**Scenographic Imagination** Darwin Reid Payne, 1993 In this enlarged and thoroughly revised third edition of his widely used text, Darwin Reid Payne explores the principles and philosophies that shape the visual elements of theatre. Payne sets out to discover who scenographers are and to define their responsibilities. He sees scenographers as not merely craftspersons but artists with a special vision that spans all the arts. Such artists are in a position to extend and amplify underlying meanings of the production. The proper goal of beginning scenographers, according to Payne, is one day to be able to approach the job as artists in full command of their craft. Payne seeks to instill in beginning scenographers a basic core of knowledge: an understanding of theatre history and the development of drama; a knowledge of art history and an understanding of periods and styles of architecture, painting, sculpture, furnishings, and costume; and a familiarity with the principles, techniques, and materials of pictorial and three-dimensional design. This new edition contains 248 illustrations, 38 more than the second edition. Payne's goal, certainly, is to teach students what to do and how to do it; equally important, however, is Payne's view that scenographers must know why. To Payne, Scenography is an art whose scope is nothing less than the whole world outside the theatre. Scenographers must read not only in their own field but in others as well. Payne has incorporated into his text many suggestions for outside readings, quoting passages and even entire chapters from important works. Stressing research, Payne argues that without knowledge of the literature of their own and related arts, scenographers cannot grow. And that is the emphasis of this book: to present aspiring scenographers with an approach and a set of concepts that will enable them to grow. Toward that end, Payne establishes five priorities, the first of which is to develop in students what he calls time vision, or the ability to see the historical past as a living place with living inhabitants. The second priority is to bring about an awareness that allows students to see beneath the surface of objects and events. Third, students must be helped to recognize and appreciate the difference between the concept of space as it exists outside the theatre and the concept of space as it is used within the theatre. The fourth priority is to ingrain in students an understanding of the importance of imagery to the scenographer, and the final priority is to teach those technical skills necessary to carry out the concepts of the scenographer.

**Shakespeare on Silent Film** Robert Hamilton Ball,2013-07-18 In 1899, when film projection was barely three years old, Herbert Beerbohm Tree was filmed as King John. In his highly entertaining history, Robert Hamilton Ball traces in detail the fate of Shakespeare on silent films from Tree's first effort until the establishment of sound in 1929. The silent films brought Shakespeare to a wide public who had never had the chance to see his plays in the theatre. And Shakespeare gave the film makers an air of respectability that was badly needed by a medium with a reputation for frivolity. This work, first published in 1968, brings history to life with excerpts from scenarios, from reviews and from contemporary film journals, and with reproduction of stills and frames from the films themselves, including unusual shots of leading screen actors. This is a valuable source book for film experts, enhanced by full notes, bibliography and indexes; a fresh approach for Shakespeareans; and a vivid sketch of a world that has passed for all.

*John Ruskin and the Victorian Theatre* K. Newey,J. Richards,2015-12-04 This is the first book to explore the involvement of John Ruskin with the popular theatre of his time. Based on original archival research, this book offers a fresh look at the aesthetic and social theories of Ruskin and his direct and indirect influence on the commercial theatre of the late nineteenth century.

Still David S. Shields, 2013-06-18 The success of movies like *The Artist* and *Hugo* recreated the wonder and magic of silent film for modern audiences, many of whom might never have experienced a movie without sound. But while the American silent movie was one of the most significant popular art forms of the modern age, it is also one that is largely lost to us, as more than eighty percent of silent films have disappeared, the victims of age, disaster, and neglect. We now know about many of these cinematic masterpieces only from the collections of still portraits and production photographs that were originally created for publicity and reference. Capturing the beauty, horror, and moodiness of silent motion pictures, these images are remarkable pieces of art in their own right. In the first history of still camera work generated by the American silent motion picture industry, David S. Shields chronicles the evolution of silent film aesthetics, glamour, and publicity, and provides unparalleled insight into this influential body of popular imagery. Exploring the work of over sixty camera artists, *Still* recovers the stories of the photographers who descended on early Hollywood and the stars and starlets who sat for them between 1908 and 1928. Focusing on the most culturally influential types of photographs—the performer portrait and the scene still—Shields follows photographers such as Albert Witzel and W. F. Seely as they devised the poses that newspapers and magazines would bring to Americans, who mimicked the sultry stares and dangerous glances of silent stars. He uncovers scene shots of unprecedented splendor—visions that would ignite the popular imagination. And he details how still photographs changed the film industry, whose growing preoccupation with artistry in imagery caused directors and stars to hire celebrated stage photographers and transformed cameramen into bankable names. Reproducing over one hundred and fifty of these gorgeous black-and-white photographs, *Still* brings to life an entire long-lost visual culture that a century later still has the power to enchant.
