**Create Your Bright Ideas** Jess Ekstrom,2022-11-15 This interactive book for energetic, creatively minded 8- to 12-year-olds from entrepreneur Jess Ekstrom uses inspiring stories, journaling prompts, coloring pages, and creative ideas to show kids that if they want something to be different in the world, they can do something about it today! Water the seeds of creativity in your child through this engaging book about having a positive growth mind-set. In *Create Your Bright Ideas*, Jess motivates kids to be creators and ambitious doers who know they are never too young to change the world. *Create Your Bright Ideas* helps kids discover their passions by offering journaling prompts to bring out your child's bright ideas; personal stories about entrepreneurship and perseverance; practical advice for discovering and using their unique gifts; and motivational quotes paired with beautiful coloring pages from illustrator Nadia Fisher that can be cut out of the book for easy display. Jess never predicted that her time selling cookies and lemonade as a kid was foreshadowing founding her company *Headbands of Hope*, which helps millions of kids with illnesses. It wasn't always smooth sailing, but each obstacle she faced put her on an unexpected path of inspiration, helping her discover the amazing things she could become and do, like starting multiple businesses, writing a book, and helping millions of people feel more confident in their story. Now Jess shows kids how to channel their own energy and unique interests to create something meaningful. With inspiration from Jess's bestselling book *Chasing the Bright Side*, this jump-right-in guide created just for kids and tweens is a great gift for Christmas and birthdays; elementary- and middle-school graduations; and young world changers who want to do something lasting but don't know where to start. *Create Your Bright Ideas* is a perfect size to fit in a backpack, ready to be pulled out whenever inspiration strikes--during car rides, while waiting for the bus, for reading time at school, or right before bed. A powerful and fun reminder that many CEOs and nonprofit leaders started their careers with a lemonade stand, *Create Your Bright Ideas* takes kids on an exciting journey of purpose, self-discovery, and bold action.

**Entrepreneurial Economics : Bright Ideas from the Dismal Science** Oakland Alexander Tabarrok Director of Research The Independent Institute,2002-01-31 This intriguing collection is designed to show how economists can play a more active role in designing and directing the nation's social institutions. By taking the task of political economy seriously, the contributors (including some of today's most distinguished economists) reveal the power of economic thought to offer

innovative solutions to some of the most difficult problems facing society today. By creating markets where none existed before, the authors propose efficient, reliable, and profitable improvements to current systems of health insurance, financial markets, human organ distribution, judicial practice, bankruptcy and securities regulation, patenting, and transportation. Written in the entrepreneurial spirit, these essays show economics to be an ambitious, dynamic, and far-from-dismal science.

This new edition also includes the latest data on housing trends and program budgets, and an expanded discussion of homelessness.

*Masters of the Universe, Slaves of the Market* Stephen Bell, Andrew Hindmoor, 2015-03-09 Stephen Bell and Andrew Hindmoor compare banking systems in the U.S. and UK to those of Canada and Australia and explain why the system imploded in the former but not the latter. Canadian and Australian banks were able to make profits through traditional lending practices, unlike their competition-driven, risk-taking U.S. and UK counterparts.

*Information Compliance* William Saffady, 2023-03-27 Compliance is one of the component of the widely discussed GRC (governance, risk, and compliance) framework, which integrates three key elements of organizational strategy, the other two being governance and risk. The GRC framework encompasses all aspects of organizational strategy and operations, including those that involve the creation, collection, retention, disclosure, ownership, and use of information by companies, government agencies, and non-profit entities. Information governance develops strategies, policies, and initiatives to maximize the value of an organization's information assets. Information risk management is responsible for identifying, analyzing, and controlling threats to those assets. Information compliance seeks to align an organization's information-related policies and practices with applicable requirements. Academic researchers, legal commentators, and management specialists have traditionally viewed compliance as a legal concern, but compliance is a multi-faceted concept. While

adherence to legal and regulatory requirements is widely acknowledged as a critical component of compliance initiatives, it is not the only one. Taking a broader approach, this book identifies, categorizes, and provides examples of information compliance requirements that are specified in laws, regulations, contracts, standards, industry norms, and an organization's code of conduct and other internal policies. It also considers compliance with social and environmental concerns that are impacted by an organization's information-related policies and practices. The book is intended for compliance officers, information governance specialists, risk managers, attorneys, records managers, information technology managers, and other decision-makers who need to understand legal and non-legal compliance requirements that apply to their organizations' information assets. It can also be used as a textbook by colleges and universities that offer courses in compliance, risk management, information governance, or related topics at the graduate or advanced undergraduate level.

