The Archivist Rex Pickett, 2021-11-09 A November Book Pick from The New York Times When archivist Nadia Fontaine is found dead of an apparent drowning, Emily Snow is hired by Regents University to finish the job she started—to organize and process the papers of Raymond West, a famous Pulitzer Prize-winning author who has been short-listed for the Nobel. Emily's job comes with its inherent pressures. West's wife, Elizabeth, is an heiress who's about to donate \$25 million to the Memorial Library—an eight-story architectural marvel that is the crown jewel of the university. The inaugural event in just a few months will be a gala for the who's who of San Diego to celebrate the unveiling of the Raymond West Collection and the financial gift that made it all possible. As Emily sets to work on the West papers, it begins to dawn on her that several items have gone missing from the collection. To trace their whereabouts, she gains unsupervised access to the highly restricted “dark archives,” in which she opens a Pandora's box of erotically and intellectually charged correspondence between Raymond West and the late Nadia Fontaine. Through their archived emails, Emily goes back a year in time and relives the tragic trajectory of their passionate love affair. Did Nadia really drown accidentally, as the police report concluded, or could it have been suicide, or, even worse, murder? Compelled to complete the collection and find the truth, Emily unwittingly morphs into an adult Nancy Drew and a one-woman archivist crusader on a mission to right the historical record. Twisting slowly like a tourniquet, *The Archivist* turns into a suspenseful murder mystery with multiple and intersecting layers. Not just a whodunit, it is also a profound meditation on love, privacy, and the ethics of destroying or preserving materials of a highly personal nature.

The Clinician's Guide to Collaborative Caring in Eating Disorders Janet Treasure, Ulrike Schmidt, Pam Macdonald, 2009-09-10 Caring for a loved one with an eating disorder is a difficult task; carers often find it hard to cope, and this can contribute to the maintenance of the disorder. *The Clinician's Guide to Collaborative Caring in Eating Disorders* shows how active collaboration between professional and non-professional carers can maximise the quality of life for both the sufferer and all other family members. The book provides straightforward guidance for clinicians who work with families and carers. It suggests ways of ensuring that interpersonal elements that can maintain eating disorders are minimised and indicates skills and knowledge that can be taught to the carer for both managing their personal reaction to the illness, and for providing a practically and emotionally supportive environment that is conducive to change. The appendices of the book contain a Toolkit for Carers, a series of worksheets designed to help carers recognise their own unique caring styles. This book is worthwhile reading for all health professionals working with people with eating disorders. It is relevant across a variety of settings and client groups including inpatients, out-patients, community and day patients.
