*Russian Criminal Tattoo Archive* Danzig Baldaev, Sergei Vasilev, Arkady Bronnikov, Fuel, 2023-04-13 Tattoo drawings and prison portraits from Fuel's fabled archive of Russian criminal subculture This volume presents highlights from Fuel's singular collection of authentic material on this subject. Previously unpublished in its original form, this work comprises ink-on-paper drawings by Danzig Baldaev, the photographic albums of Arkady Bronnikov and prisoner portraits by Sergei Vasiliev. The selection is contextualized with insights from Mark Vincent, an author and academic specializing in the Soviet Gulag, and Alison Nordström, a photography scholar, writer and curator. The meticulous depictions of tattoos by prison guard Danzig Baldaev are reproduced in facsimile, authenticated by his signature and stamp, alongside his handwritten notes on the reverse. The paper has yellowed with age, giving the exquisite drawings a visceral temporality, almost like skin. Sergei Vasiliev's photographs portray inmates in startling intimacy. He achieves a remarkable level of trust within the closed criminal society, a strict hierarchy, where outsiders are viewed with hostile suspicion. Arkady Bronnikov's collection of photographs are shown in the albums in which they were collected. Used exclusively to aid police in their investigations, they depict a motley lineup of assorted body parts. Russian Criminal Tattoo Archive is the only publication of primary material on this subject, highlighting the pioneering methods these three individuals used to document this unique phenomenon.

**Russian Criminal Tattoo Encyclopaedia** Dant's'ik Sergeevich Baldaev, 2006 The photographs, drawings and texts published in this book are part of a collection of more than 3,000 tattoos accumulated over a lifetime by a prison attendant named Danzig Baldaev. Tattoos were his gateway into a secret world in which he acted as ethnographer, recording the rituals of a closed society. The icons and tribal languages he documented are artful, distasteful, sexually explicit and

sometimes just strange, reflecting as they do the lives and traditions of Russian convicts. Skulls, swastikas, harems of naked women, a smiling Al Capone, medieval knights in armor, daggers sheathed in blood, benign images of Christ, sweet-faced mothers and their babies, armies of tanks and a horned Lenin: these are the signs by which the people of this hidden world mark and identify themselves. With a foreword by Danzig Baldaev, and an introduction by Alexei Plutser-Sarno, exploring the symbolism of the Russian criminal tattoo. --

**Russian Criminal Tattoo** Arkady Bronnikov, Stephen Sorrell, 2016-02-29 This book features over 180 photographs and accompanying texts of Russian criminal tattoos from the Arkady Bronnikov collection. From the mid-1960s to the late- 1980s Bronnikov worked as a senior expert in criminalistics at the USSR Ministry of Internal Affairs, part of his duties involved visiting correctional institutions of the Ural and Siberia regions. It was here that he interviewed, gathered information and took photographs of convicts and their tattoos, building one of the most comprehensive archives of this phenomenon. He regularly helped to solve criminal cases across Russia by using his collection of tattoos to identify culprits and corpses. The Bronnikov collection was made exclusively for police use, to further the understanding of the language of these tattoos and to act as an aid in the identification and apprehension of criminals in the field. Unimpeded by artistry, these vernacular photographs present a guileless representation of criminal society. Every image discloses evidence of an inmate's character: aggressive, vulnerable, melancholic, conceited. Their bodies display an unofficial history, told not just through tattoos, but also in scars and missing digits. Closer inspection only confirms our inability to comprehend the unimaginable lives of this previously unacknowledged caste.

Russian Organized Corruption Networks and their International Trajectories Serguei Cheloukhine, M.R.

Haberfeld, 2011-03-29 Countries undergoing major social and legal transitions typically experience a light, but relatively insignificant, increase in crime. However, in the past decade, many transitional countries in Eastern Europe, and Russia in particular, have experienced a surge in criminal activities that came about through the collaboration of diverse players—such as criminals, state officials, businesspersons, and law enforcement—into organized networks aimed to obtain financial and economic gains.

**Prison Tattoos** Efrat Shoham, 2015-03-10 This Brief studies the important role that tattoos play in prison culture, and examines its unique manifestation among minority inmates. This work aims to provide a better understanding of prison group culture, particularly among social marginal groups, through the lens of Russian immigrants in Israeli prisons. Russian

immigrants currently represent approximately 25% of the total Israeli prison population, and this book examines how tattoos show an important form of rebellion amongst this group. As tattoos are forbidden in some forms of Islam and Judaism, and the Israeli prison service confiscates over 200 homemade tattoo devices per year, this is a significant phenomenon both before and during incarceration. This work examines how despite the transition to Israel, the main social codes of Russian prisoners are still dominant and help segregate this group from the larger prison population. It provides a lens to understand Russian criminal activity in Israel, and in a larger context, the modes of social cohesion and criminal activity of organized crime groups operating in prison systems. This work will be of interest to researchers studying the organized crime and the criminal justice system, Russian organized crime in particular, as well as related studies of immigration, demography, and social cohesion.

**The Vory** Mark Galeotti, 2018-01-01 The first English-language book to document the men who emerged from the gulags to become Russia's much-feared crime class: the vory v zakone Mark Galeotti is the go-to expert on organized crime in Russia, consulted by governments and police around the world. Now, Western readers can explore the fascinating history of the vory v zakone, a group that has survived and thrived amid the changes brought on by Stalinism, the Cold War, the Afghan War, and the end of the Soviet experiment. The vory--as the Russian mafia is also known--was born early in the twentieth century, largely in the Gulags and criminal camps, where they developed their unique culture. Identified by their signature tattoos, members abided by the thieves' code, a strict system that forbade all paid employment and cooperation with law enforcement and the state. Based on two decades of on-the-ground research, Galeotti's captivating study details the vory's journey to power from their early days to their adaptation to modern-day Russia's free-wheeling oligarchy and global opportunities beyond.

