Kirsti Salmi-Niklander, Marija Dalbello

A List of Books for a College Student's Reading Trinity College (Hartford, Conn.), 1928

Reading Beyond the Book Danielle Fuller, DeNel Rehberg Sedo, 2013 This volume offers the first critical analysis of mass reading events and the contemporary meanings of reading in the UK, USA, and Canada based on original interviews and surveys with readers and event organisers. The authors interrogate the enduring attraction of an old technology for readers, community organizers, and government agencies, exploring the social practices inspired by the sharing of books in public spaces and revealing the complex ideological investments made by readers, cultural workers, institutions, and the mass media in the meanings of reading.

Reading Home Cultures Through Books Kirsti Salmi-Niklander, Marija Dalbello, 2022-02-27 This wide-ranging, comparative, and multidisciplinary collection addresses the significance of books in creating the idea of home. The chapters present cases that reveal the affective and sensory dimensions of books and reading in the practice of everyday life of individuals, in communities, and in society. The complex relationship of books, reading, and home is explored through American and European case studies both in bourgeois and middle-class homes, and in working-class and immigrant families and communities with limited possibilities for reading. The volume combines the conceptions and representations of domesticity, the materiality of reading, and library as a place, drawing on book history and material culture studies as well as anthropology and sociology of the home.

Reading Picture Books with Infants and Toddlers Jane Torr, 2023-03-03 Reading picture books with infants and toddlers facilitates their early language development, with far-reaching benefits for their later reading abilities and academic achievement. While the importance of reading books with children aged from 3 to 5 years is widely recognised, the benefits of reading with much younger children from 0 to 3 years, who are still engaged in learning their first language, are less well understood. This book will explore the seemingly simple practice of reading picture books with infants and toddlers aged 0-3 years, from a range of perspectives. Not only do book-focused adult-child interactions support language and early literacy development in multiple ways, such interactions can also, at the same time, foster intellectual, social, emotional, and spiritual growth. By weaving together in an accessible manner the insights from several different discipline areas, this book will explain how and why reading with infants and toddlers has such power to enrich their lives. Providing an evidence-based,

theoretically informed account, *Reading Picture Books with Infants and Toddlers* supports educators, parents, and caregivers with the knowledge, skills, and motivation to provide frequent, enjoyable, and language-rich reading experiences with infants and toddlers.

Naked Reading Teri S. Lesesne, 2006 Teri draws on her extensive experience as a teacher and consultant to examine ways that educators can help interest kids in books and keep them reading during this crucial period.--BOOK JACKET.

The Space and Practice of Reading Chin Ee Loh, 2017-02-10 Mirroring worldwide debates on social class, literacy rates, and social change, this study explores the intersection between reading and social class in Singapore, one of the top scorers on the Programme for International Assessment (PISA) tests, and questions the rhetoric of social change that does not take into account local spaces and practices. This comparative study of reading practices in an elite school and a government school in Singapore draws on practice and spatial perspectives to provide critical insight into how taken-for-granted practices and spaces of reading can be in fact unacknowledged spaces of inequity. Acknowledging the role of social class in shaping reading education is a start to reconfiguring current practices and spaces for more effective and equitable reading practices. This book shows how using localized, contextualized approaches sensitive to the home, school, national and global contexts can lead to more targeted policy and practice transformation in the area of reading instruction and intervention. Chapters in the book include: • Becoming a Reader: Home-School Connections • Singaporean Boys Constructing Global Literate Selves: School-Nation Connections • Levelling the Reading Gap: Socio-Spatial Perspectives The book will be relevant to literacy scholars and educators, library science researchers and sociologists interested in the intersection of class and literacy practices in the 21st century.

Aesthetic Approaches to Children's Literature Maria Nikolajeva, 2005-05-12 Each chapter includes a short introduction to a specific theoretical approach, an example of its application to a literary text, a number of activities such as study questions and reading exercises, and suggestions for further exploration. Contemporary literary theories discussed include semiotics and hermeneutics; structuralism and narratology; feminist and postcolonial theory; psychoanalysis, and reader response.

