The Multimedia Encyclopedia of Women in Today's World Mary Zeiss Stange, Carol K. Oyster, Jane E.

Sloan, 2013-01-09 This e-only volume expands and updates the original 4-volume Encyclopedia of Women in Today's World (2011), offering a wide range of new entries and new multimedia content. The entries reflect such developments as the Arab Spring that brought women's issues in the Islamic world into sharp relief, the domination of female athletes among medal winners at the London 2012 Olympics, nine more women joining the ranks of democratically elected heads of state, and much more. The 475 articles in this e-only update (accompanied by photos and video clips) supplement the themes established in the original edition, providing a vibrant collection of entries dealing with contemporary women's issues around the world.

Aller(s)-Retour(s) Loïc Guyon, Andrew Watts, 2014-03-17 If the eighteenth century was the age of reason and enlightenment, the nineteenth century was undeniably the age of movement. This tumultuous period in French history bore witness to the rise and fall of countless political movements, from revolutions and "coups d'état", to popular protests and the first workers' strikes. It was an age of economic movements as France embraced the new world of finance and banking, and underwent its own industrial revolution. Social mobility increased as a dynamic commercial bourgeoisie began to challenge the system of aristocratic privilege that neither the 1789 Revolution nor the Napoleonic Empire had dismantled entirely. The era was one of artistic ferment, as Romanticism gave way to Realism, Naturalism, Impressionism, and Symbolism. Intellectual and philosophical movements, from Liberalism to Saint-Simonianism, sought both to reconcile the country with its past and construct the framework for a progressive, more harmonious future. Through seventeen thematic essays, *Aller(s)-Retour(s)* seeks to understand nineteenth-century France as a society in perpetual motion. Recognising the instability that is key to the very concept of movement, this volume explores how the intellectual shifts and cross-currents of the nineteenth century responded to, and impacted upon, each other. Finally, it asks why questions of motion and movement dominated this period, as every sphere of French life confronted its own extremes of progress and renewal, stagnancy and regression.

Infanticide Rachel Dixon, 2023-02-02 Infanticide examines medical expert evidence in infanticide cases, focusing specifically on the shifting notion of certainty in medical testimony. Beginning in the Early Modern period and concluding in the mid-twentieth century, it considers how courts determined whether an infant died from natural causes or other reasons,

including violence. The book explores expert evidence in cases of infanticide and examines the extent of certainty created by medical specialists who founded their testimony on anatomical exploration and science. As the book progresses, it becomes clear that medical specialists were unable to scientifically establish cause of death and in doing so conveyed uncertainty in court proceedings. Rather than being regarded as a professional failing, Dixon argues that the uncertainty created by medical specialists redirected the outcomes of infanticide cases. The combination of uncertainty and the changing perceptions of infanticidal women by the court lead juries to find infanticidal women not guilty of a capital offence in many cases. This book will be of great interest to students and scholars of Criminology, Law and History.

Who's who Henry Robert Addison, Charles Henry Oakes, William John Lawson, Douglas Brooke Wheelton Sladen, 1905 An annual biographical dictionary, with which is incorporated Men and women of the time.

Henry Sidgwick - Eye of the Universe Bart Schultz, 2004-06-07 Henry Sidgwick was one of the great intellectual figures of nineteenth-century Britain. He was first and foremost a great moral philosopher, whose masterwork *The Methods of Ethics* is still widely studied today. He also wrote on economics, politics, education and literature. He was deeply involved in the founding of the first college for women at the University of Cambridge. He was also much concerned with the sexual politics of his close friend John Addington Symonds, a pioneer of gay studies. Through his famous student, G. E. Moore, a direct line can be traced from Sidgwick and his circle to the Bloomsbury group. Bart Schultz has written a magisterial overview of this great Victorian sage. This biography will be eagerly sought out by readers interested in philosophy, Victorian literary studies, the history of ideas, the history of psychology and gender and gay studies.

Crime in England 1815-1880 Helen Johnston, 2015-03-03 Crime in England, 1815-1880 provides a unique insight into views on crime and criminality and the operation of the criminal justice system in England from the early to the late nineteenth century. This book examines the perceived problem and causes of crime, views about offenders and the consequences of these views for the treatment of offenders in the criminal justice system. The book explores the perceived causes of criminality, as well as concerns about particular groups of offenders, such as the 'criminal classes' and the 'habitual offender', the female offender and the juvenile criminal. It also considers the development of policing, the systems of capital punishment and the transportation of offenders overseas, as well as the evolution of both local and convict prison systems.

