, and accessibility. *Just Vibrations: The Purpose of Sounding Good* calls for a time-out in our serious games of critical exchange. Charting the divergent paths of paranoid and reparative affects through illness narratives, academic work, queer life, noise pollution, sonic torture, and other touchy subjects, William Cheng exposes a host of stubborn norms in our daily orientations toward scholarship, self, and sound. How we choose to think about the perpetration and tolerance of critical and acoustic offenses may ultimately lead us down avenues of ethical ruin—or, if we choose, repair. With recourse to experimental rhetoric, interdisciplinary discretion, and the playful wisdoms of childhood, Cheng contends that reparative attitudes toward music and musicology can serve as barometers of better worlds.