Instructional Models in Reading Steven A. Stahl, David A. Hayes, 2013-04-03 This book started with a simple idea -- examine models of reading instruction that have emerged during the past 20 years. These models span a wide range of instruction representing a continuum from highly structured, task analytic instruction to child-centered and holistic instruction. Each model has its own epistemology or views on how reading and instruction are to be defined. The different epistemologies indicate different principles of instruction which, in turn, indicate different practices in the classroom. Each model is also supported by a different research base. In this volume, leading proponents of these different models discuss their ideas about reading instruction thereby encouraging readers to make their own comparisons and contrasts. The chapter

authors seem to adopt the editors' eclectic approach--to some greater or lesser extent--incorporating aspects of other models into their instruction as they see other goals. Thus, models of reading instruction are complex. Complicating matters further is the fact that teachers hold their own models of reading, which may or may not be congruent with those discussed here. Although academically developed models influence college preservice and in-service instruction, teachers' own models of reading filter the information that they take from what they learn from these perspectives. By carefully examining these variables, this book makes a firm contribution toward disciplined inquiry into what it means to teach reading.

Social Reading Cultures on BookTube, Bookstagram, and BookTok Bronwyn Reddan, Leonie Rutherford, Amy Schoonens, Michael Dezuanni, 2024-04-30 This book examines the reading cultures developed by communities of readers and book lovers on BookTube, Bookstagram, and BookTok as an increasingly important influence on contemporary book and literary culture. It explores how the affordances of social media platforms invite readers to participate in social reading communities and engage in creative and curatorial practices that express their identity as readers and book lovers. The interdisciplinary team of authors argue that by creating new opportunities for readers to engage in social reading practices, bookish social media has elevated the agency and visibility of readers and book consumers within literary culture. It has also reshaped the cultural and economic dynamics of book recommendations by creating a space in which different actors are able to form an identity as mediators of reading culture. Concise and accessible, this introduction to an increasingly central set of literary practices is essential reading for students and scholars of literature, sociology, media, and cultural studies, as well as teachers and professionals in the book and library industries.

What Readers Do Beth Driscoll, 2024-02-21 Shining a spotlight on everyday readers of the 21st century, Beth Driscoll explores how contemporary readers of Anglophone fiction interact with the book industry, digital environments, and each other. We live in an era when book clubs, bibliomemoirs, Bookstagram and BookTok are as valuable to some readers as solitary reading moments. The product of nearly two decades of qualitative research into readers and reading culture, *What Readers Do* examines reading through three dimensions - aesthetic conduct, moral conduct, and self-care - to show how readers intertwine private and social behaviors, and both reinforce and oppose the structures of capitalism. Analyzing reading as a post-digital practice that is a synthesis of both print and digital modes and on- and offline behaviors, Driscoll presents a methodology for studying readers that connects book history, literary studies, sociology, and actor-network theory. Arguing for the vitality, agency, and creativity of readers, this book sheds light on how we read now - and on how much more readers do than just read.

Children's Literature Barbara Stoodt, 1996

Once Upon a Time in a Dark and Scary Book K. Shryock Hood, 2018-05-25 Contemporary American horror literature for children and young adults has two bold messages for readers: adults are untrustworthy, unreliable and often dangerous; and

the monster always wins (as it must if there is to be a sequel). Examining the young adult horror series and the religious horror series for children (Left Behind: The Kids) for the first time, and tracing the unstoppable monster to Seuss's Cat in the Hat, this book sheds new light on the problematic message produced by the combination of marketing and books for contemporary American young readers.

Strategies That Work Stephanie Harvey, Anne Goudvis, 2023-10-10 Since the first publication of *Strategies That Work*, numerous new books on reading comprehension have been published and more educators than ever are teaching comprehension. In this third edition of their groundbreaking book, authors Stephanie Harvey and Anne Goudvis bring you *Strategies That Work: Teaching Comprehension for Understanding, Engagement, and Building Knowledge*. This new edition is organized around three sections: Part I: Starting with the Foundation of Meaning, these chapters provide readers with a solid introduction to reading comprehension instruction, including principles that guide practice, suggestions for text selection, and a review of recent research Part II: Part II contains lessons to put these principles into practices for all areas of reading comprehension Part III: This section shows you how to integrate comprehension instruction across the curriculum and the school day, with a focus on science and social studies. In addition, this new version includes updated bibliographies, including the popular Great Books for Teaching Content, online resources, and fully revised chapters focusing on digital reading, strategies for integrating comprehension and technology, and comprehension across the curriculum. Harvey and Goudvis tackle close reading, close listening, text complexity, and critical thinking and demonstrate how your students can build knowledge through thinking-intensive reading and learning. This third edition is a must-have resource for a generation of new teachers – and a welcome refresher for those with dog-eared copies of this timeless guide to reading comprehension.

