Heartbreak for Hire Sonia Hartl, 2021-07-27 Brinkley Saunders has a secret. To everyone in the academic world she left behind, she lost it all when she dropped out of grad school. Once a rising star following in her mother's footsteps, she's now an administrative assistant at an insurance agency--or so they think. In reality, Brinkley works at Heartbreak for Hire, a secret service that specializes in revenge for jilted lovers, frenemies, and long-suffering coworkers with a little cash to spare and a man who needs to be taken down a notch. It might not be as prestigious as academia, but it helps Brinkley save for her dream of opening an art gallery and lets her exorcise a few demons, all while helping to empower women. But when her boss announces she's hiring male heartbreakers for the first time, Brinkley's no longer so sure she's doing the right thing--especially when her new coworker turns out to be a target she was paid to take down. Though Mark spends his days struggling up the academic ladder, he seems to be the opposite of a backstabbing adjunct: a nerd at heart in criminally sexy sweater vests who's attentive both in and out of the bedroom. But as Brinkley finds it increasingly more difficult to focus on anything but Mark, she soon realizes that like herself, people aren't always who they appear to be--

Still Reading Romance Josefine Smith, Kathleen W. Taylor Kollman, 2025-04-01 In a world that commodifies feminism, is

adapting romance novels for small and big screen projects, and the Romance Writers Association is evolving to a more inclusive representative group, it is imperative for researchers to reevaluate the cultural assumptions and gender norming work happening in the romance genre. It is time to question the cultural capital of traditional archetypes, explore the experience of romance readers, and question how romance and cultural studies researchers create quantitative, qualitative, and mixed methods research. This work centers around a data set collected with a revised version of Janice Radway's Reading the Romance survey that will be shared with all the authors of this anthology. By having access to this pool, authors will have the opportunity to explore different elements of reader experience and cultural norms in romance fiction, and potentially reflect on changes since Janice Radway's seminal work. The norms and negotiations readers experience while consuming romance is especially interesting as romancelandia becomes a more mainstream part of popular culture with the popularity of Bridgerton and romance series like Ice Planet Barbarians exploding on BookTok. No other book in romance or popular culture studies identifies a data set as the connecting element, and to do so creates an exciting opportunity to create a more inclusive study of popular romance, offer truly interdisciplinary research on the question of how readers read romance, and generate diverse areas of future scholarship. This edited volume explores multiple issues in romance fiction, based on survey data from real romance readers. An updated version of Janice Radway's influential survey looking at romance readers in the early 1980s, this time scholars explore romance readers' habits and attitudes in the twenty-first century. Each contributor in this volume uses the same survey data to make unique statements about gender, intersectionality, popular fiction, and popular culture. By using a common data set but approaching it from different perspectives, this unique volume is able to apply multiple methodologies to the same subject.
