Motivational Agility Paul Oppong,2023-11-03 Low motivation is a familiar trap that ensnares most employees. Even though standard business literature is packed with advice on this topic, it is never easy to deploy a targeted strategy to keep your employees engaged all the time. Given that most employees are quite enthusiastic when they start a new job, what exactly happens along the way? Now that is a tough question. Even tougher is to discover what you can do to ensure your employees enjoy their job (especially when it is difficult to use any single method and keep everyone motivated throughout their tenure.) Enter motivational agility - a perfect combination of multiple initiatives to ensure less churn, better productivity, and improved engagement. In this book, you will discover this unique concept and much more in ten accessible chapters. •Obvious indicators of low employee motivation •Why common employee incentive plans don't work •The myths & perceptions that are holding you back •The types of employees you find in every workplace •Prepare your workforce for change and transformation •Basics of motivational agility •Understanding motivational agility - I •Understanding motivational agility - II •How to effectively motivate a remote workforce •The “real” master key to workplace motivation Over his career as an experienced digital transformation consultant, Paul Oppong has seen the corporate world from close quarters. You will surely enjoy his commentary, useful insights and flexible frameworks to keep your employees in a magical zone of motivation. Time to make a difference.

Method Marketing Denison Hatch,2023-04-03 Practical lessons from Direct Marketing Geniuses Denny Hatch is a legendary direct marketing writer who has boiled down his copywriting expertise into the method marketing approach. Method marketing works by creating intrigue and delight for customers. Of course, this is easier said than done; so Hatch teaches us by recounting and analyzing case studies of wildly successful entrepreneurs who grew their large businesses on the power of their marketing copy. The stories he tells are entertaining, but he doesn't limit himself to just vignettes. Method Marketing also guides us with dos and don'ts backed by facts and figures. Here's What Reviewers Have Said About Method

Marketing: Method Marketing shows how to write successful direct response copy by putting yourself in the customer's shoes. Packed with case histories of modern direct response success stories, including Bill Bonner of Agora Publishing, and Martin Edelston of Boardroom, Inc. -Robert W. Bly, author of over 100 books on direct marketing including The Copywriter's Handbook. Bly included Method Marketing on his best marketing books ever list as One of 10 Marketing Books Actually Worth Reading ...the examples chosen here [in Method Marketing] are powerful-and more important-[and] their workings are explained in detail. The best letters are dissected and parsed down to individual words, with statistics and research supporting the results. Hatch's colloquial tone attracts even readers otherwise not used to advertising matters; eloquent stories such as the fall and rise of Covenant House, for instance, will not fail to mesmerize. -Booklist (published by the American Library Association) Written in a fun and conversational tone, this book was hard to put down. As founder of the newsletter Who's Mailing What! Hatch owns the largest private collection of direct mail. At one time, advertisers were sending him 3,000 to 4,000 mailers a month. He's a direct mail expert indeed. -Inside Business

The Marketer Antonio La Matina,2022-07-08 A truly engaging, witty, and entertaining tale. - Readers' Favorite Deftly satirizing the exalted startup scene, Antonio La Matina's debut novel presents a keen insight into the obsessions plaguing the millennial generation (himself included). La Matina introduces us to a style that can only be described as dirty surrealism—a

raw, unflinching look at reality's underbelly, combined with a twist of the absurd and fantastical. In *The Marketer*, readers will find themselves in a world where the everyday and the uncanny collide, creating a landscape that is as disconcerting as it is alluring. Meet Tony - a modern everyman. All he cares about is smoking pot and watching old movies until late with his girlfriend, Marina. He is troubled not just by a series of dead-end jobs in start-ups with absurd names, neurotic bosses, and a giant cybernetic creature that haunts his dreams, but also by the strange noises coming from the apartment upstairs. And then there is Berlin - at times nightmarish and unsympathetic, at others seductive and compassionate.

Sensehacking Charles Spence, 2021-01-14 The world expert in multisensory perception on the remarkable ways we can use our senses to lead richer lives 'Talks total sense, lots of fun facts, right up there with the best of the best' Chris Evans 'Packed with studies on pain, attention, memory, mood' The Times How can the furniture in your home affect your wellbeing? What colour clothing will help you play sport better? And what simple trick will calm you after a tense day at work? In this revelatory book, pioneering and entertaining Oxford professor Charles Spence shows how our senses change how we think and feel, and how by 'hacking' them we can reduce stress, become more productive and be happier. We like to think of ourselves as rational beings, and yet it's the scent of expensive face cream that removes wrinkles (temporarily), a room actually feels warmer if you use a warmer paint colour, and the noise of the crowd really does affect the referee's decision. Understanding how our senses interact can produce incredible results. This is popular science at its unbelievable best. 'Spence does for the senses what Marie Kondo does for homes' Avery Gilbert, author of *What the Nose Knows* 'Everything you need to know about how to cope with the hidden sensory overload of modern life, engagingly told' Robin Dunbar, author of *How Many Friends Does One Person Need?*

The Necktie and the Jaguar Carl Greer, 2021-04-20 Compelling reading for anyone seeking the courage to make more conscious choices and live fully awake, *The Necktie and The Jaguar* is a memoir with thought-provoking questions that encourage self-exploration. Author Carl Greer—businessman, philanthropist, and retired Jungian analyst and clinical psychologist—offers an illuminating roadmap to individuation and personal transformation. Greer found security in conforming to the cultural expectations of a postwar, midwestern, middle-class upbringing after a childhood tragedy taught him to constrict his emotions. Becoming president of an independent oil and gas company, he drove his team to success and built his wealth only to find in midlife that his spiritual self was crying out for expression. Undergoing Jungian analysis and becoming an analyst himself offered some soul nourishment. So did studying and practicing martial arts, whose principles helped him navigate challenges in the world of work. Still, it wasn't until Greer took a deep dive into shamanic training and practice that he was able to embody the qualities and emotions he had long denied and turn his attention to philanthropy. Writing about his spiritual practices and reflecting on his vulnerabilities, Greer tells of honoring his longings for purpose and meaning, journeying to transpersonal realms, reinventing his life, and devoting himself to service to others while living with deep respect for Pachamama, Mother Earth. His memoir is an inspirational testament to the power of self-discovery. As Carl Greer learned, you don't have to feel trapped in a story someone else has written for you.

Product Placement in Hollywood Films Kerry Segrave,2014-11-18 This is the history of advertising in motion pictures from the slide ads of the 1890s to the common practice of product placement in the present. Initially, product placement was seen as a somewhat sleazy practice and also faced opposition from the film industry itself; it has grown dramatically in the past 25 years. From Maillard's Chocolates advertising with a shot of Cardinal Richelieu enjoying a hot cup of cocoa in 1895, to product placements in 2002's *Minority Report*, for which advertisers were rumored to have paid \$25 million, this book explores the developing union of corporate America and Hollywood. This work addresses such topics as television's conditioning of filmgoers to accept commercials, companies' donation of props, the debate about advertising such activities as smoking and drinking in films, and product displacement, or demands by companies to keep their products absent from unpopular or controversial films. Film stills and a bibliography complete the book.