The discussion primarily investigates those who were drawn into the criminal justice system and the attitudes towards and mechanisms to address crime and offenders. The book draws together original research by the author to locate these broader developments and provides detailed case studies illuminating the lives of those who experienced the criminal justice system and how these changes were experienced in provincial England. With an emphasis on the penal system and case studies on offenders' lives and on provincial criminal justice, this book will be useful to academics and students interested in criminal justice, history and penology, as well as being of interest to the general reader.

Law and Society in England 1750-1950 William Cornish, Stephen Banks, Charles Mitchell, Paul Mitchell, Rebecca Probert, 2019-10-31 Law and Society in England 1750-1950 is an indispensable text for those wishing to study English legal history and to understand the foundations of the modern British state. In this new updated edition the authors explore the complex relationship between legal and social change. They consider the ways in which those in power themselves imagined and initiated reform and the ways in which they were obliged to respond to demands for change from outside the legal and political classes. What emerges is a lively and critical account of the evolution of modern rights and expectations, and an engaging study of the formation of contemporary social, administrative and legal institutions and ideas, and the road that was travelled to create them. The book is divided into eight chapters: Institutions and Ideas; Land; Commerce and Industry; Labour Relations; The Family; Poverty and Education; Accidents; and Crime. This extensively referenced analysis of modern social and legal history will be invaluable to students and teachers of English law, political science, and social history.

Winston S. Churchill: Never Despair, 1945-1965 Martin Gilbert, 2015-04-06 The final volume of the acclaimed official biography: "A meticulously detailed and annotated account of Churchill's declining years . . . A contemporary classic" (Foreign Affairs). The eighth and final volume of Winston S. Churchill's official biography begins with the defeat of Germany in 1945 and chronicles the period up to his death nearly twenty years later. It sees him first at the pinnacle of his power, leader of a victorious Britain. In July 1945 at Potsdam, Churchill, Stalin, and Truman aimed to shape postwar Europe. But upon returning home, was thrown out of office in the general election. Though out of office, Churchill worked to restore the fortunes of Britain's Conservative Party while warning the world of Communist ambitions, urging the reconciliation of France and Germany, pioneering the concept of a united Europe, and seeking to maintain the close link between Britain and the United States. In October 1951, Churchill became prime minister for the second time. The Great Powers were navigating a precarious peace at the dawn of the nuclear age. With the election of Eisenhower and the death of Stalin, he worked for a new summit conference to improve East-West relations; but in April of 1955, ill health and pressure from colleagues forced him to resign. In retirement Churchill completed his acclaimed four-volume History of the English-Speaking Peoples and

watched as world conflicts continued, still convinced they could be resolved by statesmanship. “Never despair” remained his watchword, and his faith, until the end. “A milestone, a monument, a magisterial achievement . . . rightly regarded as the most comprehensive life ever written of any age.” —Andrew Roberts, historian and author of *The Storm of War* “The most scholarly study of Churchill in war and peace ever written.” —Herbert Mitgang, *The New York Times*

‘Star Men’ in English Convict Prisons, 1879-1948 Ben Bethell,2022-09-27 This book tells the story of the star class, a segregated division for first offenders in English convict prisons; known informally as ‘star men’, convicts assigned to the division were identified by a red star sewn to their uniforms. ‘Star Men’ in English Convict Prisons, 1879-1948 investigates the origins of the star class in the years leading up to its establishment in 1879, and charts its subsequent development during the late-Victorian, Edwardian, and interwar decades. To what extent did the star class serve to shield ‘gentleman convicts’ from their social inferiors and allow them a measure of privilege? What was the precise nature of the ‘contamination’ by which they and other ‘accidental criminals’ were believed to be threatened? And why, for the first twenty years of its existence, were first offenders convicted of ‘unnatural crimes’ barred from the division? To explore these questions, the book considers the making and implementation of penal policy by senior civil servants and prison administrators, and the daily life and work of prisoners at policy’s receiving end. It re-examines evolving notions of criminality, the competing aims of reformation and deterrence, and the role and changing nature of prison labour. Along the way, readers will encounter an array of star men, including arsonists, abortionists, sex offenders and reprieved murderers, disgraced bankers, light-fingered postmen, bent solicitors, and perjuring policemen. Taking a fresh look at English prison history through converging lenses of class, sexuality, and labour, ‘Star Men’ in English Convict Prisons, 1879-1948 will be of great interest to penal historians and historical criminologists, and to scholars working on related aspects of modern British history.
