*The Digital Score* Craig Vear, 2019-04-01 Digital technology is transforming the musical score as a broad array of innovative score systems have become available to musicians. From attempts to mimic the print score, to animated and graphical scores, to artificial intelligence-based options, digital scoring affects the musical process by opening up new possibilities for dynamic interaction between the performer and the music, changing how we understand the boundaries between composition, score, improvisation and performance. *The Digital Score: Musicianship, Creativity and Innovation* offers a guide into this new landscape, reflecting on what these changes mean for music-making from both theoretical and applied perspectives. Drawing on findings from over a decade's worth of practice-based experimentation in the field, author Craig Vear builds a framework for understanding how digital scores create meaning. He considers the interactions between affect, embodiment and digital scores, offering the first comprehensive and critical consideration of an exciting field with no agreed-upon borders. Featuring insights from interviews with over fifty musicians and composers from across four continents, this book is a valuable resource for music researchers and practitioners alike.

Practical Music Education Technology Richard Dammers,Marjorie LoPresti,2020 Today's music teachers are caught in a conundrum about technology - while all are interested in it and told to utilize it in music instruction, a lack of equipment and funding act as enormous barriers to technology access. In fact, studies indicate that the mere perception of these obstacles may be partly responsible for the gap between these teachers' interest in technology and the lack of technology integration in the classroom. As a result, students potentially miss out on active, hands-on music technology instruction at school. In Practical Music Education Technology, veteran music educators Rick Dammers and Marjorie LoPresti help music teachers introduce technology into the classroom by providing accessible strategies to support and enrich students' musical learning. The authors highlight a plethora of free online tools at teachers' disposal, and provide options that can be flexible for all school environments and types of teachers - from those with large budgets to those operating on a shoestring, from those well-versed in technology to non-experts. Each chapter outlines pedagogically appropriate resources and strategies that facilitate, support, and enhance music learning, performance, and creation. Additionally, model lesson plans featuring classroom-tested uses of technology aim to empower student engagement while also keeping music learning goals at the forefront. All teaching ideas presented can be tailored to individual teachers' needs and preferences, making Practical Music Education Technology an essential guide to music technology for the everyday music teacher.

**Debussy's Paris** Catherine Kautsky, 2017-09-15 Claude Debussy's exquisite piano works have captivated generations with their dreamlike atmosphere and mysterious soundscapes. Written in Paris at the height of the Belle Époque, the music creates a soundtrack for Parisians' enjoyment of such delights as clowns, mermaids, eccentric dances, and the dark tales of Edgar Allan Poe. Debussy's *Paris: Piano Portraits of the Belle Époque* explores how key works reflect not only the most appealing and innocent aspects of Paris but also more disquieting attitudes of the time such as racism, colonial domination, and nationalistic hostility. Debussy left no avenue unexplored, and his piano works present a sweeping overview of the passions, vices, and obsessions of the era. Pianist Catherine Kautsky reveals little-known elements of Parisian culture and weaves the music, the man, the city, and the era into an indissoluble whole. Her portrait will delight anyone who has ever

been entranced by Debussy's music or the city that inspired it.

*Fieldwork: Essays on the Cultural History of Music in Ireland* Harry White, 2025-06-03 An absorbing study of the development and reception of musical culture in Ireland by a pioneering and deservedly renowned author. This volume is a collection of fourteen essays on the history and reception of Irish music and music in Ireland. It addresses three prevailing themes: the historiography of Irish music, the influence of music on Irish writing (and vice versa), and the cultural identity and reception of Irish music both domestically and in the world at large. Its principal protagonists include Thomas Moore, W. H. Grattan Flood, George Moore, Edward Martyn, Charles Villiers Stanford, James Joyce, Dora Pejačević, Ina Boyle, Aloys Fleischmann and Jennifer Walshe. These essays also identify and interrogate key questions underpinning a general crisis of reception in relation to Irish music, and particularly art music, within the domain of Irish studies. *Fieldwork* examines this crisis in the aftermath of *The Encyclopaedia of Music in Ireland* (published in 2013) and a major retrospective of Irish art music, *Composing the Island* (curated and presented in 2016). It thereby engages closely with contemporary Irish art music and the challenges which this music has faced in the early decades of the twenty-first century. This well-conceived and beautifully written work testifies to Harry White's central place in the shaping of the discourse surrounding the cultural history of Irish music over the last 40 years. White's gift for expression and memorably poetic turns of phrase allows the