**Finding God in the Gulag** Jeffrey S. Hardy, 2024-10-23 The Soviet Communist Party, with help of the secret police, attempted to completely eliminate religion from Soviet society by, in part, imprisoning believers and attempting to re-educate them in the labor camps of the infamous Gulag. Finding God in the Gulag tells the story of how imprisoned Christians nevertheless found ways to pray, read scripture, sing hymns, celebrate Easter, and commune with their fellow believers.

Encyclopedia of Forensic and Legal Medicine, 2015-09-29 Encyclopedia of Forensic and Legal Medicine, Volumes 1-4, Second Edition is a pioneering four volume encyclopedia compiled by an international team of forensic specialists who explore the relationship between law, medicine, and science in the study of forensics. This important work includes over three hundred state-of-the-art chapters, with articles covering crime-solving techniques such as autopsies, ballistics, fingerprinting, hair and fiber analysis, and the sophisticated procedures associated with terrorism investigations, forensic chemistry, DNA, and immunoassays. Available online, and in four printed volumes, the encyclopedia is an essential reference for any practitioner in a forensic, medical, healthcare, legal, judicial, or investigative field looking for easily accessible and

authoritative overviews on a wide range of topics. Chapters have been arranged in alphabetical order, and are written in a clear-and-concise manner, with definitions provided in the case of obscure terms and information supplemented with pictures, tables, and diagrams. Each topic includes cross-referencing to related articles and case studies where further explanation is required, along with references to external sources for further reading. Brings together all appropriate aspects of forensic medicine and legal medicine Contains color figures, sample forms, and other materials that the reader can adapt for their own practice Also available in an on-line version which provides numerous additional reference and research tools, additional multimedia, and powerful search functions Each topic includes cross-referencing to related articles and case studies where further explanation is required, along with references to external sources for further reading

**Tattooed Bodies** James Martell, Erik Larsen, 2022-01-20 The essays collected in *Tattooed Bodies* draw on a range of theoretical paradigms and empirical knowledge to investigate tattoos, tattooing, and our complex relations with marks on skin. Engaging with diverse disciplinary perspectives in art history, continental philosophy, media studies, psychoanalysis, critical theory, literary studies, biopolitics, and cultural anthropology, the volume reflects the sheer diversity of meanings attributed to tattoos throughout history and across cultures. Essays explore conceptualizations of tattoos and tattooing in Derrida, Deleuze and Guattari, Lacan, Agamben, and Jean-Luc Nancy, while utilizing theoretical perspectives to interpret tattoos in literary works by Melville, Beckett, Kafka, Genet, and Jeff VanderMeer, among others. *Tattooed Bodies* prompts readers to explore a few significant questions: Are tattoos unique phenomena or an art medium in need of special theoretical exploration? If so, what conceptual paradigms and theories might best shape our understanding of tattoos and their complex ubiquity in world cultures and histories?

**Criminal Subculture in the Gulag** Mark Vincent, 2020-05-14 Despite growing academic interest in the Gulag, our knowledge of the camps as a lived experience remains relatively incomplete. *Criminal Subculture in the Gulag*, in its sophisticated analysis of crime, punishment and everyday life in Soviet labour camps, rectifies this. From Gulag journals and song collections to tattoo drawings and dictionaries of slang, Mark Vincent draws on often-overlooked archival material from the Moscow Criminological Bureau to reconstruct a fuller picture of Gulag daily life and society. In thematic chapters, Vincent maps the Gulag 'penal arc' of prisoners across initiation tests, means of communication, the importance of card playing, punishment rituals and the notorious 1948-52 *cyka* ('bitches') internal prison war between military veterans and *vory-v-zakone*. Most importantly, this timely examination of crime and punishment in modern Russia also highlights the lines of continuity between the Gulag systems, late Imperial *Katorga*, and today's Russian mafia. As such, this impressively interdisciplinary volume is important reading for all scholars of 20th-century Russia as well as those interested in international criminality and penology.

**Tattoo Histories** Sinah Theres Kloß, 2019-11-25 *Tattoo Histories* is an edited volume which analyses and discusses the

relevance of tattooing in the socio-cultural construction of bodies, boundaries, and identities, among both individuals and groups. Its interdisciplinary approach facilitates historical as well as contemporary perspectives. Rather than presenting a universal, essentialized history of tattooing, the volume's objective is to focus on the entangled and transcultural histories, narratives, and practices related to tattoos. Contributions stem from various fields, including Archaeology, Art History, Classics, History, Linguistics, Media and Literary Studies, Social and Cultural Anthropology, and Sociology. They advance the current endeavour on the part of tattoo scholars to challenge Eurocentric and North American biases prevalent in much of tattoo research, by including various analyses based in locations such as Malaysia, Israel, East Africa, and India. The thematic focus is on the transformative capacity of tattoos and tattooing, with regard to the social construction of bodies and subjectivity; the (re-)creation of social relationships through the definition of (non-)tattooed others; the formation and consolidation of group identities, traditions, and authenticity; and the conceptualization of art and its relevance to tattoo artist-tattooee relations.