The Cult of the Customer Shep Hyken, 2009-03-25 In today's competitive business climate, you can't just satisfy your customers. You have to be better than that, giving them experiences that they won't forget. Author Shep Hyken has spent twenty-five years studying great companies and the evangelists they create. In *The Cult of the Customer*, Hyken shows how to design a strategy that leads both customers and employees through five distinct cultural phases – from uncertainty to amazement. By presenting dozens of case studies that show how great companies made this journey, Hyken identifies the critical internal and external changes that allowed them to build a Cult of the Customer – and shows how you can do it too. Hyken's message is both powerful and timely: the happier your customers and employees are, the more successful your company will be. *The Cult of the Customer* is your guide to creating a customer-focused culture that turns satisfied customers into customer evangelists.

**Understanding Public Policy** Paul Cairney, 2019-11-08 The fully revised second edition of this textbook offers a comprehensive introduction to theories of public policy and policymaking. The policy process is complex: it contains hundreds of people and organisations from various levels and types of government, from agencies, quasi- and non-governmental organisations, interest groups and the private and voluntary sectors. This book sets out the major concepts and theories that are vital for making sense of the complexity of public policy, and explores how to combine their insights when

seeking to explain the policy process. While a wide range of topics are covered – from multi-level governance and punctuated equilibrium theory to 'Multiple Streams' analysis and feminist institutionalism – this engaging text draws out the common themes among the variety of studies considered and tackles three key questions: what is the story of each theory (or multiple theories); what does policy theory tell us about issues like 'evidence based policymaking'; and how 'universal' are policy theories designed in the Global North? This book is the perfect companion for undergraduate and postgraduate students studying public policy, whether focussed on theory, analysis or the policy process, and it is essential reading for all those on MPP or MPM programmes. New to this Edition: - New sections on power, feminist institutionalism, the institutional analysis and development framework, the narrative policy framework, social construction and policy design - A consideration of policy studies in relation to the Global South in an updated concluding chapter - More coverage of policy formulation and tools, the psychology of policymaking and complexity theory - Engaging discussions of punctuated equilibrium, the advocacy coalition framework and multiple streams analysis

**Q-Loop** Brian Klapper, David Bedard, 2016-10-21 The business environment has never been more fast-paced and competitive. Survival, let alone success, depends on an organization's ability to recognize possibilities, innovate, implement change, and sustain that transformation. Yet a paradox exists. How does an established organization filled with long-time employees, a deeply entrenched culture, and a history of drawn-out planning and development cycles become nimble, innovative, and responsive? In *The Q-Loop* Brian Klapper reveals the art and science of lasting transformation based on a proven, repeatable model. Learn how to unlock the potential of your organization's collective intelligence to create buy-in from top to bottom. The Q-Loop extracts the deep knowledge that resides with front line employees, breaks down their inherent resistance to change, and converts them into passionate advocates who are fully invested in leading the organization to achieve transformational results

*The New Industrial Revolution* Peter Marsh, 2012-07-17 The rapid emergence of China and India as prime locations for low-cost manufacturing has led some analysts to conclude that manufacturers in the old economies--the U.S., U.K., Germany, and Japan--are being edged out of a profitable future. But if countries that historically have been at the forefront of events in manufacturing can adapt adroitly, opportunities are by no means over, says the author of this timely book. Peter Marsh explores 250 years in the history of manufacturing, then examines the characteristics of the industrial revolution that is taking place right now. The driving forces that influence what types of goods are made and who makes them are little understood, Marsh observes. He discusses the key changes in what is happening in manufacturing today, including advances in technology, a greater focus on tailor-made goods aimed at specific individuals and industry users, participation of many

more countries in world manufacturing, and the growing importance of sustainable forms of production. With broad historical sweep and dozens of engaging examples, Marsh explains these changes and their import both for consumers making purchase choices and for manufacturers assessing how to participate successfully in the new industrial era.

