Performance at the Limit Mark Jenkins, Ken Pasternak, Richard West, 2005-07-07 Performance is the central focus of every organization, and yet for many how this can be achieved is an unanswered question. This book takes the case of Formula 1 motorsport, where the connection between performance and all elements of the organization is fundamental to success. Can you imagine your organization as a Ferrari or a Jordan, a Williams or a Minardi? Your management team as a pit crew? Your sales force as the race team and your marketing and research people as the design studio creating a Formula 1 car? The case histories and examples which are examined provide both inspirational and instructional guidance to those seeking to achieve levels of performance - at the limit of possibility.

The Portal to a Parallel Universe Roland V. Boike, 2017-04-19 Gerald Westfield is shipwrecked near Papeete in French Polynesia while on vacation. After floating in the ocean on a makeshift raft, he ends up on a small tropical island. Several months of survival on the island pass before Gerald discovers the entrance to another dimension in the back of the cave that he had been occupying. Gerald passes through the portal and meets a family in this new world. While learning their language and customs, he falls in love with the daughter of his newfound friends. The country in this new dimension is at war, and as the battle draws closer, Gerald decides to return home to see his family and avoid the conflict. Unfortunately, before he can leave, Gerald is arrested and put in prison for not serving in the military. After being released from prison, Gerald decides to build a raft, head out to sea, and endure the hardships and possible death in his attempt to return to his homeland and family. As the war intensifies, the family that Gerald met in the other dimension are forced to enter the portal to seek shelter. After building a raft and setting off at sea, they are finally rescued. Using the passports that Gerald had salvaged from the bodies of deceased passengers aboard the fatal ship, Gerald's friends make their way to Hawaii and start their search to reunite with their friend.

It'S All in the Name Keith Brovald, 2017-08-28 This book is basically a play on words. It is simply a list of over 2,500 names that everyday people could actually have, with each name having a separate meaning all to itself. Just to list a few, this writing includes the likes of such names as Luke Warm, Bob Sled, Justin Tyme, and Jim Nasium. Some of the names actually form complete sentences. Names like Amanda BeReKondwith (a man to be reckoned with) and Alma Chisit (how much is it?) are just a couple examples of what you will find within these contents. First names are actual names that people do have. I've added the last name to complete some form of statement or phrase. There are over fifty different categories the names are placed under. Please enjoy the reading. I know I've enjoyed writing it.

Fashioning Spain Francisco Fernández de Alba,Marcela T. Garcés,2021-05-06 Fashioning Spain is a cultural history of Spanish fashion in the 20th and 21st centuries, a period of significant social, political, and economic upheaval. As Spain moved from dictatorship to democracy and, most recently, to the digital age, fashion has experienced seismic shifts. The chapters in this collection reveal how women empowered themselves through fashion choices, detail Balenciaga's international stardom, present female photographers challenging gender roles under Franco's rule, and uncover the politicization of the mantilla. In the visual culture of Spanish fashion, tradition and modernity coexist and compete, reflecting society's changing affects. Using a range of case studies and approaches, this collection explores fashion in films, comics from la Movida, Rosalía's music videos, and both brick-and-mortar and virtual museums. It demonstrates that fashion is ripe with historical meaning, and offers unique insights into the many facets of Spanish cultural life.

365 Cars You Must Drive Matt Stone John Matras, 2006 What began as a solution for transportation has evolved into a desire for speed, luxury, personal expression, and freedom. For many, the thrill of the drive has eclipsed the pure utility of the automobile. And the pursuit of that thrill is the driving force behind 365 Cars You Must Drive. From the Ford Model T to the Porsche Carrera GT, there are certain cars that any self-respecting auto enthusiast just has to know—and experience from the driver's seat. With homage to the greatest cars and good-natured mockery of the strangest, authors Matt Stone and John Matras detail which cars to drive and why, how to get behind the wheel, where to drive them, and who to invite along for the ride. Each entry contains a colorful spec box noting the car's claim to fame, a Did You Know? factoid, the author's clever suggestions for The Perfect Passenger and the Soundtrack coming out of the speakers, Behind the Wheel notes, and a Perfect Drive for the marque or model covered. Engine details, production information, the price when it debuted and the collectible price now - all of it adds up to at-a-glance fun reading to go with informative essays on each car, archival and full-color photos, and more.