complexity of ideas and range of historical and literary knowledge examined in these essays to be deftly excavated and evaluated. Curiosity, provocativeness, imagination and literature are threaded through his exploration of how Irish history and experience have been imagined musically.

Augusta Browne Bonny H. Miller, 2020 Augusta Browne's five-decade career in music and letters reveals a gifted composer and author. Hailed as one of the most prolific women composers in the USA before 1870, Augusta Browne Garrett (c. 1820-1882) was also a dedicated music educator and music journalist. The Americanness of her story resounds across the decades: an earnest little girl growing up amidst a troubled family business; a young professor of music who burst onto the New York City musical scene; and an entrepreneur who resolutely sought publication of her music and prose to her final day. In *Augusta Browne: Composer and Woman of Letters in Nineteenth-Century America*, author Bonny Miller presents Browne's unfamiliar story, assesses her musical works, and describes her literary publications. Browne's outsider status and self-agency offer a potent narrative that transcends antebellum and Victorian-era norms. She used the public arena of newspapers and magazines as conduits for her work during an era when women were ridiculed for public speaking. And yet in many ways her persona as a tenacious entrepreneur conflicted with her adherence to strict Christian precepts, despite her assertion of woman's equality with man. Making use of recently digitized sheet music as well as archives of newspapers and books of the period, Miller's narrative provides the first-ever comprehensive, nuanced account of this notable life in American music. BONNY H. MILLER is a pianist and independent scholar who has taught at universities in Georgia, Florida, Louisiana, and Virginia.

Complete Songs, 1844-1889 Herrman S. Saroni, 2023 This volume includes all of the surviving songs by German-American composer, performer, critic, and businessman Herrman S. Saroni (1823/24-1900), who is now most remembered as the owner and editor of Saroni's *Musical Times* (one of America's first significant music magazines). The entire date range of these songs is 1844-89, but the vast majority appeared in the 1840s and early 1850s. Saroni was among the first composers in America to combine aspects of German lieder and various features associated with popular song, and these works fuse accessibility to amateurs with sophisticated compositional techniques. Despite several indicators of success in his era, Saroni's songs are almost completely unknown today. These works deserve reconsideration and modern performance both for their historical significance and for their aesthetic value. Most of the songs in this edition were published in Saroni's lifetime, but an appendix includes a transcription of an unpublished holograph manuscript song, the original of which is also shown in two plate images.

**IPractice** Jennifer Mishra, Barbara Fast (Pianist), 2019 This book provides new practical tools that bridge the gap between familiar, easy-to-use technology and musical practice to enhance musicianship and motivate students. Authors Jennifer Mishra and Barbara Fast provide ideas for use with students of all levels, from beginners to musicians performing

advanced repertoire. This book is written for teachers (both studio teachers and ensemble directors), but can be read by performers to help give new guidance to their own practice sessions. Some strategies in this book would not have been possible without advances in technology; others expand tried-and-true practice strategies with the use of technology. Most of the technologies discussed are free or inexpensive and don't require extensive specialist equipment or learning. Rather than replacing quality practice strategies, technology brings new tools to the practicing tool box. The strategies lay the foundation for how technology can be used in the practice room and are intended to spark creativity. The book encourages teachers and students to vary the integration of practice strategies with technology in personal ways to fit their own studios or practice routines. This book is all about exploring our musical practice through technology. The ideas in this book will invigorate your musical practice and lead to even more creativity between you and your students