*Sexual Violence Against Older People* Hannah Bows, 2019-03-04 Research on sexual violence has been a growing area of academic study since the 1970s. However, the focus of these efforts has centred on younger women, leaving older women largely ignored in research. This book presents data from the first UK study to examine the extent, nature and impacts of sexual violence against people aged 60 and over. Drawing on both quantitative analysis of reported cases of sexual violence against people over 60 and qualitative interviews with practitioners in sexual violence and age-related organisations as well as survivors of sexual violence, this book situates the research findings in the context of feminist criminology and gerontology, and sets an agenda for future research, policy and practice. *Sexual Violence against Older People* is vital reading for practitioners and policymakers, and those engaged in studies of criminology, health and nursing, social work, elder abuse and violence against women.

**CrowdRising** Lorinda R. Rowledge, 2019-07-05 Open innovation enabled through crowdsourcing is one of the hottest topics in management strategy today. Particularly striking - and of vital importance to the world - are the pioneering efforts to apply crowdsourcing technology and open innovation to solve social, environmental, and economic sustainability challenges. *CrowdRising* sets out these challenges as context and then highlights the experiences of leaders and early adopters, identifies implementation guidelines, critical success factors and lessons learned, and finally projects where the field is going in the future. With a strong focus on the applications of crowdsourcing for innovation, engagement, and market intelligence, the book profiles the initiatives of companies, NGOs, and technology providers using crowdsourcing to develop these solutions to global problems. It addresses the key challenges impacting organizations: 1) identifying more sustainable ways to design, distribute, transport, recycle, and repurpose products; and 2) discovering and implementing the systems needed to transform global economic growth, drive human prosperity, and replenish the planet's resources.

*A New Economic Theory of Public Support for the Arts* Arnaldo Barone, 2015-12-14 Should the arts receive public support? Can the arts survive in a modern capitalist society? Can economics shed light on the nature of public support, and whether there is a rationale for public intervention? This book undertakes to examine these questions as it explores the ways government and public resources are used to support the arts. This book applies a Veblenian approach to understanding economic development to investigate public support for the arts in an effort to determine whether this approach can elucidate economic rationales for public support. Divided into three parts, the first provides basic information on public support for the arts by surveying support in the United States and Australia. Part two includes a neoclassical overview of the topic while part three presents Veblen's ideas on economic development. This book will be of interests to researchers concerned with cultural and institutional economics, as well as political economy.

**Restorative and Responsive Human Services** Gale Burford, John Braithwaite, Valerie Braithwaite, 2019-03-04 In *Restorative and Responsive Human Services*, Gale Burford, John Braithwaite, and Valerie Braithwaite bring together a distinguished collection providing rich lessons on how regulation in human services can proceed in empowering ways that heal and are respectful of human relationships and legal obligations. The human services are in trouble: combining restorative justice with responsive regulation might redeem them, renewing their well-intended principles. Families provide glue that connects complex systems. What are the challenges in scaling up relational practices that put families and primary groups at the core of health, education, and other social services? This collection has a distinctive focus on the relational complexity of restorative practices. How do they enable more responsive ways of grappling with complexity than hierarchical and prescriptive human services? Lessons from responsive business regulation inform a re-imagining of the human services to advance wellbeing and reduce domination. Readers are challenged to re-examine the perverse incentives and contradictions buried in policies and practices. How do they undermine the capacities of families and communities to solve problems on their own terms? This book will interest those who harbor concerns about the creep of domination into the lives of vulnerable citizens. It will help policymakers and researchers to re-focus human services to fundamental outcomes at the foundation of sustainable democracies. This book is available for free in PDF format as Open Access from the individual product page at [www.routledge.com](http://www.routledge.com).