Re-Inventing the Book Christina Banou, 2016-11-18 *Re-Inventing the Book: Challenges from the Past for the Publishing Industry* chronicles the significant changes that have taken place in the publishing industry in the past few decades and how they have altered the publishing value chain and the structure of the industry itself. The book examines and discusses how most publishing values, aims, and strategies have been common since the Renaissance. It aims to provide a methodological framework, not only for the understanding, explanation, and interpretation of the current situation, but also for the development of new strategies. The book features an overview of the publishing industry as it appears today, showing innovative methods and trends, highlighting new opportunities created by information technologies, and identifying challenges. Values discussed include globalization, convergence, access to information, disintermediation, discoverability, innovation, reader engagement, co-creation, and aesthetics in publishing. - Describes common values and features in the publishing industry since the Renaissance/invention of printing - Proposes a methodological framework that helps users understand current publishing issues and trends - Focuses on reader engagement and participation - Proposes and discusses the publishing chain, not only as a value chain, but also as an information chain - Considers the aesthetics of publishing, not

only for the printed book, but also for digital material

On Reading Books to Children Anne van Kleeck, Steven A. Stahl, Eurydice B. Bauer, 2003-04-02 Brings together current research on adult book reading to children; chapter authors are eminent scholars from fields of reading and literacy, child language, speech pathology, and psychology, representing diverse perspectives.

Reading Picture Books with Children Megan Dowd Lambert, 2015-11-03 A new, interactive approach to storytime, The Whole Book Approach was developed in conjunction with the Eric Carle Museum of Picture Book Art and expert author Megan Dowd Lambert's graduate work in children's literature at Simmons College, offering a practical guide for reshaping storytime and getting kids to think with their eyes. Traditional storytime often offers a passive experience for kids, but the Whole Book approach asks the youngest of readers to ponder all aspects of a picture book and to use their critical thinking skills. Using classic examples, Megan asks kids to think about why the trim size of Ludwig Bemelman's *Madeline* is so generous, or why the typeset in David Wiesner's Caldecott winner, *The Three Pigs*, appears to twist around the page, or why books like Chris Van Allsburg's *The Polar Express* and Eric Carle's *The Very Hungry Caterpillar* are printed landscape instead of portrait. The dynamic discussions that result from this shared reading style range from the profound to the hilarious and will inspire adults to make children's responses to text, art, and design an essential part of storytime.

Reading Germany Gideon Reuveni, 2006 By closely examining the interaction between intellectual and material culture in the period before the Nazis came to power in Germany, the author comes to the conclusion that, contrary to widely held assumptions, consumer culture in the Weimar period, far from undermining reading, used reading culture to enhance its goods and values. Reading material was marked as a consumer good, while reading as an activity, raising expectations as it did, influenced consumer culture. Consequently, consumption contributed to the diffusion of reading culture, while at the same time a popular reading culture strengthened consumption and its values. Gideon Reuveni is Director of the Centre for German Jewish Studies at the University of Sussex. He is the co-editor of *The Economy in Jewish History* (Berghahn, 2010) and several other books on different aspects of Jewish history. Presently he is working on a book on consumer culture and the making of Jewish identity in Europe.

Course of Study: Second grade Grand Rapids (Mich.). Public Schools, 1929

The Power of Picture Books in Teaching Math and Science Lynn Columbia, 2017-05-12 This book's 50-plus lessons—each based on a different picture book or story—will help classroom teachers build a foundation for teaching math, science, and social studies concepts to their students. Each lesson uses children's literature to make challenging, abstract concepts relevant to children's lives, inviting them to learn these concepts while responding to a story's illustrations, theme, characters, and plot. The lessons also demonstrate how teachers can use children's literature to meet national standards in math, science, and social studies. Chapters 1 through 5 set the stage for using picture books, discussing the effective,

imaginative integration of literature into the classroom. Teachers will learn to create an environment that ensures that when children and books come together, the experience is enjoyable and thought provoking. Chapters 6 through 9 provide individual lessons, by grade level, with detailed activities based on specific books.
